VOLUME XVII. KINGSTON, (CANADA). THURSDAY EVENING, JULY 2, 1868. NUMBER 226.

A WEDDING CEREMONY.

Mr. Llewellyn F. Haskell, of New York, married at Orange, on Thursday, 25th. This young soldier, who fought the first and last battle of the Rebellion, entered the army as a private and closed as a Brigadier General, and one of heroism is in the history of the published battles, surrendered at Appomattox to Emma A. Gilmore. The marriage was unique and beautiful. It was celebrated in Llewellyn Park, under a large pine tree, just after sunrise. As the groom and bride hold extremely distinguished from orthodox religionists, they requested the Rev. Henry Ward Beecher, who officiated, so to meet their conscientious independence of any form of words based on superstitious ordinances as to omit the word "obey". Accordingly, after the young couple had presented themselves on a moss covered terrace, and were circled at close distance by friends, the groom clasped the hand of his young bride, saying —"I take you, Emma, to be my wife," the bride responded, "I take you, Frederick, for my husband," and Mr Beecher added only these words —"In behalf of the sentiment of the community in which we dwell, and of the laws, I declare that what you have now done, that you are husband and wife. May the love thus so nobly declared be strong as these flowers which at their feet some evergreen leaves) to endure the storms of life, and as fragrant and as the flowers of summer. May God bless you! The friends then, stepping a little down before the married pair, threw handfuls of similar dew-bedewed flowers. And this, together with the usual kisses, handshaking and congratulations, concluded a ceremony which all who beheld it, appeared unusually graceful and beautiful.—*N. Y. Ind.*

"THE FLYING MAN."

At a meeting of the Aeronautical Society announced by Mr Wenham, a number of the members of the society, Mr Stringfellow, exhibited constructed an apparatus of which he had accomplished the feat of raising himself from the ground and performing a horizontal flight, and it was further stated by Mr Wenham, that Mr Spencer exhibited a length of the Crystal Palace. At a meeting of the Aeronautical Society held there on the 24th inst. an announcement was made, in a letter from Mr Spencer some details of the apparatus employed by him, which is a pair of wings of 30 feet in length, so that they can be folded up; and a large fan-shaped tail of light construction, resembling by basket work, so as to form an angle of about three feet with the horizontal. Mr Spencer explains in the ordinary sense of the term he uses his apparatus by a quick run, this run being to roll, by pressure of the air upon the inclined surface of the tail, he is raised from the ground. He then, by using the wings maintains the momentum which he has acquired as long as possible, and is able to skim along at a distance from the ground. Mr Spencer commenced his operations by practising long jumps with the aid of apparatus, Mr Spencer has succeeded to extend considerably the flight or "skims," and we were informed by him a few days ago that he had lately accomplished a flight of one hundred and four feet, starting and alighting on the ground level. Mr Spencer is engaged in completing a new apparatus which he hopes to finish in time for exhibition of the Aeronautical Society in the Crystal Palace, and we look forward with some interest to witnessing the trial.—*Engineering.*

Who is Mrs. Winslow?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs Winslow is becoming world-renowned as a benefactor of her race; children certainly do RISE UP and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. NO MOTHER has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs Winslow's Soothing Syrup. Try it, mothers—TRY IT NOW.—*Ladies' Visitor*, New York City.

Sold by all druggists. 25 cents a bottle.

Be sure and call for

PIANOS,

Corner of King & Princess Streets

KINGSTON, ONTARIO.

RAPPE, WEBER, & Co. announce to the Public that they are now in possession of facilities for manufacturing Pianos unsurpassed, if equalled, by any in the Dominion.

The members of the Firm are Practical Piano Makers, and are anxious to establish their success in manufacturing enterprise by careful workmanship rather than by mere speculation. They are able skilfully to superintend every department, and are prepared to guarantee every instrument they sell.

For strength of manufacture and materials, beauty of finish, and durability and excellence of tone, they challenge the Dominion to produce superior instruments; and while they claim for their work every excellence that can be expected from skillful and enterprising workmen, they beg to announce that their resources are sufficiently ample to enable them to compete in prices with any speculator in Pianos.

The Subscribers keep no Travelling Agent. All orders addressed to the Subscribers, or sent through any respectable Music Dealer, will receive attention. Orders through mail will be attended to as if selected in person.
