HOLLOWAY'S OINTMENT.

The Grand External Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, RHEUMATISM AND SCORBUTIC HUMOURS

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. Scurvy, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence. The Inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application; and has thus been the means of restoring countless numbers to health.

SORE-LEGS, SORE BREASTS, WOUNDS & ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness, or contraction of the joints, even of 20 years standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs	Fistulas
Bad Breasts	Gout
Burns	Glandular Swellings
Bunions	Lumbago
Bite of Mosquitoes and Sand-Flies	Piles
	Rheumatism
	Scalds
Coco bay	Sore Nipples

Chilblains	Skin-diseases
Chapped hands	Scurvy

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues throughout every town and almost every hamlet of the American States its wonderful cures of pulmonary complaints have made it known. Suffice it, that the medicine is now offered to you, on this continent, without some personal experience of its effects, and fewer yet the communities and where which have not among them some living trophy of its healing power, snatched from previous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the bronchitis and dangerous diseases of the throat and lungs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in sure against the insidious enemy that stealeth upon those unprepared. We have abundant proofs to believe the Cherry Pectoral saves more lives by the early employment of it in the first stages of disease, than it cures. Keep it by you and cure your colds while they are curable, not trifle with them until no human skill can reach the inscrutable seeker that fastened on the vitals, cuts you life away. All know the dreadful fatality of lung disorders, and we need but to assure them that it will stand the test of time. We spare no cost, no care, no toil to produce it the most perfect possible, and this alone will give to the best agent which our skill can furnish to their cure.
