TO ADVERTISERS.

In consequence of the great increase in the value of everything connected with the publication of Daily Newspaper, the Publisher of the Daily British Whig has deemed it necessary to make a proportionate increase in the rate of Advertising. This increase will not apply to Advertisements now in the paper; to those Advertisers who have Contracts; or to those Advertisers who make Pre-payments, during the remainder of the present year.

ARRIVAL OF THE NIAGARA.

Halifax, June 30.

Richardson, Spence & Co's Circular reports flour steady and quiet. Wheat quiet and dull, and Tuesday's advance barely maintained. Corn closed heavy and easier without quotable change in prices. Red wheat 8s. 9d., and white 9s. 6d. a 10s. Flour—sales, Western Canal 33s. 6d. a 32s. 6d. Corn, mixed 39s. 9d. a 39½, and white 40s. a 41s.

Messrs. Richardson, Spence & Co., Bigland, Athay & Co. and Jas McHenry & Co's Circulars report pork buoyant. Beef, all quantities had slightly declined. Bacon dull and heavy. Lard closed firm—62s. 6d. a 63s. Tallow firmer: butchers sell at 50s. a 50s. 6d. Sugar heavier and lower, quotations generally are reduced 1s. Molasses closed quiet. Account steady at last week's rates and active; has an advancing tendency. In tea there is a large speculative demand; prices a e ½d a 1d higher than last week. Congou commands 1s. a 1s. 1½d.

LONDON MARKET.—Baring's Circular reports breadstuffs buoyant, and all qualities considerably higher. Flour advanced. Wheat advanced 3s a 4s; white 68s a 72s; red 62s a 66. Flour 32s a 33s. Coffee firm and slightly higher. Sugar heavy, 2s a 4s 6d lower. London money market is easier.

The Bank of France has as yet made no change in its rates of discount.

American Stocks.—Messrs. Bell & Co., report the transactions limited at previous prices. Messrs. Baring, Bros. & Co., report the business of American Stocks limited. Prices generally unchanged.

London, Saturday Morning.

From the Times' city article it was announced to-day that the acceptance of John Laughton & Co., of Liverpool, Ship Brokers, had been returned. The liabilities of the firm are stated to amount to £75,000.

The funds had been steady at a slight improvement for best, but the market shows little tendency to animation.

Money in request during the morning at the Bank, at minimum rates of 6 per cent. Later there was a better supply.

ENGLAND.

The Catholic members in Parliament, generally, are still in opposition to the Oath Bill. At an adjourned meeting of influential Catholics, a resolution was carried, affirming that the Bill was practically an enactment of one which was allowed, even by Protestants to be insulting and offensive; and earnestly requesting all the Catholic members of both Houses of the Legislature to oppose the bill in every stage.

The operation in the frigate Niagara were expected to be completed by Saturday, the 20th, on which day she would leave Portsmouth for Liverpool, to forthwith commence shipping the Marine cable. The officers of the Niagara were being hospitably entertained by the Naval authorities at Portsmouth.

The weather in England continued very fine, and the crops were in a most flourishing condition.

FRANCE.

The election canvas continued very animated, but presented no new features.

The democratic party was still divided and likely to continue so. It was supposed that none of their candidates if elected would take the oath to the Government, although their organs refused to give any satisfaction in the matter.

NEW YORK MARKETS, JUNE 30.

Flour without change, and demand limited: sales 7,000 bbls at $6 35 a 6,50 for superfine state; $6,75 a 7 for extra; $8,30 a 6,50 for superfine western, and $6,50 a 7,10 for common to medium extra do. Canadian flour quiet; sales 250 bbls.

Grain.—Wheat firm. Rye dull at $1; 15 a 1,20. Corn unchanged; sales 30,000 bushels at 83 a 84c for mixed western, and 80 a 82c for unsound do. Oats unchanged.

Pork market firmer: sales 400 barrels at $21 75 a 21,90 for mess; $18,85 a 19 for prime. Beef unchanged. Cut meats and bacon quiet. Lard dull at 14 a 11½c.

Stocks better and more active this morning.

Money still easy and rates firm with good demand.

Sterling Exchange.—Only small business doing, 109 3-8 a 109 5-8.

THE "INKERMANN" VERDICT.

We have read the verdict in the "Inkermann" Explosion case, and having also read the evidence given before the Coroner, must admit, that considering the serious nature of an oath, are rather puzzled to understand how such a verdict had been arrived at.

The material facts elicited by the evidence with reference to the Owners of the Boat were simply that the boilers was *new* and *uncommonly strong*, that the Engineer got particular instructions from *one of them*, and also from the maker of the boiler to introduce nothing into it but water, and that *the other* remained constantly on board, thereby exposing his life to danger, if he believed any such danger to exist, which he did not; for he swears he had full confidence in the Engineer.

Now, to attach blame to the Owners in the face of such evidence, which has not been contradicted in any one point, appeared so extraordinary that we took the trouble to enquire into the kind of materials the Jury was composed of, and we have been informed by one of those who saw them, that "a harder set of hard cases, you could not meet with in a long summer day," in short, were such men as the Coroner's Constable would pick up out of the streets.

Coupling this information with the novel erudition displayed in the composition of the Verdict, and suspecting the consumption of one full calendar month in arriving at that Verdict, was perhaps not less owing to a desire on the part of "the Jury" to attract the attention of the public to their own unusual prominancy on the occasion, than to protect the lives of her Majesty's liege, we come to the conclusion that it would be well for the Legislature when making laws on the subject of Boiler Explosions, as recommended by "the Jury," to make provision for selecting Coroner's Juries whose verdicts would likely be dictated by common sense, facts and intelligence, instead of by prejudice, ignorance and passion.

Let respectable men be selected as Jurymen and the public will know to what they may have to say, but while such Juries as the "Inkermann" Jury are called upon to adjudicate, such verdicts as they have given, will continue to be rendered.

CITY COUNCIL.

Monday Evening, June 29th.

PRESENT,—The Mayor in the Chair; Messrs. Rudston, Allen, Draper, Parkes, Overend, Shaw, Pidgen, McCammon, Alexander, Lunn, Campbell, Bowman, Chown, Waddell, and Baker.

A Communication from the Municipal Council of Oswego, accompanied by a Map of the City. Accepted, and a letter of thanks sent.

Communication from Dr. Ryerson, Superintendent of the Board of Education, stating that the annual grant for the schools was $1,520.

Petion of R. Duncan, brought up by Mr. Pidgeon, praying to be allowed to take up the side-walk in Bay Street, in order that he might get at his lime kiln. He has been indicted for a nuisance, and has had to stop burning; he wants to burn out the present kiln for the contractors, and one more for himself, then he will close the kiln and put the road in good order. Resolution passed, allowing him to go on burning till the 14th of July.

Report of the Committee of Streets and Improvements was brought up by Mr. Pidgeon. They reported on the petition of J. Mathews, that he be allowed to quarry on North Street as far as he has graded;—this was not agreed to, and Mr. Allen leaving the Council, there not being a quorum, the Council adjourned until Tuesday evening.

The Commercial Bank of Canada.

We publish in another column, the Annual Statement of the Commercial Bank of Canada for this year, and the Report of the Directors, exhibiting, like the returns of all the other Banks which publish statements, a prosperity which must secure confidence at home and abroad, in the management and stability of our monied Institutions. The statement shows among other matters, specie and Government securities over two-thirds of the Bank notes in circulation, which tells better than anything we could say for the prudence manifested by the Directors in their position towards the public. Another feature must, we presume, be gratifying to the stockholders, the large premium of over 17 per cent. on the stock paid up after dividends of 8 per cent. No doubt many have thought with ourselves how short sighted it appears for people with limited means, in the old countries, investing in stocks some times requiring a premium of 100 per cent. to be paid, when Canadian Bank Stock offers such secure and profitable returns.—[Colonist.

CROWN LAND SALES.

Saturday's Official Gazette' contains announcements of the following sales, all on the 29th of July. Of a number of lots in the Town Plot of Inver Huron, County of Bruce, by the resident agent, Alex. M'Nabb, Esq., at Southampton. Of the north half of lot 10, third concession, in the Township of Sombra, by the resident agent, Alex. Scott, Esq., at Sarnia. Of lands in the Townships of Bedford, Kaladar, Kennebec, Olden and Oso, in the Counties of Frontenac and Addington, by the resident agent, Allan Macpherson, Esq., at Kingston. And of lots in the town of Owen-Sound, by the resident agent William Jackson, Esq., at Durham.

ELLICE—RANKIN.

The British Press has of late been somewhat severe upon the Southern Railway demoralizations which were brought to light before the Committee of the House of Assembly here. We do not complain that just severity should be observed towards the guilty; but neither were the community at large nor Parliament parties to any of those transactions, and where, we would ask, is the difference between the man who, as Railway Director, awards himself a sum of money as contractor, or as a Municipal Councillor applies the funds of the Municipality to the purchase of his own property, and him, who, while a partner in the Hudson's Bay Company, sits in judgement to decide whether another lease shall be granted to them—a question, the decision of which will affect the Company to the extent of at least a million pounds sterling? For ourselves, we cannot see that the one transaction is black and the other white; that the one is immoral and the other immaculate. Let the British Press therefore look at home and arouse the public attention to the gross impropriety—to use a mild term—of this procedure, by which Mr. Ellice and several of his co-partners sit in judgment upon their own cause. We feel assured that the attention of the British public and of the imperial Parliament only requires to be directed to it, and that public sentiment and Parliamentary morality will alike prove sound upon the subject.—Leader.

MASONIC.—The Members of King Solomon's Masonic Lodge met at their Hall in Toronto, and on St. John's Day (24th inst.) for the purpose of installing the officers for the current year. There was a very full attendance of the fraternity. The Worshipful Master of the Lodge, Mr. James E. Smith, who had filled the chair for two successive years, (the full period allowed by the craft) with great credit, vacated the chair in favour of Mr. William Henery Miller, who were unanimously elected Master. The following officers were next appointed: Mr. James E. Smith, Past Master; Mr. Henry J. Gear, Senior Warden; Mr. John C. Griffeth, Junior Warden; The Rev. Y. N. Mayernoffer, Chaplain; Mr. William C. Morrison, Treasurer; Mr. John Duck, Secretary; Mr. John Hill, Senior Deacon; Mr. Walkop, P. Kidd, Junior Deacon; Mr. Alexander Munro, Master of Ceremonies; Mr. E. L. Butters, Inner Guard. Managing Committee:—Messrs. Thomas Saulter, William Johnstone, and Charles Pellock. Stewards:—Messrs. H. Marcuse and J. Seels. Charitable Committee.—Messrs. William Master, Richard Arnold and William Strahan; John Clarke, Tyler. After the election of the officers, the Members of the Lodge presented their late Master, Mr. James E. Smith, with a service of plate, in appreciation of his valuable services to the Lodge; after which, the Members of the Lodge dined together at "Lamb's" Hotel.

AN OFFER TO DISCOUNT.—We understand that Mr. Henry Dellaquiere, who pocketed about $170,000 as bribes in connection with the Woodstock and Lake Erie Railway, has offered $50,000 of it on condition of his being immunified against the executors of the late Mr. Zimmerman for damages.—The offer, we believe, has been rejected.—This is right. He should be compelled to disgorge every farthing of the bribes he accepted as provisional director of the Company. It was through his corruption and improvidence that the Company became bankrupt, and the unsuspecting municipalities were plundered of £145,000. Let him be put through the Chancery mill, as Bowes was, and perhaps it will do him good.—Wonder what are Buchanan's prospects to get back his $100,000? Will his organ favour us with the information?—Banner.

C. S. ROSS, Cashier.

Commercial Bank of Canada, Kingston, 20th June, 1857.

The Annual General Meeting of Shareholders of the Commercial Bank of Canada was held at the Bank, in Kingston, on Thursday, the 25th day of June, 1857, in conformity with the Charter.

The meeting having been organised by the appointment of John Watkins, Esq., as Chairman, the Hon. John Hamilton, President of the Board of Directors for the past year, submitted the General Statement of affairs of the Bank on the 20th June, and thereafter read the following

REPORT.

MR. CHAIRMAN AND GENTLEMEN:—

I beg to submit to the meeting copy of the General Statement of the Bank as on the 20th instant.

The Profits, including premium on new Stock issued since last meeting, and after deducting Expenses of Management, Bad Debts, &c., have been	£101,814 8 8

Which amount has been appropriated as follows:

To payment of Div'd. No 47, in Jan. last 4 per cent	£29,936 11 1		
do do do 48, payable 1st July, 4 per cent	33,106 3 5		
do do Government Tax on circulation	1,927 5 6		
do Annual reduction of Real Estate Account	2,000 0 0	£63,970 0 0	
Leaving a balance of		£34,814 8 8	

Of this amount the sum of £29,736 17s. 6d. has been added to the Reserve Fund, making it now £150,000, or equal to 15 per cent on the full capital of £1,000,000. The remaining £5107 11s. 2d. remains at credit of Profit and Loss Account, and includes usual reserves required to meet interest accrued on Deposits bearing interest, and other similar items.

The increase in Real Estate Account, arose from purchase of a suitable house at Galt, on advantageous terms, but although the property of the Bank has not deteriorated in value, the Directors considered it well to continue the usual annual reduction of the account.

The general Expenses of the Bank for the past year have been more than usually heavy owing in part, to cost of a new issue of Notes bearing the present title of the Bank. The quantity required in view of testing the circulation of each of the Branches, has been large, and it was also necessary to adopt modern improvements to guard against counterfeiting. These things have caused delay with the new notes, and the whole are not yet ready, but it is intended to use them generally after 1st proximo, for nearly all the denominations required. I need scarcely remind you, however, that the Charter gives authority to use the notes bearing former title of the Bank, so long as it may be necessary to do so.

The arrangements for a Stock Register and Transfers in London, alluded to in last Report, have been further perfected in some of the details and the facilities thereby afforded to European Shareholders have not only given satisfaction to them, but have been attended with the best results otherwise. You will observe by the statement, that a considerable amount of the remaining Capital has been taken up in Great Britain, of which the greater part has been paid in full. The issue in Canada, has been closed, and only 1421 shares remain unallotted. These, as desired, are reserved for issue to desirable parties in Europe. From last advices, we do not doubt that they will be placed within a short time, and thus this matter may be considered as practically disposed of.

To facilitate transfers of stock by Shareholders residing in Lower Canada, where a large amount is held the Directors have resolved to avail themselves for the power given in the Charter, to establish a supplementary Register at Montreal Branch, under regulations, which, while they give perfect security to the Shareholders and to the Bank, as regards transfers, will doubtless prove to be a convenient arrangement for Shareholders resident in Lower Canada. These regulations and other particulars may be ascertained on application to the Local Manager at Montreal, on and after 1st proximo.

The duties of the Cashier having become too onerous to admit of his discharging them to his own satisfaction, from the extended operations of the Bank, and increased correspondence at Head Office, the Directors, in September last, appointed Mr. Campbell, formerly Manager at Montreal Branch, to the Office of Inspector, and this arrangement has already proved to be in every way conducive to the interest of the Bank. For while the advance of the Province generally, for the past few years, has been important and satisfactory, it was stimulated by a large expenditure on public works, of late temporarily suspended, and it has been evident to the Directors, that from the large transactions made in real estate, many of which were based upon prospective profits, and yielding no immediate return, more than ordinary care, and constant daily supervision of the affairs of the Bank at all points were required. All bills connected with such transactions have been sedulously avoided, but the consequences of their number and extent, and the withdrawal of money from other ordinary channels and uses, have, in conjunction with other causes, affected all the Banks. The reaction, and the present state of money matters generally, will check those operations in real estate, and temporarily restrict importations of merchandise, but as in former years, we doubt not business will soon resume its usual healthy and active state, the elements of prosperity in Canada being as certain and numerous as before. During the past year the Directors have steadily followed the settled policy of the Institution, viz: to keep the bank always in a position to fulfil arrangements with regular customers, whatever might be the state of money matters; and to afford to the public, facilities to the fullest extent compatible with prudent management.

I beg also to submit for confirmation by the Shareholders, as required by the Charter, a code of By-Laws as passed by the Board. They have been compiled with care, and with reference to what is now required in this respect, as well as to the experience of many years past.

I have only further to observe, that the Directors have every reason to be satisfied with the zeal and attention to duty shown by the Officers of the Bank.

JOHN HAMILTON,
President.

The Cashier having read the By Laws passed by the Board,

It was moved by George Baxter, Esq., seconded by Robert Kent, Esq., and

Resolved,—That the General Statement of the Affairs of the Bank, and Report of the President, now submitted, be received, adopted, and printed for the information of the Shareholders. Passed unanimously.

It was then moved by Dr. Robt. Stewart, seconded by J. R. J. Fourre, Esq., and

Resolved,—That this meeting approves of, and confirms, the By-Laws passed by the Board, and now read by the Cashier.—Passed unanimously.

It was then moved by J. R. J. Fourre Esq., seconded by Peter Davy, Esq., and

Resolved,—That the thanks of the shareholders are hereby given to the President and Directors for their attention to the interests of the Bank during the past year.—Passed unanimously.

The Meeting then proceeded to the election of Directors, when the Scrutineers reported that the following Gentlemen were duly elected Directors for the ensuing year:

JOSEPH BRUCE, Esquire,
Hon JOHN HILLYARD CAMERON,
Hon JOHN HAMILTON,
FRANCIS A. HARRIS, Esq.,
LUTHER H. HOLTON, Esq.
Hon JOHN A. MACDONALD,
ARCH. JOHN MACDONELL, Esq.,
DOUGHLASS HENTIES, Esq.,
THOMAS W. ROBINSON, Esq.,
MAXWELL W. STRANGE,

THE ROSSIN HOUSE.—This fine Hotel is now open and is daily receiving guests. We have, on previous occasions, detailed all its arrangements so fully, that it is only necessary to say now, that its furnishing is of the most handsome description, and its internal management such as to merit the confidence of travellers. Americans can now find in Toronto, not only all the comforts, but all the luxuries of their own fashioned Hotels. Mr. Joslin is thoroughly acquainted with the duties peculiar to this position, and his assistants are all tried men.

Bushels of Pearls continue to be discovered in various parts of the States. Forty thousand dollars worth were found during one afternoon at Albany a few days ago. The muscles in which they are found lay in heaps, having been undisturbed for centuries. It is said that every fifth or sixth shell contains a pearl of greater or less size. Our authority on these statements is the Albany Statesman. At Oswego, according to the Oswego Times, pearls of various kinds continue to be found in the streams near that city, some of which are of surpassing beauty and brilliancy. Pearls also continue to be found in New Jersey, but they are said to be much inferior in lustre to the Oriental or Panama pearls, and are consequently not so valuable.

ARRIVALS AT THE BRITISH AMERICAN HOTEL.

June 30th.

J W Mather, Ogdensburgh; R Honseldon, Montreal; Rev. Dr. Lauder, Napance; Rev. Dr. Hellmuth, Quebec; D P King, New York; T M Gillis, Peterboro'; Thos. Do our ladies and gentlemen wish a real luxury for their toilette? If so, purchase a bottle of the "Persian Balm." It is the greatest luxury of life. 117-1w

[SPECIAL NOTICE.]

EUREKA, EUREKA, EUREKA

The greatest luxury of life—PERSIAN BALM—for the Teeth, Shaving, the Hair, the Bath, the Nursery, for beautifying the Complexion, removing Tan, Pimples, Freckles, and for all Toilette purposes.

This delightful preparation is the greatest luxury a lady or gentleman can use. It does away entirely with all soaps, oils, powders, &c., for toilette use, and is in reality what we claim it to be—

"THE COMPLETE TOILETTE."

In addition to this, its valuable medicinal qualities as a Liniment and Pain Killer are winning for it a most enviable reputation.

Price 25 & 50 Cents per Bottle. Sold by all Druggists. See that each bottle has upon it the signature of S. S. BLODGETT.

S. S. BLODGETT, & Co., Proprietors,
49 Pearl Street, N. Y.
E. W. PALMER, General Agent,
Kingston.

AUDUBON'S BIRDS AND BEASTS OF AMERICA.

Mr. J. W. Audubon, Son of the famous American Naturalist is now in Kingston for the purpose of procuring Subscriptions to a modified Edition in Seven Volumes of his Father's great Folio Work. Two of these volumes we have seen, and they are profusely illustrated with coloured lithographs copied from the original drawings. We heartily commend Mr. Audubon to all those whose taste leads to become acquainted with the Fauna of America.

SPECIAL NOTICE.

The success of the new Toilette Luxury, "Persian Balm," and the great demand for it in Kingston and vicinity have made a wholesale agency at this point desirable. The proprietors have made arrangements with R. W. Palmer, Esq., by which Merchants can be supplied at all times, and in large or small quantities.

This Elegant preparation has only been in existence about eight months, yet its success has been greater, it is believed, than any other article of preparation ever offered to the public, and its name "Persian Balm" has become as familiar as "Household Words." The Secret of its rapid success is simple—*It combines, in itself, everything requisite for the complete Toilette*, and not only that, but is prescribed by the most eminent Physicians for diseases of the Skin, and with the most happy effects. Let every one try this great Home Luxury.

To be had at all the Druggists. 2w-118

AN ITEM FOR SPORTSMEN.

This month, (June) and July, are the great months for sporting and fishing in our "South Woods." Many a fine fellow has stood at his desk during a long and tedious winter, without a respite, looking forward to this month, when he will throw down the quill, away with "pen per cent a month," and seek some place in the forest but one a few days—catching the trout and "ambushing" the deer. One day of such sport is worth all the "Newports" and "Saratoga" in America,—the enjoyment is a continual one, and when he has had his fill, he can go back to his business refreshed and in health,—while those who seek the pleasure at those famous watering places, are nearly all disappointed in the object of their search—happiness. And when the season is over, and home the travel, and sight, the great drawback to pleasure to get South Woods, is the terrible annoyance from the "black fly" and mosquito, their bite sometimes giving real agony,—and many a sportsman gets up in the morning to disfigured that he could almost doubt his own identity, or swear he had been engaged in some pugilistic encounter. There is a remedy, however, for the poison from the bites of these flies. Let every sportsman go armed with two or three bottles of the "Persian Balm" apply it to the face, neck, wrists, and exposed parts, clear at night, and he will be sure to launch easily into a sea of sweet dreams, and hear no more from it. In addition to its effects, medicinally, the sportsman will find he has a positive luxury for cleansing his teeth, washing and bathing. Let every one take the Persian Balm with them when going to the "woods."

IMPORTANT NOTICE.

But one solution to the mysterious effect performed by Dr. Smith's "Electric Oil," of Philadelphia, that any Physiologist can thus far discover, which is, its probable incorporation with the nervous fluid of the body, as pains are in the nerves. On no other principle can this be explained. Rheumatism has been much talked about and little understood. This Oil, if genuine, is known to cure amazingly.

Do you know that Dr. Smith's genuine Electric Oil will cure Gravel, Kidney Complaints, Gout, Rheumatism, Salt Rheum, Erysipelas, Scaly Eruptions of the Skin, Ear, Tooth and Headache, Amaurosis, Cramps, Indolent, Swellings, Tic Doloreaux, Neuralgia, Paralysis, Weak Ankles, Limbs, and Joints, alone nervous pains, instantly, Burns, Felons, Wounds, Piles, always. Try it, and you won't wonder at its popularity. The genuine Dr. Smith's Electric Oil has always signed A. E. Smith. Grand Central Depot, N. E. corner Walnut and Eighth streets, Philadelphia. Beware of counterfeits.

P. S.—Col. Wallace, the distinguished Editor of the Philadelphia Sun says:

SMITH'S ELECTRIC OIL.—Among the many evidences of sympathy for those injured by the late railroad accident, we are pleased to see that Dr. Smith has tendered the gratuitous supply of his Electric Oil, as well as the personal services of himself and lady. The Doctor has a heart "open as day to melting clay," and his valuable medicines deserve all the popularity they have attained.

A SURE CURE FOR A FELON.—When the soreness first commences, or even when far advanced, it can be relieved and entirely cured by holding the finger or part affected in Perry Davis' Pain Killer for half an hour. It has been thoroughly tested, and proves a never failing remedy. A witch is a formidable thing, and we would advise all so troubled to test the remedy.

PERRY DAVIS PAIN KILLER.—The thousands who have been relieved, as well as the thousands who have the most unbounded confidence in Perry Davis' Vegetable Pain Killer, will read among our special notices this week another of the additional evidences of the power of application. We are doing an act of humanity, when we urge every family to possess themselves of it.—Buffalo Christian Advocate.

Sold by E. W. Palmer, Kingston. 104

ECONOMY.

IT has long been considered that ELLIOTS DENTIFRICE was the best Powder in use for Cleansing, Whitening and Preserving the Teeth and Gums, but few think of the Economy of its employment.

It is by far the cheapest Powder or Preparation for the Teeth offered to the Public.

Each Box contains four times the usual quantity of powder in its boxes, at the same time the universal testimony of all who have tried it, including the Dignitaries of the church, the Judicial Bench, as well as Editors, Professional men, and indeed all classes, is that Elliot's Dentifrice is one of the Safest, most agreeable and Effectual Dentifrices ever employed.

It prevents the decay of the Teeth, sweetens the breath, renders the gums healthy, and by its constant use Toothache is avoided.

Its Sale has already reached over 10,000 Boxes With still increasing demand.

From Rev. Dr. Adamson chaplain to the Legislative Council &c. &c. &c.

Toronto, July 21st, 1856.

Gentlemen,—Having used Elliot's Dentifrice for some time, I can confidently recommend it as well calculated to cleanse and preserve the teeth, and to impart health and consistency to the gums.

I am, dear Sir,
Faithfully yours,
W. ADAM ADAMSON, D. C. L.

HOLLOWAY'S PILLS will cure any disease of the Liver and Stomach after all other remedies had failed.—There is no medicine in the world which enjoys such an extensive sale as these invaluable Pills, and none which deserves it, the myriads of individuals who have been restored to health after every other remedy has failed, is the chief and deserved cause of their popularity, they have been introduced into every country of the world, and have been found signally efficacious in all disorders incidental to the human frame; liver and stomach complaints are quickly carried off by their use, and their virtues in severe cases of dropsy, are the most extraordinary ever witnessed by men. 103

Township, Orange Co., Vt., Nov. 25.

My Seth W. Fowle.—Dear Sir:—One year ago last June, I was violently attacked with a cold and a cough, with a lame side and stomach, and was not free from a cough during that summer. In December following my cough increased to an alarming extent, so that during that winter I lost about thirty five pounds of flesh, and physicians, with all they offered could give me no relief. I heard of the beneficial effects of Wistar's Balsam of Wild Cherry, by way of a friend, who had received the greatest benefit by the use of the article, and was inclined to think a trial of it myself. I had not taken up one bottle before I was completely cured, and from that day to this I have not been troubled with a cough. I can cheerfully recommend it to all, as being a remedy of great value.

FREEMAN NOYES.

None genuine unless signed I Butts on the wrapper. 101

BEST HAIR DYE IN THE WORLD!

Many strong language, yet Bogle's Excelsior Hair Dye (recently improved) was proven to be so by the judges at the late mechanic's Fair, held in Boston, among whom was Dr. Hayes, the eminent chemist and State assayer) who awarded it the PRIZE MEDAL AND DIPLOMA, over the choicest Hair Dyes on exhibition from all parts of the Union. Its unparalled superiority consists, 1st, The ingredients for imparting to the hair, not destructive as others are. 2d, Does not stain nor hurt the skin. 3d, Is easily applied, and dyes the hair any color required, from a delicate brown to a deep black, as natural as, in a great measure, the works are greater. Many physicians speak of it in the highest terms.

☞ Half the usual Fare will be charged on that Day.

Kingston, 1st July, 1857. 124

THE AMERICAN HORSES

—AND—

THE GOODWOOD CUP!

GENTLEMEN in Canada who desire to bet against the American Horses in their forthcoming contest on the English Turf, for the "Goodwood Cup," (to be run on the 29th of July next,) may make an opportunity to do so, by forwarding their offers to the Office of Porter's Spirit of the Times, 348 Broadway, New York. The Guide for the Bets will be the rate of odds that may rule from week to week at the London Tattersalls, as brought by the Weekly Herald and the Steamers previous to the event.

There are forty entries for the "Goodwood Cup" of the present year, and two of these are the American Horses, "Payon," by "Glencoe," out of "Gipsey," and "Princess," by "Sovereign," out of "Lady." The natural odds against them would therefore be at least 20 to 1, as they appear as green or untried horses on the English Turf.

Communications on this subject must be addressed to the Rooms of "Porter's Spirit of the Times", New York.

June 27th, 1857. 123-2.

Corns! Corns!!

WHY HAVE CORNS when they can be CURED WITH CERTAINTY in five minutes? Mr. Smith's Room, Market Buildings, by
