# Gardiner Public School students take action on climate change

By Campbell Ellis, Remi Huber  
Lauren McLennan, Aidan Rattray  
*Gardiner Public School*

What would you do if you knew that your planet was slowly dying? Well, Gardiner Public School is taking action.

On February 27, Gardiner hosted GPS Sweater Day! On GPS Sweater Day our school lowered the temperature in our classrooms, causing students to wear sweaters. By lowering the temperature, Gardiner used less energy and put less greenhouse gases like carbon dioxide in the air. Greenhouse gases act like a blanket around our planet, which cause the world to become hotter. This makes more animals endangered, including polar bears, fish, north Atlantic whales, giant pandas and elephants.

This issue was brought to the attention of our Grade 6 class through our inquiry projects, and then we heard about the World Wildlife Foundation's #SweaterDay. We knew that GPS had to help and do something about it. We immediately wanted to make a difference, because we know that global

warming isn't getting any better.

So, class 6-2 made GPS Sweater Day an actual event at our school (with the help of some GPS staff of course). Class 6-2 went all out with videos, posters, and letters. We really wanted the school to know what was going on and what we are working towards.

Remember, this isn't rocket science so you can do it at your house too. Together, not just Gardiner Public School, but Georgetown as a whole, can make a difference, one sweater at a time

## CELEBRATE EARTH HOUR™

### See the Stars...Save Energy...Save Money

Turn off your unnecessary lights and electronics, and explore the stars with Cosmic Connections!

Bring the family to an exciting, fun and **free** star gazing event hosted by the Town of Halton Hills and St. Joseph Catholic Elementary School. The event is sponsored by Halton Hills Hydro. The event is open to the public. Due to limited space pre-registration is required. For more information and to register please contact:
