

Are you using acceptable **GreenCart** liners?

If you choose to line your GreenCart with a bag, please ensure you are using and purchasing acceptable certified compostable liners with the Biodegradable Products Institute (BPI) logo on the box, as shown to the right. These bags are made from plant-based materials so they compost easily. Not all liners sold are accepted for use in Halton's GreenCart program. Halton Region does not accept plastic products or plastic liners in the GreenCart.

Other acceptable liners include:

- Paper towels
- Newspaper/flyers
- Cardboard
- Paper bags
- Paper food waste bags

For a list of GreenCart acceptable liners and where they can be purchased, visit Halton.ca/greencart.

Helping agri-tourism grow in Halton

Recently Halton Region hosted its first Food Tourism Summit where Halton chefs, restaurateurs and farmers networked, while learning strategies to help them benefit from the rapidly growing local food movement. Halton is committed to supporting our vibrant communities, including Halton's growing agri-tourism sector. At the heart of any authentic food experience is agriculture and I'm proud that we're helping our farmers and small businesses create the best on-farm and off-farm experiences for residents and visitors. For more details on what to see and do in Halton, visit Halton.ca/tourism.

Gary Carr
Regional Chair
