By Magnetic Telegraph.

Last Night's Report.

MONTREAL, July 8, 7 P. M.

No city news. Arrived—brig Adelphi, Liverpool, a general cargo.

The Leinster Express, 22d ult., publishes a late Liverpool letter, which speaks of the death of Mr. W. S. O'Brien at Maria Island. The intelligence, it is said, was brought by a sailor who arrived from Sidney.

No report is yet received from the Committee on Pardons on the case of Professor Webster. Mrs. Webster and her three daughters had an interview with the Governor and Council, which is said to be deeply interesting.

A severe thunderstorm, accompanied by a gust of wind, on Friday night, did serious damage at Point Levi. Upwards of twenty houses were blown down. Some lives lost.

TORONTO, July 8, 7 P. M.

To-night Mr. Sherwood presented a petition from the Commercial Bank against the Bank Proxy Bill.

On motion of Mr. B. Flint, seconded by Mr. Price, for leave to bring in a bill for establishing Household Suffrage in Upper Canada was withdrawn.

Mr. Holmes introduced a bill to Facilitate the Liquidation of the Debts of the Montreal Provident Savings Bank, by enabling the public Corporations, whose debentures it holds, to substitute smaller debentures for payment to depositors who may be disposed to take them from their claims.

NEW YORK, July 8.

Ashes.—Pots $5,81 a $5,87 Pearls quiet but firm at $6,00.

Flour.—Market for the low grades State and Western flour 6¼c. better, with good demand for the trade, and to complete contracts for this month. Occasional sales making at Saturday's prices but the market is buoyant.

Provisions.—Market for Pork easier, for mess, with a fair local demand, sales 650 bbl. $10,50 a $10,62 for mess, $8,62 for prime.

BUFFALO MARKET.—Flour.—There is a better feeling prevailing in the market to-day but transactions are light and confined to the trade. Michigan is held at $4 75 a $5, according to quality.

GRAIN.—Wheat is more active, at lower prices, 65 a 97 is about the market rate.

Canal freights are little.

The Steamship Philadelphia arrived from Chagres last night with dates from San Francisco to June 1st. She brought over 2,000,000 of gold dust besides $500,000 in the hands of the passengers.

The tax on foreign gold-diggers produced considerable excitement, arms &c had been resorted to, but quiet is restored.

A fire occurred in Brooklyn yesterday, consuming Thomas's six storey building filled with valuable goods—loss about $1,000,000.

A convention for the purpose of establishing a line of Ocean Steamers between Norfolk and Europe, the convention was well attended.

CINCINNATI, July 8.

The report furnished to the City Clerk, under the ordinance, for the past week up to Saturday afternoon, shows total deaths 187, of which 118 were from cholera. The reports were not as full as they should be.

NEW YORK, July 8.

The Cholera, it is said, has made it appearance in Washington.

The steamer Georgia left Havannah on the 4th inst. She brings a large California mail She left at Havannah the Germantown and Congress men-of-war The Court Alcoy gives every assurance that the prisoners will be released when harmony is restored. They are under the control of Admiral Areso, who does not speak so favorably. A report was circulated previous to the sailing of the Georgia, that nine of them had died from ill treatment. Great excitement prevails against Americans generally, more since the burning of the Guadalquiver in Havannah. The American Consul keeps his house fortified for fear of threatened attacks.

BOSTON, July 8th.

A hearing was had before the Committee of Warden in Webster's case. One petition for clemency, signed by 984 persons of New York City; two from Franklin County, New York, and one from Michigan, were presented. The Lieutenant Governor stated that a large number of petitions for commutation from all quarters had been received.—One from Mr. Green, a juryman in the case. Two or three others from persons who said they themselves committed the murder, and not Professor Webster. Several medical men shewed that blows on the head such as that which Professor Webster gave Dr. P., would not produce death in such a short period as stated in his confession.

Edward Jarvis called two instances to shew the uncontrolable temper of Professor Webster, and how soon it was over. One case when Dr. W. commenced the play of knocking off hats with another Student, in which Webster was rather the worst off, finally Webster got enraged, seized a stick and would have given a deadly blow had he not been prevented. The next day he showed no resentment. Another in London, Webster had been shaved, when Dr. Blackford, who playfully remarked "did you ever see a barber shave a monkey?" Webster was much enraged, seized a knife and would have struck him had he not been prevented.

Dr. Jeffers Wyman was introduced to show that Dr. Parkman's skull was a little thinner than the average. The petition was presented by Professor Bowen, signed by President Sparks and nearly all the Professors of Harvard, praying for the commutation, not on the ground of his late confession. He, as they say, forfeited a claim to be believed, but for the great probability that exists that the act was not premeditated. A final decision of the case was postponed till the 17th instant.

THIS EVENING.
