During the conflagration of Canton caused by the bombardment of the British, the extensive medical warehouse of our countryman, Dr. J. C. Ayer of Lowell, (the depot of his Cherry Pectoral and Cathartic Pills, for China,) was totally destroyed. He now makes a demand upon our government for indemnity from the loss of his property, and hence will grow another nut to crack with our older brother Johnny. Stick to it Doctor; and if our Government maintains our rights wherever your Pills are sold, we shall only be unprotected on beets that are very barren.—[Reformer, Trenton, N. J.

Holloway's Ointment and Pills.—Be on your Guard.—To preclude the possibility of deception, it is as well to examine the books of directions used as envelope to the medicines. If upon every leaf the words, 'Holloway, New York and London,' appear as a water-mark, the preparation is genuine; but not otherwise. Great benefit is derived from the use of the Ointment in asthma, bronchitis, quinsy, tightness of the chest, and pleurisy. The part affected should be fomented with flannels dipped in warm water, and the Ointment rubbed briskly in. We have seen immediate and lasting relief afforded in this way. The Pills are powerful auxiliaries in reducing the febrile symptoms.

Thoughts for Reflection.—As we take up the newspaper of a morning, and turn our eyes to that portion of it that records the deaths, we read one has died of Erysipelas, another of Scrofula, and a third from the effects of a Canker, and those all in the prime of life, we cannot but think that, in many of these instances, their names would not have appeared there before old age had called them to their rest, if their friends had administered proper remedies. In view of this subject permit us to suggest that Kennedy's Medical Discovery has become justly celebrated for the cures of these severe diseases, and all of a similar nature. We, therefore, cordially recommend it to those whose blood is now flowing corrupt through their veins.

The greatest preservative of beauty known to modern science, is Professor Wood's Hair Restorative and Cosmetic. Among the most important features of female beauty, are a luxuriant head of hair and a fine complexion; both of which should be guarded as sacred treasures, for either may be lost by neglect, or preserved by the use of the above named article; delay is dangerous. We seldom undertake, editorially, to endorse what are called 'Hair Restoratives,' as knowing full well that the great majority of such preparations are entirely worthless. Exceptions there are, nevertheless, and among these we have never hesitated to express our conviction that the article known as 'Wood's Hair Restorative' is entitled to a proud preeminence. This article has told its own story in numberless instances of prematurely gray and bald heads, and the certificates in regard to its amazing efficacy have been alike numerous, unsolicited, and emphatic. When Senators of the United States and others (of the highest standing totally and politically) openly declare that 'Wood's Hair Restorative' is all, and more than all, it pretends to be, we cannot but otherwise than believe them. The article can be had at all our Druggists. See notice elsewhere. Railway Republican. Sold by all Druggists. 57

JOHN MONTGOMERY

HAS received the Queen's Letters Patent for his ANTI-COMBUSTIBLE SOLUTION, or Mixture for the Preservation of Life and Property, by making Houses Fireproof outside and inside, and preventing fire from spreading from one house to another. A small quantity will extinguish fire almost immediately. It is also strongly recommended for Shipping, as it will extinguish tar or any other inflammable substance.

John Montgomery & Son wish to have a good and respectable Partner, who could advance £100 for the fitting up of the factory. He will be entitled to one-third of the profits arising from the Patent Right for any number of years that may be agreed upon by the parties. The money will not all be required down now, but as the factory progresses. It will be a profitable investment for so small a sum.

John Montgomery will sell his Patent-right to Towns, Municipalities and Counties; as it is particularly adapted for Farmers' Barns and Outhouses, which, when saturated with this solution, no fire can touch them.
