THE GOVERNOR GENERAL'S VISIT.

His Excellency the Governor General has paid his promised visit to Kingston, and has passed down on his way to Ottawa and Quebec. He was received with the attention and respect due to his high station. The programme in Monday's Daily British Whig was carried out, with some variations. Something was wrong with the steamer Bay of Quinte, and his Excellency had to come by Special Train, arriving at one o'clock p.m. yesterday. Salutes were duly fired; he went to the City Hall, where he received and answered seven Addresses, and, among others, one from the Loyal Orange Institution, thereby evincing more judgment and good sense than his Grace of Newcastle. He then went to the Provincial Penitentiary, and to Rockwood Asylum, but did not go to the Crystal Palace, as was expected. Had he done so, he would have seen a single Upper Canada County's display of Stock and Agricultural Produce, that would have dispelled from his mind any vile insinuations so craftily poked into his hand by the envious breeders and growers of the West.

In the evening he dined, by invitation, at the Burnett House, but the Dining Room, large as it was, was so crowded that our reporter had to dine in another room, with half a dozen other gentlemen, also crowded out. His report of the Dinner, therefore, is not full. This morning, his Excellency and suite left the city early for Ottawa.

THE ADDRESS OF THE CITY BY THE MAYOR.

To His Excellency the Right Honorable Charles Stanley, Viscount Monck, Governor General of British North America, &c., &c., &c.

MAY IT PLEASE YOUR EXCELLENCY—We, the Mayor and Corporation of the City of Kingston, most cordially welcome your Excellency to this city.

We take much pleasure in renewing to your Excellency the assurances of our devoted loyalty and attachment to her Majesty's person and government, and of our determination—With our lives and fortunes if necessary—to perpetuate and maintain the connection that so happily exists between this and the Mother country.

We hail it as an omen for good that her Majesty has selected as her representative on this continent a nobleman of your Excellency's acknowledged ability, and one who takes a deep personal interest in the welfare and happiness of the people placed under his care.

We hope that your Excellency's tour through the province has been pleasant and agreeable, and that under your Excellency's administration, with the blessing of divine Providence, this great country may continue to increase in wealth and prosperity.

In conclusion, we beg your Excellency to accept our sincere wishes for the happiness of Lady Monck and the other members of your Excellency's family.

REPLY.

To the Mayor and Corporation of Kingston.

MR. MAYOR AND GENTLEMEN—I beg you to accept my warm acknowledgements for the cordial reception you have given me on this occasion.

In the Queen's name I thank you for your expressions of devotion and loyalty to her person and throne.

I have indeed derived much satisfaction from my visit to the various districts of Canada. Everything has combined to make it most agreeable to me. The beauty of the country, the evident prosperity of the people, the affectionate welcome that has everywhere been given to me personally, and more than all, the enthusiastic attachment universally manifested to our common fatherland, have left nothing wanting to make my progress through the country most gratifying to me.

Gentlemen, I thank you from my heart for your address, and shall have much pleasure in conveying to Lady Monck and my family the kind sentiments and good wishes you have expressed towards them.

Oct. 7, 1862.

ADDRESS OF QUEEN'S COLLEGE BY THE HON. JOHN HAMILTON.

To his Excellency the Right Honorable Viscount Charles Stanley Monck, Governor General of British North America, &c., &c.

MAY IT PLEASE YOUR EXCELLENCY—We, the Board of Trustees and Senate, with the graduates and students of the University of Queen's College, gladly embrace the opportunity of this your first visit to Kingston to offer to your Excellency our most respectful and hearty welcome, and anew to tender the expression of our devoted attachment and loyalty to Her Most Gracious Majesty's person and government, through you as her Representative in this part of the Empire.

Of the higher educational institutions now in operation in Canada West, the University which we have the honor to represent is the oldest, being the first incorporated by Provincial Charter, and the first which obtained a Charter from the Crown. The seat of the University was fixed at Kingston as the most central locality in the United Provinces, and as being then in all likelihood destined to constitute the Metropolis of Canada, having been chosen as the Seat of Government once by the Privy Council at home, and next by one of the most able of your Excellency's predecessors.

Under the charter of Her Most Gracious Majesty, whose name our College bears, its operations have been conducted for the last twenty years, and although in a great measure unaided and deprived of its fair share in the public University endowment, we can point and with well founded satisfaction to the success of its efforts, to the yearly increasing number of its students, and to the high position, which, without disparagement to others, it is admitted to hold among the Universities of Canada. Although connected with the Presbyterians of the Church of Scotland, no religious tests are required from its undergraduates (132 graduates, and its professors and students belong to all the leading denominations in the Province.

It is our sincere and earnest prayer that God may bless your Excellency and family in all the relations of life, and make your administration of your exalted office a source of satisfaction to yourself and of lasting benefit to Canada and to the Empire.

Signed on behalf of the University,

JOHN HAMILTON,
Chairman of the Board of Trustees.

Signed on behalf of the Senate by

JAMES WILLIAMSON.

REPLY.

To the Board of Trustees and Senate, with the Graduates and Students of the University of Queen's College.

Gentlemen,—I perused with much satisfaction your address of welcome on my arrival at Kingston, and the expression of your feelings of attachment to our Sovereign.

I am gratified to learn from you that the oldest of the higher educational institutions of Canada still retains in its operations all the vigor and elasticity of youth, and that the liberal spirit in which it is conducted has rendered the advantages it affords available to all classes of the people.

I thank you most cordially for your kind wishes for my family, and I wish you increased success in the prosecution of your beneficent labors.

Oct. 7, 1862.

THE ORANGE ADDRESS, BY JOHN FLANIGAN, ESQ.

To His Excellency Viscount Monck, Governor General of British North America, &c., &c.

MAY IT PLEASE YOUR EXCELLENCY—We, the Loyal Orangemen of the City of Kingston and County of Frontenac, avail ourselves of this the first visit of your Excellency to this ancient and loyal city to express the pleasure we feel in greeting you as the representative of our most gracious Sovereign.

The unanimous applause awarded to your Excellency (in those places you have visited since your arrival in Canada) as a generous and estimable nobleman, and a popular and beloved representative of our truly great and gracious Monarch, has already endeared you to the heart of every loyal and law abiding subject in Canada.

At a time like the present, when confusion and anarchy are making great havoc in the neighboring republic, we desire to express our devoted loyalty to the throne of Great Britain, and our resolve to stand by British connexion against all opposition. Should therefore the dominions of our Sovereign be imperilled by secret foe or open enemy, we will defend the same to the latest moment of our lives.

In conclusion, we pray that your Excellency may be permitted to preside over this fine and flourishing country, to witness its peace and prosperity, and its advancement in arts, science, commerce and agriculture. And we beg that your Excellency will convey to Lady Monck and the members of your esteemed family our best wishes for their future welfare.

Given under our hands and seal at Kingston, this 7th October, 1862.

JOHN FLANIGAN,
County Master of Frontenac.

John HARKES,
District Master of Kingston.

REPLY.

To the Orangemen of Kingston.

GENTLEMEN,—I thank you for the address you have just presented to me, and for the loyal sentiments to which you have given expression.

The manifestations of feeling with which I have been received during my progress through Canada have satisfied me that these sentiments of attachment to the Queen and Institutions of England, are held with equal warmth by all classes of Her Majesty's subjects in Canada.

I sincerely trust that no exhibition of party, personal, or sectarian feeling, will be permitted to mar so fair a spectacle as that of a people composed of different races and professing different religions, but bound together by a common sentiment of loyal affection to their Sovereign, and attachment to the Institutions of the Empire.

ADDRESS OF THE BOTANICAL SOCIETY OF CANADA, BY PROFESSOR LAWSON.

To His Excellency Viscount Lord Monck, Governor General of British North America, &c., &c.

MAY IT PLEASE YOUR EXCELLENCY—We, the members of the Botanical Society of Canada, desire with feelings of loyalty and respect to approach your Excellency as the representative of our Sovereign, and as the patron of our Society. We are laboring to develope a knowledge of the vegetable productions of this fertile land, and our efforts are not in vain. While our scientific investigations have been carried out with vigor and success, we have also introduced useful plants to the province, and have spread much valuable information. We have likewise succeeded, in no slight degree, in promoting among the youth of Canada a taste for the science of Botany, which is calculated to afford gratifying results, and especially to promote the industrial welfare of the country, so largely dependent upon the productions of the field and forest. It is true that the existence of our Society has not been recognized by the legislature. The Botanical Society of Canada is of spontaneous growth; it has grown up, without state care or culture, spreading its branches over the length and breadth of the land, and fostering by its genial shade the growth of knowledge. Yet your Excellency will perceive that its fruits are not inferior in extent or quality to those of richly endowed Societies that have been more tenderly reared. In our fatherland Botany has its discriminating patrons in the royal family of England, with whom the science is known to be a favorite study. In Canada we recognise in your Excellency a patron whose personal interest in the advancement of useful knowledge is calculated to prove a blessing to the people and a comfort to the followers of science.

REPLY.

To the members of the Botanical Society of Canada.—Gentlemen—It affords me much pleasure to receive an address from your Society, feeling as I do that your labours tend to accomplish two most desirable ends—the advancement of useful knowledge, and the refinement and education of the taste of the people.

I rejoice to hear of your prosperity, and I trust that the Botanical Society of Canada may thrive and flourish with the same vigor and luxuriance that characterize, in so remarkable a manner, all the vegetable productions of this fertile country.

ADDRESS OF THE ST. PATRICK'S SOCIETY BY J. O'REILLY, ESQ.

To His Excellency The Right Honorable Charles Stanley, Viscount Monck, Governor General of British North America &c.

MAY IT PLEASE YOUR EXCELLENCY—We, the St. Patrick's Society of Kingston, embrace the opportunity of your Excellency's first visit to Upper Canada, to congratulate Your Excellency on your appointment to the high and distinguished position as Governor General of these United Provinces.

Although the St. Patrick's Society is established for purely national and benevolent purposes, nevertheless, we believe the congratulations of, upwards of five hundred of your countrymen, who compose this society, cannot be otherwise than acceptable to your Excellency; and on their behalf, we beg leave to tender to your Excellency a cordial and heartfelt welcome to the city of Kingston.

In leaving our native country, it has been our good fortune to settle in Canada, under the fostering protection of the British Flag, and we are happy to assure your Excellency that, should danger threaten our adopted country, her Majesty will find no more devoted and loyal subjects than the Irishmen of Canada.

We hope your Excellency may long reside amongst us, to direct the destinies of this great Province, and that under your Excellency's Government it may continue to increase in wealth and prosperity, and that all classes of the people may hail your Excellency's adjunction as a lasting benefit, and looking to this young and rising country.

In conclusion, we trust the brief sojourn of your Excellency in this city may prove agreeable to yourself, lady Monck, and the members of your Excellency's family.

JAMES O'REILLY, President.
THOMAS MOORE, Secretary.

Kingston, 6th Oct., 1862.

REPLY.

To the Members of the St. Patrick's Society of Kingston.

GENTLEMEN,—I accept my hearty thanks for your address of congratulation on my appointment as Governor of this Province, and of welcome on my arrival at Kingston.

The reception I have met with throughout the Province has been all gratifying to me, and the circumstance that you and I derive our origin from the same portion of the mother country, renders the welcome you extend me particularly agreeable to me.

I rejoice to hear from you the expression of your feelings of attachment to your Queen, and of determination to maintain the integrity of the Empire, and I feel assured, should either be attacked, I might rely on the Irish, in common with all the other inhabitants of Canada, to rise as one man in their defence.

I beg to thank you for your kind expressions towards Lady Monck and my family.

THE DINNER TO THE GOVERNOR GENERAL.

The Dinner at the Burnett House was a capital affair, and gave much satisfaction. The guests were delighted at the very excellent spread prepared. The wines were excellent, and the great desideratum of a good dinner was not wanting, plenty of attendance. Covers were laid for one hundred persons, and when dinner was announced fully that number sat down. The Mayor occupied the chair, having on his right the Governor General and Hon. J. S. Macdonald, Premier, and on his left Lord F. Paulet. The vice chairs were filled by the Hon. John A. Macdonald, Member for the City, and the Hon. Alexander Campbell, Member of the Legislative Council. Mr. Macdonald was supported by James Morton, Esq., M.P.P., the Sheriff, J. O'Reilly, Esq., and Phillip Low, Esq., of Picton. Mr. Campbell by John Carstathen, Esq., Walter Ross, Esq., Mayor of Peterboro, the Rev. Hannibal Mulkins, and Col. Cameron. Sir Henry Smith occupied the chair opposite the Mayor, supported by Lt. Col. Ingall and Col. Burrowes.—Amongst the general company we noticed William Ferguson, Esq., County Treasurer, D. D. Calvin, Esq., Major Shaw, Capt. Wilson, Judge Mackenzie, John Shaw, Esq., C. Gen. Swan, Capt. Garratty, Town Maj., Ald. McKay, Ald. Livingston, Ald. Macarow, Ald. McCammon, Augustus Thibodo, Esq., C. S. Ross, Esq., President Commercial Bank, A. Drummond, Esq., Manager of the Montreal Bank, S. Taylor, Esq., Manager of the Bank of British North America, W. G. Hinds, Esq., Cashier of the Bank of Upper Canada, William Ferguson, Esq., Merchant, William Ford, Jr., Esq., James Davis, Esq., Major M. Flanagan, Esq., Com. Robinson, James Black, Esq., Charles F. Gildersleeve, Esq., A. F. Kirkpatrick, Esq., J. T. Burrowes, Esq., — Downes, Esq., of Perth, Ald. Allen, Mr. H. Cunningham, Mr. T. McKeever, Mr. W. P. Phillips, B. M. Britton, Esq., Agnew, Esq., Mr. John Fraser, and twenty-thirty other gentlemen, whose names our reporter can't recollect.

The Band of the 62nd Regiment was in the Hall, and discoursed most excellent music during the evening.

S. T. Drennan, Esq., acted as Master of Ceremonies, and used his best exertions to see that nothing was wanting to add to the comfort of the guests.

The first toast was that of "The Queen," which was received with much cheering.

"The Prince of Wales and the rest of the Royal Family." The Mayor took occasion to express his regret that His Royal Highness did not land in Kingston during his visit to Canada, and hoped that on some future occasion, the inhabitants of loyal old Kingston would have the gratification of giving him a hearty welcome, which they were then prepared to do if it were not for the untoward events that prevented his landing. The toast was drunk with all the honors.

The next toast was the health of "His Excellency the Governor General," the guest of the evening. The Mayor paid a high tribute to His Excellency, and expressed the deep gratitude the citizens of Kingston felt in entertaining him this evening. His popularity amongst all classes was proverbial, and he expressed the hope that he would be long spared to rule over the destinies of this great colony.

The Governor's health was received with vociferous cheering, which was renewed again and again. Upon His Excellency rising the cheering was repeatedly renewed.

His Excellency, after returning thanks for the enthusiastic manner in which his health was received, and the satisfaction it gave him to be so cordially welcomed by the people of Kingston, said, that that which lay nearest his heart was the prosperity and advancement of the Canadian people. That as to his tour through the western part of the Province, he was gratified beyond measure at witnessing the evidence of wealth and prosperity that surrounded him on every side. He was delighted—and with truth could it be said that Canada was the brightest jewel in Her Majesty's Crown.—But that which afforded him the most gratification, was the evidence of unbounded loyalty and attachment to his Sovereign which filled the hearts of the Canadian people. It would give him the opportunity of removing the misunderstanding which existed in England, arising from a misconceived idea that the Province would refuse the expense necessary to put it in a proper state of defence. He had confidence that the Province will adopt such measures as the position of the country requires, and he was happy to state, that he had authority to offer to the Canadian people all the arms and accoutrements required for that purpose; and if evidence were afforded of the people's willingness to defend themselves, all the strength and power of the empire would be sent to assist them. He was of those who believed that a gentle pressure on the Ministers of the day did no harm; and he himself being, by virtue of his office, Commander in chief of the country's Militia, the people might rest assured that no effort of his would be wanting, but that every facility would be afforded to make them perfect in the use of their arms. The people should recollect that a Governor General was endowed with executive powers, and he had duties to perform, and the sacred responsibility devolved upon him to see that this great Colony, this distant portion of the Empire, was not unprepared to defend its own soil. Kingston had reason to be proud of its public men, for it had given to the province some of its ablest statesmen—(great cheering)—and the country at large had also reason to be proud, for they had exhibited talent and ability not surpassed either at home or abroad. (Great cheering.) He trusted the people of Canada would at all times send him faithful Councillors, so that the affairs of the country could be administered in such a manner as to be worthy of so free a people. The welcome he had received at their hands he was not vain enough to attribute to his personal merits, and placed it chiefly to the account of the Sovereign, whose popularity on this both proud and happy in no less equal to that of any crowned potentate that had ever lived. (Great Cheers.)

Next toast was "The Army and Navy."

Lord Frederick Paulet made a capital speech in reply, and very pointedly replied to the difficulty the troops had in proceeding from Halifax to Quebec last winter, and the necessity of building the Intercolonial Railway. But the pleasant feature in the gallant officer's speech was the handsome compliment paid to Capt. Drummond's Battery of Artillery, and to Major Shaw's and the Portsmouth Rifle Corps. To the Battery he was specially praise in his eulogium, having pronounced it the finest Volunteer Battery in the province.

At the request of the Mayor, the Hon. Mr. Campbell proposed a Toast—"The Prosperity of Canada"—which he proposed with a few well-chosen remarks.

The Hon. Sandfield Macdonald replied. He said that in the Tour of his Excellency he noticed one particular feature, the total absence of all party feeling or display at the reception and entertainment of his Excellency, the people uniting, as they did on the present occasion, in one hearty Welcome. He assured them that his Government were desirous of introducing those measures that were best adapted to insure the prosperity of the province. If the people only gave them a fair trial, they would not be disappointed.

The Governor General then proposed the Mayor and Corporation of Kingston, and paid the city many compliments. He was happy to learn that its Mayor was largely connected with the shipping interest of Kingston, its chief characteristic.

The Mayor, in reply, said it was unnecessary for him to assure His Excellency of the gratification felt by the citizens of the good old loyal city of Kingston, at having with them the worthy representative of their beloved sovereign. His Excellency was and is heartily welcomed to the oldest settlement in Upper Canada, and the first capital of United Canada. His Excellency was kind enough to allude to his (the Mayor's) connection with the shipping interests of Kingston, and he was happy to say that never, at any past period, were those interests in a more prosperous condition than at present. The Hon. Sandfield Macdonald, in his reply to the toast "The Prosperity of Canada," gave expression to his gratification at the absence of all political display in the demonstration given to His Excellency; and although his worship the Mayor is a political opponent of the Hon. J. A. Macdonald, the member for the city, he paid, nevertheless, a high and well judged compliment to that honorable gentleman. He pronounced him to rank amongst the brightest intellects in Canada,—an expression which gave the friends of Mr. Macdonald much satisfaction, and was loudly cheered.

Sir Henry Smith proposed the health of Lady Monck and the Ladies of Canada, and, in doing so, was pleased to observe that there was a mode of volunteering popular with the ladies of Canada, and as they were proverbially fond of the Military, he hoped that Lord F. Paulet, a bachelor, would, on his return home, carry with him one of the volunteers as a specimen of the Canadian fair sex.

His Excellency returned thanks for Lady Monck, and after he sat down, a general call was made for the Hon. John A. Macdonald, who rose, and in an unmistakable speech, replete with wit, fun and humor, convulsed the company with laughter, and concluded by calling up Major John Shaw to do duty for the ladies, which he did in a good speech.

This terminated the speechifying—the Band played God Save the Queen—the company rose at once, and the Dinner was over.

It must not be forgotten, that during the intervals of the Toasts, the Band of the 62nd played most delightfully. Also, that some capital Songs were sung by Messrs. C. F. Gildersleeve, Simpson and Buckley.

The Dinner was a geat success—and it establishes the Burnett House as a First Class Hotel, and one of the best of its kind. And for these reasons. During the dinner time, Lord Monck repeatedly expressed his opinion of the excellence of the Dinner, its exquisite cooking, and the goodness of the Wines, and said that, with the exception of a Dinner given to him at Montreal (a $10 Dinner), this was the best in Canada he had sat down to. And, after the Dinner, Captain Retallack, his Aide-de-Camp, waited upon the Mayor to express his Excellency's extreme gratification with the whole tenor of his reception, and especially to commend the excellence of the Dinner, which, without any exception, was the best he had ever enjoyed in Canada.

MAJOR SHAW'S VOLUNTEER RIFLES NO. 1.

The turn out of this Company, yesterday, to receive the Governor General, it is believed, was the best specimen of the Volunteer Rifle Force His Excellency has seen during his whole tour in Western Canada. His Excellency repeatedly complimented Major Shaw on the excellent appearance the corps made.

At one o'clock, in accordance with Garrison orders, the Company proceeded from the Armory to the Railway Station, where it formed as the Volunteer guard of honor, facing the guard of honor of the 62nd, the Governor General and party passing through between them, the Volunteers taking the word of command for the salute from the Officer commanding the Regulars, by Major Shaw's request.

The Company then marched to the British American Hotel, where a guard of honor of the Rifle Brigade had been posted, and with it, again saluted His Excellency as he arrived at this point from the City Hall. Major Shaw then gave the command to march out to Portsmouth, where, with Captain Drummond's Field Battery of Artillery and Captain Litchfield's company of Rifles, No. 1 joined in the reception of His Excellency there, getting back to the city a little after six o'clock.

The Service Roll of No. 1 contains, we understand, over one hundred men, twice the number recognized as one company at Headquarters. How this is, when there is so much difficulty experienced generally in the force in keeping up to even a respectable shortcoming in numbers, we have no opportunity of testing.

Major Shaw turned out yesterday upwards of 70 men, and had it been a full holiday, it is said there would have been half as many more. The display was most effective, and evidently gave much pleasure to His Excellency and the military men of his party; all which, while most creditable to the officers and men of No. 1, at the same time did credit to the city too.

No other company of the City Volunteer Rifles turned out.

GARRISON THEATRICALS.

We are happy to announce, that Col. Ingall has been pleased to approve of the endeavors of the Non-Commissioned Officers of the 62nd Regiment, to amuse the good people of Kingston with some Amateur Theatricals during this Fall and Winter.—The Entertainments will be in the City Hall, and due notice will be given of the first performance.

THE SHOW OF THE COUNTY OF FRONTENAC.

Yesterday, in the Crystal Palace and its grounds, was held the Annual Show of the Agricultural Society of the County of Frontenac. The choice of the day was unfortunate, owing to the arrival and reception of the Governor General. Had it been otherwise, the Show would have been the very best, in point of attendance, since the formation of the Society. As it was, the country people turned out in large numbers, and all wanted was the patronage of the ladies and gentlemen of the city, who were too busy, but not more pleasantly, engaged in witnessing the sayings and doings in town.

The Show was a great success, more Entries having been made this year than in any preceding year. The Stock was good in every respect—in Cattle and Sheep especially. The Implements were numerous and excellent; and the display of Carriages good. The Horticultural Department was well attended to, and nothing could be better than the Fruit. The Dairy Products were a credit to The county. Fine Arts, a fair display, and the Lady Judges occupied several hours in the adjustment of the prizes. The new Flax Scutching Mill was at work, and showed to an attentive auditory the great use it can be to the growers of flax, if generally introduced and used in the province. The day was fine, the attendance was numerous, the Animals and Articles were well judged, and all went merry as a marriage bell—except that his Excellency did not visit the Palace, as was both wished and expected.

HIRSUTE APPENDAGES.

Judge Mondelet, of Montreal, is more arbitrary than was good King George. He ordered his cooks to get their heads shaved, because he found something on his dinner plate. The Canada Judge orders the Officers of his Court to shave off their beards and moustaches, because he considers them indecent. This, coming from the mouth of a Judge, should be taken "ex cathedra," and doubtless beards and moustaches will no longer be worn, in Montreal at least.—Listen to the pretty squabble as it occurred in the Court:

Montreal, Oct. 7.

MASS OF BATTING EXTRAORDINARY.

His Honor Justice Mondelet at this point administered a reproof to Mr. Bernard, the interpreter, for not speaking more distinctly, so as to enable the Court and Jury to hear the evidence better. His Honor thought Mr. Bernard's moustache (a carefully reared and much prized offspring, by the way) was the cause of that gentleman's inaudibility, and as the latter was a source of great inconvenience to the Court, the learned Justice ordered the obnoxious ornament to be erased—shaved off, we mean. His Honor also considered it would be well, and highly advantageous to all parties, if other gentlemen, partial to such labial adornment, would submit to a tonsorial operation also.

Mr. Carter, with some warmth—I presume your Honor refers to me also, and, if so, I decline to take off my moustache.

Justice Mondelet—I have no authority to compel you, and therefore give no order; but if you were to divest yourself of your moustache, it would be less offensive to decency. It is in consequence of gentlemen wearing their moustaches, that there is so much difficulty in hearing them.

Mr. Carter—It is the first time I have heard my moustache (a young and unobtrusive crop, we may say) was offensive to decency, and I think I speak loud enough to be heard by everybody.

Mr. Bernard here whispered to his Honor that his indistinctness of speech was occasioned by the loss of a tooth, which important revelation the Judge was kind enough to make public.

His Honor said—Mr. Chancellor Vankoughnet had ordered members of the bar in Upper Canada to shave off their moustaches, and he (Justice Mondelet) thought it would be well for gentlemen practising here, and more dignified, to do so also. He would, however, bring the subject under the consideration of the five judges when they next met.

Mr. Kerr said Mr. Vankoughnet had been laughed at all over Upper Canada for his order, which he had afterwards revoked.

Justice Mondelet disclaimed any personal motive or desire to give offence in the above observations.

It is needless to say the above remarks created considerable merriment in Court.—Gentlemen who had devoted much time and a great deal of anxious thought to the development of their hirsute appendages, looked blank despair, knowing that if deprived of this ornament they would in reality be shorn of their beauty—their principal object of attraction, and that their prospects at the bar of female opinion would be entirely ruined; while younger gentlemen of the long robe, possessing moustaches in the incipient and semi-developed state, looked terribly ashamed of the offensive virile ornament. We may add, however, that the sin of inaudible speaking is committed as well by those whom nature has doomed to barefaceedness, as those to whom she has been most liberal with her fairy favors.

PRIZE LIST

OF THE

FRONTENAC AGRICULTURAL SHOW,

HELD OCTOBER 7TH, 1862.

HORSES.

Best Stallion for Agricultural Purposes—Charley Waggoner; 2nd do, Wm. Ferguson; 3rd do, Walker Hunter.

Best Brood Mare and Foal—Richard Draper; 2nd do, John McCollum; 3rd do, Henry Wilmot.

Best Two Year Old Colt—Geo. Houghson; 2nd do, Richard Draper; 3rd do, Thos. Turner.

Best One Year Old Colt—Richard Draper; 2nd do, John McLean; 3rd do, Henry Wilmot.

Best Span Carriage Horses—John McCollum; 2nd do, Hiram Spooner; 3rd do, Dr. Barker.

Best Single Carriage Horse—Hiram McGuin; 2nd do, do.

Best Span Working Horses—Anthony McGuin; 2nd do, Timothy Donovan; 3rd do, Marmaduke W. Moore.

HORNED CATTLE (DURHAMS).

Best Bulls, 4 years old and upwards—John Flanagan; 2nd do, John Simpson.

Best Bull, 2 years old—Hiram Spooner.

Best Bull, 1 year old—George Houghson.

Best Bull Calf of 1862 (President's Prize)—Hiram Spooner.

Best Cow—John McCollum; 2nd do, Peter Maitland; 3rd do, Capt. Fenwick.

Best Heifer, 2 years old—John McCollum; 2nd do, do; 3rd do, Peter Maitland.

Best Heifer, 1 year old—John McCollum.

Best Heifer Calf of 1862—John McCollum.
