THE DAILY

BRITISH WHIG.

IT GIVES US PLEASURE TO BE ABLE TO STATE THAT THE

Daily Evening Edition

OF THE

BRITISH WHIG

NOW EXCEEDS

1000 COPIES.

Though this number does not approach the editions absorbed in the mammoth cities, yet it is very large for a city of the size of Kingston, and in that regard exceeds the circulation of any paper in Canada. It is

More than Double

THE USUAL NUMBER ISSUED

BY

Our Local Contemporary

and is 25 per cent. more than we published at this time last year, when the British Whig was only the size of the News.

THE WEEKLY

BRITISH WHIG

has, also, during the past year, been favored with a very large accession of subscribers, and ranks next to the Leader and Globe in point of circulation in Eastern Canada, while in the counties in which it has its chief circulation it is ahead of even the metropolitan papers.

Thus it is that advertisers all rush to the British Whig, and gladly pay twenty per cent. more to secure notices in its columns, than for insertions in the other local papers.

An advertiser who uses our columns has the advantage of reaching an immense number of readers. For example; if a notice is inserted in the

DAILY & WEEKLY

BRITISH WHIG

for one week, it is repeated 10,000 times, and reaches the eyes of at least

ONE HUNDRED THOUSAND

READERS!

And these readers are for the most part, those who visit our market many times in the course of the year, while a very large proportion of them come into town to make their purchases at least once a week.

Despite, then, of all manner of hostility directed specially against this journal, it goes on and prospers beyond that which a sanguine expectation hoped for, and we are gratified humbly to day, not only by a daily increasing circulation, but by the approval of many to whom we have [illegible] strangers, except through the [illegible] our sheet.

MOTHERS

Look to Your Children!

WORMS! WORMS!

MUCUS or Slime, forms the cost bed in which Worms produce their young. This secretion is much greater in Children than Adults. When they are not in good health worms will increase with astonishing rapidity. The Mucus or bile bed is removed immediately by the use of "OLD Dr. McKENZIE'S WORM CANDY TRUN."

As it resembles a candy stick in taste and appearance, and a child eating it is wholly unconscious of taking medicine, where worms exist, the results are beyond description.

A child of ten years of age, of Rev. J. McDougall, Dundas, passed over 300 worms in Three Days, which he testifies that he believes by God's blessing it saved the child's life. Testimonials of similar instances are given (without solicitation) to the present proprietor.

A WRONG IMPRESSION CORRECTED.—Many are under the impression that if a discharge of worms does not follow after taking the Worm Candy, it has failed to destroy. This is a great mistake, as the Candy removes the nest of worms, to a greater or less extent, dissolves into slime or mucus before they are discharged; although in many cases the worms are driven out in quantities.

Sold at Retail by all Druggists and Medicine Dealers in Europe and America, at 74 pence sterling (15 cents) per package, or 2 shillings (30 cents) for four packages. Be sure that each package has the signature of H. E. McKenzie, M. D., Glasgow, on the wrapper. Call for Dr. McKenzie's Dead Shot Worm Candy.

Sewing Machines!

IF you want a GOOD, CHEAP, and RELIABLE SEWING MACHINE, and one adapted to every kind of Work, both ornamental and useful, call and examine the Grover and Baker Machines, next door to Murdoch's Music Store, Princess Street. In purchasing one of these Machines, depend on it you are investing your money in a safe article. This Machine has been before the public for the last twelve years, during which time the large number of 55,000 have been disposed of—this speaks highly for the merits of the Machine. The following Testimonials from purchasers in Kingston, are only a few of some thousands held in its favor, and as these Testimonials prove it has many advantages over any other Machine offered for sale, it is unnecessary for me to say anything in its favor. The best proof of its worth is to give it a trial, and if not liked, it can be returned, according to agreement. No matter where offered for sale, this Machine has always met with universal approbation, and continues to meet with increased success.

TESTIMONIALS.

Herald & Advertiser Office,
Kingston, C.W., October 28, 1862.

Mr. Thompson, Agent for the Grover & Baker Sewing Machine, Kingston:—

DEAR SIR—I have much pleasure in communicating to you, on the part of Mrs. Armstrong, her satisfaction with the Grover & Baker Sewing Machine, which I purchased from you soon after you opened your establishment here. She has now had it in almost daily use for over three months, and she assures me that, in the various departments of family sewing, she finds it daily become more valuable, as experience in working develops its capabilities as a Family Sewing Machine. The simplicity of its mechanism secures it from getting out of order (which I consider one of its greatest recommendations as a family sewing machine), while its manner of operation is so simple, that a child may be taught to work it efficiently in a few lessons. I may add, that Mrs. Armstrong finds it efficient in all kinds of family sewing, braiding, quilting, &c., &c., and that each day's experience in its use adds to the value she places upon it.

Very Sincerely yours,
WM. ARMSTRONG,
Editor Herald & Advertiser.

To Mr. Thompson:

SIR,—The Sewing Machine which you sold for one of my daughters does most excellent work. It was easy to learn, and it is found so very useful in the house that the wonder is how the family could have done without one.

EDWARD JOHN BAKER.

Kingston, Oct. 27, 1862.

Kingston, Oct. 26, 1862.

To Mr. Thompson.

The Grover & Baker Machine you sold me, now nearly four months ago, I am exceedingly pleased with. I have worked it on the finest muslin and the coarsest cloth, and have never had the slightest trouble with it. It is unnecessary to say anything in its praise, as the Machine speaks for itself, and I am sure anyone purchasing it will be greatly pleased as I am with it. Working as you do from spools, I find a great convenience and saving of time, thereby avoiding the winding of thread, as required in all other Machines. I find the stitch to be both very strong and lasting, and does not ravel, as I was led to believe, in washing or wear. Giving a fair trial of the Machine—as you do—before selling, is in itself the best guarantee for its worth; and I am sure any person once having a trial, is not likely to return it. The handsome embroidery done by it, specially recommends it to ladies about purchasing.

CHRISTIANNA REID.

Kingston, October 1, 1862.

Mr. Thompson:

SIR,—I have used one of your Grover & Baker Sewing Machines for about three months. At your request, I write to say what I think of its qualities. I am greatly pleased with its performance. I had been told that the stitch would not wear or stand washing, but have found that such is not the case, work done for me by Mrs. Thompson several months ago remains as good as at first, although subjected to many washings, and since I have purchased the Machine from you, I have done all the work of my family, and have found the stitch to be durable.

The Embroidery stitch which it throws out is in my opinion a strong recommendation in its favor, especially to ladies.

I must not forget to add that I have had much pleasure in working from the spools, thereby being saved the trouble of winding the thread, which I am told is necessary with other Machines.

F. A. BURROWES.

Mr. Thompson:

SIR,—I willingly comply with your request in bearing testimony to the excellence of the Grover & Baker Machine I got from you three months ago. I have been working it, by so much, every day since on the finest and thickest materials, and find it does both with equal facility. I find too much to be both very durable and strong. The first work done by the machine is as good today as when first done, although I very washed it frequently. I can show any person wanting a Machine could not do better than purchase of you, you treat me so fair, giving as you do, a trial of the Machine before asking the purchaser to settle for it. The absence of winding thread, the handsome embroidery it throws out, its easy motion and freedom from noise, are very strong recommendations in its favor, and, although somewhat dearer than other Machines for sale in the city, I consider it well worth the difference.

To those who don't Think
AND
To those who think.

To those who don't wish to be troubled with thinking, the time to have their thinking done is—just one cent, which may be thus explained, that

RADWAY'S READY RELIEF

will relieve those who suffer pain instantly on its application exactly, or by its administration internally and cures

RHEUMATISM ..... in a few hours
SORE THROAT ..... in fifteen minutes.
TOOTH-ACHE ..... in fifteen minutes.
NEURALGIA (prosopalgia) ..... in five minutes.
CHILLS ..... in five minutes.
HEAD-ACHE ..... in ten minutes.
COLD ..... in ten minutes.
DYSENTERY ..... in forty minutes.
LUMBAGO (pain in the back) ..... in ten minutes.
CHILBLAINS ..... in fifteen minutes.
SORES ..... in five minutes.
INFLUENZA ..... in a few hours.
CROUP ..... in five minutes.
SPASMS ..... in five minutes.
AND OTHER SEATED PAINS ..... by a few applications.

In all cases where pain is felt the READY RELIEF should be applied.

It is impossible to hurt a healthy or diseased body with it.

It will cure scalds of the stomach, and promote digestion; it is a pleasant and healthy stimulant.

TO THOSE WHO DON'T THINK.

We say that RADWAY'S READY RELIEF is the most elegant and powerful medicine known in the world. This is not boasting; try it if you feel sceptical and be convinced. It combines in its composition the properties of a diffusive stimulant, an anti-septic, a mild but effective Astringent, and a direct power over the nerves, neither narcotic nor anodyne, that relieves pain, in a manner peculiar to itself, and for which we have no word in the English language exactly to express its action. The French call it Soulagement. So much for its internal administration. When applied externally, it will be found a most powerful counter-irritant, instantly reddening the surface on which it is applied, and withdrawing the blood from some neighboring part, where it may be congested or heaped up, causing pain and leading to inflammation. It fulfils the indication of equalizing the circulation most effectively, and most beautifully to minds that can understand its action.

TO THOSE WHO THINK.

Now, we hold that all external remedies act either in one of two ways, or combine the action of both. First they act directly upon the nervous system without touching the blood vessels—the sanguiferous system. All Arnica liniments, nerve liniments, &c., &c., belong to this class, and consequently only benumb the ends of the nerves, without affecting at all the circulation, and temporarily stop pain,—but have not the slightest effect in restoring the equilibrium of circulation, essential to healthy action. Or, Secondly,—They act upon the blood vessels without, as in the case of depletives, (Leeches or cups,) regard to the nervous system. Now, the fact is—that the nerves preside over the blood vessels, and an external application to be effective, must act upon both nerves and blood vessels.

Radway's Ready Relief

We proclaim has this double action of assuaging pain, by its specific effect upon the nerves and equalizing the circulation, by its effect upon the blood vessels. In this way it relieves and cures Rheumatism, Lumbago, Tooth-ache, Headache, and a variety of such like complaints. When taken internally, its astringent and diffusive stimulating properties check in the most natural manner Diarrhœa, Colics and other bowel complaints. Whilst for Sore Throats, accompanied by putrescency, and for Fever patients, with Typhoid symptoms, an eminent Physician attached to the New Orleans Hospital has pronounced its gargle, as the most simple and anti-putrescent, to the celebrated Eau Medicinale of Raspail.—He administers it internally to his patients, and sprinkles his wards with it.

Let the sick and all those who suffer pain, test its virtues.

A GOOD SIGN.

In applying Radway's Ready Relief to the surface of the body, it should be applied with the hand, rubbing the part or parts affected for three or four minutes, or until the skin becomes red, and a sensation of heat is experienced.

It is always a good sign that the patient will soon recover, when the skin becomes heated, and you feel a burning sensation, two or three days after the application of the Ready Relief. Bear in mind that heat is a sure indication of health and life; coldness is the sign of death. By keeping up the natural heat of the body, you establish a safeguard against disease and death.

How to Prevent Sickness.

If, on the first indication of pain or uneasiness, Radway's Ready Relief is used, no serious illness will follow. Bear this in mind, that all Fevers, Bilious, Typhoid, Intermittent, Fever and Ague, Small Pox, Measles, Influenza, Diptheria, give full warning of their attacks. In all cases, therefore, when seized with headache, Cold Chills, alternated with hot flashes and parched skin, dryness in the mouth, pain in the bones, watery discharges from the eyes and nose, sore throat, or any other unpleasant feeling, resort at once to RADWAY'S READY RELIEF; its use, either

Internally or Externally,

Or both if necessary, will immediately BREAK UP THE THREATENED DISEASE, and restore you to ease, comfort, and health.

Rheumatism Cured.

Letter from Mr. John McWhinnie, of Woodstock, C. W., Messrs. Radway & Co., New York City:

GENTLEMEN,—A recent trial of your Ready Relief for rheumatism proves it to be a sovereign remedy. About four weeks ago I was seized with Lumbago, and quite unable to stand up. I purchased from Mr McPherson a bottle of RADWAY'S READY RELIEF, rubbed my back well, and obtained immediate relief. The next morning I felt pain in my hip joint, and in a few days it became considerably enlarged. I was afraid to try more of the Relief, lest it should drive the pain to a more vital part of the body, but as the pain in my joint, knee and ankle became so excruciating, I got another bottle of Radway, and applied it, and washed my whole limbs with it, and I am happy to say with complete success. The intense and unusual cold at this season, I feel has the effect of renewing the pain; but one application of the Ready Relief will banish it. Could I keep my feet warm at all times, I would have nothing to fear from Rheumatism after applying your Ready Relief. I shall occasionally draw attention to the efficacy of your medicines, the result of experience.

Yours truly,

JOHN McWHINNIE,
Editor and Joint Proprietor of the Sentinel,
Woodstock, C.W.

Important to Mothers.

Look out for Croup.

There is no treatment so quick and reliable in attacks of Croup as Radway's Ready Relief. Apply Radway's Ready Relief freely to the throat and chest, and give sufficient quantity of the Syrup of Ipecac to produce vomiting; this will effect an immediate cure.

A Case in Point.

Collingwood, C.W., June 1, 1857.

Messrs. Radway & Co.:

Gentlemen—A child of mine, about eight weeks old, was taken with a very severe cold. Not being attended to at once, it settled on the chest, and strongly verged into Croup in its worst form. The best medical practitioner in the town was called in, and he, after doing everything in his power to relieve her—but all in vain—gave her up as dead. I now took her in hand myself, and rubbed her chest and back with Radway's Relief thoroughly, when, in the course of a few hours, she was well again, and now is as well and hearty as a child can be.

I am, gentlemen, your obedient servant,

JOHN HOGG,
Editor and Proprietor, Collingwood (C.W.) "Enterprise."

Mr. Hogg, in conversation, likewise informed our traveller that it cured his wife of a severe spasmodic asthma, contracted by her falling down a flight of stairs.

RICHARD GRIFFITH'S LETTER.

IMPORTANT TO LADIES—DANGER OF LEAVING BED TO BED.

Dangerous Condition of the Wife of the Deputy Sheriff of Frontenac Co., C.W.

Harrowsmith, Frontenac Co., C.W.,
June 24th, 1857.

(In October, 1857, my wife, giving birth to a child, left her bed too early and took a severe cold, which promoted inflammation of her life. The best physicians in the neighborhood and Kingston were in attendance, but all to no avail—the Doctors gave her up to die. For seven consecutive weeks I sat at her bedside, constantly watching to see her breathe her last. I prayed to see a copy of your pages, containing 'Moving Words,' and there read of your delicious Ready Relief. I resolved to test them as a resort. I gave her the Resolvent or Regulating—and Relief—according to directions, and in three days I observed a wonderful improvement. From this she date her recovery, and is now, thank God, better than ever she was in her life.

"The child, when three months old, took a bad cold, and dwindled away to a mere skeleton, nothing but bone and skin, the eyes protruded from his head, as if they would drop out. The physicians all concurred in saying there was no use in attempting to save him; his case was hopeless, as he was too young, and must die. But I thought differently. Your Remedies gave life to my child, while the doctors gave her up to death, I again had recourse to them. I gave him the Resolvent internally, and used it as a wash externally to his eyes—he is now a laughing, prattling child, enjoying the best of health.

Your most obliged and grateful
