Montreal, Feb. 1, 1866.

COMMENCED DRILLING.—Operations, have now commenced in earnest at the Forest City Oil Well, foot of Dundas-street, the depth attained on Saturday being about twenty feet The Company seem to be pushing their enterprise with vigor. It is professed that a new oil region has been found along Kenny Creek, in the Township of Burford. A meeting has been held at the Town Hall, Cathcart, and a Company formed, whose capital stock is put at $30,000. A fair proportion has already been subscribed.—London Free Press.

ATLANTIC OCEAN PASSAGES.—The annual report of the Montreal Ocean Steam Ship Company has just been published. It sets forth an interesting statement of the time made by the company's steamers crossing the Atlantic during the past year. The average is very good being ten days and eleven hours eastward and ten days fourteen hours westward. The company has now another first-class vessel, the Acadian, on the stocks. She is 325 feet in length, 19 feet 6 inches in breadth, and 26 feet 9 inches in depth of hold. She will have flush decks like the Peruvian, and be something like that vessel, only a little larger. A sister vessel to the Acadian, we understand, is also immediately to be built.

CANADA WOOL.—There is good authority for stating that Canada wool will continue to be admitted free of duty after the expiration of the Reciprocity Treaty.

All the dry fish now being received at New York and Boston from the British Provinces is immediately put into store, as the holders expect, in view of the repeal of the Reciprocity Treaty to obtain enchanced prices.
