MASONIC BALL.

Whitby, Feb. 9.

A grand Masonic ball was held last night. There were about one hundred Masons present, with their wives and friends, besides a large number of invited guest. Mr. Degrassi, D. G. M., from Toronto, presided. Due grand honors were paid him. Major Fairbanks, of Oshawa, and several other members as high as himself in the craft as Knight Templar, were present. The Worshipful Master of Composite Lodge and the officers left nothing undone that could add to the eclat of the gathering. The newly enlarged and splendid room of the Mechanics' Institute was tastefully decorated, containing numerous Masonic devices; the large gallery was fitted up as a ladies' parlour, and all the furniture of the Lodge, as well as other adjuncts from the residences of private families, were brought into requisition to grace the occasion. Everything was grand, and all separated, 'happy to meet, sorry to part, and happy to meet again.' The music was supplied by the band of the 'Queen's Own,' under the management of Mr. Murdoch, and was first class.

ANOTHER PASSENGER STEAMER SUNK.—A fine large and almost new steamer, named the Amalia, foundered in the Bay of Biscay in the same storm that sunk the London, and but for the providential appearance of another steamer, all on board the Amalia would, doubtless, have shared the fate of those on board the London. As it was they were saved, just a short time before the vessel went down. The loss to the underwriters by these two vessels is near two millions of dollars, and both seem to have been lost in the same way. Tremendous seas broke over them and ran down into the engine and fire-rooms, extinguishing the fires, and leaving the vessels unmanageable. In this state they gradually filled and sunk, although divided by bulkheads, as is usual with large iron steamers.

A NICE DISTINCTION.—The Greenock Advertiser tells the following story:—A short time ago, a weaver, believed in the district to be a staunch teetotaller, dropped into a spirit dealer's shop in a village in the Upper Ward, not far from that in which he resided. The publican was much astonished at the call, and more so that his visitor ordered a roll and a gill of whiskey. Having been served with these, he tore a piece out of the roll, and after pouring the whiskey into it, ate the bread. On being asked by Boniface, what he meant by this extraordinary proceeding, he answered that the pledge prevented him from drinking whiskey, but not from eating it.'

SHIPWRECK AND LOSS OF LIFE.—Savannah, Ga., Feb. 9.—The first mate and one seaman, the only survivors of the wreck of the British bark Jenny, from Liverpool for Savannah, wrecked off Cape Hatteras on the 4th inst, have arrived. One man, his wife and child, passengers, with the Captain and sixteen of the crew, were lost. The Jenny had an assorted cargo, and was 265 tons burthen.

ROYAL CANADIAN BANK.—The President of this corporation who was in Woodstock on Saturday last, expressed himself highly satisfied with the condition of affairs in respect to the establishment of a Branch. An office has been selected—and shortly we expect the business facilities of the place to be improved with another banking institution. It is pleasant to know that this step on the part of the people here arises not from an hostility to the operations of the present institution. The greatly increased and unceasing business capabilities of Woodstock renders this action one of the absolute necessity, and it is not too much to expect that each bank will find outlets ample for their powers of accommodation, while in matters of deposite each will do well. On the 18th instant the first instalment on the subscribed stock is payable—and no time will be lost in an early start as to actual operations.—Woodstock Times.

POLICE COURT.—There was no business what ever done yesterday in the Court, the Cells being clear of Vagrants and the City otherwise orderly.

To Consumptives.

The undersigned having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption—is anxious to make known to his fellow sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, Coughs, Colds, &c. The only object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription will please address,

TESTIMONIALS

FROM THE MOST DISTINGUISHED ARTISTS TO MESSRS. STEINWAY AND SONS.

New York, December, 1864.

THE Piano-Fortes, Grand, Square and Upright, manufactured by Messrs. Steinway & Sons, have established for themselves so world-wide a reputation, that it is hardly possible for us to add anything to their just fame.

Having thoroughly tested and tried these instruments personally for years, both in public and private, it becomes our pleasant duty to express our candid opinion regarding their unquestoned superiority over any other Piano known to us.

Among the chief points of their uniform excellence, are:—Greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale, and above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

This peculiarity is found exclusively in the "Steinway" Piano, and together with the matchless precision, elasticity and promptness of action always characterizing these instruments, as well as their unequalled durability under the severest trials, is truly surprising, and claims at once the admiration of every artist; we therefore consider

The "Steinway" Pianos in all respects the best instruments made in this country or Europe—we them solely and exclusively ourselves in public or private, and recommend them invariably to our friends and the public.

We have different times expressed our opinion regarding the Pianos of various makers, but freely and unhesitatingly pronounce Messrs. "Steinway's & Sons" Pianos far Superior to them all.

PHILOSOPHY OF MARRIAGE.

THE Proprietors of the New York Museum of Anatomy have determined, regardless of expense, to issue free, (for the benefit of suffering humanity, and suppression of quackery) four of their most interesting and instructive Lectures on Marriage and its disqualifications, Nervous and Physical Debility, Premature decline of Manhood, Indigestion, Weakness or depression, Impotency, Loss of Energy and Manly Power; the great Social Evil, and those Maladies which result from youthful follies, excesses of maturity, or ignorance of Physiology and laws of Nature.

There invaluable Lectures have been the means of enlightening and saving thousands, and will be forwarded free, on receipt of four stamps, by addressing Secretary, New York Museum of Anatomy and Medicine, 618 Broadway, New York.

Important to all Purchasers of Pianos.

EXTRACT of a letter from an Officer of the Royal Artillery in India to his father, and kindly communicated by Thos. A. Corbett, Esq., Sheriff of Frontenac.

Kussondie, near Delhi,
22nd Dec., 1865.

"I wish you would tell John C. Fox, the maker of my Wife's Piano, how well it stands the climate of India. It is at once acknowledged to be the best toned as well as the handsomest Piano that has been seen in India. It had a severe trial on its way up from Calcutta to Delhi in the month of June, which is about the hottest part of the year, and yet on its arrival after being packed up eight or nine months, and coming all the way from Kingston, Canada West, to Liverpool, and via the Cape to Calcutta, only six or seven notes were out of tune, I had it tuned once and it has kept in perfect order ever since.

The Bandmaster who tuned it has taken out a patent for some new improvement which evidently he cribbed from yours. The only fault is its weight; in moving it took thirty-two of these wretched country laborers to carry it up the hill a distance of about seven miles, having a tolerably good road and gradual ascent.

I am certain that an instrument that will stand the extremes of temperature of Canada, and India, will answer here capitally. I should think it would be worth his while to send a few of them to Calcutta."
