LETTERS & TELEGRAMS.

C. J. B., Montreal.

We are not a believer in the truth of the alarming Fenian Reports, but that our readers may exercise their own judgment, we append sundry extracts from the alarmest newspapels:—

FENIAN INVASION REPORTS.

THE ROBBERS COLLECTING ON THE OWER CANADA BORDER.

A GENERAL ORGANIZATION IN FULL BLAST

ANOTHER CIRCULAR FROM THE ATTORNEY GENERAL.

GREAT ACTIVITY IN TORONTO.—FENIANS ARRESTED—SPECIAL CONSTABLES SWORN IN.

LOWER CANADA.

The following is from the St. Johns News of Friday:—'Just as we were going to press this morning we received the following despatch from Missi-quoi:

Philipsburg, Sept 21.

We have what we consider reliable information that the Fenians are collecting on our border for an immediate invasion.

'(Signed), W. W. SMITH.'

In addition to the above, the writer was this morning informed by several trusty parties at St. Armand, that about 25 men supposed to be Fenians, assembled yesterday at Highgate.

It is reported that the people in Huntingdon are greatly excited by the rumors of another Fenian raid. Probably all this will turn out to be a false alarm.

SUBSTANTIAL RUMORS.

The Hamilton Times of Saturday says: A gentleman who arrived in the city yesterday from the United States, reports positively that a general movement of Fenians to the frontier is quietly progressing. Leading military gentlemen in the city have been apprised of the fact. The American papers are suspiciously silent at present regarding Fenian movements, and the omen may not be considered a favorable one.

Several parties in the city are in receipt of letters giving warning of a speedy hostile demonstration. A letter received today from Rochester, reports unusual activity prevailing in Fenian quarters, with every indication that a movement of some kind is on foot. A letter of similar import, dated at Oswego, states that immediate trouble is anticipated, and business is affected injuriously in consequence. Outside of the Circles, however, nothing definite is known regarding contemplated movements.

ACTIVE MEASURES AT TORONTO.

The Telegraph of Saturday says:—At last the government are aroused to a sense of duty, and have in accordance with not only our oft-repeated advice and that of our cotemporary the Globe, taken active measures to preserve the peace of the country, and the protection of the inhabitants and their property. A circular has been received by the several county attornies and police magistrates, countermanding the circular of the 21st of June, and giving them instructions in reference to the treatment of persons of suspicious appearance and bearing and without any ostensible occupation or means of living, and all suspected Fenians. We have endeavored to get a copy of the circular, received by the authorities this morning, but without avail, as we understand that they have received strict instruction to carry out the orders of the government with secrecy and dispatch. We understand that they are instructed to seize all arms in the possession of parties under the Act of last session, that they consider dangerous to the public peace, and that all persons known or suspected of having connection with the Fenians will be vigorously prosecuted.

Three Fenians have been committed to-day to the jail, and a list of over several hundred names, including some well known residents of this city, is now in the hands of the police, and vigorous enquiries are being made by the police eight government detectives, who are now in the city. Next week, and indeed from this afternoon forward, every railway train and steamer arriving in the city will be closely watched, and all suspicious characters will be searched and arrested, and if their business is not satisfactorily explained, will be committed to jail under the Habeas Corpus Act of last session. [The arrest of three Fenians is authoritatively denied.]

A special session of magistrates is now in session in the Mayors office at the City Hall, for the purpose of organizing a night patrol, and we are informed that they have decided on swearing in 150 men in each ward, well known freeholders and householders under the statute chap. 104, Con. Statutes of U. C., and that these are to be drilled, at least two nights in the week to the use of the arms, and that a certain number, say fifty will patrol in their respective wards every night.

The Chief of Police has petitioned the Police Commissioners, asking for an increase of the police force, which we consider is high time it was granted, as forty men, being the number of the present force, is entirely inadequate for the preservation of peace in the city. It is unfair to the inhabitants that no policeman, from their insufficient number, patrols the city north of Queen street, and we really hope that the Commissioners will augment the force.

It has been arraigned that in view of arrests which may take place, extra accommodation will be made at the jail for the comfort of the cut throats who may come here to interrupt the peace of our city.

The Editor's Table.—No. 452.

We have to-day a heavier task than usual to execute, in doing little more than simply acknowledging the many good things that have come upon 'Our Table' during the past fortnight:—

LAND AT LAST. A Novel. By Edmund Yates. Harper Brothers, New York; John Creighton, Kingston. 8vo. pp. 148. 50 cents.

Every year or two a new star in the literary work (of Canada) appears. Not bursting upon us in its effulgence, like George Eliot, (Miss Evans,) whose first novel (Adam Bede) was her very best; but like Mrs. Henry Wood, Miss M. E. Braddon, Mr. Anthony Trollope and others, shineing with increasing brilliancy, until their utmost splendor is evoked. Mr. Edmund Yates is a writer now becoming known to us Canadians by the excellence of his present productions, though by the names of the works he has written, 'Running the Gauntlet,' 'Broken to Harness,' 'Black Sheep,' &c., &c., he is no stranger at Home. The work before us is one abounding in beauties, and disfigured by gross faults. The style is good, familiar though not coarse, pleasing and natural, while the incidents are striking and highly interesting. He has many of the merits of Mr. Anthony Trollope, with more vivacity, and few people can take up 'Land at Last' without reading a great deal of it. But Mr. Edmund Yates' great fault is the viceness of his plot and the improbability, nay impossibility of his incidents, however charmingly told. The events he narrates never could have happened, nor could his characters act in the way he describes. Still with all its many blemishes, 'Land at Last' is a delightful Novel, and one we can heartily commend to the patronage of the public.

From Messrs. W. C. Chewett & Co., of Toronto, we have received copies of the September Nos. of 'London Society' and 'The Churchman's Family Magazine.'

'The House of Overend Gurney & Co., its founders and its fall,' is well worthy of perusal. The following are the Contents of 'London Society':—The Burglary at Faustel Everleigh; the Ethics of the Italian Opera; Young Men's Sorrows; Evenings on the Balcony; the Queens of Comedy; a Day's Excursion in Spain; Virginia Water; Picked up in the Row; a Fatal Step; Dinas; the Gambler's Capital; the Parting; the House of Gurney & Co., its founders and its fall; Up and Down the London Streets; a Round of Days; the Epergne; a Ramble Round the Royal Arsenal; Society in September. The illustrations are first-rate, and the articles well written.

The 'Jail Chaplain' is an able exposé of the manner in which the statistics are cooked by unprincipled officials, for the purpose of leading the public to believe that criminals are very much improved by the labors of Chaplains whilst confined in jail. The writer shows that most of the reported conversions are stimulated, and that these reports cannot be relied upon. The Contents of 'The Churchman's Family Magazine' are:—Kingsford Harvest Home, and what came of it; Our Bishops and Deans—Archbishop of Dublin; A September Lesson; Sketches in the Desert; Harvest; Charlie Mapleton; Twelve Years Ago; the Jail Chaplain; Our Clerical Club. Messrs. W. Chewett & Co., of Toronto, are the Canadian Agents for both the above.

THE GALAXY for October 1st. A Fortnightly Magazine. W. C. & F. P. Church, New York. $5.

The more we see of this gala magazine the more we like it. It is conducted by men of scholarly attainments, and its articles are above mediocrity. The two Serials of the Magazine are both good, and the instalments of the present month particularly so. 'The Claverings' by Mr. Anthony Trollope, is equal to the best of his late productions; and 'Archie Lovell' by Mr. Edwards, is really her best work so far, as it has yet gone. The other articles of the Number have more or less merit.

HARPER'S MAGAZINE for October. John Creighton, Kingston. $4.

We must pass this No. by, simply saying that it is of average merit.

Four Lady's Books are on 'Our Table' at once—

THE LADY'S FRIEND for October. Deacon & Peterson, Philadelphia. $2.50.

MADAME DEMOREST'S MONTHLY for October. W. Jennings Demorest, 473 Broadway, New York. $3.

THE LADIES' INTERNATIONAL MAGAZINE. Charles J. Peterson, Philadelphia. $2.

THE LADY'S BOOK. L. A. Godey, Philadelphia. $3.

All we can say of the above is, that they are a credit to the United States, shewing the attention paid to the culture of the female mind, not done in Europe, where a small magazine of the kind is considered sufficient for a country.

THE SATURDAY READER for September 15th and 22nd. W. B. Cordier & Co., Montreal. 5 cents each.

EVERY SATURDAY for Sept. 15th and 22nd. Ticknor & Fields, Boston. Ten Cents.

THE CANADA FARMER for September 15th. George Brown, Toronto. $1.

THE JOURNAL OF EDUCATION OF LOWER CANADA for August.—E. Sentenal, Montreal. $1.

THE UPPER CANADA LAW JOURNAL for September. W. C. Chewett & Co., Toronto. $3 cash.

THE MEDICAL ACT, AND PROPOSED AMENDMENTS BILL. By Robert Hunter, M.D., London, C. Mitchell. 4to. 40 pp.

This has been sent to us by the noted Dr Hunter of New York and London, of Inflation notoriety. It would appear that the London Medicos won't admit him among them, not because he is a Canadian bred Medical Man, but because he quakes. He is therefore striving to get the English Medical Act amended. He won't succeed, because let him disguise it, or let him explain it how he will, Quackery is detestable at Home, however much it may flourish in America. Besides, that Rap-Case has never been satisfactorily made plain to intelligent people, though the Doctor got the better of his opponents at the Old Bailey.

NEW PHYSIOGNOMY, OR 'SIGNS OF CHARACTER,' as manifested through Temperament and External Forms, and especially in the 'Human Face Divine.' One elegant volume, with nearly 800 pages and 1,000 illustrations. By S. R. Wells, Editor 'Phrenological Journal.' Price, post paid, $5. Address Fowler & Wells, No. 389 Broadway, New York.

'New Physiognomy' is eminently practical, fully illustrated, and well suited to the wants of all. In the study of 'the face' the reader soon learns to read each and every feature. Noses are classified as the Roman, Greek, Jewish, Snub and Celestial. The eyes speak all languages, whether black, blue, brown or hazel. In a like manner, cheeks, neck, ears, hands, feet, walk, voice, laugh, etc., are shown to be 'signs of character.'

In no other work is so much light thrown upon the character and destiny of mankind as in this, or the distinctive traits of nations and, tribes so clearly pointed out. Portraits of distinguished persons of ancient and modern times, with biographical sketches and delineation of character, are given. Divines, Orators, Statesmen, Warriors, Artists, Poets, Philosophers, Inventors, Surgeons, Discoverers, Actors, Musicians, etc., are included. It is an 'Encyclopædia' of biography, acquainting the reader with the career and character of many great men and women of the past 1,000 years, and of the present—such, for instance, as Aristotle, Julius Cæsar, Shakspeare, Washington, Napoleon, Franklin, Bancroft, Bryant, Longfellow, Irving, Rosa Bonheur, Theodosia Burr, Cobden, Bright, Lawrence, Bolivar, Whately, Thackeray, Dow, Knox, Richelieu, Hopper, Buckle, Dickens, Victoria, Wesley, Carlyle, Motley, Mill, Spencer, Thompson, Guthrie, Alexander, and hundreds of others. AGENTS WANTED. Book sent by return post or express, on receipt of Price.

All or any of the above can be procured of the Publisher direct, or through the Agency of Mr. S. Black, of Kingston.

SPAIN AND CHILI.

The purposeless strife between Spain and the South American Republics seems likely to be renewed. The Spanish Government is preparing three vessels, one of them an iron-clad, to reinforce the Pacific fleet, which has rested at Rio Janeiro since its repulse at Callao. The Government arsenals also are employed in the manufacture of the munitions of war to be used against the South Americans. El Diario Espanol, an official organ, remarks:—'Thus we shall have in those seas seven frigates, which will repeat the same triumphs and gain the same laurels that were gathered recently in the bombardment of Callao by the valor of the sons of Spain. * * * * Supplied with provision and ammunition, and their crews refreshed, the Spanish squadron, reinforced with new ships, will return to the Pacific ocean.' Another ministerial journal says:—'The war has not terminated; it is only postponed, and will begin again as soon as the reinforcements arrive, which Gen. Mendez Nunez is waiting for in the Brazils.' So much for the Spanish side of the question.

Chilian and their allies seem equally anxious for more fighting. A Chilian paper after criticising the vessels lately purchased in the United States very severely, and declaring one of them fit for a despatch boat and the other no better than an ordinary transport, thus gives the reason for the failure to secure men-of-war:—

'The Government pleads the great difficulties within surrounding its agents abroad, especially in the United States. After numerous fruitless efforts of the Chilian agent in the United States to purchase the class of ships required by the Government of Chili, the latter found it compulsory to alter its instructions to its agent, and consequently commissioned him to send ships and guns, just what they may.'

It adds:—

'The situation of the Government is at present most embarrassing, as public opinions insist most imperatively on the continuance of the war; the Chilian press is unanimous for the further prosecution of the war, as being the only means of settling the questions at issue between the South American Republics and Spain. The news lately received from Spain is not calculated to inspire confidence, as it appears in the face of the declaration made in the Cortes that the Government did not intend to continue the war, and the Spanish arsenals are still fully employed, and the ships which retreated from the West Coast are assembled, some at Rio Janeiro, and others at Tahiti. We received intelligence on the 14th August from the Prussian barque J. G. Fornies, which sailed from Tahiti on the 3d July, that the Numancia, Berenguela, Vencedora, and the Maiquis de la Victoria were then at that island, had repaired damages, recruited the health of their crews, and were to sail for Manila on the 6th July.'

In obedience to public sentiment the Chilian Government is strengthening the fortifications of their cities, and procuring both by manufacture and purchase, guns and munitions of war. Forty guns have been purchased in the United States, some of them being 100 and 200 pounders, and the Government has been having large guns cast and 'hooped' in their own foundries. The South Americans are now far better prepared to resist the assaults of Spain than they were at the time they disabled the Spanish fleet. The means of carrying on war have been increased by both parties and the greater defensive power of the Chilians may be severely tested by the larger force which Spain will send to the attack. We shall hear more of these belligerents, now that the great European powers have assumed an attitude that promises tranquility, though no very lively interest will be excited by their movements.—Globe.

DORCHESTER STREET, MONTREAL, C. E., HOSPITAL OF THE SISTERS OF MERCY.

DR. RADWAY,—I certify that your *Ready Relief* has cured OVER ONE HUNDRED of our sick from chills, vomiting, headaches, internal pains, &c., &c.

One of our sisters had the Rheumatism in her head for a great many years—having taken a few spoonfuls of Relief in water, and rubbing her head twice with the same medicine, she was perfectly cured and never felt it since. I always use it for dyspepsia and for colds, and always with success. It is very useful for sore throats, coughs, influenza, diptheria, &c. It has a good effect in flatulence or wind cholic. I use it for foul breath and it produces a marvelous effect. In short it procures relief altogether remarkable to our invalids.

SISTER MARY DE BONSECOURS.

N. B.—Beware of counterfeits and imitations, have nothing to do with the dealer that will endeavour to persuade you to take some other in place of the Radway's.—The country is flooded with counterfeits and imitations of Radway's Ready Relief. Dealers purchase these worthless mixtures at less than half price they are charged for Radway's, yet charge the public the same price our agents sell you Radway's for. (Price 25 cents per bottle.) The imitations and counterfeits are sold at 5 to 10 cents per bottle to dealers; dear at that price. In purchasing Ready Relief, see that there are two signatures of Radway & Co. on the labels, and the words R. R. R. Radway & Co. blown in the glass. A MAN THAT WILL SELL YOU A FALSE MEDICINE will cheat you whenever he has an opportunity.

AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD,

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Scrofulous Humors, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 9th June, 1866.

J. C. AYER & Co. Gents. I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative Sarsaparilla, for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same, says he cures the common *Eruptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Rebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a tumor—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or White, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. S. Cunning, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for those female derangements."

Edward S. Marrow, of Newbury, Ala., writes: "A dangerous ovarian tumor in one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 20th August, 1859.

DR. J. C. AYER Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla. I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER, Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried everything, and everything failed to relieve me, and I have been a broken down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some
