NEWS OF THE DAY.

Brigade Field Day.—Inspection by Lieut.-Gen. Michel.—Yesterday morning Lieut.-General Sir John Michel, the Commander-in-Chief of the Forces in British North America, arrived from Toronto by the early train on his annual tour of inspection, having previously reviewed the regiments quartered in Toronto, Hamilton, London and Brantford. The troops in Kingston garrison accordingly paraded at nine in the morning at their separate quarters, and formed up in line—the batteries of Royal Foot Artillery on the right, supported on the left by the Royal Canadian Rifle Regiment—about ten o'clock on Barriefield Commons. In a very few minutes the General reached the ground, accompanied by his aide de camp, and was received by a general salute, after which he passed up and down the line, making a formal inspection. The Brigade then broke into open column right in front, and marched past in slow time only, an evolution in which both corps particularly excel. At the General's desire, the Brigade was drawn up in Light Infantry order, when a company was extended as skirmishers, advancing up the steep hill above the main road, whither the reserve or main body followed. They were retained for six hour in this position, firing and advancing, relieving skirmishers, preparing for cavalry, &c., when the Brigade re-formed, the Royal Artillery proceeding to their quarters at the Fort, and the Royal Canadian Rifles, headed by their band, marching back again to the Tete de Pont Barracks. General Michel expressed himself pleased with the general efficiency of both the Artillery and Infantry. Owing to the cold bleak wind that was blowing, and which was keenly felt on the open Commons, very few spectators were on the ground to witness the Review.

THE FENIAN TRIALS AT TORONTO.

COL. LYNCH PLACED ON TRIAL.

In the Court of Queen's Bench at Toronto on Wednesday commenced the first of the Fenian trials, before Mr. Justice John Wilson. The party arraigned was Col. Lynch. A great deal of time was occupied in selecting a Jury. The Crown Counsel opened the case in a very able manner, and the evidence adduced was very strong against the prisoner, a real live Fenian, one of the invading horde in June last, giving testimony sufficient at once to convict him. At six o'clock the case for the Crown was closed, when the Court was adjourned until the following day, the Jury being locked in. The defence will not amount to a row of pins. The Counsel for the Crown present were—Solicitor General Cockburn and Hon. J. H. Cameron, Q.C., and for Col. Lynch, Mr. Richard Martin, of Hamilton, and Mr. J. Doyle, employed by the American Government.

FORRESTER'S DRAMATIC TROUPE.

We have great pleasure in saying, that Mr. Showles, the Agent of Forrester's Dramatic Troupe, (recently from Quebec and Brockville) has succeeded in overcoming the obstacles to the renting of the City Hall for Dramatic Performances, and announces the first Performance of his Company for Monday Night next. Since the Forrester Troupe have been in Canada they have ever drawn crowded Houses. The Company is highly respectable, and the Pieces they play wholly unexceptionable.

The Quebec Fire.—Our reporter met the Sydenham Ward Collectors before noon yesterday, and their list already contained upwards of Six Hundred Dollars of Subscriptions. Well done, Old Sydenham! Mr. Carruthers of this sum contributed $250. Well done, Mr. Carruthers!

Distinguished Arrivals.—The following distinguished personages arrived here early this morning on the steamer 'Spartan,' en route to Montreal, being at present on a tour of pleasure:—Count Thun, Austria; Don Emilio Bravo, Espana; Don Juan Garcia; and Baron Matortie, Germany.

Centenary of Methodism.—A Report of the result of the collections taken at the centenary meetings has been published. Montreal, Great St. James' Street, contributed $1,400; Coburg is represented as good for $500; and Picton for the same amount. Hamilton has contributed upwards of $2,000; Kingston about $1,500; and Belleville nearly $1,000. Thus far, the expectations of the promoters of the Centenary Celebration are fully realized. The aggregate income will exceed $50,000. Thus far, all things considered, Kingston takes the lead in the benevolent enterprize.

Troops.—The Ottawa Citizen says that Col. Lyeons and other officers have arrived in that city, from Montreal, for the purpose of securing barrack accommodation for several companies of the 100th Regiment, shortly to be sent thither. The steamship 'Pennsylvania,' with the 100th on board, is already due at Quebec, being about 16 days out from Malta.

Northumberland and Durham Assizes.—The Court of Queen's Bench opened in Coburg on Tuesday. The Grand Jury found true bills against Edward Finton for murder, James Campbell, manslaughter, Robert Crozier, felony, Delos Brummell and Samuel Yarrow, larceny, and Henry McDonald, misdemeanor. The latter pleaded guilty, and was sentenced to pay a fine of $50.

Corporal Punishment.—We see by our exchanges that many of the late Grand Jury presentments recommend corporal punishment to be added to the sentence of the Court in certain cases brought before it. The suggestion is a good one, and in many instances will be beneficial to the general community.

Another Rifle Match.—The City of Kingston was shamefully beaten last year by the Township of Pittsburgh in the great Rifle Match. But the City is not contented to stay beaten; their Rifle Shots have had a good deal of practice recently, and they think themselves some pumpkins. So in all probability we shall soon hear of another Challenge and another Match between the City and Township.

Fenian Movements.—If the American papers are to be believed, President Roberts is not to be outdone by Mr. Stephens in regard to working or doing something for the freedom of Ireland, and his headquarters on Broadway are beginning to assume quite an animated appearance, and it is reported that another "on to Canada" movement is on the tapis, and that—like Mr. Stephens—Mr. Roberts is having queer uniforms, with silk facings, manufactured for the army of invaders. Col. Roberts denies the statement that the Fenians intend to accompany Santa Anna to Mexico. We cannot believe that the Province is liable to attack by another Fenian horde, this year at least, on account of circumstances being decidedly adverse to another armed invasion, and, therefore do not accept the above as truthful. However, in connection with the same, we give a report as it is received from the Eastern townships, that about a week ago, several Fenian officers of influence in the Brotherhood visited Malone and St. Albans, with the object of making arrangements for a gathering of some description.

Police Court, Thursday.—Two cases of drunkenness only were entered on the docket this morning—both old men. They were let off, in the hope that they would seek steady employment.

COMMERCE AND MARINE.

FRIDAY MORNING, OCT. 26, 1866.

MONTREAL MARKETS.

Flour—market firm; holders demand some advance, but buyers hold off. Wheat, good demand; U. C. spring ex cars $1,45 to $1,50. Peas wanted; good command at full rates, and now poor are taken freely. Oats and Barley, little doing. Butter dull, and only taken at a decline; poor quite unsaleable. Ashes—no buyers; pots quiet.

The discovery of gold in Madoc township was mentioned during the past summer. The Mercury of last week says that some of the broken rock or black sand in which the precious metal was found has recently been shown to its editor by Mr. Lyman Moon:—"He took this specimen out of the ground himself; and we should judge from its appearance that it is decidedly rich in the precious metal. The gold is scattered amongst the dirt chiefly in small flakes, and in more minute specks, but visible to the naked eye; and from a single spoonful Mr. Moon has picked out six grains weight of gold; and one little 'nugget' weighs a grain and a half. Mr. G. D. Rawe washed some of the dirt, and from about an ounce and a half, after being thus treated, he obtained near a pennyweight of flakes. These he subjected, in our presence, to the action of the blow-pipe, and as far as could be judged by sight, the result was a small quantity of gold of fine quality. Whether a sufficient quantity of gold will be found to pay for prospecting these new diggings is a question that remains to be solved.

The London Shipping Gazette has no apprehensions that England will not be able to import quite as much foreign grain as will be required for use; yet thinks it is obvious that, without increased supplies from the United States, they shall have strong, perhaps rising markets for several months.

An Unprofitable Venture.—One day last week a Hemmingford farmer, residing near the frontier, took over to the Moisers starch factory, on the other side of the line, a load of fifteen bushels of potatoes, somewhat damaged. On arriving at Moisers, he saw the U. S. Custom-House officer, Mr. Shedden, and asked what was the duty on potatoes? Mr. Shedden told him that the tariff was so voluminous and complicated that he could not carry all its details in his memory, and he really did not know what was the rate on the article in question, but he would let him know after consulting the tariff. The farmer went out to the starch factory, sold his potatoes for 20c a bushel, American currency, and returned to Mr. Shedden, who, having meanwhile posted himself on the subject, informed him that the duty was 25c a bushel, in silver currency. The Canadian had therefore to pay $3.75 in specie, besides $1.50 currency as entry fee,—altogether $4.50 to the American Government, for the privilege of selling the potatoes for an equivalent of about $2.00 in silver. He returned minus his potatoes, and with $2.50 less money in his pocket than when he left home. The result of his venture has not been of a nature to encourage his neighbors to sell their potatoes to Uncle Sam, while the American tariff remains as it is.—Montreal Witness.

PERRY DAVIS' PAIN KILLER.

From the reports of dealers in this city, we think no proprietary medicine has had a larger sale. Its valuable properties, as a speedy cure for pains, cannot fail to be generally appreciated, and no family should be without it, in case of accident, or sudden attack of dysentery, diarrhœa, cholera morbus; and even Asiatic cholera yields to its magic power. 253

Do You Skate?—It is a pleasant delightful and exhilarating exercise. Skate by all means; but if you should take cold, Dewas' Vegetable Balsamic Elixir will restore you to health. Henry's Vermont Liniment, taken internally imparts a pleasant and agreeable warmth to the system and wards off the attack of cold. Be prepared with these remedies, and always keep them in your house.—A bottle of each costs only 25 cents. Sold by druggists and dealers everywhere. 253

Every Family should have a case of Dr. Humphreys' Specific Homœopathic Medicines. They are simple, easily applied, harmless, and yet, in a thousand instances, they arrest disease, allay pain and suffering, save calling the doctor, and prove a friend indeed. The valuable service rendered immensely overbalances the small sum they cost. See advertisement. Address,

Humphreys' Homœopathic Medicine Co.,

Rev. Jas. Hoyt, Pastor First Presbyterian Church, Orange, N. J., writes—"I have used Mrs. S. A. Allen's Zylobalsamum or World's Hair Dressing with very great benefit in my family. Its cleansing and healing properties, removing dandruff, and giving the hair a natural and healthy tone and softness, surpass those of any preparation known to me." Sold by all Druggists. Depot, 193 Greenwich st., N. Y. 253

THE CRITICAL MOMENT.

In violent diseases instant help is needed. Asiatic Cholera or Yellow Fever, for example, may prove mortal within an hour, if not checked by a potent antidote. The first thing is to meet the immediate danger, and this can only be done by administering a remedy as sudden in its operation as the malady itself. Radway's Ready Relief is more active than the virus of the most swift and deadly epidemic. Faster than disease can mine it, countermines, soothing pain, suspending inflammation, neutralizing the poison of infection, and diffusing a new resistant power through the whole system. Thus the most malignant malarious fever may be held at bay, until there is time for an aperient and alterative to operate and complete a cure.—Break the strength of the disease with the Relief and you can then expel every relic of it from the system with Radway's Regulating Pills. 253

SIMILIA SIMILIBUS CURANTUR.

SLEEPLESS, CRYING, TEETHING CHILDREN.

All know how unpleasant are these accompaniments of babyhood, and most intelligent persons know, also, the sad consequences to to health, and often life, from the use of anodynes, cordials and similar baby doses used to quiet them. HUMPHREYS' SPECIFIC HOMEOPATHIC BABY'S PILLS (a pleasant sugar pill), which you may drop into the mouth at any time, give you everything to be desired from medicine. They calm excitement, allay the irritation of teething, relieve colic and bowel complaints, and produce natural and quiet rest, without the disadvantages of cordials or opiates. They have been used for years and approved by all who use them or abhor dosing.

IMPORTANT TESTIMONIAL.
FROM
J. E. GUILBAULT.

Montreal, Jan. 30th, 1866.

MR. JOHNSON BRIGGS,
Sir,

I have used your Proof, Velpani's Hair Restorative, having been troubled with an itching scalp and loss of hair.

A FEW APPLICATIONS OF THE RESTORER ENTIRELY CURED ME, AND STOPPED THE HAIR FROM FALLING OFF.

My family have also used it with great satisfaction, and I give it the preference over any other article I have ever used as a Cosmetic or Hair Restorer.

Yours truly,
J. E. GUILBAULT,
Proprietor Zoological Garden & Glacierum.

A FAMILY MEDICINE.

Davis' Pain Killer is a purely vegetable compound, and while it is a most efficient remedy for pain, it is a perfectly safe medicine, even in the most unskilful hands. For summer complaint, or any other form of bowel disease in children or adults, it is an almost certain cure, and has, without doubt, been more successful in curing the various kinds of Cholera than any other known remedy, or the most skilful physician. In India, Africa and China, where this dreadful disease is ever more or less prevalent, the Pain Killer is considered by the natives, as well as European residents in those climates, A Sure Remedy.

Few persons want any better authority; but as some may, just read the following:

Mrs. O. M. Devoe, manager of the Union Home School for Soldiers' Children, says she "has given it to the weak and invalid children under her charge with the most happy and gratifying results." We have received over a hundred testimonials of such certificates, but no advertisements is so effective, as what people themselves say of a good article. Our Joy is theirs and our reputation is at stake. The original quality and high character of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized beings. Beware of imitators! try to cheat us least of our stamp and style as they can, and because a good article cannot be sold as low as a poor one, they fine some pretext from parties who do not care what they sell. OVER A MILLION DOLLARS SAVED!

Gentlemen:—I had a horse was worth $1,200 who took cold from a heat, it laid his leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."

Montgomery, Ala., June 17, 1859. J. L. DOWNING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Sores, Rheumatism, &c., and all say it acts like magic."
J. W. HEWITT,
Foreman for American, Wells, Fargo, and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment."
Gloucester, Mass., Aug. 1, 1859. ED. SEKLEY.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is.—All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook Chemist, and the private U.S. stamp of Demas Barnes & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning grey and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

Who would not be beautiful? Who would not add to their beauty? What gives that marble purity and distinguished appearance we observe upon the stage, and in the city belle? It is no longer a secret. ANOTHER WONDERFUL CURE OF
CONSUMPTION
BY
THE GREAT SHOSHONEES REMEDY
IN CANADA.

Messrs. Y. & C.—Gentlemen: I, Wilson Storms, of Brighton, C. W., make oath and say:—I feel anxious to let you know what the Great Shoshonees Remedy has effected for me. My wife was afflicted with Consumption and died; I was also afflicted with the same disease, and after her death I continued sinking just as she had done. I had very severe Night Sweats; coughed nearly all night and every night; could not sleep unless a little towards morning; I raised over a quart of matter every twenty-four hours; had severe pain in the left lung, &c., &c., and was greatly debilitated. In fact I was going as fast as I could. I was taking medicine from a regular physician, but it did not even relieve my cough. I went to the village one day, about a quarter of a mile, which took me to go and come about two hours. While there I saw Esq. Wellington, and happened to say to him, 'I wish you could give me something to relieve my cough.' He said, 'There is a Great Indian Remedy just introduced; Dr. Barker has it for sale, and I believe it will cure you.' I took his advice, and brought a bottle home with me; took a tea-poonful at once, which I felt through my whole system. At night I took a tablespoonful and rested well all night, and continued to rest well every night. The Cough, Night Sweats, Raising of Matter, Pain in the Lung, &c., gradually left me, and I got hearty and strong. I took only three bottles. I am not taking it now, and I am as hearty and well as ever I was in my life. My sister-in-law was with me for a while, who was affected with the Liver Complaint. She has taken the remedy, and is well. This certificate you may show to the world if you please.
