NEWS OF THE DAY.

CONFIRMATION.—On Sunday morning at eleven o'clock, the Lord Bishop of Ontario administered the rites of Confirmation at St. Paul's Church, Queen Street, to about thirty young candidates. Afterwards he delivered an eloquent and impressive sermon to the children, enforcing on their young minds the necessity of adopting a course at the present golden moment to guide their future life, and ensure personal welfare and prosperity.

THE FENIAN TRIALS.—A military force is to guard the gaol of the Bedford District, while the Fenian trials are pending in Lower Canada.

CHAMPLAIN'S REMAINS.—The burial place of the lamented Champlain, at Quebec, was made known through the discovery of a breast-plate in an excavation made for a building, which bore the inscription of Champlain's name.

THE STAFF IN CANADA.—The Army and Navy Gazette understands that it is Major-General Stisted, C. B., who will succeed Major-General Napier on the Staff in Canada at the commencement of next year. General Stisted served with distinction in Persia, and through some of the most critical periods of the Indian mutiny, with the 78th Highlanders.

THE SNIDER-ENFIELDS.—These rifles, the arrival of which on Saturday was noticed, have been tested by some sergeants of the Royal Canadian Rifles, to which corps they are to be distributed, and found to prove highly satisfactory, from seven to ten shots, on account of the easy and rapid mode of loading, being fired within the minute. A plentiful supply of ammunition accompanied, and therefore everything is in readiness to serve them out to-day or to-morrow at the latest. The company ordered to Fort Erie do not leave until Thursday at the earliest. Another company is shortly to be despatched to St. Catharines.

CHANGE OF LOCATION.—A detachment of the 13th Hussars, one officer, and twenty-five men, left Toronto for Montreal on Tuesday night, by special train.

NEW BATTALIONS.—The formation of the following new battalions is authorized in Saturday's Official Gazette:—44th Welland battalion Infantry, headquarters at Clifton; 45th West Durham battalion of Infantry, headquarters at Bowmanville; 46th East Durham battalion of infantry, headquarters at Port Hope—To be Lieut. Col. (temporary): Major Arthur T. H. Williams, Military School, from No. 3 Company.

RELEASE OF FENIAN PRISONERS.

On Saturday night thirty-nine of the Fenian prisoners incarcerated in the old gaol at Toronto were discharged from that institution, the Grand Jury of the Assizes having brought a "no bill" in each and all of their cases. The delighted prisoners were immediately, on their release from prison, taken in charge by an officer and detached guard of the 17th Regiment; and, at ten o'clock at night, a special train being in readiness, they were put on board and conveyed to Suspension Bridge, where they were landed on American soil. Before their departure from Toronto, the prisoners extended to the gaol officials hearty thanks for their conduct towards them, and gave them three cheers.

ONLY JUST.—The Secretary of State for War has decided upon granting a substantial reward to the family of the unfortunate deceased Mr. Snider, the inventor of the new breech-loader. If the deceased public benefactor was badly treated in his lifetime, let not his family be in want now that they are thrown on their own resources, on account of his sudden demise, brought on, no doubt, by the troubles of mind he experienced in perfecting his invention, and his subsequent difficulties with the War Department.

THE LATE RAILWAY ACCIDENT.

CORONER'S INQUEST AT BERLIN.

On Saturday last a coroner's inquest was held at Berlin on the body of Mr. C. D. Weeks, who was killed by the accident on the Grand Trunk railway near Breslau on Friday. The jury was conveyed to the scene of the disaster in order that a personal inspection might be made by them, and an offer was made by Mr. Stephenson to secure the attendance of any of the passengers who were on the train at the time, whom the jury might desire, in order that the most searching investigation might be made. No blame whatever is attached to the company, or to the employes who were in charge of the ill-fated train. In fact it was one of those accidents which no human forethought can avert, and to which the trains on all railways are always liable. The jury returned the following verdict:—

"We find that the death of the late C. D. Weeks was caused by the accident which occurred to the express train going west, on Friday morning, the 16th inst., at about ten a. m., near Breslau station on the Grand Trunk railway; and that the said accident was caused by a broken rail. We further find, that, after full consideration of the evidence, in our opinion no blame is attached to the railway company in this case."

The brakesman Costello, who had a leg broken and his hand smashed by the accident, is progressing favorably at Berlin. Mr. Dufresne, the passenger from Quebec, whose leg was amputated on Friday, died on Saturday from the effects of the severe internal injuries. Many of the other passengers injured were ladies, but as their injuries were very slight they proceeded on their journey by the next train.

Quebec, Nov. 17.

The secretary of the Manchester relief fund telegraphed to the Mayor yesterday that 1,000 blankets would be sent out by the next steamer.

Elizabeth Long, Ellen Kelly, and Norah Conley, notorious vagrants, were self-expatriated, one being sent to Montreal by steamer, another, (Norah Conley) to the Island; and the third, to some other destination. Norah was before the Court on Saturday also, and was then sent off to the Island. She no sooner landed, however, than she secured a return passage, and came back to the city.

COMMERCE AND MARINE.

TUESDAY MORNING, NOV. 20, 1866.

THE STEAMERS.—The steamer 'Kingston' left on Saturday evening for Toronto, but on reaching the Scotch Bonnet, about 70 miles from port, found a heavy sea running, on which account she was obliged to head about, reaching port again during the night. She remained at her moorings the following day, and again proceeded upwards yesterday morning at eight o'clock. Finding the lake still very rough, and having a heavy cargo, she put back again in about two hours, failing to make her usual headway. The 'Passport,' going downwards, arrived an hour later, reporting heavy seas outside the harbor. The 'Magnet,' 'Champion' and 'Spartan' were reported on their way upwards yesterday.

THE 'OSPREY.'—The steamer 'Osprey,' which lately collided with the propeller 'Whitby' on Coteau Lake, pas ed up on Sunday night, bound to Hamilton. The meagre particulars that have been received relative to the collision, do not point out how the accident occurred. The 'Osprey' is slightly damaged. The 'Whitby' sank in less than twelve minutes in about twenty feet of water, all hands being providentially saved. She is owned by Mr. Proctor, of Hamilton, and, together with the cargo, grain for Montreal, was fully insured.

MARINE DISASTERS.—The barque 'Orion' lost her top-sail in the last gale; the schooner Carlton, her foreboom, the schooner 'Garibaldi' her main boom and fore-top sail, besides a deck load of 50 barrels of pears. All of these are now at Oswego. The schooner 'William Jones' capsized and sunk near Racine; total loss, but crew saved. The barque 'Champion' went ashore in Green Bay, Lake Erie, and is a total loss, with cargo of iron ore. The propeller 'Mary Stewart' ashore at Pentwater, has gone to pieces. She was owned by Chas. Mears, of Chicago, and was insured for $8,000. The schooner 'Arabia,' from Montreal, arrived at Chicago minus her mizen mast and main gaff. The tug 'Daisy Lee' towed the schooner 'J. Weller,' lumber laden, into Chicago, the vessel having been water-logged. The propeller 'Alleghany' had put into Milwaukee in a leaky condition. The schooner 'Tricolor' left Chicago on Sunday morning last, and when about ten miles out was dismasted.

WRECK OF A SCHOONER.—The schooner Bay Queen, of Hamilton, went ashore one mile west of Port Colborne on Saturday evening, loaded with wheat. The crew were saved after great exertions. The vessel was a total wreck.

LONDON MONEY MARKET.—The Bank of England rate of discount at four per cent. will, in all likelihood, be the minimum for the season. British foreign trade has this year exceeded that of any previous year, and it is also probable that the importation of bread-stuffs will be unusually heavy in consequence of short home supplies, owing to the continued wet weather at harvest time.

PETROLEUM AS STEAM-FUEL.—A most successful trial of petroleum as steam-fuel has recently been made on the Thames, England, Messrs. Barff and Sim's patent apparatus for burning mineral-fuel was fitted in a small steam yacht, the boiler used being of the ordinary multitubular construction, and the arrangement was extremely simple. Crude shale oil of the cheapest quality was used, it being converted into gas previous to burning.

AN ANTIDOTE FOR POISON.

"THE PAIN KILLER.—Rev. T. Allen, writing from Tavoy, Burmah, says:—'Within the past four years I have used and disposed of about five hundred bottles, but am now out. Please send me a fresh supply as soon as you can—say two hundred bottles. I dare not be without it myself and the urgent endless calls for it both by Burmans and Karens. I always take it with me into the jungles, and have frequent occasion to use it both on myself and others. One night while sleeping in an open Zayats, I was awoke by a most excruciating pain in my foot. On examination, I found I had been bitten by a centipede. I immediately applied the Pain Killer, and found instant relief.'

Rev. Mr. Hibbard, writing from Burmah to his father, says:—'I have used Davis' Pain Killer for coughs, colds, summer complaints, burns, and for the sting of scorpions, with uniform success. We always keep it where we can lay our hands on it in the dark, if need be.'

COSTLY TRIFLING WITH DISEASE!

Theodore A. Kendrick's statement: 'I was subject to periodical attacks of bilious colic. In the paroxysms I rolled in agony on the floor. Had paid upwards of three hundred dollars for advice and medicine without avail. Had also tried change without advantage. By recommendation of his medical attendant procured a bottle of Radway's Ready Relief. First dose stopped the torture; second dose produced a profuse perspiration. Next day, as suggested by the directions accompanying the Relief, took a dose of Radway's Regulating Pills to carry off the irritating humors and purify the secretions. Has not since had a return of the complaint. Resigns in Flatbush Avenue, Brooklyn.' Cost of medical attendance and inefficient treatment, three hundred dollars. Price of Relief, fifty cents, and Pills, twenty-five cents—seventy-five cents. Difference in favor of Relief and Pills, two hundred and ninety-nine dollars and twenty-five cents.

HOMŒOPATHY is no longer an experiment, fifty years of time and of triumphant success in every disease, and in all parts of the world have answered that question. It only remains to choose the best form of it. Dr. Humphreys' system of Specifics, for family use, divests the system of all intricacy and uncertainty, and affords a degree of positiveness decisive in results, not attended by any other mode. See advertisement in another column. Address,

REV. A. WEBSTER, Boston, Mass., writes—'I have used, through the advice of personal friends, Mrs. S. A. Allen's World's Hair Restorer and Zylobalsamum, for several months past, with great effect and entire satisfaction. I am now neither bald nor grey; my hair was dry and brittle, but has regained the softness of its earlier years.' Sold by all druggists. Depot, 193 Greenwich st., N. Y.

'IS ITS REPUTATION ESTABLISHED?'—You have a right to ask that question. Not only have you the right, but it is unquestionably your duty to yourself and to your family to do so. Downs' Vegetable Balsamic Elixir has been a standard medicine for more than thirty two years. Henry's Vermont Liniment has been winning its way to public favor for the last ten years, and the Odous Kalluntorios has received the unqualified sanction of all the leading dentists in Montreal. 257

Sickness is an affliction that waits on us all. None are exempt and there are none but need relief from attacks. Whoever can furnish this becomes our benefactor. A conviction prevails that Dr. Ayer does it. Disorders of the blood have been healed by his Sarsaparilla, and affections of the lungs by his Cherry Pectoral, too frequently and too distinctly to be disputed. His Ague Cure is said, by those who use it, to never fail. Reader, if you must have medical aid, take the best of medicine. Poor remedies are dear as good are cheap, at any price you have to pay for them.—[Charleston Courier. 260

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair soft and glossy.
It prevents hair turning grey and falling off.
It restores hair upon premature bald heads.

This is just what people's hair wants, and is the prettiest hair preparation ever introduced. It is the only article in the hair line, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
