From the wide basis on which the Colonial Life Assurance company has been established, from the extensive field of business which it is continually receiving, and from the success which has attended its operations, the Directors do not think they overestimate the advantages of the Company, in stating that its office affords so many facilities, and at the same time holds out the prospects to so many advantages to assurers.

The last investigation and division of profits took place as at 20th May 1854, and the addition to policies was at the rate of £2 per cent. per annum of Reversionary Bonus, as shown in the following Table—the examples being policies of £1000:—

Policy Opened before.	Original sum assured.	Bonus additions.	Total.
25th May 1847	£1000	£160	£1160
