From the wide basis on which the Colonial Life Assurance company has been established, from the extensive field of business which it is continuing to draw from the success which has attended its operations, the Directors do not think they overrate under the advantages of the Company in saying that its office affords so many facilities, and at the same time holds out the prospect of so many advantages to assurers.

The first investigation and division of profits took place as at 20th May 1854, and the addition to policies was at the rate of 22 per Cent. per annum of Reversionary Bonus, as shown in the following Table—the examples being policies of £1000.—
