GREAT BRITAIN.

On Monday, April 26 in the House of Commons, General Peel said that every item of the expense incurred by the extra service in India would be defrayed by the East India Company.

The Chancellor of the Exchequer moved that the House on the following Friday, resolve itself into a committee to consider the bill providing for the government of India.

He contrasted the provisions of the bill introduced by the present Administration with those of Lord Palmerston's bill, giving preference of course to the former, and urged the House to dismiss all party feeling in the discussion of the series of resolutions on which a new bill was to be based.

Lord Palmerston contended that the proposed Council would not be the government of India, but only the adviser of the Minister of the day, and it would be absurd to apply to it the elective principle. The first thing to be provided for was the protection of the people of India from the errors of the Home Government. The second, that no wars in the East, like that in Persia, should be entered upon without the knowledge and sanction of Parliament.

There was considerable discussion on the subject. Colonel Sykes and Sir H. Verney thought it unwise to legislate for India while the country was at war. Mr. Gregory moved in amendment, that it is not expedient to pass any resolution at this moment for the government of India. Mr. Ewart seconded the motion. Lord J. Russell said the object of the amendment was to prevent legislation of India during the present year, and the honourable gentleman should first have given notice of such an important proposition. Mr. Mangles opposed both bills but gave his preference to that of the present Government. Lord Goderich said he would reserve to himself the right of moving on Friday as an amendment, that the mode of procedure should be by bill and not by resolution.

Mr. Gregory withdrew his amendment, and the original resolution was agreed to. The committee of supply was postponed until Wednesday. On the second reading of the excise outies bill Mr. P. O'Brien opposed the increase of the spirit duty in Ireland, and moved as an amendment that the bill be read a second time that day six months. Sir Extendle seconded the amendment. After a short discussion, confined to the Irish members, the House divided, and the amendment was negatived by a majority of 227 to 35. The bill was then read a second time.

DR. SANFORD'S LIVER Invigorator

It has become an established fact that Dr. Sanford's Invigorator will cure Liver Complaint, Jaundice and general debility. Many people, personally known to us, whose word cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt?

It is truly the invalid's friend, and will give relief when all other remedies fail, and in some instances that have come under our observation it seemed the means of snatching its victim from the grave. We wish all our readers who need medicine would try one bottle, for it will surely give relief.—True American. 252

THIS COMPANY is established at South Quebec, for the purpose of connecting the Transit Commerce of the Port of Quebec, and the Grand Trunk Railway, with ocean Steamers, and the important and increasing Ocean, Lake, and River steam traffic.

The Company provides deep water Wharves for Ocean Ships and Lake and River Craft, with suitable Storage for Flour, Grain, Ashes, Timber, Iron, Coals, Salt, &c., &c., in immediate communication with the Grand Trunk Railway Station at Point Levi.

The Establishment is situated between the Passenger and Goods Depot of the Railway, affording all the security of enclosed Docks and Warehouses.

The Company have four thousand feet of River frontage, with a Timber Cove capable of holding six millions feet in the Raft; where vessels of any class can moor in safety out of the influence of the strong tides, sheltered from the effects of those periodical easterly gales which so frequently cause damage to Shipping on the North side of the St. Lawrence.

Railway Turntables and sidings on the Company's property will enable Goods and Produce to be transferred direct from the Railway Cars and Shipping, and vice versa. Steam Elevators, Cranes, &c., &c., will also be provided for the expeditious and economical loading and unloading of the same.

The site is so commodious as to leave no reasonable doubt that the undertaking will yield a high remunerative return.

Detailed Prospectuses, and every requisite information may be obtained upon application at the Offices of the Company in QUEBEC, or at their Agencies in MONTREAL, TORONTO, CHICAGO, and HAVRE.
