Parents! Guardians! Mothers!

Will you take heed! Have you a son or daughter, brother or sister, or have you a neighbor afflicted with that scourge to humanity, intestinal worms?—if so (and we know you have,) for the sake of suffering mankind insist on the use of FELLOWS' WORM LOZENGES!

First—Because they are effectual.
They never fail in expelling Worms whenever they exist in the stomach and bowels.
Second—Because they are harmless.
A whole box may be given a child a year old without harm, yet one Lozenge often produces wonderful effects on grown persons. They contain no calomel, or any other mineral or poisonous substance.
Third—Because they are pleasant.
No child will reject them but will beg for more, and they will not nauseate, purgate, or debilitate.
Fourth—Because nothing can be said against them.
Fellows' Worm Lozenges is the only Worm remedy in existence combining harmless qualities with delicious taste and amazing power.
Price 25 cents per box; five boxes for a dollar.
Sold by all Apothecaries and Country Traders everywhere.

Dalley's Magical Pain Extractor.

In all diseases inflammation strikes at the root of disease—begun an immediate cure.
DALLEY'S MAGICAL PAIN EXTRACTOR,
and nothing else, will allay inflammation at once, and make a certain cure.
DALLEY'S MAGICAL PAIN EXTRACTOR
will cure the following among a great catalogue of diseases: burns, scalds, cuts, chafes, sore nipples, corns, bunions, bruises, strains, bites, poison, chilblains, boils, scrofula, ulcers, fever sores, felons, ear-ache, piles, sore eyes, gout, swellings, rheumatism, scald head, salt rheum, baldness, erysipelas, ringworm, barber's itch, small pox, measles, rash, &c., &c.

To some it may appear incredible that so many diseases should be reached by one article; such an idea will vanish when reflection on the nature of ingredients, each and every one applying a perfect antidote to its opposite disorder.
DALLEY'S MAGICAL PAIN EXTRACTOR.

The effects is magical, because the time is so short between disease and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, workshop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has my name on a steel plate engraving, with the name of Henry Dalley, Manufacturer.

THE amount required by law having been subscribed, this Company is now receiving applications for insurances against loss or damage by fire on all kinds of Farm Property, isolated buildings, and such other as the Board of Directors may deem eligible.

The rates of insurance are as low as are consistent with safety; and it will be the bounden duty of every member being interested in the profits and success of the Company, to guard and protect it against fraud and misrepresentation, and to forward its interests.

By Act of Parliament, 18 Vic. cap. 120, no member of this Company is liable for any sum beyond the amount of his premium.

The difficulties which other Mutual Companies have had to contend with, have, by recent enactments of the Provincial Parliament, and by the rules and regulations of this Company, been obviated.

Farm property and isolated dwellings will be insured for a term not longer than three years. The premium will be paid by note, one-third only of which will be required in cash as payment thereof; the balance, or any part thereof, to be paid only when required to meet losses.

City, Town, Village and Personal Property will be insured for a term not longer than one year, nor less than one month, and the whole premium must in such cases be paid in cash.

Insurers for three consecutive years, who shall not themselves have a claim, shall be entitled to a share of the profits which may have accrued, after first providing a suitable reserve fund. Their shares of the profits to be deducted from the next subsequent premiums.

To the Electors
OF
CATARAQUE DIVISION.

GENTLEMEN,—

The writ for the election of a Member to represent Cataraque Division in the Legislative Council has issued, and the nomination will take place almost immediately.

Having been solicited by requisition from many of the most respectable and influential inhabitants in the constituency to come forward as a Candidate, I consented, and have been in the field since January last.

Having been born in the Division, and having lived amongst you nearly all my life, I have the pleasure of knowing very many of you personally, and most of you by reputation. On several occasions you have done me the honor of electing me to positions of public trust, and have had the kindness to intimate, that, to the best of my ability, I endeavored to do my duty. Nearly all I am possessed of is vested in the Constituency, and all my sympathies are bound up in it; therefore, no less my advantage than my gratification may be taken as a guarantee, that I will strive faithfully and energetically to fulfil my trust, should I become your representative.

The test for a Lower House Candidate should strictly be those political questions which may happen to occupy for the time the attention of the public, the probabilities being, that when these questions are disposed of, or even before, he may be required again to appear before his constituents; but it is different with the Upper House.

By our Constitution the Legislative Council was intended to act as an arbitrator between the People and the Crown—to moderate the exactions of both, and reconcile their differences as far as possible. The members were chosen for merit, vested interest in, and devoted attachment to their country—the partisan spirit was not intended to be its governing element. And for the purposes of carrying out this intention as fully as possible, the qualifications and elections of members to the Lower and Upper House have been made as different as possible. For the former, the candidate need be possessed of only £500 of real estate, situated in any part of the Province; the latter must have at least £2000 of like property, located within the Division which he desires to represent. He must be at least 30 years of age instead of 21, as for the Lower House. He is elected for eight years instead of for four years; and different Lower House constituencies, or parts of constituencies, are amalgamated for the purpose of returning a member for the Upper House, in order that the prevailing influence in any one constituency shall not be permitted to overrule the others. If both Houses were to be partisan, the greatest danger would exist of their constantly coming in political antagonism with each other. Or, if the composition of both Houses was intended to be the same, why the necessity of the two? Let those who desire advancement, as the would-be representatives of a mere sect or clique, go to the Lower House—the legitimate arena in which their merits will be appreciated and their partizanship be recognized—but let them not obtrude such unseemly strifes upon the Upper House.

However, it is the duty of a Candidate for the Legislative Council to give expression to his views relative to the various political questions, for the time being, before the public, and this I unhesitatingly have done and shall do at the various public meetings which I have held, am holding, and shall continue to hold, throughout the Constituency.

But as I have not been enabled to canvass the Constituency as thoroughly as I desired, and as many of the electors may not find it convenient to attend the meetings yet to be held, I beg to say that my views with respect to the political questions at present before the public are—

That I cannot but strongly disapprove of the conduct of the present Ministry in returning to office by means of a legal stratagem, thereby evading an appeal to their constituents for approval.

I shall urgently advocate an abolition of the monopoly of the Hudson's Bay Company.

I am in favor of Representation by Population, but believe that in order more effectually to obtain this desirable result, that the endeavor should be to accomplish it in a conciliatory, equitable, and practicable manner.

So likewise with respect to the Common School question; I am of opinion that through the instrumentality of a Legislative Commission composed of the ablest, least prejudiced, and most practical men of the country, that a system of public instruction might be devised which, while it would further the great object of Education, would be acceptable to all classes of the laity, and would be unobjectionable to the clergy.

I shall, as I always have done, urge a Protective Tariff for Canadian Mechanics.

And as the question of the Seat of Government has been declared an open one, I shall continue my endeavors to have Kingston made the Metropolis.

'Canada,' our beloved country, my native land, shall be my motto; and I respectfully point to my past public actions as a criterion to judge of my future conduct, should I be elected your representative in the Legislative Council.

I am, Gentlemen,
Yours faithfully,
O. S. GILDERSLEEVE.

PERUVIAN SYRUP;
OR, PROTECTED
Solution of Protoxide of Iron
Having successfully passed the ordeal to which new discoveries in the Materia Medica are subjected, will now be received as an established Medicine.
ITS EFFICACY IN CURING
DYSPEPSIA,
Affections of the Liver, Dropsy, Neuralgia, Bronchitis and Consumptive Tendencies, Disordered state of the Blood, Boils, Scurvy, and the penetrating effects of Lead or Mercury, General Debility, and all Diseases which require a
TONIC AND ALTERATIVE MEDICINE
IS BEYOND QUESTION.

THE proofs of its efficacy are numerous, its well authenticated, and of such positive character that sufficient reason remains for hesitate to receive the proffered relief.

The Peruvian Syrup does not profess to be a cure-all, but its range is extraordinary, because many diseases, apparently unlike, are intimately related, and proceeding from one cause, may be cured by one remedy.

The class of diseases to which the Syrup provides a cure, is precisely that which has often baffled the highest order of medical skill. The facts are begotten, the witnesses are accessible, and the safety and efficacy of the Syrup unimpeachable.

Those who may wish for testimony from disinterested persons respecting the efficacy of the Syrup, need but be acquainted with the following, among numerous testimonials in the possession of the Agents. The signatures are those of gentlemen well known in the community, and of the highest respectability.

CARD.

The undersigned having experienced the beneficial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public.

From our own experience, as well as from the testimony of others whose intelligence and integrity are disputed by none, we have no doubt of its efficacy in cases of Indurated Glands of the Lungs and Bronchial Tubes, Dyspepsia, Dropsy, Scurvy, Rheumatism, &c. Indeed, its effects would be incredible, but from the high character of those who have witnessed them, and have volunteered their testimony as we do now, to the genuineness of the report.

CERTIFICATE OF DR. HAYES.

It is well known that the medicinal effects of Protoxide of Iron is lost by every a brief exposure to air, and that to establish a solution of Protoxide of Iron, without further excitation, has been a great desideratum.

The Peruvian Syrup with definite purpose attained the consummation in a way never unknown and this fact alone may approve all the powers ascribed to it. Yours, &c.
