RAILWAY ACCIDENT AT SHERBROOKE.—The Montreal Herald says—A singular accident occurred at Sherbrooke. When the the Portland train was expected in, a snow plough was despatched across the bridge, which spans the St. Francis at that place, drawn by an engine before, and propelled by a second engine behind. Soon after they had left the station, one of the men employed there came running back, saying that the bridge was broken, and this turned out to be the case. The bridge was broken, short off in the middle. The most remarkable part has still to be told. The snow plough and the hindmost engine were precipitated through the chasm into the river, but though there were three men on the second engine, they were fortunate enough to escape unhurt. The first engine had crossed the danger. The drivers, it appears, heard something that alarmed him on getting upon the bridge, and put on steam so rapidly as not only to drive his engine over the part about to give way other hand, but to jerk the couplings asunder for this latter piece of good fortune, the engine would probably have been dragged down by the weight of the snow plough, and the following engine. But while the men who were thrown down through the break escaped with a few bruises, a man on the engine which escaped was unfortunately killed. The same jerk which broke the couplings, threw him down between the foremost engine and the tender, so that the wheels of the latter passed over his body, and of course killed him on the spot. It seems to be a Providential circumstance that the mischief was before the Portland train came up; otherwise it is to be feared that a much greater loss of life would have resulted from it. The Portland train was, of course, stopped on the east side of the bridge, and the passengers brought across the river, and put into carriages on the western side.

LOST OVERBOARD.—On Tuesday night, John Kane, an pugnilist Jefferson, when on her passage to Detroit, and in sight of Malden Light was missed from his watch, and it is of course certain that he was lost overboard, though in what manner can only be conjectured. His absence from watch was first noticed when the steam began to run down. He had been on the vessel nearly seven months, was steady, and was regarded as an efficient man—aged 23 years, English, and has an uncle living at Kingston Mills, about five miles from Kingston. —Cleveland Herald.

TERRIBLE GALE—PERILOUS CONDITION OF A CREW.—The schooner W. J. Wheeling, Capt. Vance, passed down last evening, from Milwaukee, Capt. V. reports very severe weather on Lake Huron. On Monday evening, while running under a very reefed foresail before a heavy sea western, he saw a large black schooner completely dismasted, and of course unmanageable, tossed about at the mercy of the winds and waves. She was about thirty miles northeast of Point aux Barques, and about six miles off the track of the Wheeling. Capt. V. describes her rigging as almost as a solid sheet of ice, and thinks the crew in danger of freezing to death.—Owing to the extreme violence of the gale, he was breaking over his own vessel, he was of course unable to find any assistance.

Capt. Vance supposes that the schooner in question is the Invincible, from the fact that he had seen every other vessel at Old Mackinaw that had gone out. The Invincible is the vessel that recently suffered by collision with the Steamer Prairie State. She was repaired and refitted at Newport, and left the latter place for Milwaukee last Saturday. She seems to have a remarkable run of bad luck. She has on board goods to the value of about $120,000, which are probably insured, for the most part, in New-York or Buffalo. The hull is insured in the Buffalo Mutual, Home and Etna.

The tug Oswego, Capt Kimball, fired up and left to-day at two o'clock to unfortunate the recovery of the vessel and crew.

Capt Vance reports a considerable fleet of upward bound vessels under Old Mackinaw, waiting for the gale to subside.—Detroit Tribune.

MURDER AT PORTAGE DU FORTE.—One of those revolting tragedies which but too frequently disgrace humanity, occurred at Portage du Forte on the evening of Thursday last. We are not in the possession of the full particulars of the case, but have heard various versions of it. It would appear that a Patrick Corrigan entered the saloon of Mr. Samuel S. Smith late in the evening of the above day, and demanded liquor, which Mr. Smith refused to give—after some words Corrigan took up a chair and knocked Mr. Smith down, and then getting hold of an axe handle, laid on him, until he knocked his brains out. Mr. Smith was highly respected. The Murderer has been apprehended and is safely lodged in Aylmer Jail.

THE MASONIC BALL AT TORONTO.—The Masonic Ball is fixed to take place on the evening of the 13th of January, at the St. Lawrence Hall. It will be under the patronage of the Grand Master, who will be personally present in his magnificent regalia. The brethren will also all appear in Masonic costume. We do not know how it is, but the Masons when they get up a celebration, have a way of managing it very much better than any other body, and many a gala will become brighter after reading of announcements that the brethren of Toronto are to give a grand ball on the next. It will be the ball of the

R. R. R.

LET not the sick die! for in Radway's R. R. R. Remedies there is one balm for all who have faith in them.

LET THEM BE TRIED!

RADWAY'S METHOD OF CURE IS SIMPLE, QUICK, SAFE AND EFFECTUAL.

There is no pain, however intense or excruciating, but that a single application of Radway's Ready Relief will immediately stop and quickly allay the most violent pains, inflammations and congestions. There is no disease, however long it may have become established in the system, whether constitutional, chronic, hereditary or of a loathsome character, but that Radway's Renovating Resolvent will exterminate and infuse new life, new blood, and a new existence throughout the broken down and emaciated organizations of the body.

If by inoperating or otherwise the organs of the system become disarranged and incapable of performing their several functions;—if the Liver, Heart, Bowels, Stomach, Bladder, Kidneys, Skin, Nerves, Blood, etc., are at fault, a dose or two of Radway's Regulators will restore health and regularity to every organ throughout the body. They force each and every organ into the natural performance of its duty, and thus keep up a regular and healthy circulation of the blood.

If a dose of Radway's Regulators were swallowed the moment a person feels unwell, or when any unpleasant symptom appears, there would be no further trouble, for the diseased action would be arrested, and a healthy action re-established. On one fact the sick may depend—that disease cannot grow in the system fortified and under the influence of the R. R. R. Remedies.

MALARIA.

In countries where malarious diseases prevail, Fever and Ague, Dysentery, Cholera, Cholera Morbus, Typhoid, Typhus, Pneumonia, and other Malignant Fevers, Radway's Ready Relief, taken as a preventive, will securely protect the inhabitants as an infallible distrust against any serious attacks; and if the infection has already spread, a prompt use of the Ready Relief and Regulators will quickly cure the patient and expel the infectious malady entirely from the system.

CONSTITUTIONAL DISEASES.

MANY diseases that afflict humanity are inherited as hereditary from the diseased habits of sickly sires. Scrofula, Consumption, Syphilis, Piles, are among the most common of constitutional diseases. Now we care not how many generations the seeds of these diseases may have been established in the system, corrupting the blood—Radway's Renovating Resolvent will eradicate from the habit of the afflicted every particle of diseased deposits, and fill the veins with new, pure and healthy blood.

Radway's Renovating Resolvent should be hailed as a blessing by every mother throughout the land whose infants are afflicted with Sores, Humors, &c. These breakings out (than early) are evidences of disease transmitted from the parent stock. A few doses of the Renovating Resolvent will eradicate every vestige of the disease and insure the child a sound and healthy body.

"Insane Croup, the cause of such a great mortality among children. No mother should be without a bottle of Radway's Relief in the house."—

Collingwood, C. W., June 1st, 1857.

Messrs. Radway & Co.:

Gentlemen—A child of mine, about eight weeks old, was taken with a very severe cold. Not being attended at once, it settled on the chest, and ultimately turned into Croup in its worst form. The best medical practitioner in the town was called in, and after doing everything in his power to relieve her—but all in vain—then gave her up as dead. I now took her in hand myself, and rubbed her chest and back with Radway's Relief thoroughly; when, in the course of a few hours, she was well again, and now is as well and hearty as a child could be.

I am, Gentlemen,
Your obt. s'vt.,
JOHN HOGG,
Editor and Proprietor Collingwood "Enterprise."

Mr. Hogg in conversation likewise informed Mr. John P. Moore, our traveler, that it cured his wife of a severe sprained ankle, occasioned by her falling down a flight of stairs.

John McWhinney, Esq., the well-known editor of the Woodstock "Sentinel," likewise informs us that he was laid up for weeks with Inflammatory Rheumatism.—The Doctors could not assist him, but Radway's Relief cured him.

Important to Ladies.

DANGER OF LEAVING RED TOO SOON!

Dangerous Condition of the Wife of the Deputy Sheriff of Frontenac Co., C. W.

KINGSTON, Frontenac Co., C. W., June 24th, 1857.

"In October, 1855, my wife giving birth to a child, left her bed too early, and caught a severe cold, which promised to terminate her life. The best physicians in this neighborhood and Kingston were in attendance on her, but all to no avail—the Doctors had given her up to die. For seven consecutive weeks I sat at her bedside, momentarily watching to see her breathe her last. I happened to see a copy of your paper, called "The Moving World," and there read of your medicines. I resolved to test them as a last resort. I gave her the Resolvent, with the Regulators—and Relief—according to directions, and in three days OBSERVED A WONDERFUL IMPROVEMENT. From this she daily recovered, and is now thank God, better than ever she was in her life.

"The child, when three months old, caught a bad cold, and dwindled away to a mere skeleton, nothing but bone and skin; his eyes protruded from his head, as if they would drop out. The physicians all united in saying there was no use in attempting to save him; his case was hopeless, as he was too young and must die. But I thought different. Your Remedies gave life to my wife, while the doctors gave her up to death. I again had recourse to them. I gave him the Resolvent internally, and used it as a wash externally to his eyes—he is now a laughing, hearty, prattling child, enjoying the best of health.

"Your most obt. and grateful servant,
"RICHARD GRIFFITH,
"Deputy Sheriff, Frontenac, Co., C. W."

Radway's Renovating Resolvent is for the cure for all diseases of a chronic, constitutional, or scrofulous character, skin eruptions, tetter, salt rheum, ulcers, &c. These remedies are pleasant to take, quick in action, and safe. No injury can result from their use. Let the sick give them a trial.

'LITTLE GIANT.'

Corn and Cob, Pea and Oat Mill!

THIS MILL combines in a remarkable manner, SIMPLICITY and POWER and may be adjusted and put into operation by any person, (no matter how ignorant he may be of machinery); while its efficiency, as a

Corn and Cob Crusher,

surpasses anything of the kind in existence, and fully warrants the unique appellation of the "Little Giant."

This crusher is adapted not only to the grinding of Ear Corn for feed, but also to the cracking of Corn, Peas, and Oats, together; in which it is unrivalled.

The economy of grinding up cobs with corn, is hardly now an open question. Full experiments have been made, and the results frequently published. It is not pretended that the cobs are rich in the element of nutrition, compared with the grain, but they have been found to yield spirit or distillation, a proof that they are far from valueless, and also answer admirably the purpose of procuring the necessary distention of the stomach, and promoting digestion.

The "Little Giant" is of two sizes, costing respectively $40 and $60. It will turn out, according to size, from ten to twenty bushels an hour and do its work most thoroughly and satisfactorily!

These Mills are to be had in all the principal Towns in Canada.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two cases, (both blonde humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst ache in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure the hoarse in the throat.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of Rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Chatham, N. H., Dec. 15th, 1855.

Dr. Kennedy—Dear Sir: In hopes to be a benefit to my fellowman, I write to you what your Bio-medy has done for me.

In December, 1852, I was taken with the Rheumatism; since then I have suffered every thing but death for fourteen years.

I have paid $200 to different doctors, and never received any benefit, not even to the amount of one dollar.

Last June I heard of your Discovery. I told a man I would try it. He said I had tried everything and there was no help for me, I was so old, being 78 years of age. He was a good doctor, so called. I told him nothing ventured nothing made.

I got one bottle of your Discovery. Before I got it I heard the clock strike every hour for five nights. On the fourth night I took one spoonful, and the next morning I was in no more pain—no more than a child two years old, and have been gaining ever since. I am now, Dec. 15th, 1855, on my seventh bottle.

When I first took any of it I had to walk or hobble on two crutches; this day I can go and have gone over the floor without any crutch or cane, but I am yet weak in my hips; but I feel better every bottle I take.

If I had a sheet four feet square, it would not hold one half I could write. Had I the voice to be heard from the North to the South pole, I would proclaim it as long as I live. If it cures me it will any one in God's world.

You would not believe how much better I feel. Pain now almost a new man made out of an old one.

There have been over 200 people to see me since I began to recover,—they are surprised. One man said, if all the men in Chatham had told him what his eyes now saw, he would not have believed them; but he must believe his own eyes.

CURE OF A HUMOR OF 14 YEARS STANDING.

Mr Kennedy—Dear Sir: I address you with feelings of heartfelt gratitude for the wonderful cures your Medical Discovery has done on me.

For fourteen long years I suffered with a humor of the most distressing kind. It would break out, covering my body with sores and blotches, out of which oozed thick yellow matter, of the most offensive kind. I was an object of disgust to myself and every body else. When it began to dry up a little, it would irritate and scratch. I often felt that I could tear flesh off the bone; in this state I suffered during those long years, discouraged and despairing of relief. Every winter the skin came off my face and the hair of my eyebrows came out by the roots. My care looked like roasted meat, dry and black as a crisp, that I was an object of pity to all that knew me.

When I look back upon it I can hardly think that I am myself. When your Discovery first came to Maine, I looked upon it as a humbug and set myself against it; after a few months I heard of so many wonderful cures by it, that I concluded to try once more. I could hardly believe it when I was getting better. You will excuse me when I tell you that I was the last to believe it. It seemed so impossible that I could be cured.

I took in all five bottles. I am now as well as I ever was in my life.

BENJAMIN SMITH, Athens, Me.

Charlestown, March 22, 1855.

Mr. Kennedy:—Respected Sir—It is now two years since I began to use your Discovery, and feeling that my health has been greatly improved by the use of it, deem it my duty to inform you how much I prize your valuable medicine. I had for a number of years been troubled with the Erysipelas, and having used a great many advertised medicines without success. I had almost despaired of ever recovering from the disease, when one day a friend gave me one of your Circulars, and after perusing it, I resolved to embrace the first opportunity I had in purchasing two bottles of the medicine. After taking it, I found my health was improving; and since then I have continued the use of it in my family. It gives me great pleasure to certify to this, and it is my impression that through your instrumentality a great deal of human suffering will be relieved.

I am, dear Sir,
Very respectfully yours,
JOS. T. HART.

Boston, Dec. 2, 1855.

Mr. Donald Kennedy—Respected Sir: The free hopeing of a man who has been restored from sickness to perfect health, in gratitude to the hand that has heated him.

Although personally you are unknown to me, and this correspondence is unsolicited by you, still I feel it a duty I owe to you as the discoverer of the "Medical Discovery," and to the public generally, to make a fair statement of my experience in the use of your valuable medicine.

At the commencement of the present year, and indeed for some months previous, a terrible Scrofulous humor broke out upon my neck—large swellings formed, so that my neck and face presented an even surface. I was then at Lowell, Mass., and mentioning of your "Medical Discovery" I purchased a bottle. I felt that it was blistering me, and upon using a second bottle found myself perfectly cured. All I can say is, that wherever I was (as now I am well) in all grounds, I remain, yours truly,
