BRITANNIA LIFE ASSURANCE COMPANY.

No. 1, Princes Street, Bank, London.

CAPITAL, ONE MILLION.

INCORPORATED BY ROYAL ACT OF PARLIAMENT, 4 Vic. Cap. 3.

THE great increase that has taken place in Europe, and the uniform Policies, issued by the different Agencies in Canada, sufficiently show that the advantages of Life Assurance are duly appreciated there and were approved by those who had the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.—The rates of the Britannia are the lowest, which can be offered consistently with security to the Assured, and the subscribers have responsibility to widen the attention of the inhabitants of Kingston, to the numerous Tables of Rates, specimens of which may be seen at his office, or in the Montreal Herald, Montreal Gazette, and Montreal Courier on also in several papers in Upper Canada.

Assurances may be effected quarterly, half-yearly, or annually, payable at the Agent's office, or at the residence of assured, or by the agent, where the party has all interest in the life of another, so as to be in no way involved in the event of his decease. To creditors, a Policy of Assurance affords a certain, and, in many cases, the only means of security. Also in addition to the published terms, an extensive set of Tables has been compiled for Assurances on short lives, the survivor of two or more lives, and for contingent Assurances; also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency of human life, against which it may be prudent or expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE PHILADELPHIA OFFICES:

Rate for one year, (which is half the Assurance of £100):

National Loan Fund ..... age 30	£2	4	4
Colonial Life Assurance Comp'y do.	2	5	2
United Kingdom ..... do.	2	3	10
Royal Commercial ..... do.	2	1	10
Equitable ..... do.	2	1	2
Britannia ..... do.	2	0	8

The other Offices doing business in the Colonies are so much higher, that comparison is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may share for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the business, hold out a very safe and profitable investment to the person wishing to Assure.

All claims payable within twenty nineteen after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, unless under any circumstances he otherwise valued in questions. Policies effected by persons on their own lives are not vacated, will be paid at death by dwelling on the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the refunded of Premiums received thereon will be claimed by the family of the Assured.

The subscriber begs to remark, that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal, and prompt in the settlement of claims.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

To the
Artist, the Amateur, the Manufacturer, and all who desire beautiful

WORKS OF ART.

THE Proprietors of the Art-Journal propose to recommend that Publication; and direct their attention to the following Prospectus for the year 1851: inasmuch as a New Volume will be commenced in January, and the occasion is favorable for New Subscribers.

Moreover, the Art-Journal, during the year 1851, will contain an account of a Thousand Engravings in Wood, of the rarest, most beautiful, and most suggestive, of the Works of Industry of all Nations, to be exhibited in London, in 1851: comprising the most extensive, and the most perfect, of the Illustrated Catalogues of the Great Collection of the Art of the World.

With the First of January, 1851, will be commenced a new volume of The Art-Journal, with such improvements as have been suggested by experience, the advanced intelligence of the age, and that augmented power which results from increased prosperity. The circulation of this Journal, during the past year, has approached 15,000 monthly; its conductors are consequently enabled to obtain the co-operation of accomplished writers and eminent engravers, and to avail themselves of all the advantages which industry and capital may place at their command.

The engravings to be produced by British Artists, comprising the Vernon Gallery, will be continued; of these, as heretofore, two will be issued with each number, engraved on steel by the most eminent British engravers. Among the Pictures to appear during the year 1851 are the following:—

The Death of the Stag	Sir E. Landseer, R. A.
The Opening Rose	W. F. Witherington, R.A.
Rebekah at the Well	W. Hilton, R.A.
The Cave—Dale	F. Danby, R.A.
The Mother	Sir A. W. Calcott, R.A.
The South Sea Bubble	E. M. Ward, R.A.
The Golden Bough	J. M. W. Turner, R.A.
Spanish Peasants	H. P. Briggs, R.A.
Capid Bound	T. Sadderd, R.A.
The Flower Girl	E. Maurer, R.A.
The Battle of Trafalgar	C. Stanfield, R.A.
Cupid and the Nymphs	W. Etty, R.A.

The Works of Sculpture for the coming year have been selected, for the most part from the sketches of the Sculptors of Germany; of these will be engraved the leading works of Professors Rauch, Wichmann, and Kiss, of Berlin; Professor Rietschel of Dresden; Schwanthaler, Dannecker and Thorwaldsen.

Moreover, His Grace the Duke of Devonshire has been pleased to place at the disposal of the Editors, for engraving in the Art-Journal, the whole of his Gallery of Sculpture at Chatsworth.

The Editors have also arranged in Germany for a series of Twenty fine drawings—"Homilies in Light"—drawn expressly for the Art-Journal by Moritz Retzsch; these will be engraved on wood, of large size and in the highest style of Art.

A series of illustrated articles on "Daily Costumes," from the pen and pencil of Professor Carl Heideloff, produced expressly for the Art-Journal, the engravings to be on wood.

A series of Twelve Designs of Spanish engravings the "Cardinal Ximenes," drawn expressly for the Art-Journal by Professor Monin of Dusseldorf.

A series of selections (of which four will be issued monthly) from the Historical Relics of Horse Guards; the drawings, engraved on wood, by Unterbeck, Bonhomme, &c. &c.

In addition to these, other interesting works are in preparation; among them may be mentioned a series of Lives of the Great Painters, with illustrations of large size, engraved from the Frescoes of the "Vine the Painters," at Paris; a series of Illustrated Articles, entitling "The Domestic History of the Early English," by T. Wright, F. R. S., and F. W. Fairholt, F. S. A.; a series of original designs for furniture after the models of the middle ages, by Carl Heideloff; the continuation of a "Dictionary of Terms in Art," begun in 1845; the continued series of Dr. Ure's Papers on the Art-Manufactures of the Assistance; and also papers of Mr. Robert Hunt, on the "Application of Science to the Fine and Useful Arts, and various matters, interesting and instructive to the artist, the amateur, the manufacturer and the public.

Among the authors whose valuable assistance is given to the Art-Journal, and whose names the Editors is free to mention, are—Dr. Waagen, Mrs. Jameson, Dr. Ure, Dr. Pincoffs, Professor Hoffstadt, Mr. Wornum, Mrs. Merrifield, T. Wright, F. S. A., Robert Hunt, Mrs. S. C. Hall and F. W. Fairholt, F. S. A.

To the union of the Artist; to the library of the Amateur; to the desk of the Student—to the workshop of the Manufacturer—and to the evening room table of the admirer of Beautiful Engravings, the Art-Journal is recommended as a companion and counsellor, at once agreeable and instructive—as a cheap and impartially conducted organ, submitting the manufacturer to the production of excellence, and the public to appreciate his improved works—and as having worked still with "industry, integrity and ability," to high purpose of supplying to Artists and Amateurs, accurate and useful information upon all subjects in which they are interested, and to the public the means of justly appreciating and encouraging the progress of Art both at home and abroad.

The year 1851 will be memorable in the History of the Industrial Arts in Great Britain. "The Exhibition," to be commenced in May, will be of the highest interest to every civilized Nation of the world. It is, above all things, essential that the Exhibition should be properly reported and this can be done only by a very large number of engravings. The Editor of the Art-Journal has therefore arranged his intention to issue, in May, June, and July Supplementary Parts (to double numbers,) each Part to consist of at least Fifty-two pages of letter press, and to contain between 200 and 300 engravings, exhibiting the best and most suggestive objects contributed to the Exhibition. This project has not fail to be received with favor by all subscribers to the work. The Reports that supplied will become—as a Catalogue of the most valuable and valuable contributions, permanent record of the Exhibition, and a key to the most universal manufactures of all parts of the world.

The Volumes, handsomely bound, of the Art-Journal for the years 1848, and 1849, containing each Twelve fine Line engravings (on Steel) of the Vernon Gallery, Twelve Engravings (on Steel) of Works in Sculpture, about Eight Hundred Engravings on Wood, and Four Hundred pages of Letter-press, may be purchased, each for the sum of Thirty-one shillings and six pence. These volumes the also contain Fifty Engravings of pictures, in the Vernon Gallery, which began with the volume for 1848, when a New Series of the Art-Journal was commenced.

In order to meet the wishes of those who require copies of the Art-Journal for the purchase or the Exhibition, a few old number of goods and engravings on large paper are printed; to these early applications will be necessary, as they will be taken only for Subscribers.

Annual Prices, Two Guineas the Four half which only 150 are printed. These will be signed by the Engraver.

NOW IN PRESS.

CANADA.

PAST, PRESENT, AND FUTURE;

BEING a Geographical and Statistical Account of Canada West, (formerly Upper Canada,) exhibiting its past history, present condition, and future prospects; showing its immense and rapidly increasing Commerce, and its relative advantages as compared with the other British Colonies and the United States, as a new home for British Emigrants.—Also, containing a particular account of the mineral wealth and other valuable available resources of each District; with an analytical description of the Mining Region of Lakes Huron and Superior. The whole compiled from information obtained in each locality, up to the date of publication, by W. H. Smith, Author of the Canadian Gazetteer.

A chapter will be devoted to the special benefit of Emigrants—furnishing them with information concerning the proper measures and precautions to be taken in order to reach the Province in a comfortable and economical manner; with hints as to the earliest and most advisable means of acquiring land on their arrival, &c.

Correct tables of distances from place to place will be added, with all routes from each Provincial Acre as are now or may be generally known; and a variety of miscellaneous useful matter. The whole forming a complete work on the subject of Canada for families, a valuable book of reference, a guide to business, and a guide for the traveller and emigrant.

In consequence of subscribers, the work will be issued in numbers at 1s. 3d. each, and will be completed in about ten parts. Each part will be accompanied by a Map, exhibiting one or more Counties; and a general Map of the Province compiled expressly for the purpose, will be appended to the work. The Maps will be engraved on copper, in the best style of art, and will contain the latest divisions of Counties, and all the new settlements in the Province up to the latest dates.

The work will be published in monthly parts.

A complete Business Directory of the Upper Province will be added to the work, being the first ever published in either Province. As the Author and Publisher possess peculiar facilities for collecting the necessary information, that subscribers will have the advantage of receiving this portion of the work without any additional expense.

The first part of the work will be ready for delivery in about a fortnight, and will be supplied to subscribers by the Publisher or Agents.

Local Agents wanted to canvass for the work, to whom liberal encouragement will be given.—Apply personally, or by letter (post-paid) to the Publisher, Toronto.

BARKER'S COMPOUND SARSAPARILLA PILLS.

For Purifying the Blood, and Strengthening the Digestive Organs. Scrofulous Eruptions, Pimples and Blotches, Rheumatism, Liver Complaints, Indigestion, Bilious Complaints, Asthma, and all diseases which arise from an impure state of the Blood.

THESE PILLS having been in use several years, experience has proved their great superiority over all other preparations of Sarsaparilla now before the public. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been extensively used by the Medical Profession for a number of years, but it is well known, that all Watery or Liquid Preparations of the Root, were seen lost all medicinal qualities, in their state. The only preparation which can be depended upon, is the Solid Extract, from which these Pills are prepared, combined with other valuable medicines and more real benefit will be derived from the use of one box, than from half a dozen bottles of the Syrups or any Preparation in use. They act as a powerful Alterative Tonic, and a Mild Aperient, strengthening the Stomach, and giving natural and vigor to the system.—They are perfectly safe in their operation, and may be used by the most delicate females and children, and will be found most valuable for any complaints peculiar to them.

The proprietor has an objection to the system of publishing a list of Cures, as he could furnish a large list of the most respectable persons, who have used these Pills to great advantage. Try one Box of these Pills, when you will find them to be the best Medicine ever used.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data, and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favorable than the low rate of interest available on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

A yearly statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (save this is nearly a solitary instance) no other Great Region nor the neighboring States can fairly offer competition.

To parties who may at any time feel distressed or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thereon assured.

A peculiar feature of the Company is that it is not desirous to make profit by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at its Head Office and Agencies.

To the Sick and Afflicted.

DR. SHERIFF,

RESPECTFULLY informs his friends and the public generally, that he has removed to the Stone Dwelling belonging to Mr. F. Donaghue, situated at the west end of Ontario Street, where he is prepared to receive and prescribe for patients afflicted with diseases of long standing. Dr. S. has, during his short residence in the City of Kingston, been the means, through the hand of Providence, of restoring to health over two hundred individuals, after they had been abandoned as incurable, and considered out of the reach of hope, by their physicians. And he intends for the future, to give his attention only to such cases as may be considered beyond the reach of medical aid from every other source. And he feels confident that he will be enabled as heretofore, to give relief to the majority of such cases as may come under his care. By way of reference, it may not be amiss, at the present time to mention one case that has been successfully treated by Dr. Sheriff within the last three weeks.—Mr. Henry Leavens, a respectable farmer, was recently near the first toll-gate, sent for Dr. S. about three weeks ago. When he went to him he was confined to his bed, in the last stage of Dropsy, and at the same time labouring under a severe affection of the Lungs, from which he had been raising profusely of blood. In this hopeless condition his physician had left him, and said that he could do no more for him. He then commenced taking medicine, under the direction of Dr. S. and in two weeks time was able to ride out. He is now daily attending to the business about his farm as usual.
