POSTSCRIPT.

ANOTHER FIRE.

It is our painful duty to record another disastrous fire, which commenced last night at about 12½ o'clock. The flames were first seen bursting from the windows of the workshop of Mr. Edwin Chown, situated on Bagot Street. The entire premises, occupied by Mr. Chown as a Tinsmith's shop, and Fancy Jo'y, together with the stone buildings adjoining the former, used partly as a store store and dwelling, were entirely destroyed. A portion of the shown on the lower floors were saved; but we regret to say that, beyond this, Mr. Chown has lost almost everything. A trifling insurance (£150 in all, we believe) had been effected on the stock. The leather store of Mr. Penny was also slightly damaged. The Fire Companies were at their posts; and it was owing to their desperate exertions that the surrounding buildings were saved. The eastern supply of water was, as usual, very deficient; and the Firemen consequently worked at a disadvantage until Mr. Frank of the Water Works Company attached a length of hose to the Hydrant at Brock-st., whence the engines received a plentiful supply. Mr. Chown has taken the premises lately occupied by Mr. Robert Barker as a Drug Store; where we believe, he intends re-establishing himself for the present.

Since writing the above, we have been informed, that the Sons of Temperance, Frontenac Division No. 4, of which he is a member, have very handsomely came forward, and subscribed most liberally towards repairing Mr. Chown's heavy loss.

Sounds of the City Band.—We must reserve an account of this magnificent affair until Monday. The gentlemen connected with the Band deserve great praise for the handsome manner in which the concert was got up and conducted. The alarm of fire threw a damper on the festivities of the night; and occasioned a great many to withdraw from the room, where they would rather have tipped it on "the light fantastic toe" till daylight.

Last Night's Report.

New York, Feb. 7—7 P. M.

The Empire City arrived from Chagres a little after three o'clock with 268 passengers and one million of gold. She brings advices from San Francisco to Jan'y 5th. The news is not so much.

The news from the Indians is unimportant.

About 80 houses were destroyed by fire at Stockton on the 28th Jan'y. Loss not known.

The Indians have committed depredations and all efforts to quiet them have proved unavailing. There is greater amount of excitement against property and life than heretofore, and no doubt is entertained but that there exists an organized band, mostly recruits from the British colonies, whose trade is to pillage and murder. Considerable apprehension is entertained for the safety of the steamer Panama which left Panama for this port, on the 4th Dec., and has not been heard from since. The Constitution has arrived, but brings no tidings of her. The weather for the past two or three weeks has been lovely in the extreme; scarcely a cloud has obscured the sky for that entire period; and the rays have poured down and oblivering. The health in California is generally good. The steamer Carolina was to sail for San Francisco on the 28th for Panama, and the Columbus was to follow in a few days.

Washington, Feb'y 7.

The engine of the train going West last night, broke away, throwing the engine from the track. Nobody was injured. A new train was made up, and when the train from the West arrived, they exchanged passengers and returned, causing a delay of five hours.

New Orleans, 7th.

The Steamship Pacific from Chagres with 273 passengers has arrived. We were hourly expecting the arrival of the Falcon with Jersey Lind on board.

Baltimore, 7th.

The Savannah papers received this morning say that Capt. Rhodes of the schooner Mercedes, had arrived at that place and reports having seen on Thursday, 30th inst. at 2 P.M.—Cape Romans light bearing N.W., the hull of a planter apparently burning. All her top works were gone, and fragments of the wreck including a mahogany stateroom door, chairs, tables and various other articles which indicated that the ship was elegantly furnished. Capt. Rhodes says that the wreck was drifting in every direction about his vessel and he thinks the disaster could have occurred but a short time previous, as the fragments had the appearance of being in the water but a short time. He distinguished amongst the articles a board painted white with a lime grove on it, surrounded by a line of gilded stars. He could see no one on board. The hull was sunk to the water's edge and was going down fast. We are unable to conjecture what vessel this may be unless the steamer America, as before reported.

PULMONARY CONSUMPTION.

From its varying shades always baffled the most skilled medical treatment, it has very justly been termed the "Opprobrium of Physicians;" and, until within a few years, been generally considered incurable, although many medical men of the highest standing, among whom we may mention Laennec and his great Rival—both distinguished authors, admit that this much dreaded disease may be cured, even in its advanced stages, when the lungs are not completely disorganized. The remedy which we now offer, for the cure of this disease, not only emanates from a regular Physician, but has also been well tested in all the complaints for which it is recommended.

BRONCHITIS AND COUGH CURED.

Boston, August 23, 1848.

Mr. S. W. Fowle—Dear Sir.—Having been troubled for a considerable time with a bad cough and bronchial affection, I was induced to try a bottle of Dr. WISTAR'S BALSAM OF WILD CHERRY, which I am happy to say entirely removed the difficulty. I deem it but justice to you thus much for the benefit of those who may be similarly affected.

GEORGE B. DAVIS,
