CINCINNATI, 28th.

The river is at flood height and there are strong appearances of more rain. Freights are easier at 5 cents per barrel. The Upper Mississippi is falling, with three feet of water on the principal bars. The Illinois river is on a stand at three and a half feet of water. The Missouri river is in a fair navigable state.

BUFFALO, 28th.

The steamer Arrow, Capt. Atwood, arrived at Silver Creek yesterday at 1 o'clock, P.M., from Detroit, and will leave for Detroit again this evening. No ice in sight from Silver Creek.

ENGLAND & IRELAND.—The attention of the English public is chiefly occupied in the exciting debate going on in Parliament relative to the papal aggression. Four nights of continuous debates resulted in gaining for Lord John Russell permission to introduce his bill of pains and penalties by a majority of 332.

It is confidently stated that the Duchess of Kent, the Queen's mother, the Duchess of Sutherland, the Queen's Lady in waiting and the highest Peeress in England, are on the eve of becoming members of the Church of Rome.

On a motion D'Israeli involving the principles of free trade, the government only carried their point by a majority of 14 in a full house. Most of the Irish members who have hitherto sustained the measure deserted them and voted with D'Israeli. The protectionists are greatly elated at their prospects.

The Chancellor of the Exchequer delivered his budget on the 17th. The trade and revenue which is said are even more satisfactory than heretofore, and it is expected that many obnoxious taxes will be repealed.

Attention is being more and more directed to the western coast of Ireland for a transatlantic packet station. The government are strongly solicited on the point. Other Irish news is not worth reporting.

A maniac named Gale was brought up at the London Police office on Friday, charged with threatening to assassinate Lord John Russell.

HALIFAX, Feb. 26,—11 P.M.

The Europa sailed shortly after 10 o'clock, p.m., with a fair and fresh wind.

The weather in England has been universally mild for the season, and without any appearance of cold weather.

FRANCE.—In the National Assembly leave was granted to bring in a Bill for the calling together the Council General in case of an invasion.—From a statement of the financial condition of the country, it appears that the estimated excess of the expenditures over the receipts for the present year is 35,500,000f. —A meeting of the several parliamentary clubs took place on Tuesday night, to consider the question of electing the present Vice-Presidents and Secretaries of the Assembly, which is to take place to-day. The general feeling was in favor of the present Bureau, but a leading club had resolved that in case any of the present Vice-Presidents or Secretaries should be rejected Messieurs Montalambert, DeGrochy, Bouget, Charlaout and Fitzmoney should form a committee to select new candidates in the Government interest. A later account states that Monsr. Dupont was re-elected to the Presidency.—The weekly reception of the President of the Republic does not take place on Thursday as heretofore.—In the Legislative Assembly on Tuesday the discussion was continued on the proposition to extend from three to ten years the time allowed to French subjects residing foreign countries to dispossess themselves of their slaves; ultimately the proposition was adopted.

Paris, Thursday Evening.—There seems to be a determination to get up a subscription for the President, notwithstanding his wish to the contrary. Lists have been opened in Paris. The President's horses are about to be sold.
