man named Walker, a student at the University; but the cause or exact character of the affair did not transpire. Witness deposed that on visiting the room of the deceased, they found Walker there apparently much affected—he said that he struck the deceased on the previous evening, and expressed regret that death had occurred before a reconciliation had taken place.

The Coroner directed a post mortem examination to be made, which was conducted by Drs. Ridjh and Aikin. On their return, it was stated that they had inspected the head, chest, and abdomen of the deceased, and found no cause for the symptoms which were perceived, or for death, but extravasation of blood into the spinal canal. Whether this effusion was spontaneous or from violence, could not be determined. A bruise which had been noticed on the head, might have been occasioned by the fall following the blows. There was also effusion between the membrane and substance of the brain, and into the ventricles, but not unusual in amount, or connected with the cause of death.

In accordance with the conclusion arrived at by the medical gentlemen, the jury returned a verdict, "That the deceased came to his death in consequence of the effusion of blood into the spinal canal"—in other words, spinal apoplexy.

The investigation excited much interest, in consequence of painful rumors which were in circulation in reference to the cause of death. The result shows, that these rumors were without foundation.—*Patriot.*

AFTERNOON'S REPORT.

From our Extra of yesterday.

Arrival of the Asia.

The Duke of Wellington at the head of the Ministry.

New York, 14th.

The Steamship Asia, with Liverpool dates to the 28th ult. arrived.

No new ministry has yet been formed—there was great talk of placing the Duke of Wellington at the head of the Government. All traces of a Stanley Cabinet were at an end.

Cotton advanced ¼ sales 40,000 bales.

Breadstuffs were dull, and sales confined to the wants of the trade—Western Canal flour 20s. a 21s. 6d. Yellow Corn 30s. a 31s.

Last Night's Report.

Liverpool, Feb. 28.

Grain trade has been exceedingly dull and languid during the past week; and the sale of foreign Wheat and Flour has receded 6d. per barrel, and the prices now quote 20s. a 22s. for Baltimore; 20s. a 21s. for western canal. Indian Corn supported at rates with fair enquiry at 31s. 6d. a 32s. for white; 30s. a 31s. for yellow; 28s. 9d. a 30s. for mixed. The inquiry continues moderate.

Provisions.—Pork held firmly which checks business.—Bacon much wanted; 900 bbls. St. Louis sold 32s. to arrive.—Lard declined 2s. to 2s. 6d.—Cheese active at the advance.—Tallow unchanged.—Butter 1s. a 2s. higher.

NEWS.

(From the London Standard, Feb. 9.)

The country will be sorry to hear that Lord Stanley has failed in forming a Ministry, and has in consequence returned to Her Majesty the commission which she had graciously entrusted to him. His Lordship had an audience with the Queen, at Buckingham Palace yesterday afternoon, when his inability to command her administration was made known to Her Majesty. Shortly afterwards a Royal Dispatch was forwarded from the palace to Lord John Russell, at his private residence, Chester Place, and in all probability his Lordship has been again commanded to re-construct his Cabinet, though we do not find any intimation in the Court Circular that his Lordship had any interview with Her Majesty in the course of yesterday.

Both houses of Parliament will re-assemble this evening, when it is confidently expected that Lord Stanley and Lord J. Russell will be permitted by Her Majesty to give full explanatory statements as to the part each has taken in the fulfilment of the duty imposed upon them by their gracious Sovereign.

The intelligence from Paris is without interest.

The Bank of England has reduced the rate of interest on Stock Loans to 2½ per cent, while the minimum rate in Commercial Securities remains at 3 per cent.

The steamship Canada had arrived out. Consols were 96¾ a ⅞.

At Vienna rumors are still prevalent of an Austrian expedition against Switzerland.

The market for American Securities in London is without change.

The Twin papers give a rumor that the Northern Powers had addressed a note to the Parliament, demanding the expulsion of the Italian emigrants; the suppression of the liberty of the Press; and an immediate reconciliation with the Cabinet of Rome. It is also stated that the greatest activity prevailed in the Piedmontese War Office, and that extensive preparations are making for the defence of the country.

Austria.—Prince Schwarzenberg's army at Dresden will be prolonged beyond his original intention. The plan of an Austrian intervention in the Danish government has been discussed in the last Cabinet Council. An Austrian corps will occupy the French Pictures of London. The ministerial papers contradict the late rumor of warlike measures. They state that an understanding has been effected at Dresden between Prussia and Austria. The kingdoms of Bavaria, Wurtemberg and Saxony, had protested against the competency of the Conference, who passed resolutions tending to restore the old Federal Diet. No resolution of any kind had been adopted. A fortnight's term has been fixed for further and more positive declarations.

Italy.—Very little news from Rome. The Pope has amnestied three of the most Roman Constituent Assembly, and others had obtained an intermediate period of provisional liberty.

Lecture.—We have been requested to state that the Rev. Hannibal Hamlin will deliver a lecture before the members of the Mechanics Institution, at the Court House, at half-past seven o'clock, P. M., on Tuesday next, Subject—"The harmony between Geology and Revelation." The public are generally invited to attend. Admission free.

☞ St. Patrick's Society.—The Sons of St. Patrick intend celebrating the 17th March by a grand procession to the Roman Catholic Cathedral. Irishmen not members of the Society, are invited to join in procession. We are requested to state that a preparatory meeting will be held this evening, at the Society's Rooms, Clarence Street, at Eight o'clock.

FIRE SURROUNDED BY WATER AND NOT EXTINGUISHED!!

A. Wilders' Patent Liquid Heater for the use of Tanners, Hatters, Hotels, Farmers and others.

THIS is a New Invention, combining a great saving in fuel and labor, by which a barrel of water can be boiled in the open air, or in the house as may be required, with a very small quantity of fuel, and little attention. It can be fitted to Tanners' Leaches or vats, in addition or portable form; and Hatters by its means will be enabled to do their boiling in a barrel or three portable vessels, and thereby be protected from heat while at work. It is admirably adapted for boiling sap in the bush, as it can be moved to any place with ease; also for heating water in Hotels, Baths, or any place where much warm water is required.

All orders addressed to the Subscriber will be thankfully received, and promptly attended to.
