BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION,

ESTABLISHED BY SPECIAL ACT OF PARLIAMENT 6 Vic. Cap. 5.

THIS Government Institution in Europe and the American Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily increasingly more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.—The extent the Business has attained, which can be offered continually, with security to the Assured, and the satisfactory terms equitably to secure the attention of the inhabitants of Kingston, to the numerous Tables of Rates, specimens of which may be seen at his office, or in the Montreal Herald, Montreal Gazette, and Montreal Courier papers also in several papers in Upper Canada.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing debts, incidence or to pass where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. To merchants, a Policy of Assurance affords a certain and, in many cases, the only means of security. Also in addition to the published rates, assurances on Joint lives, the survivor of two or more lives, and for contingent Assurances, also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency of fearing human life, against which it may be prudent or expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE FOLLOWING OFFICES:

Rate for one year, (whole or Life) for the Assurance of £100:

National Loan Fund	aged 30	£2	4 4
United Life Assurance Com'y	do.	2	3 2
United Kingdom	do.	2	3 10
Royal Commercial	do.	2	1 6
Rhenish	do.	2	1 3
Britannia	do.	2	0 8

The other Offices doing business in the Colonies are on much higher, that comparison is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an annual sum thereby not varying more than is absolutely required to provide for the risk—but if preferred, then in profits is preferred by any party, there are "Mutual Policies" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable investment, to the person wishing to Assure.

All claims payable within twenty seven days proof of death. No proof of birth is required in the case a claim is made; the age of the Assured being, in every case, admitted in the Policy, unless under any circumstances he afterwards called in question. Policies effected by parties on their own lives are not two weeks with in force of death by shooting on the hands of Justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the Amount of Premium received thereon will be returned to the family of the deceased.

The subscriber begs to remark that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal, and prompt in the settlement of claims.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE BRITISH PERIODICALS AND THE FARMER'S GUIDE.

LEONARD SCOTT & CO.
NO. 54 GOLD ST., NEW YORK,

CONTINUE republish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the

"Farmer's Guide to Scientific and Practical Agriculture."

By Henry Stephens, F.R.S. of Edinburgh, author of the "Book of the Farm," &c. &c., edited by John P. Norton, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c. &c.

This highly valuable work will comprise two large royal octavo volumes containing over 1500 pages, with 12 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement or husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c. &c., the various diseases to animals in their highest perfection; in short the practical farmer of the back to unique, and will render it of invaluable value to the student of agriculture.

The work is being published in semi-monthly Numbers, of 64 pages each, exclusive of the steel engravings, and is sold at 25 Cents each, or $5 for the entire work in numbers, of which there will be at least 20.

The British Periodicals he publishes are as follows, viz:—

The London Quarterly Review (Conservative.)
The Edinburgh Review (Whig.)
The North British Review (Free-Church.)
The Westminster Review (Liberal.)

AND

Blackwood's Edinburgh Magazine (Tory.)

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and to that they stand entirely, for above all other journals of their class. Blackwood still under the masterly guidance of Christopher North, maintains its ascendancy, and at the time unrivalled attractive from the social works of Bulwer and other literary notabilities, written for that magazine and first appearing in its volumes both in Great Britain and in the United States. Such works as "The Caxtons" and "My Novel" (both by Bulwer,) "My Friendship Model," "The Green Hand," and other serials, of which numerous royal volumes are issued by the leading publishers of this country, have to be compiled by those publications from the pages of Blackwood, after it has been issued by Leonard Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest taking of these interesting tales.

FIRE! FIRE!

Capital $300,000.

The St. Lawrence Insurance Company Chartered, in 1846, continues to insure at as cheap rates as any other sound Company in New York. It insures from five to six millions annually, and presents the following advantages.

1st. In total loss for five years it not exceed the rates of Stock Companies for two years in succession.

2d. It does not insure buildings in blocks, nor extra hazardous risks, but ordinary and detached dwellings only. In the second towns of Portsmouth, Watertown, Corning, Fort Hope, and Potsdam, destroyed, in each of which the Company had operations, its total losses were less than $1000.

Such facts speak.

3d. The Company is bound by the survey of the agents; and this is printed on all policies.

4th. The total liability of the members in the aggregate, and the company cannot assess beyond that sum, as is the case in most Companies of the State.

5th. The capital of this Company is almost wholly unimpaired, as it has laid but one small assessment in FIVE YEARS, and the cash balance in favor of the Company, October 1, over and above all liabilities was about

$12,000 00

6th. The policy comes into force 12 o'clock noon the day the money is paid to the agent.

7th. The notes of the members of this Company cannot be hypothecated to borrow money, but a member can withdraw his note, and cancel his policy when he may please, by paying his share of loss to that date.

8th. The capital of this Company is bona fide, not got up to answer the requirements of the law of the State by taking ficticious notes, on mortgage by bona-fide property, but the notes are on safe property throughout.

This Company has twelve millions of Insurance—three hundred thousand dollars capital; the heavy surplus fund above stated—its risks are well and carefully selected; and of prudent management, strict economy, small risks, and a large business can save the members from assessment it will be done. This Company expends it no dividends, and no inquisition in any annual Company is convenient on the agents in procuring what annual for insurance, but it gives the facts, and parties must be their own judges.

We consider the past a good guarantee for the future. During the past year the Company paid on losses $33,417 39, and its expenses were only $9,125. Of expenses of the fire to the agency, it includes $300 paid to the Officers, about $600 for postages, and the balance was for printing and other incidental expenses.

N. B. Agents have commissions signed by the Secretary, and parties paying money will require their production and receipts. The company will not hold itself in any way responsible for the acts of any person not having in its commission.

If the policy be not received, the party must call his receipt to this office in thirty days, and the policy or cash will be returned.

AGENTS, who can come well recommended for prudence, judgment and character, are wanted in places where vacancies are offered. Address the Secretary.

Directors.—Hoyden Villa, President.—Wm. Van Buren, V. P.—Jas. Murdock, B. Crickman, A. Schwell, Jr. Michael Wilson, Allen Clowey, Wm. E. Green, J. G. Hopkins, Jas. Stein, Wm. F. Sterling, J. V. Kent, Rufus Wing.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favourable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An annual statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it vests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, on which (at this in many a solitary instance) neither Great Britain nor the neighbouring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

TO THE

Artist, the Amateur, the Manufacturer, and all who desire beautiful

WORKS OF ART.

THE Proprietors of the Art Journal propose to recommend that Publication, and direct their attention to the following Prospectus for the year 1851: inasmuch as a New Volume will be commenced in January, and the occasion is favorable for New Subscribers.

Moreover, the Art-Journal, during the year 1851, will contain upwards of a Thousand Engravings on Wood, of the rarest, most beautiful, and most successive, of the Works of Industry of all Nations, to be exhibited in London, in 1851: comprising the most extensive, and the most perfect, of the Illustrated Catalogues of the Great Collection of the Art of the World.

With the First of January, 1851, will be commenced a new volume of THE ART-JOURNAL with Improvements in it have been suggested by experience, the advanced intelligence of the age, and that augmented power which results from increased prosperity. The circulation of this Journal, during the past year, has approached 15,000 monthly; its conductors are consequently enabled to obtain the co-operation of accomplished writers and eminent engravers, and to avail themselves of all the advantages which industry and capital may place at their command.

The engravings in its pages by British Artists, comprising the Vernon Gallery, we be enumerated of them, as heretofore, two will be issued with each month, engraved on steel by the most eminent British engravers. Among the Pictures to appear during the year 1851 are the following:—

The Flight of the Stag,	Sir F. Lawrence, R. A.
The Queen of Flowers	W. F. W. Cunningham, R.A.
Rebecca at the Well	W. Hilton, R.A.
The Cove—Sole	F. C. Lewis, R.A.
The Meadow	Sir A. W. Callcott, R.A.
The South Sea Bathers	E. U. Wood, R.A.
The Golden Branch	J. M. W. Turner, R.A.
Spaniards & Peasants	H. C. Bright, R.A.
Crystal Stand	T. Stothard, R.A.
The Flower Girl	H. Bonavoil, R.A.
The Battle of Trafalgar	C. Stanfield, R.A.
Cupid and the Nymphs	W. Etty, R.A.

The Works of Sculpture for the coming year have been selected, for the most part from the studios of the Sculptors of Germany; of these will be engraved the Bacchus and Ariadne of Dannecker, Wichmann, and Kiss, of Berlin; Professor Rietschel of Dresden; Schwanthaler, Dannecker and Thorwaldsen.

Moreover, His Grace the Duke of Devonshire has been pleased to place at the disposal of the Editors, for engraving in the Art-Journal, the unequalled Gallery of Sculpture at Chatsworth.

The Editors have also arranged to Grave by a series of Twenty-four drawings—"Homes in Life"—drawn expressly for the Art-Journal by Alfred Rethel; these will be engraved on wood, of large size and in the highest style of Art.

A series of illustrated articles on "Early Costumes," from the pen and pencil of Professor Carl Heideloff, produced expressly for the Art-Journal, are engraving to be on wood.

A series of Twelve drawings of figures representing the "Cardinal Virtues," drawn expressly for the Art-Journal by Professor Moritz of Darmstadt.

A series of subjects of which four will be issued monthly, from the Pictorial Bible of Raphael; the drawings are drawn on wood, by Dewarrick, Bonhomme, &c. &c.

In addition to these, other interesting works are in preparation; among them may be mentioned a series of Lives of the Great Painters, with illustrations of large size, received from the Proprietors of the "Vita dei Pittori," of Paris; a series of Illustrated Articles, exhibiting "the Domestic Manners of the Early English," by T. Wright, F.S.A., and E. W. Pugin, F.S.A.; a series of original designs for furniture after the manner of the middle ages, by Carl Heideloff, the continuation of a "Dictionary of Terms in Art," (which will be continued under Dr Burnett's Patronage, the Art-Manufacture of the Artisans; and also those of Mr. Robert Hunt, on the "Application of Science to the Fine and Useful Arts, and various matters, interesting and instructive to the artist, the manufacturer and the public.

Among the authors whose valuable assistance is given to the Art-Journal, and whose names the Editors in fine to mention, are—Dr Waagen, Mrs. Jameson, Dr Brown, Dr Buchanan, Professor Heidloff, R. Westmacott, Mrs. Merrifield, T. Wright, F.S.A., Robert Hunt, Mrs S. C. Hall and F.W. Fairholt, F.S.A.

To the circle of the Artist, to the Survey of the Amateur, to the desk of the Student—to the workshop of the Manufacturer—and to the evening table of the Admirer of Beautiful Engravings, the Art-Journal is recommended as a companion and counsellor, at once agreeable and instructive—as a daily and long-tried monitor of an unremitting zealous attention to the production of excellence, and the public to appreciate the proposed works—and as having set out with "industry, integrity and energy," the high purpose of "supplying to Artists and Amateurs, accurate and useful information upon all subjects in which they are interested, and to the public the means to justly appreciate and encourage the progress of Art both at home and abroad."

The year 1851 will be memorable in the History of the Industrial Arts in Great Britain. "The Exhibition," to be commenced in May, will be of the highest interest to every civilized Nation of the world; it is, above all things, essential that the Exhibition should be properly reported; and this can be done only by a very large number of engravings. The Editor of the Art Journal has therefore announced his intention to issue, in May, June, and July Supplementary Parts (at a little sacrifice,) each Part to consist of at least Forty-two pages of letter-press, and to contain between 250 and 300 engravings, exhibiting the best and most suggestive objects contributed to the Exhibition. This project cannot fail to be received with favor by all subscribers to the work. The Reports thus supplied will become—as a Catalogue of its most essential and valuable contents—a permanent record of the Exhibition and a key to the most meritorious manufactures of all parts of the world.

The Volumes, handsomely bound, of the Art Journal for the years 1849, and 1850, containing each Twenty-four Line engravings (on Steel) of the Vernon Gallery, Twelve Engravings (on Steel) of Works in Sculpture, above Eight Hundred Engravings on Wood, and Four Hundred pages of letter-press, may be purchased, each for the sum of Thirty-one shillings and six pence. These volumes the above contain Fifty Engravings of pictures in the Vernon Gallery, which began with the volume for 1849 when a New Series of the Art-Journal was commenced.

In order to meet the wishes of those who require copies of the engravings for the purchase or for framing, a limited number of proofs and impressions on large paper are issued; but these early applications will be necessary, as they will be taken only for Subscribers.

Artists' Proofs, Two Guineas the Part [of which only 150 are printed]. These will be signed by the Engraver.

THE success which has attended this experiment to improve and render uniform the Books used in the Common Schools of Canada by issuing the National Second Books, has emboldened the Publishers to undertake the publication of the Classical series for the use of Colleges, High Schools, District and Grammar Schools. The first numbers of the series consist of the following:—

Excerpta from Cornelius Nepos, 1s. 6d.; the First Four Books of Cæsar, 1s. 9d.; the Georgics of Virgil, 1s. 6d.; the Fasti of Ovid, 1s. 6d.; the Third and Fourth Books of Quintus Curtius, 1s. 9d.; Cicero de Amicitia, 1s.; Cicero de Senectute, 1s.; Tacitus' Agricola, 9d.; Excerpta from Horace, 1s. 9d.; the Three First Books of the Æneid, 1s. 6d.

Or the above can be had handsomely bound in two volumes—price 6s. 3d. for the Pupil and 5s. 6d. for the Pupil.

The Trade, Teachers, and Country Dealers supplied with Copybooks, Prospectuses, &c., relating to both of the above series of Books, which are now in general use in the Province.
