LONDON FIRST PREMIUM DAGUREREAN GALLERY

No. 214 Main Street, Buffalo,

AND THE LAMBTON HOUSE,

PRINCESS STREET, KINGSTON, C. W.

THE above, is a cut of a SILVER MEDAL awarded the subscriber at the New York State Agricultural Fair, at Buffalo, and the Fifth Premium in the last six years. Also, the first prize at the late Fair at Syracuse, in competition with over three hundred pictures from some of the first galleries in the United States. This Gallery has now become the PICTURE EMPORIUM for the entire Western World, and the standard of imitation. Our competitors involuntarily acknowledge their inferiority by following in our wake and aping us in every particular except our success!

Therefore, strangers visiting the city are respectfully solicited to compare our pictures with those executed by others. Also, all who have long been prepossessed in favor of other Daguerreans, and have pictures taken by them, are very urgently invited to call and have one executed at this establishment, that they may have an ocular demonstration of the vast difference in portraying the same individuals.

The subscriber would also notify the people of C. W. that he has opened a branch Gallery on Princess St. Lambton House, Kingston, where persons may expect such pictures of themselves and friends as will surely if ever be offered to that community again.

N. B. The undersigned would most respectfully further notify the public that no premiums or diplomas have ever been awarded by the New York State Agricultural Fair to any Daguerrean in Buffalo except the subscriber.

BRITANNIA LIFE ASSURANCE COMPANY,

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.—The rates of the Britannia are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office, or in the Montreal Herald, Montreal Gazette, and Montreal Courier as also in several papers in Canada West.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing loans, or debts or in case where the party has an interest in the life of another, so as to be in any way prejudiced in the event of his decease. To creditors, a Policy of Assurance affords a certain and, in many cases, the only means of security. Also in addition to the published rates, an extensive set of Tables has been computed for Assurance on Joint Lives, [illegible] and for contingent Assurances: also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency of footing human life, against which it may be prudent or expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE FOLLOWING OFFICES:

Rate for one year, (whole of Life) for the Assurance of £100:

National Loan Fund	age 30	£2	4	4
Colonial Life Assurance Com'y	do.	2	3	2
United Kingdom	do.	2	3	10
British Commercial	do.	2	1	10
Mentor	do.	2	1	9
Britannia	do.	2	0	8

The other Offices doing business in the Colonies are much higher, that comparison is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do it for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate finance by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are 'Mutual Tables' adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within three months after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot under any circumstances be afterwards called in question. Policies effected by parties on their own lives are not considered void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned the full amount of Premiums received thereon will be returned to the family of the Assured.

The subscriber begs to remark that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal, and prompt in the settlement of claims.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

TREES, SHRUBS, &c.

SPRING, the best season for transplanting fruit and ornamental trees, has already, and the subscribers would notify the public that they have for sale a large stock of the most choice varieties of FRUIT TREES, embracing nearly all of Mr. Downing's select lists, and those recommended by the Congress of Fruit Growers, for general culture.

Their Nurseries, embracing over twenty-five acres, are situated on Treadwell-street, Oswego road, but 1½ miles from the Rail-Road Depot.

They have a larger stock of extra sized trees of all the fruits, except the Pear, than in any Nursery in Western New York, and feel confident in claiming superior hardiness and value to those grown more on the shores of Lake Ontario, exposed to the winds, at a point twelve miles from any other extensive Nursery in the states; and would also claim the present value of these trees, not from speculation and expense only, but from the fact that they have more room in the Nursery than other tree growers, thereby preventing them from being injured by crowding. They have a large stock of pears on standards, in a thriving state, at prices from $1 to $3. Also Dwarf pears in a bearing state, from 50 cents to $1, according to size and variety. Particular care will be taken in digging and packing extra sized trees, so that they will be no more danger in transplanting them than smaller trees. In this city and vicinity they will set the Oswego Berries, in a bearing state, and warrant to live. This is the most valuable fruit that can be cultivated here, and as a high flavored, melting fruit, a preserve and regular bearer, the Oswego Berry is not equalled.

We have of vines suitable for the garden or orchard, more than 350 varieties of the Pear, and nearly all of the distinguished varieties of the Apple, Cherry, Peach, Quince, Apricot and Nectarine. Also the usual stock of Evergreens, Ornamental and Shade Trees, Shrubbery, Bulbs, Roots—an extensive stock of Asparagus, Fire Plants, etc. A large stock of well grown

Ornamental Trees,

and shrubs, fancy Flower Seeds and Green House Plants.

Catalogues sent to post-paid applicants.

For convenience of our city customers and the travelling public, we have made R. Sears, No. 5, in the East Wing of the City Hotel, our Agent, with whom orders may be left, and from whom Green-house Plants, and Fruit and Ornamental Trees, etc., to a limited extent, may be had.

In K. and C. W., we can refer all those wishing to purchase any thing in our line, to Mr. C. L. Gambrill, Princess House, Princess Street, having made arrangements with him to attend to the Canada trade in and about Kingston. He will be prepared to supply pair horses at short notice, and without risk of damage in delivering. We have a large variety of green-house plants, such as Fuchsias, Verbenas, Double Dahlias, Calceolarias, Heaths, Geraniums, Rhododendrons, Venus's-Cushions, and many other kinds too numerous to name in this advertisement.

FIFE'S SPRING WHEAT.

Oswego, Onondaga District.

To the Editor of the Agricultural Journal.

MESSRS. EDITORS.—One of our farmers having been so fortunate as to introduce a new kind of wheat into this township, of which a brief notice was given in the Oswego Star, 12 months ago—I want a more full account of it, very well be unacceptable to your readers, as from its tendency to resist the effects of rust, and its adaptation to the black soils—it requires only to be known to be extensively cultivated and highly valued.

Six years ago Mr. David Fife having a friend about to return to Scotland, embraced the opportunity offered, that he might forward to the township a small quantity of wheat from some of the northern parts of Europe. On taking an Oswego or Canada thanksgiving a return from Scotland—having procured a portion, he sent it to Mr. Fife who sowed it in the spring following, and it came up fair as a lamb, as might be expected and the crop was all cared by rain, except the varieties, of which there were five rows, and two of them—one managed by rain, yet from the manner in which it was sown, it had grown half a bushel—from the produce of these two rows, I sowed one row with a few bushels, and I began to be asked for my opinion, and the person had twice sought instruction from my bushel rows. In 1828 your Agricultural Society remembered me, I was asked as a competitor, when being unknown, I was not entitled to the premium, which in many instances, and the present being conferred on to be doubtful, where the latter was not the most deserving candidate. Notwithstanding, I was spring the Agricultural Society thought it advisable to purchase 200 bushels to distribute among its members, which I was all for the transaction of the business, and the premium of the wheat returning to take back from Mr. Fife, as a bushel for it, the grain was given by the Society, and many bushels were sold to the neighboring farmers at the same rate, many go pre applying for it to sow.

It is rather a late kind of wheat being 8 or 10 days behind the Chain or Siberian, it grows at the same time, and this morning we saw it has not matured to see we dry soil, but on low black soils warm and any similar place not too wet for wheat to vegetate, it succeeds well, and its bright yellow appearance will be the admiration of the farmers. Grow as soon appears in wheat, through a range made in your readers may think that the price paid for it gives the price seems extreme high.

A sample of the wheat shown by Mr James Fife obtained a prize, the Society of Exhibition last year, and a specimen will accompany this note, together with an advertisement, which, by your giving publicity to, will oblige
