The National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the Numerous Scenes, Books, beg leave to renew the most grateful acknowledgments for the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces to the most satisfactory and decided manner, that the institutions did not merely tolerate, when they combined with the most entire confidence upon the intrinsic merits of these Books, crowding for them back the most extensive and well of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in clear type, and strongly bound with leather—

A. B. C. and Spelling, in which is to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The First Book of Arithmetic.
Key to do.
An English Grammar.
Key to do.
A Treatise on Book-Keeping.
Key to do.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

Mess. Armour & Ramsay have to offer a complete system of education, and they wish have been scarcely sought by them, may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, rise in importance, from the first to the last; and they possess this very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts.—History, Literature, and Science. The Teachers on Arithmetic, Mensuration, Book-Keeping, Geometry, Mensuration, Geography and History, are comprehensive, certainly unequalled, in the English language. The tell a much they contain, yet so simple, yet so comprehensive, so clear, yet so graduated, that the pupil who has once learned thoroughly acquainted with them, can experience no difficulty, on applying to every case which can be presented to his unique. That the Series of School Books should be patronized so many and such individuals as are, or ought to be, where it is considered, that it has emanated from a voluntary and disciplined body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names of which the British Empire can boast for virtue and learning. In the Houses which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, and who occupied the most important and widely diffusing terms of high. The late venerable Diocesan General, Lord Kenyon, when the pub lishers suggested some of their editions, had the influence of his authority and name, and they have been sanctioned by the Rth pontiff the Roman Catholic Church, by an authorized Clergyman of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendent of Education in Eastern and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most conclusive manner by the Editor of Review, to be the very best books of the kind in the English language.

The National School Books are now so generally used and so universally known that it is not necessary to recommend them. For the information, however, of such as from long use of other have not yet adopted these publications, the Publishers submit the following testimonials, selected from a great variety of others with which they were favored which they commenced the publication.—

I.

Education Office, Dublin.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 7th instant, enclosing a Copy of various letters written in favor of the School Books published by the Board, with the present of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, such of the Irish National School Books, as you may think fit.

We are to add further, that those books are in use not only with National Schools in this country, but have a very extensive circulation in England and Ireland—they have been translated into several of the Continental languages.

Mess. Armour & Ramsay, Montreal.

Marcus Costa, Jones Kenny, Secretaries.

II.

Private Secretary's Office, Montreal.

Gentlemen,—I am commanded by the Governor General to acknowledge the receipt of your letter, and to inform you in reply, that His Excellency will be very glad to have his name associated in the manner you propose, with an undertaking which he considers to be of great public benefit, and His Excellency also desires me to say, that it will give him pleasure to aid the work in which you are engaged, by any means in his power.

I have the honor to be,

J. M. Higginson.

Mess. Armour & Ramsay, Montreal.

III.

The publishers were permitted to impress the following on the Books:—

In behalf of the Roman Catholic Clergy.

"Approbation the Superintendent Education."

IV.

From the Synod of the Presbyterian Church in connection with the Church of Scotland.

Extract.

"The Committee reported that they had carefully examined the following School Books which Messrs. Armour & Ramsay proposed to reprint, viz.—

(Here followed a list of the Books.)

and that they considered the Books extremely well adapted to facilitate the various branches of Education to which they refer. Whereupon the Synod agreed heartily to recommend these School Books to the notice of Parents and Teachers, and all others who feel an interest in the mental improvement of the youth of this country, or who exercise an influence over their education."

Andrew Bell, Synod Clerk.

IV.

In behalf of the Department of Public Instruction in Canada East.

"With the approbation of Dr. Meilleur, Superintendent of Education."

V

From the Superintendent of Education for Canada West.

Education Office, C. W.

Gentlemen,—I Rejoice to learn that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners—headed by the Protestant and Roman Catholic Archbishops of Dublin have published for the National schools of Ireland. These books have been prepared under the auspices of men of great learning and experience, and are remarkable for elegance and for simplicity, clearness and comprehensiveness of definition and arrangement.

"I have been invited by the Government to turn my attention to the preparation and selection of books to be recommended for general use in the Common Schools of Canada. West. I am glad that you are on the eve of publishing such, and anticipating no, so have already commenced the reprinting of a set of books both so proper and cheaper than most of those used in our Common Schools. Nor can I refrain that I shall be able to do better than recommend in general and permanent use in our Schools, some of the elementary books which you are reprinting.

Canada is already, and is likely to be at a more deeply interested in your enterprise for an improved set of Schools Maps and Books. I wish you may meet with every success in your laudable endeavours to improve the moral condition and of our Canadian Schools.

I have the honor to be, &c.,

Egerton Ryerson.

VI

From the Rev. Mr. Sanders, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and I feel well do they seem to be adapted to the purposes for which they were compiled, that I cannot consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

Ever Jones Sanders,

Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Lyon Adamson, of the Free Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the beneficial effects of those first literally cast into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of introducing them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to reproduce them in a form adapted to general circulation in this Province I consider them as entitled to the generous support of every individual desirous to spread abroad the blessings of Education, and as deserving of the sincere gratitude of all who have the welfare of the Province at heart.

W. Lyon Adamson,

Chaplain Legislative Council, Assistant Minister of Church's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I rejoice to the information you have done me the favour to communicate that your are reprinting some of the publications of the Education of Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works of British authorship, for the training to be given in our Schools, cannot fail to strike every mind. The machinery needful to public Education can be worked to better purpose, if it be confined exclusively what works are employed for the purpose of training throughout all the Public Schools, which the tedious process of thought is thereby lessened, and the efficiency augmented. The frequent removal of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate so disadvantageously on the progress of such pupils; if the Books employed in Education were uniform.

In regard to the excellence of the Series in the point, I presume little may be. They have well outlived the application of tests more than usually rigid, and they have accordingly risen, and they have accordingly proved an unspeakable blessing to Ireland. Without being minutely acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools would not fail to be a national benefit. Next to a sufficient supply of good Teachers, good books are a desideratum in the Colony; it is matter for congratulation that you are about to supply the want.

Without being any way authorized to express the sentiments of the religious body with which I have the honor to be connected, yet I may be permitted to say that both my knowledge of the general sentiments of the Pastors and, I have no doubt that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,

Henry Wilkes.

St. Antoine Street.

IX

From the Reverend J. M. Cramp, President of the Baptist College.

Gentlemen,—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Elementary Instructions in Canada. I have been long acquainted with those lessons and value them much. They have been used in my own family with manifest advantage.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; these lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style is admirably adapted to the capacity.

In addition to these commendations, it is to be observed that there is an entire freedom from all sectarian bias. Conscientious of every persuasion may place these volumes in the hands of their children without the slightest fear of wounding a tender state of society. Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy I am, gentlemen, you, obedient servant.

J. M. Cramp.

Baptist College, Montreal, Dec 13, 1831.

The editions of the National School Books issued by the Subscribers, bear the following on the title—

"Dublin: Published by the direction of the Commissioners of National Education, and reprinted by express permission at Montreal by Armour & Ramsay."

LATIN CLASSICS.

Cheap Cabinet Editions for Colleges and Schools.

THE success which attend the experiment to introduce and render uniform the Books used in the Common Schools of Canada, as set forth in the following advertisement, emboldened the Subscribers to undertake the publication of the Classical series now adhere to the use Colleges, High Schools, District and Grammar Schools.

The numbers of the series consist of the following:

Excerpta from Cornelius Nepos 1s. 6d.
The First Four Books of Caesar, 1s 3d.
The Third and Fourth Books of Quintus Curtius, 1s 3d.
Cicero de Amicitia, 1s.
Cicero de Senectute, 1s.
Tacitus Agricola, 3d
The Georgics of Virgil, 1s 6d.
The Fasti of Ovid, 1s 6d.
The Odes of Horace, 1s. 3d.
The Three First Books of Virgil, 1s 6d.

On the above cover had hitherto been bound in two vols, price 6s, 3d. for the Prose and 3s. 6d. for the Poetry.

"We rejoice at this noble attempt to facilitate the studies of the Classes in Canada by reducing the expense of procuring those portions of them which are used in the Schools. The cheapness, convenience and excellence of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Armour & Ramsay have been the pioneer Publishers of our best series of Common School Books; and they are now laying the country under additional obligations by the excellent reprints of Classical School Books. We hope to see the day when Canada will rejoice in its own printer Classical, as well as general literature, as it now does to some extent, and we hope will to a much greater extent, in its own literary men.—Journal of Education, Toronto.

Orders will be executed by the Booksellers throughout Canada, or by the Publishers.

ROBERT BARKER'S

COMPOUND SARSAPARILLA PILLS

THE Proprietor having paid particular attention to the composition of these Pills, can with confidence recommend their use to the Public, in all diseases above enumerated; and having been in use several years, they have given general satisfaction in every case where they have been used. Numerous testimonials could be published of their truly wonderful effects, but not wishing to adopt a system which the good sense of the public must condemn of publishing a long list of fictitious cures, the Proprietor trusts that a single trial will prove their good effects. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been used by the Medical Profession many years, but experience has proved that all Liquid or Watery Preparations lose their Medicinal qualities, in a very short period, and become worthless; consequently it has been found necessary to use the solid extract of Honduras Sarsaparilla, from which these Pills are prepared, combined with other valuable remedies and therefore more real benefit will be derived by the use of one box, than from half a dozen bottles of any preparation of Sarsaparilla in use, many of which are an imposition on the Public, too notoriously known. These pills act as a Powerful alterative, and tonic, and mild aperient, strengthening the stomach, &c., and being of a purely vegetable composition, are perfectly safe in their operation, and may be taken by the most delicate females at any period, and will be found most valuable for any irregularities peculiar to them.

FIFE'S SPRING WHEAT.

Otonabee, Colborne District.

To the Editors of the Agricultulist.

MESSRS. EDITORS,—One of our farmers having been so fortunate as to introduce a new kind of wheat into this township, of which a brief notice was given in the Cobourg Star, 19 months ago—I trust a more full account of it may not be unacceptable to your readers, as from its tendency to resist the effects of rust, and its adaptation to low black soils—it requires only to be known to be extensively cultivated and highly valued.

Eight years ago Mr. David Fife having a friend about to revisit Scotland, requested it an opportunity conveyed, that he would forward to this country a small quantity of wheat from some of the northern parts of Europe. On landing at Glasgow he found a vessel discharging a cargo from Dantzic—having procured a portion, he sent it to
