NEW EDITIONS.

ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the Authorized Series of Books, beg leave to return their most grateful acknowledgements for the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not overestimate, when they reckoned with the most entire confidence upon the intrinsic merits of these Books securing for themselves the esteem, patronage and love of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen, viz:—A, B, C, and Figures, on sheets to be hung up in General Lessons, to range up in wards.

The First Book of Lessons.
The Second Book of Lessons.
The Second Book of Lessons.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The Book of Anthem.
Key to do.
An English Grammar.
Key to do.
A Treatise on Book-Keeping.
Key to do.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they have been severally ranged by them, may be considered as perfectly well grounded in order upon the principles of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, are in importance, from the first to the last; and they possess a very distinguishing and obvious merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are so simple, yet so comprehensive, so clear, yet so profound, that the pupil who has once become thoroughly acquainted with them, can experience no difficulty in applying to every case which can be presented to his notice. That this Series of School Books should be pronounced of so unique and such unbounded merit, is not to be wondered, when it is considered, that they emanated from a practical and so distinguished a body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names in which the British Empire can boast for virtue and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, and who maintain the most opposite and widely differing tenets of belief. The late venerable Governor General, Lord Metcalfe, when the publications originally issued their edition, had them the recommendation authority and warm, and they have been sanctioned by the Bishops of the Roman Catholic Church, by an up individual Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the Minister of Home, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that it would be said supporting them. For the information, however, of such as may from long use of others have not yet adopted these publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

EDUCATION OFFICE, TORONTO.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 25th instant, enclosing "Extracts from Testimonials in favor of the School Books published by the Board," with the consent of which they were much gratified, we are directed to inform you, that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, such of the Irish National School Books, as you may think fit.

We are to state further, that these books are in use not only with National Schools of the country, but have a very extensive circulation in England and Scotland—they have been translated into several of the Continental languages.

EXTRACT.

"The Committee reported that they had carefully examined the following School Books which Messrs. Armour & Ramsay, proposed to republish, viz.—

(Here followed a list of the Books.)

and that they considered the Books extremely well adapted to meet the various branches of Education to which they refer. Whereupon the Synod agreed heartily to recommend these School Books to the notice of Parents and Teachers, and all others who feel an interest in the mental improvement of the youth of this country, of whatever religious denomination they may be."

EDUCATIONAL OFFICE C. W.

Gentlemen,—I regret to learn that you have commenced republishing for the use of Schools in Canada, the series of admirable School Books which the Government commissioners selected by the Protestant and Roman Catholic Archbishops of Dublin have published for the National schools of Ireland. These books have been prepared under the auspices of men of the highest learning and experience, and at a great expense to the Government, and the Government to protect them from unfair competition, and to secure to the Canadian people the benefit of the best possible system of elementary education, I have been in the habit of recommending the use of these books in the Common Schools of Canada West. I am glad that you are so far anticipating with such anticipation me, as to have already commenced the republishing of a set of books both superior and cheaper than most of those used in our Common Schools. Nor am I certain that I should be able to do better than recommend the general and permanent use in our Schools, some of the elementary books which you are republishing.

Canada is already, and is likely to be still more deeply indebted to your enterprise for an improved set of Schools Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most neglected department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
EGERTON RYERSON.

VI

From the Rev. Mr. Scollard, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, in Ireland, to be, from extensively used in England, both in private families and in public institutions; and I consider they seem to be adapted to the purposes for which they were compiled, that I must remember any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

REV. JOHN SCOLLARD,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Leger Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have had the very highest place in my estimation since I witnessed the beneficial effects of their first introduction into Public Schools and Private families, in that country.

I have said, therefore, in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of replacing, from the Educational fund, copies of Canada.

Messrs. Armour & Ramsay having undertaken to re-publish them in a form calculated for general circulation in this Province I consider them as entitled to the generous support of every one who desires to spread abroad the blessings of Education, and as deserving of the sincerest gratitude of all who have the welfare of the Province at heart.

W. LEGER ADAMSON,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I replied in the affirmative yesterday, when you called upon me, to your request that I would be willing to state what I have done and the reasons to communicate that great and signal benefit have arrived in the establishment of the Educational Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of elementary works of British authorship, for the training to be given to our Schools, cannot fail to strike every attentive mind. The machinery needful to public Education can be worked to better purpose, if it be used certainly precisely what works are employed for the purpose of training throughout all the Public Schools; while the text of a work in a thoroughly trained, and its efficiency augmented. The frequent removal of the pupils with their parents, adults, in a place like yours must continue to be a common occurrence, would be impossible on disadvantageous to the progress of such pupils, if the Books employed in Education were uniform.

In regard to the excellence of the Series in the point, I presume little may be. They have well sustained the application of tests more than usually rigid, and they have universally eight, and they have amply proved an unquestionable blessing to Ireland. Without being minutely acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction, into all our Public Schools would not fail to be a national benefit. Nor is a sufficient supply of good Teachers, good reason, a discouragement in the Colony, if so, instead for congratulation that you are about to supply the want.

Without being any way authorized to express the sentiments of the religious body with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Pastors and I have no doubt but that the Synod will meet with an enlightened and cordial reception on the part of them.

I am, Gentlemen, yours respectfully,

HENRY WILKES.

St. Antoine Street.

IX

From the Reverend J. M'Cosh, President of the Baptist College.

Gentlemen,—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Educational Institutions in Canada. I have been long acquainted with these books and value them much. They have been used in my own family which manifest advantage.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and principles with which all ought to be acquainted. Formerly, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and important, and the style in which it is conveyed is exquisitely.

In addition to these recommendations, it is to be desired that there is an entire freedom from all sectarian bias. Creatures of every representation may place these volumes in the hands of their children without the slightest fear or misgiving arising state of society. Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy I am, gentlemen, your obedient servant.

LATIN CLASSICS.

Cheap Cabinet Editions for Colleges and Schools.

THE various which attend the expense to use and render uniform the Books used in the Common Schools of Canada, as set forth in the Government, emboldened the Subscribers to undertake the publication of the Classical series now adopted in the Colleges, High Schools, District and Grammar Schools, &c.

The numbers of the series consist of the following:

Excerpta from Quintius Niger 1s 6d
Tacitus Four Books of C. 1s 6d
The Third and Fourth Books of Quintus Curtius 1s 3d
Cicero in Antichr. 1s
Cicero de Senectute.
Tacitus Agricola. 9d
The Germania of Tacitus. 1s 6d
The Fall of Ovid. 1s 6d
The Odes of Horace. 1s 3d
The Three First Books of Ovid. 1s 6d

The standard editions had hitherto sold at two, three, 2s, 2s 6d for the Prose and 3s 6d for the Poetry.

We will use at this noble attempt to facilitate the studies of the Student in Canada by lessening the expense of procuring these Books, which are used in the Schools, that series of cheap, convenient and elegant, so every Classical Text, comprehensive Schools and Academies and Colleges. Mess. Armour & Ramsay have been the parent of the series, and they are now having the work Schools & additional editions by those eminent Classical Scholars, the Rev. Dr. Cleaver, in vol. of Classical Schools. We think, in the day when Canada will rejoice in the cheap Classical, as well as general literature, as it now does in cheap school, and we hope will be a much greater extent, in its new literary and educational of Education, Europe, Canada will be crowned by the Scholastic throughout Canada, or by the Publishers.

ROBERT BARKER'S

COMPOUND SARSAPARILLA PILLS.

THE Proprietor having paid particular attention to the composition of these Pills, can with confidence recommend their use to the Public, to all diseases above enumerated; and having been in use several years, they have given general satisfaction in every case where they have been used. No certain testimonials could be published of their truly wonderful effect, but not wishing to adopt a system which the good sense of the public must condemn of publishing a long list of fictitious cases, the Proprietor trusts that a single trial will prove their good effects. In consequence of the peculiar virtues of the Sarsaparilla Root, which has been used by the Medical Profession many years, but experience has proved that all Liquid or Watery Preparations lose their Medicinal qualities, in a very short period, and become useless, consequently it has been a long necessity to use the solid extract of Honduras Sarsaparilla, from which these Pills are prepared, combined with other valuable remedies and therefore more real benefit will be derived by the use of one box, than from half a dozen bottles of any preparation of Sarsaparilla in use, many of which are a imposition on the Public, too notoriously known. These pills act as a Powerful alterative, mild purge, and mild aperient, strengthening the stomach, &c., and being of a purely vegetable composition, are perfectly safe in their operation, and may be taken by the most delicate females at any period, and will be found most valuable for any intermittent complaint to the system.
