The National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY,

THE Subscribers, in publishing new editions of the Numerous Series, Books, beg leave to return their most grateful acknowledgements for the liberal patronage which has been extended by all classes of the community in their publications. The facility with which the previous Editions were disposed of, relieve in the most satisfactory and decided manner, that the publishers did not miscalculate, when they embarked with the most entire confidence upon the intrinsic merits of these Books treading for themselves the widest extent and love of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A, B, C and Figures, on sheets to be hung up (mounted lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published, these are throughout 400 pp.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geography.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they will have been scarcely used by them may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of profitably knowledge sufficient to enable them to pursue the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, rise in importance, from the first to the last; and they possess the very distinguishing and choice erotic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are as simple, yet as comprehensive, as clear, yet as profound; that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his notice. That this Series of School Books should be possessed of so many and such undoubted merits, is not wonderful, when it is considered, that it has emanated from a Society, distinguished alike, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names in which the British Empire can boast to vision and learning. In the Series which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, and who maintain the most opposite and widely differing forms of belief. The late estimable Governor General, Lord Metcalfe, when the publications originally issued their editions, lent them the influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by an influential Clergyman of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and as far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the Editor of the Kingston Chronicle, to be the very best books of the kind in the English language.

The National School Books are now so generally used and so universally known, that little need be said respecting them. For the information, however, of such as from long use of others have not yet adopted these publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

Government Office, Dublin.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 28th instant, enclosing "Copies of various Government Reports in favor of the School Books published by our Board," with the request of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, each of the Irish National School Books, on any chosen thereof.

We are to add, further, that these books are to be used only with National Schools of this country, but have a very extensive circulation in England and Scotland—they have been besides translated into several of the Continental languages.

and that they considered the Books extremely well adapted to facilitate the various branches of Education to which they refer. Whereupon the Synod agreed heartily to recommend these School Books to the notice of Parents and Teachers, and all others who feel an interest in the mental improvement of the youth of this country, or who exercise an influence over their education."

From the Superintendent of Education for Canada West.

Education Office, C. W.

Gentlemen,—I Rejoice to learn that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Commissioners of Education—backed by the Protestant and Roman Catholic Archbishops of Dublin have published for the National Schools of Ireland. These books have been prepared under the auspices of men of great learning and experience, and are remarkable for adaption and for simplicity, clearness and comprehensiveness of definition and arrangement.

I have been informed by the Government of your attention to the preparation and selection of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are to be co-operating with, and anticipating me, as we have already been recalled the reprinting of a set of books both numerous and cheaper than those of them used in our Common Schools. Not an I certain that I should be able to do better than recommend and commence use in our Schools, some of the elementary books which you are reprinting.

Canada is already and is likely to be of it more deeply indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most sufficient department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,

EGERTON RYERSON.

VI

From the Rev. Mr. Stanley, Rector of the High School, Quebec.

I have long known the Books published by the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions. Well do they seem to be adapted to the purposes for which they were compiled, that I cannot consider any effort made to extend their circulation, as detracting of the patronage and encouragement of all classes of the community.

REV. JOHN STANLEY, Rector of the High School, Quebec.

VII

From the Rev. Dr. M. Ager Johnson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have in the very highest place in my estimation since I witnessed the excellent effects of their introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon intelligent of the Protestant to recommend the adoption of reprinting them for Elementary purposes in Canada.

Messrs. Armour & Ramsay having undertaken to supply them, it is to be cultivated on general circulation in the Province I consider them as entitled to the generous support, always on whose footsteps to spread abroad the blessings of Education, and as deserving of the universal gratitude of all who have the welfare of the Province at heart.

W. JOHN JOHNSON, Chaplain Regimental Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I return to the information you have done me the honor to communicate the great encouraging to have recognized in the republication of the Education Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works in British authorship, for the training to be given in our Schools, cannot but be strongly felt. The elementary models in public Education can be needed to many purposes, if to be well-known generally what works are employed for the purpose of training throughout all the Public Schools, which the best elementary, in twenty numerous, and the Elementary organizers. The to-point treasure of the pupils with their parents, which, in a population where rules most continue to be a common occurrence, would not operate in discouraging, by to the progress of such pupils, if the Books employed in Education were uniform.

In regard to the excellence of the Series in question, I presume little need be. They have well sustained the application of more than twenty years, and they have uniformly equal, and they have uniformly provided unexpectedly blessing to friends. Without being uniformly acquainted with them all, we having uniformed constantly consulted several of them, my opinion is, that their introduction into all our Public Schools could not but be a national benefit. Next to a sufficient supply of good Teachers, good books are a desideratum in the Country—it is matter for congratulation that you are about to supply the want.

Without being any way authorized to speak on the subject, I feel the obligation only with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Public and, I have no doubt but that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,

HENRY WILKES.

St. Antoine Street.

IX

From the Reverend J. M. Cramp, President of the Baptist College.

Gentlemen,—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Elementary Institutions in Canada. I have been long acquainted with those lessons and value them much. They have been used in my own family which manifest advantage.

It is the positive excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things—these lessons teach things rather than words. The information they contain is highly amusing and instructive, and the tale is distinguished for simplicity.

In addition to these commendations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear of misguiding opinions of society. Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy I am, gentlemen, yours, obedient servant,

J. M. CRAMP.

LATIN CLASSICS.

Cheap Cabinet Editions for Colleges and Schools.

THE success which attend the experiment to introduce uniform the Books used in the Common Schools of Canada, as set forth in the following advertisement, emboldened the Subscribers to undertake the publication of the Classical series now in course of use in the Colleges, High Schools, District and Grammar Schools.

The numbers of this series consist of the following:

Passages from Cornelius Nepos 1s 6d.
The First Four Books of Cæsar, 1s 3d.
The Third and Fourth Books of Quintus Curtius 1s 3d.
Cicero de Amicitia. 1s
Cicero de Senectute.
Tacitus Agricola. 3d
The Georgics of Virgil. 1s 6d.
The Fasti of Ovid. 1s 6d.
The Odes of Horace. 1s 3d.
The Three First Books of Livid. 1s 6d.

The above can be had neatly bound in one vol., price 6s, 3d. for the Fasti and 3s. 6d. for the Fasti.

"We rejoice at this noble attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those editions of them which are used in the Schools. The elegance, convenience and excellence of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Armour & Ramsay have been the pioneer Publishers of our best series of Common School Books; and they are now laying the country under additional obligations by their excellent reprints of Classical School Books. We hope to see the day when Canada will supply its own printing Classics, as well as general literature, as it now does to some extent, and we hope will in a much greater extent, in its own literary men.—Journal of Education, Toronto.

Orders will be executed by the Booksellers throughout Canada, or by the Publishers.

ROBERT BARKER'S COMPOUND SARSAPARILLA PILLS.

THE Proprietor having paid particular attention to the composition of these Pills, can with confidence recommend their use to the Public, in all diseases above enumerated; and having been in use several years, they have given general satisfaction in every case where they have been used. Numerous testimonials could be published of their truly wonderful effects, but not wishing to adopt a system which the good sense of the public must condemn of publishing a long list of fictitious cases, the Proprietor trusts that a single trial will prove their good effects. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been used by the Medical Profession many years, but experience has proved that all Liquid or Watery Preparations lose their Medicinal qualities, in a very short period, and become worthless, consequently it has been found necessary to use the solid extract of Honduras Sarsaparilla, from which these Pills are prepared, combined with other valuable remedies and therefore more real benefit will be derived by the use of one box, than from half a dozen bottles of any preparation of Sarsaparilla in a watery state, many of which are an imposition on the Public, too notoriously known. These pills act as a Powerful alterative, and tonic, and mild aperient, strengthening the stomach, &c., and being of a purely vegetable composition, are perfectly safe in their operation, and may be taken by the most delicate females at any period, and will be found most valuable for any irregularities peculiar to them.
