The National School Books.
NEW EDITIONS
ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the NATIONAL SCHOOL BOOKS, beg leave to return their most grateful acknowledgments to the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and flattering manner, that the publishers did not miscalculate, when they rendered with the numerous facilities upon the national models of other Books, striving for the welfare the comfort and ease of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A. B. C. and Figures, on the 16 to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.
Key to do.
An English Grammar.
Key to do.
A Treatise on Book-Keeping.
Key to do.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elementary Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they have been warmly praised by those qualified to pronounce on perfect well-qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge simply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The lessons contained in the reading Books, are in composition, from the first to the last; and they possess the very distinguishing and choice excellence, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of moral and religious, and of a vast number of important facts, in the Arts, Literature, and Sciences. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly most perfect, in the English language. The rules which they contain, are so simple, yet so comprehensive, so clear, yet so profound, that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his mind. That this Series of School Books should be conceived of so many and such undoubted merits, is not wonderful, when it is considered, that they emanated from a Board, so dignified a body, as the National Board of Education of Ireland—a body which combines in its members, some of the highest names of which the British Empire can boast for virtue and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expression of approbation, from men in every rank of society, and who contain the most opposite and widely differing tenets of belief. The late estimable Governor General, Lord Metcalfe, when the publishers originally issued these editions, lent them the influence of his authority and name, and they have been recommended by the Roman Catholic Church, by the Episcopalian Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and as far as the Subscribers have yet been informed, by all the Parents and Guardians, Superintendents in the Western section of the Province, and they have been declared in the most unanimous manner by the Edinburgh Review, to be the very best books of the kind in the English language.

The National School Books are now so generally used and so universally known that, it would be vain to attempt to prove the information, however, of each or from long use of others, have not yet adopted these publications, the Publishers submit the following testimonials, selected from a great variety of others with which they were favored when they commenced the publication.

EDUCATION OFFICE, DUBLIN.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 23th instant, enclosing "Copies of various Greek Books in lieu of the School Books published by the Board," with the perusal of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, each of the Irish National School Books, as you may think fit.

We are to state further, that these books are in use not only with National Schools of this country, but have a very extensive circulation in England and Ireland—they have been translated into several of the Continental languages.

EDUCATIONAL OFFICE C. W.

Gentlemen,—I Rejoice to learn that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners—headed by the Protestant and Roman Catholic Archbishops of Dublin have published for the National schools of Ireland. These books have been prepared under the sanction of men of great learning and experience, and are remarkable for cheapness and for simplicity, chastness and comprehensiveness of definition and arrangement.

I have been instructed by the Government to turn my attention to the preparation and selection of books to be recommended, the general use in the Common Schools of Canada West. I am glad that you are so far in operating with and anticipated me, as to have already commenced the reprinting of a set of books both interesting and cheaper than most of those used in our Common Schools. Not an I certain that I shall be able to do better than recommend to general and permanent use in our Schools, some of the much necessary books which you are reprinting.

Canada is already said to be still more happily indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavour to improve the most inefficient department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
EGERTON RYERSON.

VI

From the Rev. Mr. Scoble, Rector of the High School, Quebec.

I have long known the Books published by the board of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and so well do they seem to be adapted to the purposes for which they were compiled, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

HUGH JOHN SCOBLE,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Agar Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have by the very highest place in my estimation since I witnessed the beneficial effects their introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly expressed my wish to the Provincial Government the expediency of supplying them for Educational purposes in Canada.

Armour & Ramsay having undertaken to reprint them on a form calculated for general circulation in this Province, I consider them as entitled to the fullest support in every case where it devolves to spread abroad the benefits of Education, and as deserving of the universal gratitude of all who love the welfare of the Province at heart.

W. AGAR ADAMSON,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I rejoice to hear of the intelligence you have done and is about to communicate that your enterprise is now engaged in the republication of the Educational Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having a uniform series of Elementary works of British authorship, for the training to be given in our Schools, cannot fail to strike every mind. The uncertainty resulting in public Education from so varied a course, if it be understood accurately what is now employed for the purpose of training throughout all the Public Schools; which the tact of a question is liable to be put, and an discovery augmented. The important resources of the people, with the province, which, in a proportion like ours must continue to be a common occurrence, would not appear to disadvantageously to the progress of such pupils if the Books employed in Education were uniform.

In regard to the excellence of the Series in the press, I present little may be. They have well sustained the application of tests more than merely trivial, and they have uniformly signal, and they have uniformly proved an unquestionable blessing to Ireland. Without being intimately acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools could not fail to be a national benefit. Next to a sufficient supply of good Teachers, good books are a desideratum in the Country; it is matter for congratulation, that you are so at to supply the wants.

Without being any way authorized to express the sentiments of the religious body with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Church, I have no doubt but that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,
HENRY WILKES.

St. Antoine Street.

IX

From the Reverend J. M. Cramp, President of the Baptist College.

Gentlemen—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Educational Institutions in Canada. I have been long acquainted with them from use and value them much. They have been used in my own family which manifest advantage.

It is the positive excellence of the Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style is distinguished for perspicuity.

In addition to these considerations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place them without in the hands of their children without the slightest fear of uniting in the earning state of society in Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy

I am, gentlemen, you, obedient servant,
J. M. CRAMP.

LATIN CLASSICS,

Cheap Cultural Editions for Colleges and Schools.

THE success which attended the experiment of the new and neater uniform the Books used in the Common Schools of Canada, as set forth in the to ongoing advertisement, encouraged the Subscribers to undertake the publication of the Classical series now advertised for the use of Colleges, High Schools, District and Grammar Schools.

The numbers of the series consist of the following:

Excerpta from Cornelius Nepos 1s. 6d.
The First Four Books of Cæsar 1s. 3d.
The Third and Fourth Books of Quintus Curtius 1s. 3d.
Cicero de Amicitia, 1s.
Cicero de Senectute, 1s.
Virgil Agricola, 2d.
The Georgics of Virgil, 1s. 6d.
The Pastoral Ovid, 1s. 6d.
The Odes of Horace, 1s. 3d.
The Three First Books of Ovid, 1s. 6d.

On the above can be had handsomely bound in one vol., price 6s. 3d. for the Prose and 3s. 6d. for the Poetry.

"We rejoice at this noble attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those portions of them which are used in the Schools. The cheapness, convenience and excellence of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs. Armour & Ramsay have been the present Publishers of our best series of Common School Books; and they are now laying the country under additional obligations by their excellent reprint of Classical School Books. We hope to see the day when Canada will rejoice in an own printed Clothbind, as well as general literature, to at our days to come capital, and we hope will to a much greater extent, in its own literary men.—Journal of Education, Toronto.

Orders will be answered by the Subscribers throughout Canada, or by the Publishers.

ROBERT BARKER'S
COMPOUND SARSAPARILLA PILLS.

THE Proprietor having paid particular attention to the composition of these Pills, can with confidence recommend their use to the Public, in all diseases above enumerated; and having been in use several years, they have given general satisfaction in every case where they have been used. No secret testimonials could be published of their truly wonderful effects, but not wishing to adopt a system which the good sense of the public must condemn of publishing a long list of fictitious cures, the Proprietor trusts that a single trial will prove their good effects. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been used by the Medical Profession many years, but experience has proved that all Liquid or Watery Preparations lose their Medicinal qualities, in a very short period, and become worthless, consequently it has been found necessary to use the solid extract of Honduras Sarsaparilla, from which these Pills are prepared, combined with other valuable remedies and therefore must results benefit will be derived by the use of one box, than from half a dozen bottles of any preparation of Sarsaparilla in use, many of which are an imposition on the Public, but notoriously known. These pills act as a Powerful alterative, and tonic, and mild aperient, strengthening the stomach, &c., and being of a purely vegetable composition, are perfectly safe in their operation, and may be taken by the most delicate females at any period, and will be found most valuable for any irregularities peculiar to them.
