The National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the NATIONAL SCHOOL BOOKS, beg leave to return their most grateful acknowledgements for the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, coupled in the most satisfactory and decided manner, that the publishers did not miscalculate, when they embarked with the confidence of the public, upon the intrinsic merits of these Books, presenting for the orders the cheapest and best of the inhabitants of British America.

The Series consists of the following Books, of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A. B. C. and Spelling, on the to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Second to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they have been warmly sought for them, may be considered as perfectly qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, are in importance, from the first to the last; and they possess that very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are so simple, yet so comprehensive; so clear, yet so profound; that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his notice. That this Series of School Books should be possessed of so many and such undoubted merits, is not wonderful, when it is considered, that it has emanated from a Board, dignified by the National Board of Education of Ireland—a body which numbers among its members, some of the highest names of which the British Empire can boast for virtue and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, and who maintain the most opposite and widely differing tenets of belief. The late amiable Governor General, Lord Metcalfe, when the publishers originally issued their editions, lent them the influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by an any influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the Edinburgh Review, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that they need be said respecting them. Further information, however, of such as from long use of others have not yet adopted these publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

EDUCATION OFFICE, DUBLIN.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 23 ult. instant, enclosing "Copies of various Geographical Texts in lieu of the School Books published by the Board," with the perusal of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, each of the Irish National School Books, as you may think fit.

We are to state further, that these books are in use not only with National Schools of this country, but have a very extensive circulation in England and Scotland—they have been besides translated into several of the Continental languages.

EXTRACT.)

"The Committee reported that they had carefully examined the following School Books which Messrs. Armour & Ramsay proposed to reprint, viz.—

(Here followed a list of the Books.)

and that they considered the Books extremely well adapted to fulfil to the various branches of Education to which they relate. Whereupon the Synod agreed heartily to recommend these School Books to the notice of Parents and Teachers, and all others who feel an interest in the mental improvement of the youth of this country, or who exercise an influence over their education."

EDUCATIONAL OFFICE, C. W.

Gentlemen,—I Rejoice to learn that you have undertaken reprinting for the use of Schools in Canada, the series of admirable School Books which the Commissioners of Education—founded by the Protestant and Roman Catholic Archbishops of Dublin have published for the National Schools of Ireland. These books have been prepared under the auspices of men of great learning and experience, and are remarkable for cheapness and for simplicity, clearness and compactness of definition and arrangement.

I have been informed by the Government, in case my sanction to the properties and adaptation of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are so far in opening with, and anticipated me, for I have already commenced the reprinting of a set of books both superior and cheaper than most of those used in our Common Schools. Nor am I certain that I shall be able to do better than recommend to general and permanent use in our Schools, some of the elementary books which you are reprinting.

Canada is already and is likely to be still more deeply indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most neglected department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
DENIS VIGNON.

VI

From the Rev. Mr Scoble, Rector of the High School, Quebec.

I have long known the books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and I am well aware they seem to be adapted to the purposes for which they were compiled, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

REV. JOHN SCOBLE,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Agnew Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the wholesome effects of their first introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon successive Governors of the Province the expediency of appointing them for educational purposes in Canada.

Armour & Ramsay having undertaken to reproduce them in a form calculated for general circulation in this Province, I consider them entitled to the generous support of every one who is desirous to spread abroad the blessings of education, and to deserving of the sincerest gratitude of all who have the welfare of the Province at heart.

W. AGNEW ADAMSON,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I rejoice to hear of the intelligence you have done me, in favour to communicate that your enterprising house is engaged in the republication of the Education Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works of British authorship, for the training to be given in our Schools, cannot fail to strike every mind. The machinery needful in public Education can be worked to better purpose, if it be understood precisely what works are employed for the purpose of training throughout all the Public Schools; while the toil of inquiry as to the city resources, and the discovery sequestered. The frequent removal of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate so disadvantageously by the progress of such pupils; if the Books employed in Education were uniform.

In regard to the excellence of the Series in question, I personally little may be. They have well sustained the application of tests more than twenty years, and they have universally read, and they have universally proved an unspeakable blessing, in Ireland. Without being minutely acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools could not fail to be a national benefit. Next to a sufficient supply of good Teachers, good books are a desideratum in the Colony; it is matter for congratulation that you are about to supply the want.

Without being any way authorized to cap on the undersigned the religious body with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Parties, I have no doubt but that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,
HENRY WILKES.

St. Antoine Street.

IX

From the Reverent. J. M. Cramp, President of the Baptist College.

Gentlemen—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Educational Institutions in Canada. I have been long acquainted with them from use and value have much. They have been used in my own family which mention advantage.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted; Formerly, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style in distinguished for simplicity.

In addition to these recommendations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear of imbuing in the earnest state of society in Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy

I am, gentlemen, you, obedient servant.
J. M. CRAMP.

LATIN CLASSICS.

Chiefly Cultural Editions for Colleges and Schools.

THE success which attended the experiment to introduce and render uniform the Books used in the Common Schools of Canada, as set forth in the ensuing advertisement, emboldened the Subscribers to undertake the publication of the Classical series now advanced for the use of Colleges, High Schools, District and Grammar Schools.

The numbers of the series consist of the following:

Extracts from Cornelius Nepos 1s. 6d.
The First Four Books of Caesar, 1s 3d.
The third and Fourth Books of Quintus Curtius, 1s 3d.
Cicero de Amicitia. 1s.
Cicero de Senectute.
Tacitus Agricola. 9d
The Georgics of Virgil. 1s 6d.
The Fasti of Ovid. 1s 6d.
The Odes of Horace. 1s. 3d.
The Three First Books of Ovid. 1s. 6d.

On the above can be had uniformly bound in one vol., price 6s. 3d. for the Prose and 3s. 6d. for the Poetry.

"We rejoice at this noble attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those editions of them which are used in the Schools. The cheapness, convenience and excellence of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Armour & Ramsay have been the greatest Publishers of our best series of Common School Books; and they are now laying the country under additional obligations by their excellent reprints of Classical School Books. We hope to see the day when Canada will rejoice in an own printed Classical, as well as general literature, in at most done to some extent, and we hope will to a much greater extent, in its own literary city.—Journal of Education, Toronto.

Orders will be received by the Booksellers throughout Canada, or by the Publishers.

ROBERT BARKER'S

COMPOUND SARSAPARILLA PILLS.

THE Proprietor having paid particular attention to the composition of these Pills, can with confidence recommend their use to the Public, in all diseases above enumerated; and having been in use several years, they have given general satisfaction in every case where they have been used. Numerous testimonials could be published of their truly wonderful effects, but not wishing to adopt a system which the good sense of the public must condemn of publishing a long list of fictitious cases, the Proprietor trusts that a single trial will prove their good effects. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been used by the Medical Profession many years, but experience has proved that all Liquid or Watery Preparations lose their Medicinal qualities, in a very short period, and become worthless, consequently it has been found necessary to use the solid extract of Honduras Sarsaparilla, from which these Pills are prepared, combined with other valuable remedies and therefore more real benefit will be derived by the use of one box, than from half a dozen bottles of any preparation of Sarsaparilla in use, many of which are an imposition on the Public, tho' extensively known. These pills act as a Powerful alterative, and tonic, and mild aperient, strengthening the stomach, &c., and being of a purely vegetable composition, are perfectly safe in their operation, and may be taken by the most delicate females at any period, and will be found most valuable for any irregularities peculiar to them.
