The National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the National School Books, beg leave to return their most grateful acknowledgements to the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not miscalculate, when they reckoned with the most entire confidence upon the intrinsic merits of these Books securing to themselves the countenance and favor of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A, B, C and Figures, on sheets to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they who have been severally taught by them, may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, rise in importance, from the first to the last; and they possess this very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rule by which they contain, are as simple, yet as comprehensive; as clear, yet so profound; that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his notice. That this Series of School Books should be commended so many and such unbounded encomiums, is not wonderful, when it is considered, that it has emanated from a respectable and dignified body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names of which the British Empire can boast for virtue and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expression of approbation, from men in every rank of society, and who maintain the most opposite and widely differing forms of belief. The two estimable Governor General, Lord Metcalfe, when the publishers originally issued their editions, lent their influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by many influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Lower and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the Edinburgh Review, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as have long use of others, they may not yet adopted them publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

EDUCATION OFFICE, DUBLIN.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 23 h instant, enclosing "Copies of various testimonies in favor of the School Books published by the Board," with the permission of which they were much gratified, we are directed to inform you, that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, each of the Irish National School Books, as you may think fit.

We are to state further, that those books are in use not only with National Schools of this country, but have a very extensive circulation in England and Scotland—they have been translated into several of the Continental languages.

EDUCATIONAL OFFICE, C. W.

Gentlemen,—I Replies to learn that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners—headed by the Protestant and Roman Catholic Archbishops of Dublin have published for the National Schools of Ireland. These books have been prepared under the auspices of men of great learning and experience, and are remarkable for adaptation and for simplicity, elegance and comprehensiveness of definition and arrangement.

I have been requested by the Government to turn my attention to the preparation and selection of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are so far on opening with, and anticipated me, as to have, already commenced the reprinting of a set of books both superior and cheaper than most of those used in our Common Schools. Not am I certain that I should be able to do better than recommend to general and permanent use, in our Schools, some of the elementary books which you are reprinting.

Canada is already and is likely to be still more deeply indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most inefficient department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,

EGERTON RYERSON.

VI

From the Rev. Mr Stanley, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and as well as they seem to be adapted to the purposes for which they were compiled, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

RICH. JOHN STANLEY,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Agar Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the beneficial effects their introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon successive of the Provincial Governments the expediency of reprinting them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to re-print them in a form calculated for general circulation in this Province, I consider them as entitled to the generous support of every one who is desirous to spread abroad the blessings of Education, and as deserving of the sincerest gratitude of all who have the welfare of the Province at heart.

W. AGAR ADAMSON,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I rejoice to hear of the information you have done me the favour to communicate that your enterprising house is engaged in the republication of the Educational Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works of Irish authorship, for the training to be given in our Schools, cannot fail to strike every mind. The machinery needful in public Education can be worked to better purpose, if it be understood generally what works are employed for the purpose of training throughout all the Public Schools; while the toil of teacher on thereby lessened, and its efficiency augmented. The frequent removals of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate as disadvantageously to the progress of such pupils; if the Books employed in Education were uniform.

In regard to the excellence of the Series in the given, I presume little may be. They have been sanctioned the application of tests more than usually rigid, and they have uniformly rigid, and they have uniformly proved an unspeakable blessing to Ireland. Without being minutely acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools could not fail to be a national benefit. Next to a sufficient supply of good Teachers, good books are a desideratum in the Colonies; it cannot be a congratulation that you are about to supply the want.

Without being any way authorized to express the sentiments of the religious body with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Fathers, I have no doubt but that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,

HENRY WILKES.

St. Antoine Street.

IX

From the Reverend. J. M. Cramp, President of the Baptist College.

Gentlemen—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Educational Institutions in Canada. I have been long acquainted with these lessons and value them much. They have been used in my own family which manifest advantage.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style in which it is composed is perspicuous.

In addition to these commendations, it may be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear or misgiving as to the erroneous state of society in Canada.

I sincerely hope that this enterprise will be attended with a share of success, and shall be happy to see you, gentlemen, yours, obedient servant.

J. M. CRAMP.

Baptist College, Montreal, Dec 13, 1844.

The editions of the National School Books issued by the Subscribers, bear the following on the title:—

"Dublin: Published by the direction of the Commissioners of National Education, and stereotyped by express permission at Montreal by Armour & Ramsay."

The Trade, Country Merchants, Teachers, and others, supplied on the most liberal terms.

ARMOUR & RAMSAY.

LATIN CLASSICS.

Cheap Cultural Editions for Colleges and Schools.

THE success which attended the experiment to run over and render uniform the Books used in the Common Schools of Canada, as set forth in the to epoing advertisement, emboldened the Subscribers to undertake the publication of the Classical series now advanced for the use of Colleges, High Schools, District and Grammar Schools.

The numbers of the series consist of the following:

Excerpta from Cornelius Nepos 1s. 6d.
The First Four Books of Cæsar. 1s 3d.
The Third and Fourth Books of Quintus Curtius 1s 3d.
Cicero de Amicitia. 1s.
Cicero de Senectute.
Tacitus Agricola. 9d.
The Georgics of Virgil. 1s 6d.
The Fasti of Ovid. 1s 6d.
The Odes of Horace. 1s. 3d.
The Three First Books of Æneid. 1s 6d.

Or the above can be had neatly bound in two vols, price 6s. 3d. for the Prose and 3s. 6d. for the Poetry.

We rejoice at this noble attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those portions of them which are used in the Schools. The cheapness, convenience and excellence of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Armour & Ramsay have been the spirited Publishers of our best series of Common School Books; and they are now laying the country under additional obligations by these excellent reprints of Classical School Books. We hope to see the day when Canada will rejoice in its own printed Classics, as well as general literature, as it now does in some extent, and we hope will see much greater extent, in its own history soon.—*Journal of Education, Toronto.*

Orders will be executed by the Booksellers throughout Canada, or by the Publishers.

ROBERT BARKER'S COMPOUND SARSAPARILLA PILLS.

THE Proprietor having paid particular attention to the composition of these Pills, with confidence recommend their use to the Public, in all diseases above enumerated; and having been in use several years, they have given general satisfaction in every case where they have been used. No serious testimonials could be published of their truly wonderful effects, but not wishing to adopt a system which the good sense of the public must condemn of publishing a long list of fictitious cures, the Proprietor trusts that a single trial will prove their good effects. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been used by the Medical Profession many years, but experience has proved that all Liquid or Watery Preparations lose their Medicinal qualities, in a very short period, and become worthless, consequently it has been found necessary to use the solid extract of Honduras Sarsaparilla, from which these Pills are prepared, combined with other valuable remedies and therefore more real benefit will be derived by the use of one box, than from half a dozen bottles of any preparation of Sarsaparilla in use, many of which are an imposition on the Public, the notoriously known. These pills act as a Powerful alterative, and tonic, and mild aperient, strengthening the stomach, &c., and being of a purely vegetable composition, are perfectly safe in their operation, and may be taken by the most delicate females at any period, and will be found most valuable for any Invalid in peculiar to them.
