ROBERT BARKER'S
COMPOUND SARSAPARILLA PILLS

THE Proprietor having paid particular attention to the composition of these Pills, can with confidence recommend their use to the Public, in all diseases above enumerated; and having been in use several years, they have given general satisfaction in every case where they have been used. No testimonials could be published of their truly wonderful effects, but not wishing to adopt a system which the good sense of the public must condemn of publishing a long list of fictitious cures, the Proprietor trusts that a single trial will prove their good effects. In consequence of the peculiar nature of the Sarsaparilla Root, it has been used by the Medical Profession many years, but experience has proved that all Liquid or Watery Preparations lose their Medicinal qualities, in a very short period, and become worthless; consequently it has been found necessary to use the solid extract of Honduras Sarsaparilla, from which these Pills are prepared, combined with other valuable remedies and therefore more real benefit will be derived by the use of one box, than from half a dozen bottles of any preparation of Sarsaparilla in any, many of which are an imposition on the Public, too notoriously known. These pills act as a Powerful alterative, and tonic, and mild aperient, strengthening the stomach, &c., and being of a purely vegetable composition, are perfectly safe in their operation, and may be taken by the most delicate females at any period, and will be found most valuable for any irregularities peculiar to them.

NEW EDITIONS.

ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the Numerous Scholars, &c. &c., beg leave to express their most grateful acknowledgements for the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not miscalculate, when they reckoned with the most entire confidence upon the intimate merits of these Books securing for themselves the countenance and favor of the inhabitants of British America.

The Series consists of the following Books; all of which are printed on substantial paper, in a clear type, and strongly bound with them:—

A, B, C and Figures, on slates to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Second Book of Lessons.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they are have been scarcely equalled by them, may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, are in importance, from the first to the last; and they possess this very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Mensuration, Book-Keeping, Geometry, Mensuration, Geography and History, are unsurpassed, certainly unsurpassed, in the English language. The rules which they contain, are so simple, yet so comprehensive, so clear, yet so profound, that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented in his notices. That this Series of School Books should be immediately so many and such unbounded sales, is not wonderful, when it is considered, that it has succeeded from its first and so digested a body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names of which the British Empire can boast for science and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence they have received the most unequivocal expressions of approbation, from men in every rank of society, and who maintain the most opposite and widely differing tenets of belief. The late estimable Governor General, Lord Metcalfe, when the pub lishers originally issued their edition, had, from the influence of his authority and name, and they have been mentioned by the Bishop of the Roman Catholic Church, by an eminent Clergyman of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Boston and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the Edinburgh Review, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as from long use of others have not yet adopted these publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 25th instant, enclosing "Copies of various Certificates in favor of the School Books published by the Board," with the perusal of which they were much gratified, we are directed to inform you, that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, such of the Irish National School Books, as you may think fit.

We are to state further, that these books are in use not only with National Schools of the country, but have a very extensive circulation in England and Scotland—they have been besides translated into several of the Continental languages.

Extract from the Superintendent of Education for Upper Canada.

Education Office, C. W.

Gentlemen,—I beg to inform you that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners, established by the Protestant and Roman Catholic Archbishops of Dublin have published for the National schools of Ireland. These books have been prepared under the auspices of men of great learning and experience, and are remarkable for adaptation and for simplicity, elegance and comprehensiveness of definition and arrangement.

I have been informed by the Government in your attention in the preparation and selection of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are so far encouraging, and encouraged me, as to have already commenced the reprinting of a set of books both superior and cheaper than most of those used in our Common Schools. Nor am I certain that I shall be able to do better than recommend to general and permanent use in our Schools, many of the excellent books which you are reprinting.

Canada is already said to likely to be still more deeply indebted to your enterprise for an important set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most intellectual department of our Government—the Common Schools of Canada.

I have the honor to be, &c.

EGERTON RYERSON.

VI

From the Rev. Mr. Scobie, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools to be the most valuable of the Commissioners of Education, having been them extensively used in England both in private families and in public institutions; and as well do they seem to be adapted to the purposes for which they were compiled, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

EDW. JOHN SCOBIE,
Rector of the High School, Quebec.

VII

From the Rev. Dr. M. Ayer Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the beneficial effects of their first introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of adopting them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to reproduce them in a form calculated for general circulation in this Province, I consider them as entitled to the generous support of every one who is desirous to spread abroad the blessings of Education, and as deserving of the warmest gratitude of all who love the welfare of the Province at heart.

W. AYER ADAMSON.

Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I express no great pleasure to learn that you have done so well a service to the community as to have obtained the reprinting of a set of books which I have long acquainted with these books and which contain valuable advantages.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; whereas Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style is distinguished for perspicuity.

In addition to these commendations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear or misgiving as to the corrupting influence of sectarian bias.

I sincerely hope that this enterprise will be attended with a handsome success, and shall be happy to see it.

I am, gentlemen, your obedient servant.

LATIN CLASSICS.

Cheap Cabinet Editions for Colleges and Schools.

THE success which attended the experiment to introduce and render uniform the Books used in the Common Schools of Canada, as set forth in the following advertisement, emboldened the Subscribers to undertake the publication of the Classical series now adopted for the use of Colleges, High Schools, District and Grammar Schools.

The numbers of the series consist of the following:

Fragments from Cornelius Nepos. In 6d.
The First Four Books of Cæsar. In 9d.
The Third and Fourth Books of Cornelius Cæsar. In 9d.
Cicero in Antonium. 4s.
Cicero in Sallustium.
Tacitus Agricola. 3d.
The Georgics. Virgil. In 6d.
The Eclogues. Virgil. In 3d.
The Three First Books of Virgil. In 6d.

On the above can be had immediately bound in cloth, price 9d. for the Fragments and 3s. 6d. for the Eclogues.

"We rejoice at this noble attempt to facilitate the studies of the Classics in Canada by introducing the expense of procuring those portions of them which are used in the Schools. The elegant, convenient and excellent of the series of Classical Texts would fill to secure their introduction and use in our Grammar Schools and Colleges. Messrs. Armour & Ramsay have been the spirited Publishers of our first series of Common School Books, and are now trying the country under additional obligations by their excellent reprints of Classical School Books. We hope to see the day when Canada will compete in its own proper Classical, as well as general literature, as it now does in some subjects, and we hope will in a much greater extent, in the literature and Journal of Education, Toronto.

Orders will be attended to by the Booksellers throughout Canada, or by the Publishers.
