THE ONLY TRUE RESTORATIVE TO HEALTH.

DR. CORBETT'S HIGHLY CONCENTRATED SHAKER SYRUP OF SARSAPARILLA.

This singularly efficacious medicine, by its astonishing cures, is daily winning for itself the highest testimonials from the about Physicians and Chemists in this country.

It is used by the Medical Faculty very generally, in their practice; and by gentlemen of one who has prescribed it with extraordinary success, we publish the following statement of cure, so that those who are suffering may

READ, AND BE HEALED.

In the Autumn of 1848, I commenced taking "Corbett's *Shaker Syrup of Sarsaparilla*," having been previously much debilitated and reduced in health and strength, and left with a bad cough. My blood was very much diseased, and I was troubled with a scrofulous affection. My limbs and joints were swollen and very painful. After taking six bottles, my health was restored. My cough, humours and pain have been entirely removed, and I have gained twenty-three pounds since I commenced taking the Syrup.

I know this Syrup to be the best cure of my acquaintance, and that it is a most valuable medicine. I can recommend it as a sovereign remedy for all impurities of the blood, &c.

AMERICAN HOUSE,

HANOVER STREET, BOSTON.

THE undersigned having entirely Renovated and Enlarged the above extensive establishment, containing in all about three hundred and fifty rooms, would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed unnecessary, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render the establishment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found one of the most beautiful and tasteful manufactures. The Dining-rooms are spacious, and the hours for meals will be so arranged as to suit the convenience of the city and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Home.

The National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the National School Books, feel bound to express their most grateful acknowledgements for the liberal patronage which has been extended by all classes of the community to their publications. The facility with which the previous Editions were disposed of, evinced in the most satisfactory and decided manner, that the publishers did not miscalculate, when they reckoned with the most entire confidence upon the intrinsic merits of these Books securing for themselves the approval and favor of the Inhabitants of British America.

The Series consists of the following Books, all of which are printed on a substantial paper, in a clear type, and strongly bound with linen:—

A, B, C and Figures, on sheets to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Second to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotyped plates.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elementary Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they have been extensively taught by those who considered no pains too well qualified to enter upon the duties of active life, and to have acquired a fund of preliminary knowledge simply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, rise in importance, from the first to the last; and they possess in a very distinguishing and characteristic manner, during the whole time the pupil is engaged in learning to read, how to do two, at the same time, a variety of useful moral principles, and of a vast number of important facts in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Mensuration, Geography and History, are ably qualified, certainly unsurpassed, in the English language. The rules which they contain, are so simple, yet so comprehensive; so clear, yet so profound, that the pupil who has once learned thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his senses. That this Series of School Books should be measured of so many and such unbounded merit, is not wonderful, when it is considered, that it has emanated from an impartial and dispassionate body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names of talent in the British Empire—men beyond the reach of bribery and fawning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, who occupy the most opposite and widely differing points of belief. The late venerable Archbishop Murray, Lord Metcalfe, when the pride of his office, and the influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by so any influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connexion with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the Edinburgh Review, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as from long use of others have not yet adopted these publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

EDUCATION OFFICE, DUBLIN

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 25th instant, enclosing "Copies of various testimonials in favor of the School Books published by the Board," with the perusal of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, each of the Irish National School Books, as you may think fit.

We are to state further, that those books are in use not only with National Schools of this country, but have a very extensive circulation in England and Scotland—they have been besides translated into several of the Continental languages.

PRIVATE SECRETARY'S OFFICE, MONTREAL.

Gentlemen,—I am commanded by the Governor General to acknowledge the receipt of your letter, and to inform you in reply, that His Excellency will be very glad to have his name associated in the manner you propose, with an undertaking which he considers to be of such a public nature, and the Executive also desires me to say, that it will give him pleasure to aid the work in which you are engaged, by any means in his power.

I have the honor to be,

J. M. HIGGINSON.

From the Superintendent of Education for Canada West.

EDUCATIONAL OFFICE, C. W.

Gentlemen,—I have to inform you that you have my sanction respecting the use of Schools in Canada, the series of elementary School Books which the Government commissioners have selected for the Protestant and Roman Catholic Authorities of Public Schools in Upper Canada, published for the National Board of Ireland. These books have been approved by the opinion of men of great learning and experience, and are remarkable for correctness and no small skill, elegance and taste in the arrangement and arrangement.

I have been informed by the Government that you are anxious to the preparation and publication of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are so far an operating, and anticipated, that at least a beginning has been made in the printing of a set of books both accurate and cheaper than most of those used in our Common Schools. Nor am I certain that I shall be able to do better than recommend to general adoption some in our Schools, some of the elementary books which you are reprinting.

Canada is already and is likely to be still more largely indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most neglected department of our Government—the Common Schools of Canada.

I have the honor to be, &c.

From the Rev. Mr. Cooper, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England, both in private families and in public institutions, and I see they seem to be adapted to the purposes for which they were compiled, that I could consider any effort made to extend the circulation, by lowering of the patronage and encouragement of all classes of the community.

REV. JOHN SCARTH,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Agar Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have had the very highest place in my estimation since I witnessed the beneficial effects of their first introduction into Public Schools and private families, in this country.

I have used them in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of adopting them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to reprint them in a form calculated for general circulation in this Province, I consider them as entitled to the generous support of every one who is desirous to spread abroad the blessings of education, and as deserving of the strongest recommendation of all who have the welfare of the Province at heart.

W. AGAR ADAMSON,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I rejoice to hear of the intelligence you have done and of your contemplating a further extension of the Elementary Works of the Education Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works of a high character, for the training to be given in our Schools, cannot fail to strike every mind. The remarkably beneficial results which have worked so better purpose, if it be understood generally what works are employed for the purpose of training throughout all the Public Schools; while the task of inspection is thereby lessened, and its efficiency augmented. The frequent removals of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate as disadvantageously to the progress of such pupils, if the Books employed in Education were uniform.

In regard to the excellence of the Series in the great, I pronounce little may be "They have well sustained the application of tests more than usually rigid, and they have assuredly right, and they have assuredly proved an unspeakable blessing in Ireland. Without being minutely acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that they introduction into all our Public Schools should not fail to be a national benefit. Next to a sufficient supply of good Teachers, good books are a desideratum in the Colony; it is matter for congratulation that you are about to supply the want.

Without being any way authorized to express the sentiments of the religious body with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Church, I have no doubt but that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,

REVAN WILKES.

St. Antoine Street.

From the Reverend J. M. Crane, President of the Baptist College.

Gentlemen,—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Educational Institutions in Canada. I have been long acquainted with these lessons and value them highly. They have been used in my own family which manifest advantage.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style is distinguished for perspicuity.

In addition to these commendations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place them without the hands of their children without the slightest fear or misgiving in the existing state of society in Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy

I am, gentlemen, your obedient servant.

LATIN CLASSICS.

Cheap Colored Editions for Colleges and Schools.

THE success which attended the experiment to produce and render uniform the Books used in the Common Schools of Canada, as set forth in the following extracts, induced the Subscribers to undertake the publication of the Classical series now adopted for the use of Colleges, High Schools, Academies and Grammar Schools.

The works which consist of the following:

Fasciculus from Cornelius Nepos, 1s 6d.
The First Four Books of Cæsar, 1s 6d.
The Third and Fourth Books of Quintus Curtius, 1s 3d.
Cicero in Antonium, 1s.
Cicero in Sententiam.
Tacitus Agricola, 1s 6d.
The Germania of Tacitus, 1s 6d.
The Dialogus de Oratoribus, 1s 6d.
The Vita of Horace, 1s 3d.
The Three First Books of Livy, 1s 6d.

All the above can be had handsomely bound in one volume for 8s. 3d. In the Press and to be published shortly.

"We aspire at this while attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those portions of them which are used in the schools. The engravings, maps, and an index of this series of Classical Texts cannot fail to prove very acceptable and useful to our Grammar Schools and Colleges. Messrs. Armour & Ramsay have been the primary Publishers of our School Books, and they do so by having the strongest claims on our gratitude by their cheap reprints of Classical Books. We hope to see the Classical Schools of Canada well supplied with their own printing Classics, as well as proper Dictionaries, as it may
