The National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the National Series, Books, beg leave to return their most grateful acknowledgements for the liberal patronage which has been extended by a discriminating community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not miscalculate, when they ventured with the most entire confidence upon the intrinsic merits of these Books meeting the requirements of the extensive and liberal of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A. B. C. and Figures, on sheets to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they who have been scarcely taught by them, may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, vary in importance, from the first to the last; and they possess a very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are so simple, yet so comprehensive; so clear, yet so graphical, that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his notice. That this Series of School Books should be possessed of so many and such undeniable merits, is not wonderful, when it is considered, that it has emanated from a learned and so dignified a body, as the National Board of Education of Ireland—a body which contains among its members, some of the highest names of which the British Empire can boast for virtue and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, and who maintain the most opposite and widely differing forms of belief. The late estimable Governor General, Lord Metcalfe, when the publication originally issued their editions, lent them the influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by an my influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner, by the Edinburgh Review, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as from long use of others have not yet adopted them, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

I

Education Office, Dublin.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 22th instant, enclosing "Copies of various Certificates in favor of the School Books published by the Board," with the perusal of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, each of the Irish National School Books, as you may think fit.

We are to state further, that these books are in use not only with National Schools of this country, but have a very extensive circulation in England and Scotland—they have been besides translated into several of the Continental languages.

From the Superintendent of Education for Canada West.

Education Office, C. W.

Gentlemen,—I figure to learn that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners—headed by the Protestant and Roman Catholic Archbishops of Dublin have published for the National schools of Ireland. These books have been published under the auspices of men of great learning and experience, and are remarkable for brevity and for simplicity, clearness and comprehensiveness of definition and arrangement.

I have been induced by the Government to turn my attention to the preparation and selection of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are so far advanced with, and anticipated me, as to have already commenced the reprinting of a set of books both expensive and cheap than most of those used in our Common Schools. Nor am I certain that I should be able to do better than recommend to general and permanent use in our Schools, some of the elementary books which you are reprinting.

Canada is already, and is likely to be still more deeply indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most inefficient department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
Ryerson Egerton.

VI

From the Rev. Mr. Cockin, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and as well do they seem to be adapted to the purposes for which they were compiled, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

Thos. Jones Cockin,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Leger Johnson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the beneficial effects of their first introduction into Public Schools and private families, in this country.

I have used them in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of appointing them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to re-produce them in a form calculated for general circulation in this Province, I consider them entitled to the generous support of every one who is desirous to spread abroad the blessings of Education, and to deserving of the sincere gratitude of all who have the welfare of the Province at heart.

W. Leger Johnson,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I require to hear of the admirable you have done me the honor to communicate that your enterprising house is engaged in the republication of the Education Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works of British authorship, for the training to be given in our Schools, cannot fail to strike every mind. The machinery needful in public Education can be worked to better purpose, if it be uniformly precisely what works are employed for the purpose of training throughout all the Public Schools; while the toil of inspection, is thereby lessened, and its efficiency augmented. The frequent removal of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate so disadvantageously to the progress of such pupils, if the Books employed in Education were uniform.

In regard to the excellence of the Series in the main, I presume little may be. They have well sustained the application of men more than usually tried, and they have uniformly tried, and they have uniformly proved an unspeakable blessing to Ireland. Without being minutely acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools would not fail to be a national benefit. Hoping to a sufficient supply of good Teachers, good books are a desideratum in the Colony, it is matter for congratulation that you are about to supply the want.

Without being any way authorized to express the sentiments of the religious body with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Pastors, I have no doubt, but that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,
Henry Wilkes.

St. Antoine Street.

IX

From the Reverend S. M. Cramp, President of the Baptist College.

Gentlemen,—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Educational Institutions in Canada. I have been long acquainted with these lessons and value them much. They have been used in my own family which manifest advantage.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; these lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style is distinguished for perspicuity.

In addition to these commendations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear of misgiving in the earning state of society in Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy I am, gentlemen, you, obedient servant.

LATIN CLASSICS.

Cheap Colonial Editions for Colleges and Schools

THE success which attended the experiment to introduce and enable uniform the Books used in the Common Schools of Canada, as set forth in the following advertisement, emboldened the Subscribers to undertake the publication of the Classical series now advanced for the use of Colleges, High Schools, District and Grammar Schools.

The numbers of the series consist of the following:

Fasciculus from Cornelius Nepos 1s. 6d.
The First Four Books of Cæsar, 1s 3d.
The Third and Fourth Books of Quintus Curtius, 1s. 3d.
Cicero de Amicitia, 1s.
Cicero de Senectute, 1s.
Tacitus Agricola, 1s.
The Georgics of Virgil, 1s 6d.
The Fasti of Ovid, 1s 6d.
The Odes of Horace, 1s. 3d.
The Three First Books of Ovid, 1s 6d.

On the above can be had handsomely bound in roan, price 6s. 3d. for the Fasti and 3s. 6d for the Poetry.

We appeal at this noble attempt to facilitate the studies of the Classics in Canada by inferring the expense of procuring these portions of them which are used in the Schools. Trustworthy, convenient and excellent of the series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Armour & Ramsay have been the pioneer Publishers of the best series of Common School Books and they are now laying the country under additional obligations by their excellent reprints of Classical School Books. We hope to see the day when Canada will rejoice in her own printed Classics, as well as a moral literature, as it now does in some useful, and we hope will to a much greater extent, in its own literary one.—Journal of Education, Toronto.

Orders will be executed by the Booksellers throughout Canada, or by the Publishers.

GENERAL ADVERTISEMENTS.

BRITANNIA LIFE ASSURANCE COMPANY,
No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

INCORPORATED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great extension this Institution in Europe and the numerous Policies issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the Britannia are the lowest which can be offered consistently with security to the assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the annexed Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an same-death Bonus by entering more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adapted to the Constitution, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable investment to the person wishing to Assure.

All claims payable within twelve months after proof of death. No proof of death is required, for time a claim is made, the age of the Assured being, in every case, admitted in the Policy, unless, under any circumstances, be otherwise evident in question. Policies effected by parties who have been age not restricted, and in case of death by duelling at the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the Unexpired Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE above, is a cut of a SILVER MEDAL awarded the subscriber at the New York State Agricultural Fair, at Buffalo, and the Fifth Premium in the last six years. Also, the first prize at the late Fair at Syracuse, in competition with over three hundred pictures from some of the first galleries in the United States. This Gallery has now become the FUTURE EMPORIUM for the entire Western World, and the standard of imitation. Our competitors involuntarily acknowledge their inferiority by following in our wake and aping us in every particular except the results.

Strangers visiting the city are respectfully solicited to compare our pictures with those executed by others. Also, all who have long been programmed in favor of other Daguerreans, and have pictures taken by them, are very urgently invited to call and have one executed at this establishment, that they may have an ocular demonstration of the vast difference in portraying the same individuals.

The subscriber would also notify the people of C. W. that he has opened a branch Gallery on Princess St. Lambton House, Kingston, where persons may secure such pictures of themselves and friends as will rarely if ever be offered to that community again.

N. B. The undersigned would most respectfully further notify the public that no premiums or diplomas have ever been awarded by the New York State Agricultural Fair to any Daguerrean in Buffalo except the subscriber.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more reasonable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An exact statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have been made, & it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

FIRE! FIRE!

CAPITAL, $300,000.

The St. Lawrence Insurance Company Chartered in 1836, continues to insure at as cheap rates as any other sound Company in New York. It insures from fire to six millions annually, and presents the following advantages.

1st. Its total rates for FIVE YEARS do not exceed the rates of Stock Companies for TWO YEARS on farm property.

2d. It does not insure buildings in blocks, nor extra hazardous risks, but ordinary and detached hazards only. In the several towns of Plattsburgh, Watertown, Oswego, Port Hope, and Preston, lately destroyed, in each of which the Company had agencies, its total losses were less than $100,000

Such Facts Speak.

3. The Company is bound by the Survey of the agents; and this is printed on all policies.

4th. The total liability of the member in the note, and the company cannot assess beyond that sum, as is the case in most Companies of the State.

5th. The Capital of this Company is almost WHOLLY UNIMPAIRED, as it has laid but one SMALL ASSESSMENT in FIVE YEARS, and the cash balance in favor of the Company, October 1, over and above all liquidated liabilities was about

$12 000 00.

6th. The policy covers loss from 12 o'clock, noon, the day the money is PAID TO THE AGENT.

7th. The notes of the members of this Company are NEVER HYPOTHECATED to borrow money but a member can withdraw his note and cancel his policy when he may please, by paying his share of loss to that date.

8th. The capital of this company is bona fide, not put up to answer the requirements of the law of the State by taking enormous rates, on enormously hazardous property, but the notes are on safe secure tenancies.

This Company has twelve millions of Insurance—three hundred thousand dollars capital; the heavy surplus fund above stated—its risks are well and carefully chosen; and if prudent management, strict economy, small risks, and a large business can save the members from assessments, it will be done. This Company regards it sound, honest, and an importance in any mutual Company to countenance its agents in promoting what CANNOT BE FORESEEN, but gives the facts, and parties must be their own judges.

We consider the past a good guarantee for the future. During the past year the Company paid in losses $29,417 89, and its expenses were only $2,125 64 exclusive of the fees to the agency. It includes $300 paid to the Officers; about $200 for postages, and the balance was for printing and other incidental expenses.

N. B.—Agents have commissions signed by the Secretary, and parties paying money will require their production and receipts. The Company will not hold itself in any way responsible for the acts of any person not having been in its employment.

If the policy be not received, the party must mail his receipt to this office in twelve days, and the policy or cash will be returned.

AGENTS, who can come well recommended for proper age, judgment and character, are wanted, to whom liberal inducements are offered. Address the Secretary.
