The National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY,

THE Subscribers, in publishing new editions of the NATIONAL SCHOOL BOOKS, beg leave to return their most grateful acknowledgements for the liberal patronage which has been extended by the chosen of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not overestimate, when they reckoned with the most confident hope the intrinsic merits of these Books—meaning for themselves the esteem, nay, love of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A, B, C, and Figures, on sheets to be hung up.
General Lessons, suitable for young children.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they may have been scarcely taught by them, may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, rise in importance, from the first to the last; and they possess a very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are as simple, yet as comprehensive; as clear, yet as profound; that the pupil who has once become thoroughly acquainted with them, can experience no difficulty in applying to every case which can be presented to his notice. That this Series of School Books should be possessed of so many and such undoubted merits, is not wonderful, when it is considered, that it has emanated from an honest and dignified body, as the National Board of Education of Ireland—a body which numbs among its members, some of the highest names of which the British Empire can boast for virtue and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, and who maintain the most opposite and widely differing tenets of belief. The late venerable Duke of General, Lord Metcalfe, when the publishers originally issued their edition, lent them the influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by many influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and as far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the *Edinburgh Review*, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as from long use of others have not yet adopted these publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

EDUCATION OFFICE, DUBLIN.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 25th instant, enclosing "Copies of various Certificates in favour of the School Books published by the Board," with the perusal of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, such of the Irish National School Books, as you may think fit.

We are to state further, that those books are in use not only with National Schools of the country, but have a very extensive circulation in England and Scotland—they have been besides translated into several of the Continental languages.

MARCUS CROSS, JAMES KELLY, } Secretaries.

Messrs. Armour & Ramsay, Montreal.

I.

PRIVATE SECRETARY'S OFFICE, MONTREAL.

Gentlemen,—I am commanded by the Governor General to acknowledge the receipt of your letter, and to inform you in reply, that His Excellency will be very glad to have his name associated in the manner you propose, with an undertaking which he considers to be of vast public benefit, and His Excellency also desires me to say, that it will give him pleasure to aid the work in which you are engaged, by any means in his power.

I have the honor to be,
J. M. HIGGINSON.

Messrs. Armour & Ramsay, Montreal.

The publishers were permitted to imprint the following on the books,—

By ORDER OF THE ROMAN CATHOLIC CHURCH.
"Avec Approbation des Superieurs Ecclesiastiques."

III

From the Synod of the Presbyterian Church in connection with the Church of Scotland.

EXTRACT.

"The Committee reported that they had carefully examined the following School Books which Messrs. Armour & Ramsay propose to reprint, viz.—

(Here followed a list of the Books.)

and that they considered the Books extremely well adapted to facilitate the various branches of Education to which they refer. Whereupon the Synod agreed heartily to recommend these School Books to the notice of Parents and Teachers, and all others who feel an interest in the mental improvement of the youth of this country, or who exercise an influence over their education."

From the Superintendent of Education for Canada West.

EDUCATIONAL OFFICE, C. W.

Gentlemen,—I Rejoice to learn that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners—headed by the Protestant and Roman Catholic Archbishops of Dublin—have published for the National schools of Ireland. These books have been planned under the auspices of men of great learning and experience, and are remarkable for brevity and simplicity, clearness and comprehensiveness of definition and arrangement.

I have been induced by the Government to turn my attention to the preparation and selection of books to be recommended for general use in the Common Schools of Canada West. I regard that you are so far co-operating with and anticipated me, as to have already commenced the reprinting of a set of books both superior and cheaper than most of those used in our Common Schools. Nor am I certain that I should be able to do better than recommend to general and permanent use in our Schools, some of the elementary books which you are reprinting.

Canada is already and is likely to be still more happily indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most efficient department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
EGERTON RYERSON.

VI

From the Rev. Mr. Cockin, Rector of the High School, Quebec.

I have long known the Books published under the aus of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and so well do they seem to be adapted to the purpose for which they were compiled, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

REV. JOHN COCKIN,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Leger Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the beneficial effects of their first introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of reprinting them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to reproduce them in a form calculated for general circulation in this Province, I consider them as entitled to the generous support of every one who is desirous to spread abroad the blessings of Education, and so deserving of the unanimous gratitude of all who have the welfare of the Province at heart.

W. ADAM ADAMSON,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I express the heart of the information you have done me the favour to communicate that your enterprising house is engaged in the republication of the Educational Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works of British authorship, for the training to be given in our Schools, cannot fail to strike every mind. The machinery needful in public Education can be worked to better purpose, if it be understood precisely what works are employed for the purpose of training throughout all the Public Schools, while the zeal of inspectors is thereby lessened, and the efficiency augmented. The frequent removals of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate so disadvantageously to the progress of such pupils; if the Books employed in Education were uniform.

In regard to the excellence of the Series in the press, I presume little may be. They have well sustained the application of vots more than usually rapid, and they have usurped rapid, and they have usurped a unspeakable blessing to Ireland. Without being intimately acquainted with them all but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools could not fail to be a national benefit. Next to a sufficient supply of good Teachers, good books are a desideratum in the Colony; it is matter for congratulation that you are about to supply the want.

Without being any way authorized to use on the most much of the subject with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Public, I have no doubt but that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,
HENRY WILKES.

St. Antoine Street.

IX

From the Reverend J. M. Cramp, President of the Baptist College.

Gentlemen—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Educational Institutions in Canada. I have been long acquainted with these lessons and value them much. They have been used in my own family which manifest advantage.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style is distinguished for perspicuity.

In addition to these commendations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear or misgiving in the existing state of society in Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy

I am, gentlemen, you, obedient servant.

LATIN CLASSICS.

Cheap Cabinet Editions for Colleges and Schools

THE success which attended the experiment to issue and render uniform the Books used in the Common Schools of Canada, as set forth in the opening advertisement, emboldened the Subscribers to undertake the publication of the Classical series were advanced for the use of Colleges, High Schools, District and Grammar Schools.

The numbers of the series consist of the following:

Excerpta from Cornelius Nepos 1s 6d.
The First Four Books of Cæsar. 1s 3d.
The Third and Fourth Books of Quintus Curtius. 1s 3d.
Cicero de Amicitia. 1s
Cicero de Senectute.
Tacitus Agricola. 3d.
The Germania of Tacitus. 1s 6d.
The Fasti of Ovid. 1s 6d.
The Odes of Horace. 1s 3d.
The Three First Books of Æneid. 1s 6d.

On the above can be had handsomely bound in two vols.; price 6s. 3d. for the Prose and 3s. 6d for the Poetry.

"We rejoice at this noble attempt to facilitate the studies of the Classics in Canada, by relieving the expense of procuring those portions to them which are used in the Schools. The cheapness, convenience and excellence of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Armour & Ramsay have been the pioneer Publishers of our best series of Common School Books and the are now laying the country under additional obligations by their excellent reprints of Classical School Books. We hope to see the day when Canada will reprint in her own printed Classical, as well as general literature, as it now does in most cut or, and we hope will to a much greater extent, in its own literary sense.—*Journal of Education, Toronto.*

Orders will be expected by the Booksellers throughout Canada, or by the Publishers,

GENERAL ADVERTISEMENTS.

BRITANNIA LIFE ASSURANCE COMPANY,
No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

INCORPORATED BY SPECIAL ACT OF PARLIAMENT, 4 Vic. Cap. 8.

THE great increase that has taken place in Marine and the numerous Policies issued by the different Agencies in Canada, especially show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the payment of debts, by or to them in case of premature DEATH. The rates of this Establishment are the lowest which can be offered consistently with security to the Assured, and the subscribers hope especially to divert the attention of the inhabitants of Kingston to the unusual Tables of Rates, specimens of which may be seen at this office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per annum, and of this the greater part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate benefit for a very trifling sum, which will be required to provide for the risk—but if participation in profits is preferred by any party, there are a Natural Tables adopted by the Company, which offer an annual division of the Profits, and which being superadded by the other Branch of the Institution, hold out a very valuable and profitable investment to the person wishing to insure.

All claims payable within twenty months after proof of death. No proof of birth is required; nor be time a claim is made; the age of the assured being, in every case, admitted in the Policy, unless a wrong age misrepresented, be afterwards called in question. Policies effected by persons on their own lives are not to be void in case of death by duelling or at the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, to the nominal of Providence receive thereon will be returned to the family of the assured.

The necessary forms and every requisite information, as to the mode of effecting Assurances may be obtained from the undersigned, or from the Agents in the Provinces.

THE CANADA LIFE ASSURANCE COMPANY,

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sail themselves, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that it may command in Canada, to offer terms of Assurance much more reasonable than the low rate of interest attainable on investment by British Companies and their generally large expenditure can in any regard be safely admit of.

An exact statement of the receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, to which (as this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel themselves unable to continue the payment of their premiums, the Company will grant Policies, payable at death, fairly representative of the value of such payments as may have been made, & to others engaged in, can these policies for so valuable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Annual Branch are yearly divided amongst the policy holders thereon.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
