THE MANSION HOUSE HOTEL,

BY R. LEACH,

(LATE S. R. SHAW.)

S. R. SHAW, in retiring from the "Mansion House," begs to tender his sincere thanks to the Public for their very liberal support during his connection with the House, and would cordially recommend a continuation of the patronage so liberally bestowed upon him to be extended to his successor.

THE Subscriber begs to inform the public that he has leased the Tavern Stand—known as the "Mansion House," and the extensive premises attached thereto, lately occupied by S. R. Shaw, where he will be glad to receive all old friends, and patrons of the House, under his predecessor, and the public generally. He trusts by close application to the wants of his guests—by using every exertion to contribute to their comfort, the Mansion House will deserve and continue to receive a large share of public patronage.

There is an extensive yard—and large and commodious sheds and stabling on the premises, where the farmer and traveller will at all times find ample accommodation for horses and carriages. Attentive ostlers always in attendance.

A Carriage will at all times, during the season of Navigation, be in waiting at the boats, to convey passengers from the boats, and also to convey them from the house to the boats.

By this Train passengers are carried through from Boston to Ogdensburgh (400 miles) in One Day.

Fare from Ogdensburgh to Montreal.....$3
" " " Boston.....$8
" " " New York.....$7

No Charge for conveyance of baggage from the Steamboats to the Cars, or from the Cars to the Steamboats, on this Route.

Arrangements are now being made for a Through Route by Railroad from Ogdensburgh to New York, via the Valley of the Connecticut River, by which passengers can reach New York in one day from Rouse's Point—the western terminus of the Ogdensburgh Railroad.

A new and complete route is now open to the Travelling Public, by which passengers destined for Boston or New York or Montreal, can have an opportunity of passing through a portion of the country, heretofore shut out from the Traveller for want of proper Railway connection from Lake Ontario to the seaboard. This connection is now formed by the completion of the Ogdensburgh Railroad, (116 miles), and two Lines of Rail from Lake Champlain to New York and Boston. (For a more particular description of all these routes, see advertisement in another column.)

As a new Route to and from Montreal, and from Canada West to Boston and New York, the Ogdensburgh Railroad and its connections, presents many objects of interest to Canadians at this time, more especially to those who are interested in the movements now making to give Canada West the advantages arising from a carefully arranged system of Railway communication between Lake Huron, Lake Erie, Lake Ontario and the Atlantic Cities of the United States.

By taking the steamers at Hamilton, Toronto, and the Canadian Ports on Lake Ontario, passengers can be conveyed to Kingston, Brockville or Prescott. At Kingston, the United States Steamers touch on route to Ogdensburgh, connecting with the British Line from Hamilton. A Ferry Boat plies between Prescott and Ogdensburgh daily.

Independent of examining the method of connecting Railways in the United States, can serve an opportunity (by taking the Boats arriving at Ogdensburgh in the evening), of viewing the Ogdensburgh Station Grounds (60 acres in extent), the Docks, 4,000 feet in length; the large Passenger and Freight Houses, the Grain Warehouse and Steam Elevators now in progress of construction; the Engine Houses and Machine Shops, and leave in the 10 o'clock, A. M., Train, which arrives at Rouse's Point, for dinner at 3 o'clock, P. M. The Steamboats bound north, at Montreal from Rouse's Point, take their passengers at 7 o'clock, P. M.; thus giving Travellers hours to examine the vast warehouse, (300 feet long by 104 feet wide, built on a pier in Lake Champlain,) the Machine Shops, Car Houses, Engine Houses on the Bridge, now constructing on the Vermont and New York side of the Lake.

The 8 o'clock, P. M., Train will always wait for the evening Boats from Kingston.

Parties on pleasure, during the summer months, after visiting the Falls of Niagara, and the Suspension Bridges, in proceeding to Boston or New York, will view some of the most magnificent Mountain Lake and River Scenery in any part of America, when [via Ogdensburgh] passing through Vermont, New Hampshire, Massachusetts, the Valley of the Connecticut River, and the River Hudson.

The Ogdensburgh Railroad Company, anticipating this being the direct Channel to the Atlantic Sea-Board for Canada West, at the most direct, expects men and even means, to invite the attention of all interested in the Commercial and General prosperity of this important section of the British North American Colonies, to an early and careful examination of all the facilities offered by the Road and its connections, when it will be found that these have in view the most rapid and invariable channels through which to develope the Canadian trade.

ROBERT BARKER'S

COMPOUND SARSAPARILLA PILLS

THE Proprietor having paid particular attention to the composition of these Pills, can with confidence recommend their use to the Public, in all diseases above enumerated; and having been in use several years, they have given general satisfaction in every case where they have been used. Numerous testimonials could be published of their truly wonderful effects, but not wishing to adopt a system which the good sense of the public must condemn of publishing a long list of fictitious cases, the Proprietor trusts that a single trial will prove their good effects. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been used by the Medical Profession many years, but experience has proved that all Liquid or Watery Preparations lose their Medicinal qualities, in a very short period, and become worthless, consequently it has been found necessary to use the solid Extract of Honduras Sarsaparilla, from which these Pills are prepared, combined with other valuable remedies and therefore more real benefit will be derived by the use of one box, than from half a dozen bottles of any preparation of Sarsaparilla in use, many of which are an imposition on the Public, too notoriously known. These pills act as a Powerful alterative, and tonic, and mild aperient, strengthening the stomach, &c., and being of a purely vegetable composition, are perfectly safe in their operation, and may be taken by the most delicate females at any period, and will be found most valuable for any irregularities peculiar to them.
