GENERAL ADVERTISEMENTS.

National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY,

THE Subscribers, in publishing new editions of the National Series, do so in hopes to secure their merited share of the patronage which has been extended by all classes of the community to their publications.

The facility with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not miscalculate, when they reckoned with the utmost confidence upon the ultimate success of these Books securing for themselves the respect, esteem and love of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

At 3 D C and Upward, as the sets are hung up.
General Lessons, to range up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The Sixth Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elemental Geometry.
Lessons in the Truth of Christianity.

These Books have a complete epoch of education, and they now have been severally reached by those, may be considered as perfect, well qualified to enter upon the pursuits of active life, and to have acquired a good preliminary knowledge sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, are in rapid succession, from the first to the last, and they possess a very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of moral and religious, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Geometry, Book Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are so simple, yet so comprehensive; so clear, yet so profound, that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his notice. That this Series of School Books should be considered as many and such unbounded as are, is not wonderful, when it is considered, that it has emanated from a talented and dignified body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names to which the British Empire can boast for talent and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence they have received the most unqualified approbation, from men in every rank of society, and who occupied the most exalted and widely differing forms of belief. The late archbishop Gaussen (Roman), Lord Meadowbank, when the publishers originally issued their editions, lent them the influence of his authority and name, and they have been recommended by the Bishops of the Roman Catholic Church, by an very influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and as far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the Edinburgh Review, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known, that little need be said respecting them. For the information, however, of such as from long use or others have not yet adopted these publications, the Publishers submit the following recommendations inferred from a great variety of others with which they were favored when they commenced the publication.

EDUCATION OFFICE, DUBLIN.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 23th instant, enclosing Copies of various Certificates in favor of the School Books published by the Board, "with the perusal of which they were much gratified, we are directed to inform you, that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, such of the Irish National School Books as you may think fit."

We are to state further, that these books are in the end only with National Schools in the country, but have a very extensive circulation in England and Scotland—the Lessons have been translated into several of the Continental languages.

EDUCATIONAL OFFICE C. W.

Gentlemen,—I have to learn that you have commenced republishing for the use of Schools in Canada, the series of admirable School Books which the Government commissioners—headed by the Protestant and Roman Catholic Archbishops of Dublin—have published for the National schools of Ireland. These books have been prepared under the surveillance of men of great learning and experience, and are remarkable for cheapness and for simplicity, chastness and systematiness of definition and arrangement.

I have been instructed by the Government to call my attention to the preparation and selection of books to be recommended for general use in that numerous class of Canada West. I am glad that you are so far anticipating with well authenticated, as to have already obtained the republishing of a set of books, both numerous and diversified, which most of those used in our Common Schools. Nor can I refrain that I shall be able to do better than recommend to general and permanent use in our Schools, some of the excellent series to which you are republishing.

Canada is already, and is likely to be still more largely indebted to your enterprise for an improved set of School Books and Books. I wish you most sincerely success in your laudable endeavours to improve the most intellectual department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
EGERTON RYERSON.

From the Rev. W. Cooke, Rector of the High School, Quebec.

I have long known the Books published under the sanction of the Irish National Schools, under the auspices of the Commissioners of Education, having been then extensively used in England, both in public institutions and in public institutions; yet as I do they seem to be adapted to the purposes to which they were connected, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

REV. JOHN COOKE,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Algar Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in our common schools. I commend the benefits effected by their introduction into Public Schools and private families, in this country.

I have used them in the education of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of requiring them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to supply these books in a form published under general circulation in this Province, I consider them as entitled to the generous support of every one who desires to spread abroad the blessings of Education, and as deserving of the unanimous gratitude of all who have the welfare of this Province at heart.

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I require to hear of the information you have done me the favour to communicate that your enterprising house is engaged in the republication of the Education Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform system of Elementary works of a high authorship, for the training to be given in our Schools, cannot fail to strike every mind. The amelioration resulting in public Education can be worked to better purpose if it be understood precisely what works are employed for the purpose of training throughout all the Public Schools, while the bad expectation is thereby lessened, and the efficiency augmented. The frequent removal of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate as disadvantageously to the progress of such pupils; if the Books employed in Education were uniform.

In regard to the superiority of the Series in the poem, I presume little may be. They have well sustained the application of tests more than usually rigid, and they have unusually rigid, and they have unanimously proved an unspeakable blessing to Ireland. Without being intimately acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools would not fail to be a national benefit. Next to a authoritative unity of good Teachers, good books are a desideratum in the Colony; it is matter for congratulation that you are about to supply the

I am, Gentlemen, yours respectfully,

IX

From the Reverend J. M. Cramp, President of the Baptist College.

Gentlemen,—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons for the use of Schools and Institutions in Canada. I have been long acquainted with these lessons and value them much. They have been used in my own family which speaks advantage.

It is the people's expressions of the Saxon of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Further, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style in the compilation is perspicuous.

In addition to the considerations, it may be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear of mingling in the opening mind of society in Canada.

I sincerely hope that this enterprise will be crowned with abundant success, and would be happy to do all in my power, yours, &c.

LATIN CLASSICS.

Cheap Edition for Colleges and Schools.

THE various Irish Classic Books, which have so long been in use and under study in the Books used in the Common Schools of Canada, are not to be, as to opening up a new, unpublished the Subscribers to undertake the publication of the Classical series now adopted for the use of Colleges, High Schools, District and Grammar Schools.

The contents of the series consist of the following:

Excerpta from Cornelius Nepos. 1s. 6d.
The First Four Books of Cæsar. 1s. 3d.
The Third and Fourth Books of Quintus Curtius. 1s 3d.
Cicero in Antonium. 1s.
Cicero in Sacerdotia.
Twelve Agricolæ. 3d.
The Georgics of Virgil. 1s 6d.
The Fasti of Ovid. 1s 6d.
The Odes of Horace. 1s. 3d.
The Three First Books of Livy. 1s 6d.

Of the above can be had separately bound in two vols., price 6s. 3d. for the Prose and 3s. 6d. for the Poetry.

"We agree at this noble attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those portions of them which are used in the Schools. The cheapness, convenience and excellence of the series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs. Armour & Ramsay have been the pioneer Publishers of a best series of Common School Books and they are now laying the country under additional obligations by their excellent reprints of Classical School Books. We hope to see the day when Canada will return to its own ancient Classical, as well as practical literature, as it were, close to some cut out, and we hope will in a much greater extent, in the university men.—Journal of Education, Toronto.

Orders will be executed by the Booksellers throughout Canada, or by the Publishers.

BRITANNIA LIFE ASSURANCE COMPANY,

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

CHARTERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 9.

THE great increase of the population in Europe and the numerous Policies, issued by the British Assurance in Canada, sufficiently show to the advantages of Life Assurance are fully coming more and more appreciated by those who feel the necessity of making some provision against casualties, or securing the amount of debts owing to them in case of premature death. In extend the Britannia are the terms which can be offered consistently, with security to the assured, and the subscribers hope respectfully to solicit the attention of the inhabitants of Kingston to the annexed Table of Rates, specimens of which may be seen at his office.

The income of the Company, in consequence of its large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per annum, and of this the greater part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may die on the first day, payable at his or her death, without contributing to the profits, and thereby secure an immediate Bonus by paying more than is absolutely required to provide for the risk—but the participation in profits is preferred by many parties, there are "Mutual Policies" issued by the Corporation, which offer an annual division of the Profits, such which being secured by the other Branch of the Institution, will add a very liberal and flexible income to the person insured.

All claims payable within twenty months after proof of death. No proof of death is required to be from a friend or relative, the age of the deceased being, in every case, admitted in the Policy, unless the age communicated be advantageous to effect a premium. Policies effected by parties on their own lives are not the least good in case of death by shooting at the hands of justice. In the case of suicide, if the Policy be assigned to a bona fide creditor, the sum secured will be paid to the creditor. Policies be not assignable to the Company's Premium receipts, thereon will be returned to the family of the deceased.

The necessary forms and every requisite information, as to the mode of effecting Assurances can be obtained either by letters personal application to

THE CAMPAIGNE ASSURANCE COMPANY

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Insurances on Lives, whether single or joint, to secure annuities, to purchase reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that is yet obtainable in Canada, to offer terms to Assurance much more reasonable than the rate of interest obtainable on investment by British Companies and their general large expenditure can, in any regard be safely admitted.

An exact statement of its receipts and expenditure is regularly published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it retains all its funds in Canada, and that it has not consequently contributed to the enormous sum of money which is yearly sent out of the Province to pay dividends of Foreign Companies for that, in which (in this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, the Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have been made, & to other engages to pay those policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits accrued on the Mutual Branch are yearly divided amongst the policy holders thereon.

A peculiar feature of the Company is, that it is not business to make profits by lapse of Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.

In order to induce travel, and to add to the comfort of Passengers traveling this route, the Proprietor has built at great expense in connection with the route with entirely new and superbly Covered Carriages, on Thorn & Burpee's. He has also REDUCED THE FARE, thus rendering the route at once comfortable, cheap, and expeditious, and he now looks to a generous Public for that support which he thinks he so justly merits. Passengers leaving their address at Patterson's Hotel, Perth, or at Wilson's Hotel, Brockville, will be called for at their respective places.

Fare from Brockville to Perth and vice versa, 10s.

W. H. WILLSON,
Proprietor.

GENERAL ADVERTISEMENTS.

TOWING.

NOTICE is hereby given that a Contract has been made by this Department with Messrs. CALVIN & COOK, who are thereby bound to have fully prepared and well equipped, at least four Steam Vessels, for the purpose of towing Vessels during the Season, up and down between Kingston and Lachine, from the First of April (or from the opening of the River) until the First of December next.

The Vessels for the towing between Dickenson's Landing and Prescott, to be of at least Sixty Horse Power, and those on the other parts named the route to be of not less than Forty-five Horse Power. They are not pers. ered to tow Rafts, and, in case of any accident occurring to any of them, other places are to be immediately supplied with others equally suitable.

A Tug Boat will be dispatched on the downward trips from Kingston and from Cornwall, every Monday, Wednesday and Friday, and on the upward trips from Lachine and from Dickenson's Landing, every Tuesday, Thursday, and Saturday during the season. The Tow of vessels, taken up down, shall be brought through direct, and without any unnecessary delay whatever.

All Vessels shall be taken in tow through Lake Ontario, which shall have the preference.

The charges for Towage made, will be according to the rates in the table annexed.

Any further information that may be desired, can be had on application to the Office of the Department of Public Works, Toronto.
