LATIN CLASSICS.

Cheap Cultures. Editions for Colleges and Schools

THE success which attended the experiment to run new and entire uniform the Books used in the Grammar Schools of Canada, as set forth in the spring advertisement, emboldened the Subscribers to undertake the publication of the Classical works now adopted for the use of Colleges, High Schools, District and Grammar Schools.

The numbers of the series consist of the following:

Cicero's Orations from Cornelius Nepos, 1s. 6d.
The First Four Books of Caesar, 1s 3d.
The Third and Fourth Books of Quintus Curtius, 1s 3d.
Cicero de Amicitia, 1s.
Cicero de Senectute, 1s.
Tacitus Agricola, 3d.
The Georgics of Virgil, 1s 6d.
The First of Ovid, 1s 6d
The Odes of Horace, 1s 3d.
The Three First Books of Livy, 1s 6d.

On the above can be had handsomely bound in red cloth, price 6s. 3d. for the Prose and 3s. 6d for the Poetry.

We venture at this early attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those portions of them which are used in the Schools. The typography, embellishment and execution of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Arm w & Ramsay have been the pioneers Publishers of the best series of Common School Books and the are now laying the country under additional obligations by their excellent reprints of Classical School Books. We hope to see the day when Canada will appear in its own printed Classics, in not an unusual time, and we look to some one to take up, and we hope will in a much greater extent, as its own literary men—Journal of Education, Toronto.

Orders will be executed by the Booksellers throughout Canada, or by the Publishers,

GENERAL ADVERTISEMENTS.

BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.

CAPITAL ONE MILLION.

ENDOWED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 8.

THE great increase of the population in Europe and the enormous Policies issued by the different Agencies in Canada evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The claims of the Britannia are the lowest which can be offered consistently with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per Annum, and of this the greater part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may elect for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable investment to the persons wishing to Assure.

All losses payable within twelve months after proof of death. No proof of death is required in the case a claim is made; the age of the Assured being, in every case, admitted in the Policy, and, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not forfeited in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances may be obtained either by letter or personal application to

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to all Residents, to purchase Annuities and to transact all business in which the risk of Life is concerned.

Tables have been specially calculated from the most accurate data; and the Company is established, from its small expenditure, and the high rate of interest that it may earn annually in Canada, to offer terms to Assurers much more favorable than the ordinary rates of premium charged by British Companies and their general Agents.

A court statement of the receipts and expenditure on a yearly policy of £100 for Company's Law formerly in force in Canada, may be seen on application.

Of the above Company can now state that it remains all its funds in Canada, and that it is a mutual company conducted for the benefit of the assured, money which is usually sent out of the Province to pay dividends of Foreign Companies for that, in which case this is merely a subsidiary endeavor) rather Great Britain and the neighboring States can hardly offer competition.

To persons who want at any time level discharged or unable to continue the payment of their premiums, the Company will grant Policies, payable at death, bearing a proportion of the value of such payments as they shall have been made, & further engages to purchase policies for equitable considerations after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thereon assured.

A popular feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
