ADVERTISEMENT.

THE following Resolution was unanimously adopted at a Meeting of the Common Council, held yesterday, and ordered to be published.

Resolved.—"That inasmuch as the resignation of the Fire Brigade of this City has arisen from a misconstruction of the language used by one of the members of this Council, during the discussion on Alderman McKenzie's motion at its last meeting, this Council very positively asserts, that no such disorderly language as, that the Fire Brigade were "a set of idle vagabonds," was used either by the member referred to, or by other member of this Council."

Kingston July 23, 1851.

FOR SALE.

A SMALL FARM of about 40 acres, in the Township of Pittsburgh, 3 miles from the City of Kingston. The land is of superior quality, and in good condition.

There is a large and commodious Dwelling House on the premises, with an extensive Garden and Orchard in full bearing.

The Property is delightfully situated on the banks of the St. Lawrence, at the head of the Thousand Islands, having a frontage of nearly half a mile on the River, where excellent fishing is to be found. A Bay in the premises, nearly land-locked, offers first-rate facilities for the formation of a Bathing Establishment, and Stone, in any quantities, can be quarried and shipped from its banks.

Apply to

BRITISH AMERICA FIRE, LIFE AND MARINE INSURANCE COMPANY.

THE Undersigned, an Agent of the above Company, continues to effect Insurances on Property against Loss or Damage by Fire, on as liberal terms as any other first class Office in Canada.

To the Assured, this Company offers one important inducement over those of Alien Offices—i. e., that all claims for loss or damage are adjusted within the limits of the Province, without parties having to resort to a Foreign Jurisdiction, to enforce payment of losses, when resisted.

ICE! ICE!! ICE!!!

THE Subscriber possesses a Receipt to enable any person to make ICE, in any Quantity, with but little expense or trouble.—The process is simple, and can be accomplished by the most limited understanding, so as to produce from even warm water, in the hottest climate, a pure Ice, equal in every essential to that formed by natural causes. The luxury of always having at one's will, in the heat of Summer, a pure and delicious Ice, will readily be conceded; and its advantages, in cases of sickness cannot be too greatly prized. By this same process, warm water can be rendered delightfully cold in about 5 minutes, and Ice Creams, with many other luxuries, can be made in from 10 to 20 minutes.

The following notice of this great discovery is taken from the New York Sun:

"A REAL LUXURY.—Dr. James R. Wilmington produces, by an artificial process, pure and solid Ice, from warm water, in the heat of summer, in less than half an hour.—And he can render a barrel of water as cold as Ice itself in a very few moments. This discovery must be of immense value to all living South.

TERMS.—This receipt, which contains full instructions for making Ice & Ice Creams, cooling waters, and numerous other useful matters, will be forwarded to order for Two Dollars, by addressing Dr. Jas. R. Wilmarth, 122 Nassau street, N. Y.

Some One Agent only will be appointed in each county, and those desiring the Agency must forward $5.00, for which they will receive 37 copies of the pamphlet, containing full instructions.

FOR SAGUENAY, EVERY TUESDAY,

DURING THE MONTH OF AUGUST.

FOR RIVER DU LOUP and CACOUNA.—The first class passenger steamer "HIGHLAND HILL," Captain W. R. This connection is now formed by the completion of the Ogdensburgh Railroad, (110 miles), and two Lines of Rail from Lake Champlain to New York and Boston. (For a more particular description of all these routes, see advertisement in another column.)

As a new Route to and from Montreal, and from Canada West to Boston and New York, the Ogdensburgh Railroad and its connections, presents many objects of interest to Canadians at this time, more especially to those who are interested in the movements now making to give Canada West the advantage arising from a speedy and arranged system of Railway communication between Lake Huron, Lake Erie, Lake Ontario and the Atlantic Cities of the United States.

By taking the steamers at Hamilton, Toronto, and the Canadian Ports on Lake Ontario, passengers can be conveyed to Kingston, Brockville or Prescott. At Kingston, the United States Steamers touch on route to Ogdensburgh, connecting with the British Line from Hamilton. A Ferry Boat plies between Prescott and Ogdensburgh daily.

Travellers desirous of examining the method of constructing Railways in the United States, can have an opportunity (by taking the Boats arriving at Ogdensburgh in the evening), of viewing the Ogdensburgh Station Grounds, (60 acres in extent,) the Dock, 4,100 feet in length; the Inge Passenger and Freight Houses, (the Grain Warehouse and Steam Elevators now in progress of construction); the Engine Houses and Machine Shops, and leave in the 10 o'clock, A. M., Train, which arrives at Rouse's Point, for dinner at 3 o'clock, P. M. The Steamboats bound north for Montreal from Rouse's Point, take their passengers at 7 o'clock, P. M.; thus giving Travellers four hours to examine the vast warehouse, (300 feet long by 104 feet wide, built on a pier in Lake Champlain,) the Machine Shops, Car Houses, Engine Houses and the Bridge, now constructing on the Vermont and New York side of the Lake.

The 8 o'clock, P. M., Train will change wood for the evening Boats from Kingston.

Parties on pleasure, during the summer months, after visiting the Falls of Niagara and the Suspension Bridge, if proceeding to Boston or New York, will view some of the most magnificent Mountain, Lake and River scenery in any part of America, when [via Ogdensburgh] passing through Vermont New Hampshire, Massachusetts, the Valley of the Connecticut River, and the River Hudson.

The Ogdensburgh Railroad Company, anticipating the being the direct Channel to the Atlantic Sea-Board for Canada West, as the most direct, expeditious and economical, invite the attention of all interested in the Commercial and General prosperity of this important section of the British North American Colonies, to an early and careful examination of all the facilities offered by the Road and its connections, plans it will be found that these have in view the most rapid and favorable channels through which to develope the Canadian trade.
