F. S.—Shall feel extremely favoured by the "Advocates of Teetotalism" feeding their horses of "Swine" with their "sweet grain," that is, in case the "Doctrine," through their faith, "conscientiously" believe (?) that a "Pork" accompanied by a draught of "No. 1" is more "palatable" to their taste, than a dish of good Peas or Wheat. Extracts from Letters received by the Publishers.

It is really a valuable addition to American Biography, as it is a gratifying proof of the enterprise and public spirit of the Publishers.

Such a work may be used with profit and advantage by all who take a lively interest in the eminent men of our country.

H. CLAY.

Oregon and California.—"The Exploring Expedition to the Rocky Mountains, Oregon and California, by Brt. Col. J. C. Fremont." It is a fair 12 mo. of 456 pages, just issued by G. H. Derby & Co., of Buffalo.

Note that the hope of getting them out of Congressional is at an end, while thousands of the gentlemen must have been mortified, we advise the Publisher's to wait up to the Captain's office and buy Mr. Derby's Edition. The issue prog is far better than that of Congress.—N. Y. Times.

Life of Gen. Andrew Jackson.—New edition, revised and enlarged, with Sartain's Engraving. Steel portrait—600 pages, cloth or sheep, $1.25.

Of the work before us, we think we may safely say, that in taken from, it doubtless will present to—the consideration that he was writing the life of a great man, whose deeds were the property of the nation to which he belonged, and not of any sect or clique.—Buffalo Courier.

Family Science or Conversations.—New and improved edition, 370 pp., in compact binding—price $1.25.

Questions of public policy, not merely affecting the interests of our country, but involving constitutional principles, and even liberty itself, are not unfrequently decided at the ballot box. Yet multitudes of our citizens prepare to exercise the prerogative of freemen without knowing what the nature and responsibilities of freemen are. The poll lists of our State are annually swelled by thousands of new voters, who have never given the Constitution or any book a single reading!

Chemistry—Its History, Condition, Prospects, Geography, Climate and Production, with physical adventures among the Indians during a journey on the plains bordering the Pacific while connected with the Oregon Mission, embracing extended notes of a voyage round the world.—By Rev. Cornelius Rose. 333 pp. 12 mo., sheep or cloth binding—price $1.25.

In Geo. the Author's first employment was an exploratory tour among the Indians of the Columbia River, which empties into the Pacific.—The tour supplies us with some geographical information and a small account of the Indians of the country. Mr. Rose has the advantage of a comparatively unexplored field, and he has with his of interest beyond the limits of his immediate domain as a contributor to the local history of Oregon.—Literary World.
