I WISH to inform the Public, for the good of the afflicted, that I was very severely with a cough and inflammation of my lungs and chest, which threatened my whole system. I spared no cost or trouble to get rid of it, but I got no relief until I was advised to go to DR. LANKTREE, of Kingston, where I got his Medicine. It took but a short time, and little cost, until I could again rejoice in the return of my perfect health—thank God.

BRITANNIA LIFE ASSURANCE COMPANY,

No. 1 Princes Street, Bank, London.

CAPITAL £1,000,000 STERLING.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT 9 Vic. Cap. 3.

THE prospectuses of the institutions in Europe and the extensive Policies issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the payment of debts due by us to them in case of premature death. The rates of the Britannia are the lowest which can be offered, consistently with security to the Assured, and the subscribers respectfully invite the attention of the inhabitants of Kingston to the enclosed Tables of Rates, specimens of which may be seen at their office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds Sterling, per Annum, and of this the greater part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may draw his fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate Bonus by an equivalent more than is absolutely required to provide for the contingent of participating in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an almost division of the Profits, and which being computed by the other Branch of the Institution, will ever prove safe and profitable investment to the person willing to Assure.

All claims payable within twenty months after proof of death. No proof of death is required in the case a child is under the age of the Assured being, in every case, admitted in the Policy, outright, under any circumstances, to afterwards called in question. Policies effected by persons on their own lives are not vacated well in case of death by duelling or the hands of justice. In the event of assigns of the Policy be not assigned, without definition, if the Policy be not assigned, the inheritance of Premiums received thereon will be returned to the family of the Assured.

The directors of home, and every requisite information, as to the mode of effecting Assurances, may be obtained on by letter prepaid application to

Kingston, Feb. 21, 1851.

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to all Annuities, to purchase Reversions and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more reasonable than the low rate of interest obtainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An annual statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the enormous sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a holiday instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to cut, the payment of their premiums, this Company will grant Policies, payable at death, fairly represent a free of the value of such payments as they may have been made, & further engages to purchase policies for its equitable consideration, for all more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not intended to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
