[REPORTED FOR THE BRITISH WHIG.]

ARRIVAL OF THE

BALTIC AND CANADA.

ARRIVAL OF KOSSUTH IN ENGLAND

New York, Nov. 10, A. M.

The Steamers Baltic and Canada arrived yesterday morning with Liverpool dates to the 27th ult., one week later. The "Canada" came out in place of the "Africa," which left Liverpool on the 26th, but ran ashore the same night on the Cape Land Rocks off Belfast, and was compelled to return to Liverpool on the Monday following. The "Canada" has brought out the "Africa's" mail and 105 passengers.

At Liverpool, Cotton has further declined ¼. The sales for the week ending 25th are 43,000 Bales, and since then some 6,000 Bales daily.

At the Exchange on Friday, the better description of wheat met a good sale. Choice marks of flour scarce and rates maintained, while the lower grades are neglected and fully 6d lower.

Corn quiet and unchanged, Western flour 20s to 22s, Philadelphia and Baltimore 18s to 19s 6d, mixed 25s to 26s; Indian meal 15s to 16s.

Provisions—Beef quite active, but lower qualities are 2s to 3s per tierce lower. London Money Market easier. Consols closed at 97¼ to 97¾.

New York, Nov. 10.

The U. S. steamer Mississippi, Capt. T. C. Long, arrived here this morning from Gibraltar, which place she left on the 25th ult.—She brings about 30 Hungarians, who remained by her after the departure of Kossuth.

Boston, Nov. 10.

By an arrival this morning from Buenos Ayres, we have advices to the 17th of Sept. that Urbe was still endeavoring to make terms with the Brazilians. Another arrival brings Porto Prince dates to Sept. 23rd.—The Emperor Soulouque had complied with the demands of the Foreign Powers and concluded a truce for one year with the Dominicans.

Washington, Nov. 10.

It is rumored that negotiations are pending with the Spanish Minister for the release of the American Prisoners concerned in the Cuban Expedition.

TO THE

Electors of the County of FRONTENAC.

GENTLEMEN—

I received a requisition from the Freeholders of your County, numerously and influentially signed, soliciting me to become a Candidate.

A reluctance on my part, arising out of personal considerations, to become a Candidate for any constituency, and, indeed, an aversion to face the storms of public life, have greatly stood in the way of my accedeing to the call. However, the representation of four requisitions, and the urgent and continued requests of men, whose character and views I highly appreciate, have imposed upon me the obligation of deciding, and that at once. I have considered the matter anxiously, deeply, and thoughtfully, and at last find myself constrained to waive all considerations and to place my services and abilities in your hands, at your disposal.

Being now committed to the coming contest, I am bound to cooperate with you in all proceedings necessary to secure the end in view.

In the prosecution of this contest let each and all of us act with moderation and good sense, like men who sincerely desire to serve the sacred cause of truth and public freedom, based upon the constitutional rights of the people, and those civil and religious liberties, which are so dear to the heart of every Briton. I view the duties of a Member of Parliament as of no ordinary character: his responsibility is great; the importance of his duties vast. The man who receives the suffrages of a people should spare no pains, omit no exertions, or fear no danger, in the cause of the people and good government.

I am of opinion that it is the interest of all classes to maintain the free constitution of this Province in its integrity, and to send men to Parliament who will see that it is worked out honestly and faithfully, for the benefit of the people, and not for the interest of a class or a privileged few.

Civil and religious liberty will find in me, as it has always found, a devoted friend and faithful advocate.

Perfect equality of civil and religious rights and privileges may be looked upon as the corner stone of the constitution, the birthright of every Canadian. In Parliament or out of Parliament I will maintain this principle at every hazard.

Agriculture lies at the foundation of all improvement; national prosperity is based upon it; without the efforts of the farmer the country would become a waste and a wilderness, and our towns and cities desolate. It is true the Provincial Legislature has not entirely overlooked the interests of agriculture; but much remains to be done. Every effort should be made to secure the highest remuneration for the productions of the soil. Every encouragement which the state can command should be freely and fairly extended to the farmer.

The construction of Railroads, and other medium of cheap and speedy communication, is admirably calculated to increase the rewards of the agriculturist for his productions, by enhancing the value of grain and lowering the expenses of transportation. I am ready to support such works of utility, taking good care that the interest of Canada shall be the first consideration, and that no additional burden shall be laid on the industry of the people.

The splendid achievements of the Arts and mechanical skill, aided by the light of Science and inventive genius, may be looked upon as the peculiar glory of the present age. The fostering of Science; the promotion of the liberal and useful arts by Legislative encouragement, will be warmly supported by me, as no country under the sun affords so ample a field for the skill of the artizan and the resources of the lover of science than this magnificent Province.

The common sense of all men points out the necessity of increasing and equalizing the Representation of the people in Parliament. Is it not preposterous, is it not absurd, that the little town of Cornwall, with a population of 1,500, should have the privilege of returning one member, when the fine county of Frontenac, with a population of over 15,000, has only the same privilege? Such a state of things should not be tolerated. By an increase of representation there would be three farmers returned for every one. Now I am ready to support a comprehensive measure for increasing the Provincial representation.

Popular education should be among the first objects of a free Government. A comprehensive system of cheap education must be of immense interest to any country. By its influence public morals will be improved, crime repressed, order promoted, life and property made secure, and the character of the country elevated at home and abroad. I am of opinion that an improvement might be made in our present system of providing funds for common school purposes. The utility of the present system of taxation for school purposes is not clear to my mind. It is possible, should a proper inquiry be instituted, that it would be found out that funds arising from other sources, now of little or no use, or squandered for purposes of no public utility, might, with great advantage, be appropriated to the noble purposes of education. This is a subject above all others in which I feel a deep and vital interest. I trust the day is not distant when the humble cottager and the poorest man in the remotest township of the Province will have an opportunity of giving a cheap, practical education to his children. Such a consummation can be accomplished, but not until men of patriotic minds, and liberal and enlightened views, are sent to Parliament.

Should I have the honor of being your Representative, my exertions, humble as they are, will be honestly and zealously exercised to promote such public measures as will contribute to the substantial interests of the County of Frontenac, and the prosperity and happiness of the Province at large. I will endeavor to visit every Township in the County without delay, when I will explain my views fully upon the various public questions of the day.

I have the honor to be,
Gentlemen,
Your faithful servant,
KENNETH McKENZIE.
