THE good understanding which has long subsisted between this Company and the Public, would by the assurance in Canada, evidently show that the advantages of this Assurance are duly appreciated by those who have the security of insuring their property in the British Dominions, or in case of prevention which the rates of the Premiums are the lowest which can be offered consistently with security to the Assured, and the subscribers hope especially to invite the attention of the inhabitants of Kingston to the underwritten Tables of Rates, specimens of which may be seen at his office.
