The Huntington Copper Mine yields $40 worth of silver, and $5 of gold, to every ton of copper.

The assessment of Toronto is $1,727,100 more than last year.

The quantity of lumber shipped last season, from Toronto was 39,200,000 feet.

It is in contemplation to augment the Ottawa police force by the appointment of five more men.

Mrs. Bloomer has returned to her right senses and to skirts, and now lives peacefully and trousersless at Council Bluffs, Iowa.

The Globe speaks of the Companionship of the Bath as "a miserable title." Did Mr. Brown ever read the fable of the Fox and the Grapes?

Edwin Kelly, the negro minstrel man, who has been on trial the last few days in New York for the murdering of Thomas J. Sharp, has been acquitted by the jury.

Mr. D. A. Vanvalkenburgh, of Ogdensburgh, has purchased the Maitland Distillery for $34,000. The present purchaser intends running the establishment again.

A return issued on the 4th inst., shows that the number of her Majesty's ships and vessels at the different stations over the world on March 31, 1867, was 276; the total complement of men, 34,245.

According to American Agriculturist, 1,200,000,000 pounds of ice have been stored the past winter by only five of the New York city ice companies—nearly two-thirds of it by the old Knickerbocker Company alone.

The gardiner in charge of the vice-regal residence at Spencer Wood, Quebec, has received instructions from Ottawa to have the house and grounds put in readiness for early occupation.

The largest income in New Hampshire is that of the proprietor of a Hair Restorer. A half dozen years ago this Restorer was unknown, and to-day it would have been worthless but for advertising. The income is from printer's ink.

The Goderich Star says: "On Saturday, 25th ult., one of the crew of the Cherub was whipped for stealing, receiving thirty-six lashes. The boat was out in the open lake during the time of punishment. He was dismissed the service, taken ashore in one of the boats and landed."

The New Yorkers have a right to consider themselves about the most heavily taxed people in the world. The amount to be raised this year in that city is $24,125,984, or over $6,000,000 more than the entire amount to be raised by the Government of the Dominion of Canada. In addition to this the New Yorkers have to pay sundry Government taxes. To live in Gotham is a costly luxury.

Disclosures were made this morning in the Police Court respecting a wretched individual who, under the guise of fortune-telling, is stated to keep a haunt where the most disgusting and unmentionable form of vice is perpetrated. He and two others, who were criminated along with him, were fined $20 each. Scarcely any punishment would be too severe for such characters, particularly the vile principals, and we trust the police will not fail in their duty in endeavoring to root them out, and that the Magistrate will not spare them the most condign punishment.—Montreal Witness.

SHOOTING CASE IN IRELAND.—The Pall Mall Gazette of the 18th April says: In our edition last evening appeared an account of the assassination of Mr. Howard Fetherstonhaugh, deputy-lieutenant of Westmeath. He was shot on Wednesday night when proceeding to his residence from Kilucan Railway Station. The deceased gentleman visited Dublin to witness the Royal entry into the city, and left by the evening train for Killucan, where he had ordered his gig to meet him, and when driving home he was fired at and shot dead; the ball passed through his heart. Mr. Fetherstonhaugh was related to the Earl of Wicklow, and was in his thirty-fifth year. He leaves a widow and five children. The outrage is believed to be an agrarian one, and in no way connected with Fenianism.

The steamer "Bay of Quinte" brought down a large crowd of excursionists yesterday, to attend Prof. Carlo Mora's Grand Concert, who distributed themselves over the city until evening, returning after the Concert was over.

Another Spring shower fell on Monday night. The weather is very fine for the starting of the crops, and the farmers are brightening up under the prospect of a good harvest.

☞ The fine property known as Wilson's Warehouse, Brock street, formerly in the charge of the Trust and Loan Company, has changed hands, and is now owned by Mr. James Offord, who pays $4,250 for his titles. Mr. J. J. Linton made the sale.

FROM OTTAWA.

The Whalen Case.

Ottawa, May 4th.

It is reported that Chief Justice Draper is to be appointed to the Presidency of the Court of Appeals, and Chancellor Vankoughnet is to get the Chief Justiceship of the Queen's Bench.

Mr. Sandfield McDonald left Cornwall today for Toronto, and it is expected here that the question of issuing a Special Commission to try Whalen will be considered to-morrow by the Ontario Cabinet. Those who are opposed to a special trial still think that it will be a very long time to wait till the October Assizes. Whalen's health is beginning to fail, and by the orders from the gaol physician, his diet has been improved. His spirit is very much broken since he was told by one of the constables about the gaol, that his conversation with Doyle, admitting the murder had been overheard. He no longer sings or wears a defiant air. Lacroix, one of the principal witnesses against Whelan, is retained at the police station under the surveillance of the police. It is thought he would get out of the way if allowed to go at large. This state of things cannot very well be allowed to go on till next October.

American Despatches.

Baltimore, May 4.

A duel was fought four miles from this city, yesterday, between parties from Washington, an attache of the Prussian legation and an American General. One shot was interchanged when the affair was amicably adjusted; neither party was hurt.

Binghamton, May 4.

A shanty of Patrick Laughlin, near Great Bend, Pennsylvania, was destroyed by fire last night. A servant and four children were burnt.

Chicago, May 4.

At Shanghai, Illinois, near Galesburg, fourteen houses were blown down by a tornado, yesterday, too churches were unroofed, four persons killed and forty injured—a number of whom it is feared will die.

New York, May 4.

The walking match of George Topley, the English pedestrian, to accomplish fifty miles in ten hours terminated by Topley's falling in a fit when on the forty-third mile, with one hour and forty minutes to spare.

SENTENCED TO DEATH.—Charles Smith who it will be remembered, violated the person of a married woman from whom he had sought victuals, at her home near Thamesville some four or five weeks ago, was put upon his trial for the crime at the assizes in Chatham, last week. He had engaged no counsel, and at the request of the Judge, Mr. Douglass undertook his defence. The jury returned a verdict of guilty but recommended the prisoner to the mercy of the Court. The Chief Justice in passing sentence, said it was not his province to withhold the full penalty of the law for the crime of which the prisoner stood convicted. He had no alternative but to condemn him to death, but he would forward to the Executive the jury's recommendation, and it was possible the sentence might be commuted to a long, perhaps life-long imprisonment; but it would be wise for the prisoner to prepare himself without delay for the severer punishment.—Essex Record.

THE Subscriber begs leave to inform the Shippers of Stone to the West, that he has this winter built a Wharf and opened a Stone Quarry on his own premises (the late property of John R. Marks, Esq., of Barriefield), where he will be able to supply Vessels with the very best of Stone, for Building Purposes, and also for Lime Burning, at very low rates.

The Wharf is a short mile from the Catarauqui Draw Bridge, with good Way and no channel to the Wharf, off which there are nine feet of water at all times.
