NEWS OF THE DAY.

WEDNESDAY MORNING, JUNE 3, 1868.

The La Crosse Match.—After a well contested game yesterday afternoon, Prescott beat Kingston in three straight games. Time—38, 15 and 37 minutes. Further remarks to-morrow.

Inquest.—An inquest was held on Monday evening, at the Grove Inn, before Mr. Coroner Shaw, concerning the death of John Matthews, a colored lad, 8 years of age, whose body was found in the water close to the cattle sheds at Morton's Distillery on the afternoon of the same day. Suspicion was attached to a boy named Thos. Fitzgerald, who was last seen in company with deceased, and who had been in the custody of the police since the morning. The lad Fitzgerald explained upon being questioned by the Coroner and Jury, that the two of them went together to the cattle sheds, when the deceased left him and got down through a hole in the floor of the shed and crept along the stones at the base. In attempting to crawl along a slippery log, he fell into the water. He (Fitzgerald) heard him cry out and went to his assistance, and catching him by the hair of his head, pulled him over the log into the water on the other side, and being unable to get him out, and the deceased having nearly pulled him in, he went away. He (Fitzgerald) called out once for assistance, but became afraid afterwards to say anything about it to anyone but his mother. The deceased went under the sheds to hide from going to school. After an investigation of two hours the Jury brought in a verdict of "accidental death by drowning."

☞ The gunboat Rescue proceeded down the river on Monday evening.

☞ The Old Burial Grounds.—'A Citizen' in a very proper and pertinent letter complains of the wretched and dilapidated state of the Old Burial Grounds in the Northern part of the city, where repose so many hundreds of the honored dead. The fences are torn down, cattle and hogs roam at large among the graves, and in which all manner of nuisances are hourly committed. Should such a state of things continue? Is there no remedy? Cannot the bodies or their remains be removed to Waterloo, and the land devoted to other purposes, or are these Old Burial Grounds, three in number and all very large, to remain a disgrace not only to Kingston, but to Civilization?

☞ Yesterday morning the R. M. str. Grecian was crowded on her downward trip with Clergymen, on their way to their respective conferences. A very large number left the steamer at this place, being members of the Wesleyan Conference.

The Band in the Park.—The Band of the Royal Canadian Rifles will play in the Park this afternoon at 4 o'clock. The following is the

PROGRAMME.

Overture—Zanetta.....Auber.
Quadrille—Bon Jour.....Zikoff.
Selection—Romeo e Giulietta....Gounod.
Valse—Morgenblatter.....Strauss.
Reminiscences of Donizetti. A. F. Godfrey.
Galop—Bon Soir.....Godfrey.
God Save the Queen.

Church of Scotland.—The Synod of the Church of Scotland began last evening in St. Andrew's Church. The Moderator, Revd. Kenneth Maclennan, M. A., of Whitby, conducted divine service.

Arrival of the Chicora.—This steamer, formerly a Southern blockade runner, arrived yesterday morning in tow of the tug steamer William, and has attracted considerable attention. She is an iron steamer of great length (230 feet), and was built specially at Glasgow while the late American war was going on for blockade running. She made six successful trips, and netted for her owners many times her cost. For this particular service she was eminently fitted, her peculiar construction and powerful engines giving her great speed, while her low build offered but a slight object for the guns of the blockade ships. She is very narrow in proportion to her length, having only 26 feet beam, with 10 feet depth of hold. Her engines are splendid ones, superior to any of the kind we have ever seen. After the blockade was raised the Chicora was laid up, and was purchased last season as she lay at Halifax by Capt. Milloy, of Toronto, who intends to take her to Buffalo, there to fit her up with guards and saloons for the new route assigned to her between Collingwood and Ontonogon, Mich. The Chicora wintered at Sorel, and in the spring proceeded to Quebec, where a novel expedient was resorted to, that of cutting the vessel in two between her bulkheads in order to admit her to pass through the canals. The stern and bow portions were towed up separately, and arrived here with the slender connection of a rope. At Buffalo, after she has passed the Welland Canal, she will be joined together again. Yesterday she was visited by crowds of people.

Our cable despatches of last night inform us that Messrs. Sullivan and Pigot, the two Dublin editors, who have been in custody there for some time past, on a charge of writing and publishing seditious articles, have been released from confinement on a writ of error.

The Ku-Klux-Klan.—Some idle vagabonds, who were bent on destroying property, went to the house of Prof. Fleak on Saturday night last, and broke in the panels of his door, destroying the door and other property before leaving. They then proceeded to the Depot, where they broke 27 panes of glass in the windows of the Methodist Church at that place, and a house in the Grove shared the same fate. It appears to have been done with sticks, as no stones were found in the inside of the buildings nor near the windows on the outside.

Police Court, Tuesday.—A blank day at the Court this morning—no prisoners.

New colours were presented to the 78th Highlanders at Montreal, on Saturday, with imposing ceremonies, by Lady Wyndham.

Lord Moock is to visit the Maritime Provinces previous to his departure for England.

Telegrams from Ottawa repeat the rumor that the Hon. Mr. Howland has been appointed Lieut.-Governor of Ontario.

On Saturday twelve men of the 29th Regiment were detailed as a guard at the New Toronto jail, where Messrs. Boyle and Nolan, arrested for Fenianism, are confined. The measure is merely precautionary, in order that any possible attempt that might be made with a view of rescuing these men should be frustrated.

The traffic on the Great Western Railway for April was $90,000 in excess of the corresponding month in 1867. That of the Grand Trunk Railway was nearly $50,000 in excess.

Mr. Gilbert McMicken has left Ottawa for Toronto. The detective force guarding the public buildings has been reduced. The military guard to be provided lessens the necessity for as great a detective force as formerly.

The Fenian Volunteer, which has been circulated through the Province in defiance of restriction put upon such papers by the Government, seems to have been smuggled over from Buffalo in a quantity, and mailed at different post offices in the Province.

THREE MEDICINES IN ONE.

The old practice in Bowel Complaint was to give—first, a cathartic then an alterative, and then a tonic. In Radway's Regulating Pills these three medicinal principles are combined. They purge without prostration; change the condition of the system without violence, and tone the stomach, bowels and liver. These three processes go on simultaneously under their operation.

Price 25 cents per box, coated with sweet gum, free from taste. Sold by Druggists.

Pain Killer.

AMERICAN HOUSE, BOSTON, MASS.

THE very important and extensive improvements which have recently been made in this popular Hotel, the largest in New England, enable the proprietors to offer to Tourists, Families, and the Travelling Public, accommodations and conveniences superior to any other Hotel in the city. During the past summer additions have been made of numerous suites of apartments, with bathing rooms, water closets, &c., attached; one of Tufts' magnificent passenger elevators, the best ever constructed, conveys guests to the upper story of the house in one minute; the entries have been newly and richly carpeted, and the entire house thoroughly replenished and re-furnished, making it, in all its appointments, equal to any hotel in the country.

Telegraph Office, Billiard Halls and Cafe on the first floor.

IRON-CLAD

Piano Fortes!!

John C. Fox's Patent.

F. C. CLINE respectfully informs the public of the Dominion that he is the purchaser of the Stock-in-Trade and the Patent Rights from the Assignee of the above eminent maker, and that he is carrying on the manufacture in the principal and original premises, on the corner of Princess and Ontario Streets, Kingston.

From the long established reputation of these splendid Instruments, it is unnecessary to say anything further in their commendation. He will only remind the public that THEY HAVE ALWAYS OBTAINED THE FIRST PRIZE WHEREVER THEY HAVE BEEN EXHIBITED, and that the continents of Europe and America for twelve months were challenged for $1,000 each side to produce a Piano to compete with the Patent Iron-Clad, WHICH CHALLENGE WAS NEVER ACCEPTED. Since then further improvements on the Patent Iron-Clad Sounding Board have been effected, whereby the sonorousness and the vibratory powers of the Instrument has been increased.

F. C. CLINE was the first purchaser of the Stock, and was thereby enabled to cull the workmen employed by the late Mr. John C. Fox, retaining only the most steady and proficient, which is an assurance to the public that in addition to the advantages of the Patent Right, they may depend that every Piano will be constructed in the most skilful and artistic manner, upon which the qualities and durability of the Instruments so much depend.

He wishes further to state that he has retained the services of Mr. Wm. Cunningham as Tuner and General Superintendent of the Factory, and that every Instrument, in every stage of its manufacture, will pass under his immediate supervision, which, from Mr. Cunningham's well known musical knowledge and ability, and his established reputation during 18 years as a first-class Tuner, will be a sufficient guarantee of the perfection of every Instrument. Mr. Cunningham has lately made an alteration in the construction of the Sounding Board by which the treble notes obtain a brilliant and flute-like tone, far surpassing anything heretofore produced.

Mr. Thos. H. B. Purdy is still the Travelling Agent, and as he is personally interested in pleasing his customers, they may depend that any orders entrusted to him will be selected to their satisfaction, and on the same terms that they are to be obtained from the Factory.

F. C. CLINE further reminds the public that, being the purchaser of the Patent Right, he is the only person entitled to make and sell the Patent Iron-Clad Pianos, and that proceedings will commence forthwith against any party infringing the Patent.

Rappe, Weber & Co.,

LARGE MANUFACTURERS OF

GRAND OVERSTRUNG SQUARE

PIANOS,

Corner of King & Princess Streets,

KINGSTON, ONTARIO.

RAPPE, WEBER & Co. announce to the Public that they are now in possession of facilities for manufacturing Pianos unsurpassed, if equalled, by any in the Dominion. The members of the Firm are Practical Piano Makers, and are anxious to establish their success in manufacturing enterprise by careful workmanship rather than by mere speculation. They are able skilfully to superintend every department, and are prepared to guarantee every instrument they sell.

For strength of manufacture and materials, beauty of finish, and durability and excellence of tone, they challenge the Dominion to produce superior instruments; and while they claim for their work every excellence that can be expected from skilful and enterprising workmen, they beg to announce that their resources are sufficiently ample to enable them to compete in prices with any speculator in Pianos.

The Subscribers keep no Travelling Agent. All orders addressed to the Subscribers, or sent through any respectable Music Dealer, will receive attention. Orders through mail will be attended to as if selected in person.

RAPPE, WEBER & CO.

Kingston, May 20, 1868. 121

A CARD.

RAPPE, WEBER, & Co., deem it unnecessary in their announcement above to notice the advertisement of their competitor, Mr. F. C. Cline. They beg to inform the public that it was not the privilege of Mr. Cline to retain all of the late J. C. Fox's workmen.

The Advertisers were selected by the late Mr. Fox from the best establishments in New York, (Steinway's, Stoddard's, Weber, Gabler etc.)

After Mr. Fox's death, and before Mr. Cline's purchase of a part of Mr. Fox's stock, Rappe, Weber & Co., had determined to go into business on their own account. As at present constituted, their establishment consists of four Proprietors, every one of whom have been foremen, and their workmen who have been foremen; so that so far as the "culling of workmen" (a novelty in language) is concerned, Rappe, Weber & Co., have the honor to announce that they made *their* selection before it was permitted to Mr. Cline to make *his*. If Mr. Cline was a practical Piano maker, it might be competent to him to remark upon the skill of other workmen; but as he is not, it may be well to remind him that the shoemaker should stick to his last.

The Advertisers do not press upon the public the merits of any Travelling Agent, and any person holding himself out as such may be treated as utterly unauthorized. Our Pianos are candidates for popular favor, and we have no doubt they will win it.
