The North-West Territory.

There is not much comfort for the Canadians in the brief conversation which took place in the House of Commons on Tuesday evening on the subject of colonizing the territory, as it is reported by telegraph. Sir Harry Verney, Bart., enquired what measures were being taken having this object in view. Mr. Adderly, Under-Secretary for the Colonies, replied that no steps could be taken by the Home Government so long as negotiations were pending with the Hudson's Bay Company. Nine months after we thought we had the territory for the asking, we find ourselves back again in the nebulous region of negotiation and uncertainty. We were led to believe that if we would only petition the Queen the whole domain of the company would be turned over to us, and that all questions affecting the validity of the charter, or, if it came to that, the value of the territory, would be tested subsequently. So Mr. Brown told us when he was minister in 1865. Last year, in accordance with his statement, we petitioned Her Majesty for the transfer of the vast region between the head waters of Lake Superior and the Rocky Mountains, to Canada. After a delay of some months the Colonial Secretary informs us that the transfer cannot be made. In a very autocratic style he tells us that the thing cannot be thought of just now.—Further legislation by the Imperial Parliament he says, is necessary, and all the terms of the surrender have to be arranged beforehand. Not satisfied with telling us that we could have the vast domain for the simple asking, Mr. Minister Brown said he could not conceive it possible that Canada would have to pay more than $2,000,000 for it. Now there is a story, which is believed to be true by Mr. ex-Minister Brown's, that the company are demanding $10,000,000, and the reservation of the best sites in the territory. One is almost lost in astonishment at the extraordinary shape which the question had assumed within the past few months. We never had much faith in Mr. Brown's ability as a negotiator, or as a practical statesman, but we could not have believed it possible that he would have made such a wretched mess of this business so important in its character and consequences to the whole Dominion. The probability is that a very long time indeed will be required to make up the leeway which has been occasioned through the bungling of a man who once declared himself a "governmental possibility," but who at least had a chance to try his hand at the practical work of governing a country. There is cause for deep regret at the unexpected turn which this question has taken, and we may be permitted to hope that, despite the great mistakes which have been made, we shall find our way out of them sooner than can now be safely anticipated.—Leader.

FROM OTTAWA.

Ottawa, June 11.

To-day Corpus Christi was observed by the departments as a holiday.

A number of German emigrants passed through to-day en route for Upper Ottawa.

One R. M. Allen, of your city, has been here for several days looking, it is said, for an appointment to the vacant judgeship of York.

The Central Canada Railway Co. is preparing to connect this city with Brockville and Ottawa R. R. at Carleton Place.

There is a prevalent rumour that the English Government wishes to stipulate that this Government shall not increase the public debt until the proposed guaranteed loan is repaid. It is not believed that this condition will be complied with. This is doubtless one of the questions which will occupy the attention of Mr. Rose, Minister of Finance, when in England.

The movements of rural battalions to frontier points is not expected to take place until the middle of next week. They will not go into camp, but be billeted.

It is considered settled that Mrs. Whelan will engage the Hon. J. H. Cameron, of Toronto, to defend Whelan. Mr. Cameron will undertake the task.

REMOVAL OF FENIAN ARMS.—The Montreal Witness is informed by a correspondent, that on Thursday morning thirty cases of arms were removed from Fort Montgomery, and taken East on the Vermont Central R.R. The arms were seized two years ago by the American government, and have remained in custody till that day, when they were removed, as stated above, the parties so removing them (one of whom is said to be head-centre) having given bonds that they would not be used for any unlawful purpose.

REPRIEVED.—Sandford Wood, sentenced to be hung for the murder of his child, at Napanee, on the 25th inst., has been reprieved and sent to the Penitentiary for fourteen years.

BY ATLANTIC CABLE.

London, June 11.

The following particulars of the assassination of Prince Michael of Servia, which occurred at Belgrade yesterday, have been received to-day. The Prince, while walking leisurely through one of the public parks, at about five o'clock last evening, was suddenly attacked by three assassins, armed with revolvers. He was accompanied in his ramblings by his cousin and a daughter of the latter, together with his usual attendants. The assassins directed their fire promiscuously at the royal party. At the first shot the Prince fell and expired immediately; the cousin of the Prince was also hit and died in a few minutes afterwards; the daughter of the latter received a severe flesh wound, but is not dangerously injured. One or two of the valets were also slightly wounded. The assassins were recognised as three brothers. One of them was promptly taken while hurrying from the scene of the tragedy, and it is thought that the others will not be able to escape from the vigorous measures taken by the authorities for their capture.

London, June 11.

The official returns of the Bank of England show that the amount of specie in the vaults increased £235,000 sterling since the last report.

London, June 11.

The last despatches from Belgrade represent that the excitement prevailing in that city and throughout the principality is intense and unabated. No outbreak, however, has occurred in consequence. Two of the assassins of Prince Michael have been arrested. It has been ascertained that it was not three brothers who fired the fatal shots, but a father and his two sons. One of the latter is still at large, but it is believed that he cannot escape.

MONDAY MORNING, JUNE 15, 1868.

Synod of Ontario.

This Synod adjourned on Friday evening, after a short but earnest session.

Before adjournment, the following resolution was carried unanimously, and a copy ordered to be forwarded to Mrs. McGee:—

"Moved by Sheriff Corbett, seconded by the Very Rev. the Dean of Ontario,—That we cannot but view the late barbarous murder of our eminent countryman, the Hon. T. D'Arcy McGee, with the deepest abhorrence, sorrow and regret; and we, the Synod of Ontario, do hereby convey our deep feelings of sympathy with his widow and family, and pray the God of all grace to support and comfort them in their bitter trial and affliction."

This is a graceful tribute that will, we are sure, be gratefully received.

A resolution was also unanimously passed, on which an humble address was founded, to be forwarded to Her Majesty the Queen, conveying the thanks of the Synod to Almighty God for the preservation of the life of H. R. H. Prince Alfred from the hands of a hired assassin, and praying that Her Majesty and the Royal Family may long be spared to her loyal subjects.

Fenian Intelligence.

SEIZURE OF ARMS BY THE U. S. GOVERNMENT.

We learn from St. Albans that a seizure of Fenian arms was made in that place by the U. S. Government yesterday.

We are happy to be able to announce this fact. It is an evidence that the U. S. Government is alive to the obligations of comity, its own municipal and internal law.

The seizure of these arms will give the Fenian conspiracy a serious shock.—Montreal Gazette.

THE FENIANS.—The Canadians are alarmed in view of an anticipated Fenian invasion, and the Governor-General communicates with Washington in regard to it. Our authorities sniff the air, and keep their eyes open, but see no signs of evil portent. The whole affair is a "put up" job—a little scare on paper for political effect. The Fenians will not invade Canada without having men, supplies, and munitions on the frontier, and the officers of the Government will see to it that they accumulate nothing of the sort. It is a favourable year for "corbacks," and, no doubt, there will be a plentiful crop of them. Their intent is altogether too transparent, and the "dodge" won't work.—N. Y. Com. Adv.

The Daily News of Montreal received on Friday, from a prominent Montrealer, a letter dated Springfield, Mass., June 9th, in which he says:

"There is not a shadow of truth in the rumours of Fenian preparations at St. Albans. One of the managers of the Vermont Central, who resides there, assures us that a recent startling despatch, published in Montreal, was concocted at St. Albans by a local speculator and a Montreal 'party,' and was designed to affect certain business transactions in which they had a negative interest. The bait took, and some mischief was consummated, to the advantage of the unscrupulous wire-pullers. The manager says he knows this to be a fact. He is positive that no preparations whatever are being made in his vicinity for a raid into Canada, and that O'Neil has not been in St. Albans for many months."

A FENIAN CONVENTION.—Trenton, N.J., June 12.—A Fenian State Convention was held in the State house to-day, and delegates were present from all parts of the State. At night a large mass meeting was held in favour of Irish liberty. Speeches were made by Gen. John O'Neil, President of the Fenian Brotherhood; Jos. Gibbons, Vice-President; Gen. Spear, Adjutant-General; and Major McWilliams, of Philadelphia.

NO FENIANS IN BUFFALO.—Buffalo, June 12.—Reports from Canada having gained circulation to the effect that the Fenians are concentrating at this point for a raid upon the neighboring province, it is deemed proper to contradict these statements. No unusual gathering of Fenians has occurred here, and it is not believed that there is a single member of the organization outside of citizens in Buffalo. The sensation reports probably originated with Canadian speculators, interested in contracts for the troops.

BILLETS FOR VOLUNTEERS.—Hamilton, June 12.—The Mayor received instructions to provide billets for about 2,000 men, partly volunteers, and including the Thirteenth Hussars and a battery of artillery. The provision will be made for them and more if it is necessary. With regard to the much talked of Fenian raid, I have seen a letter from the other side which indicates that a dash of some kind will be made; that in fact the Fenians are organizing on the frontier, and will certainly make a raid. The raid, however, cannot amount to more than the descent of a very small number of Fenians, who really imagine that they have nothing to do but cross the Niagara river and march through the country without interruption. If they try it they will very soon find out their mistake.—Leader cor.

From Cornwall.

CONVICTION AND SENTENCE OF THE CORNWALL BURGLARS.

Cornwall, June 12.

Smith, Belmont, McDonald and Stearns, the four burglars who robbed Mr. Mattice's safe and were subsequently arrested in the United States by Dr. Allen, were tried separately at the, Quarter Sessions this week and found guilty. They were sentenced to the following terms of imprisonment in the Penitentiary, viz:—H. J. Smith, alias Hod. Ennis, fourteen years; H. Belmont, alias Hamburgh, thirteen years; Thomas McDonald, twelve years; G. W. Stearns, alias Stephens, eleven years. The only one of the prisoners who appeared to feel his situation was Stearns; the others maintained a jocular manner, and smilingly thanked the Judge for his kindness. After the sentence they confessed fully their guilt to the Mayor, Dr. Allen. They go to-night to Kingston.

U. S. ARMY EXPENDITURE.—The United States army is the most expensive to maintain in the world. The United States regular army, with a nominal strength of 70,000 men, but a really much smaller number, cost last year $83,841,553, while Great Britain for a regular army three times as large paid only $74,383,946. The interest on the national debt of Great Britain amounted to $128,807,270; that of the United States to $143,781,691; Civil Service in Great Britain $41,078,095; in the United States $51,110,027. The total cost of governing the British Empire last year was $335,203,418; total cost of governing the United States $346,729,125, the former being $11,456,707 less than the latter.

EXTRAORDINAY ECLIPSE.—The total eclipse of the sun which is to take place on the 18th of August next, will present such a long duration of darkness that the astronomers are anticipated it with unusual interest. From near Aden the central line of the eclipse extends to the southern coast of New Guinea, crossing Hindoostan, the Bay of Bengal, the Malayan peninsula, and the Gulf of Siam on the way; and at certain places on this line the duration of total darkness will be at 6:46. At the date in question the moon will not be more than six hours from its perigree, while the sun will not be far from its apogee; a twofold condition which increases the apparent diameter of the moon, and shows the apparent diameter of the sun, nearly at the smallest. Hence the prolonged darkness. Such a chance occurs but rarely, and we cannot wonder that a strong desire exists to make the most of it in endeavours to solve certain highly important questions in physical science.

PHENOMENA OF NATURE.—Dover, England, was enabled by a mirage a few days ago, to see Boulogne, in France distinctly with the naked eye, and with a telescope the windows of houses, and inhabitants, could be clearly discerned. A railroad train was watched for several miles of its journey toward Calais.

At Batavia, N.Y., on Wednesday last, a beautiful mirage was observed by a gentleman who describes it as a lake, "the undulations of whose waves were plainly visible and on which four steamboats and two sailing vessels were to be seen moving slowly along. Far away in the distance was the Canadian shore. The pale blue-green tint of water was perfectly reproduced. The delusion was heightened by the rising ground in a meadow forming a bank from which the lake appeared to roll.

CANADIAN SUPERIORITY.—A shooting match took place in Buffalo, on Thursday, for which there were no less than sixty entries. Great interest was manifested in the result, there being present famous shots from all parts of the country. Canada was represented by Mr. James Ward, who is known as one of the best shots in the country. He well sustained his reputation by taking the foremost place and winning the first prize. He shot splendidly, killing all of his birds, and defeating easily the best shots in the United States. Other matches are going on and no doubt Mr. Ward will win more victories before he has done with the Americans.

A RIDICULOUS HOAX.—When Mr. Freeman, the Archdeacon of Exter, was about to make his last visitation a printed circular was sent round to the church wardens of the archdeaconry, requiring them to fill in and return to the Archdeacon the following paper of questions, which were accompanied by extracts from Dr. F. G. Lee's "Directorium Anglicanum," in the compilation of which Archdeacon Freeman is known to have assisted: 1. Have you, at the expense of the parish, provided an amice, a chasuble, an alb, a stole, a maniple, a zucchetto, and a berettа? 2. Are these vestments white, according to a recent recommendation of your Archdeacon—or coloured? 3. Is the communion table removed and altar of stone substituted for it? 4. Is there an incense pot? 5. Does your priest know when to join his fingers, when to stick his elbows into his sides, when to bow, when to turn north, east, south, and west? 6. Does he burn incense at the proper time? 7. If so, how does it smell? 8. Does he wash his fingers in the ablutions, as directed, and then swallow them? 9. Does he wash the corporal? Several of the gentlemen to whom these questions were forwarded filled them up as well as they could in perfectly good faith, without suspecting that they were victims of a hoax.—English Paper.

Burglary at Peterboro'.

Peterboro', June 15.

The hardware shop of Mr. Robert Walton, George street, was entered last night by burglars. Five revolvers, a card of pocket knives, and two or three satchels were taken. Mr. Hall, who lives over the adjoining store, hearing the noise and seeing a light from the back window, raised his window and saw a man and boy leave Mr. Walton's shop, he gave the alarm, but too late to obtain any clue. A number of valuable shot guns and breech-loading rifles in the same show case were untouched, probably because the burglars were disturbed by the noise made by Mr. Hall.

Korn Kobb Divulges the Plan of the Fenian Campaign.

The army for the liberation of Ireland having been duly organized, will proceed as follows:—Thirty thousand troops will cross the Detroit river at Windsor, and seize on Walker's Distillery. Using this as a base of supplies, they will proceed to tear up the Great Western track as far as Chatham. Out of the material thus furnished, a dozen iron-plated vessels will be built. These rams, after sinking any of Her Majesty's gunboats that may be about, will enter the Thames and steam up to London. Having bombarded that place for a few hours, the Mayor and Corporation will be required to come down to the river bank and deliver up the keys of the city. London not being a walled town, and consequently not having gates, the latches of the turnpikes on the principal roads leading out of the city will be handed over to the conquerors, and the City Fathers, after forking over the spoons and other valuables, and taking a solemn oath never to oppress Ireland again, will be allowed to go about their business. They (the Fenians) will then march on Hamilton, where they will be joined by another body of fifty thousand strong from Fort Erie. After razing the Mountain to its foundation, and pitching the debris into Burlington Bay, for the purpose of depriving the city of water communication, the united forces will hang the Thirteenth Battalion, and proceed to Toronto. At Toronto they will be met by several Fenian circles, who will conduct them to the Asylum, where a court of justice will be held, before which the Orangemen of the city will be compelled to appear.

In the meantime, another force of fifty thousand will have crossed at Rouse's Point, and marched on Montreal. After sacking that city and blowing up Victoria Bridge, the invaders will spend a few days with their friends in Griffintown, and then proceed westward. At Prescott they will join the main body of the Army of Liberation, one hundred and fifty thousand strong, under the command of General O'Neil, in person. Here they will await the arrival of the western wing from Toronto. This force, after devastating the Queen City, will embark on a flotilla, which will come from Buffalo, by way of Niagara Falls, for the purpose, and taking Kingston on their way, will demolish the Penitentiary and liberate the convicts, giving each one command of a brigade. From Prescott the whole army will move on Ottawa. As the big guns have been removed from the Parliament Buildings, it is not expected that the capital will offer much resistance. In any event, however, the city will be stormed immediately. Whalen will be rescued, and Gen. O'Neil will proclaim the Republic from the roof of the Government House.

The Fenians will now be permitted to have a little bit of a scrimmage among themselves, by way of recreation, after their campaign. After which, Gen. O'Neil will hang the Governor-General, the Lieut.-Governors, the Members of the Executive Council, the Members of the General and Local Parliaments and a few others, and then proceed to reconstruct the British Empire. Two hundred thousand patriots will be despatched to take possession of India. Fifty thousand more will attend to the Australian colonies and Van Dieman's Land, and twenty five thousand will receive a roving commission to look after the British settlements scattered about the Southern oceans After these matters have been satisfactorily settled, the different corps will rendezvous at Calcutta, from whence they will march on England, one portion by the overland route, taking Abyssinia, Malta, and Gibraltar on the way, the other going round by the Cape of Good Hope and the Guinea coast. They will be met in the Cove of Cork by Gen. O'Neil, with another army from Quebec, and the combined force, now numbering half a million, will march across the Island to Dublin, where O'Neil will deliver an address to the Irish nation assembled for that purpose in College Green. The whole British navy, having been captured by this time, will be lying at anchor in Dublin Bay. Embarking on board of this, the Fenians will surround England and enter it at all points. Hundreds of thousands will swarm up the Mersey, the Thames, and the Clyde. They will pour down from the Orkney Isles and the German Ocean. They will advance from Land's End and the Isle of Wight—swiftly and surely stamping out the Saxon as they proceed. The Army of Liberation will then make a grand rally in London, and proclaim Gen. O'Neil Dictator. The Dictator will immediately upset the Throne, tear up the Constitution, skin the Royal Lion, and bury the Red Cross of St. George in the Bog of Allan; and the curtain will fall on the last act of the British Empire with Gen. O'Neil standing on the top of London Tower, singing the "Wearing of the Green."

ANOTHER AFRICAN EXPEDITION.—A new expedition has been organized in Dublin, by Capt. Faulkner, who was engaged in the Livingstone search expedition last year. Capt. Faulkner's object is to complete the exploration of Lake Nyassa from the point where Livingstone was last heard of. For the purposes of the expedition a small iron steamboat has been constructed, 50 feet long, 11 feet 6 inches across the beam, and 5 feet 6 inches deep. She will be taken out in seventy-five sections, Capt. Faulkner, with whom Capt. Norman is associated, was to start from Southampton on the 9th of June, for Natal, where a ship will be chartered to convey the expedition to the Zambesi, and thence it will follow the track of the late expedition.

Western journals are urging the necessity of planting forest trees as a remedy for the hurricanes that so often devastate the prairie regions.

Strange stories are floating about among European Court circles respecting the private habits of the Emperor of Russia. It is said he is drunk most of his time, and that his recent illness was not a stroke of apoplexy, as stated by the continental papers, but simply an attack of the delirium tremens.

A New York correspondent of the Louisville Democrat says that Madeline Smith, the woman who murdered her lover fourteen years ago in Scotland, resides on Lexington Avenue, is the wife of a wealthy merchant, has several children, goes to the opera and to the Fifth Avenue Presbyterian Church.

MAMMOTH RAILWAY BRIDGE.—The dimensions of the Hudson River suspension bridge are to be as follows:—Clear span, 1,600 feet; length of bridge between the towers, 1,650 feet; total length of bridge, including approaches, 2,499 feet; height, of bridge above high water, 155 feet. Lines of broad and narrow guage for railroads. Highways for general travel. Load that would break the bridge, 25,171 tons. The bridge would carry at one time thirty-two passenger cars. The bridge would carry safely 34,560 people and a train of sixty locomotives, if they could all be on it at once. Fifty-three locomotives and 18,000 people would fill it. There are to be twenty cables in four systems. The cables will contain 571,195,760 feet of steel wire. Total weight of iron and steel in the bridge 17,000 tons. Total amount of masonry, 58,000 cubic yards. Total suspended weight 9,651 tons. Height of towers above water, 250 feet. The bridge will leave the waterway of the river untouched.

A RIGHTEOUS SENTENCE.—Mr. Calicott, ex-Speaker of the State Legislature of New York, who was convicted of defrauding the United States Revenue of $48,000 on whiskey, has been sentenced to a fine of ten thousand dollars and to suffer two years' imprisonment in the Albany Penitentiary. It was expected that his high position and political influence would save him, but, fortunately for the ends of justice, these had no avail to prevent the infliction of that punishment his crimes deserved.

OLD AMERICAN EXPRESS LAKE LINE.—This line will again go into operation on the 22nd inst., under the management of the Canadian Navigation Company.

The Bay State has been thoroughly overhauled, and has been re-christened "Athenian." She will be under charge of her former popular commander, Capt. Morley.

The Cataract has been overhauled in a like manner, re-christened "Columbian," and is to be under the charge of her no less popular commander, Capt. Estes.

The "Columbian," and the "Athenian," will form a daily line between Lewiston and Ogdensburg, touching at Charlotte, Oswego, Kingston, Clayton, Alexandria Bay, Brockville and Prescott, connecting at Ogdensburg with the steamers "Champion" and "Banshee" for Montreal, and at the latter point with the steamers "Union" and "Magnet" for Quebec and the Saguenay.

The Ontario is hauled off the line for the present, is being thoroughly rebuilt, and will be put upon the line next year under the name of the "Abyssinian."

Cyrus W. Field has published an interesting letter, showing the present condition of the submarine telegraph system throughout the world. It is very clear of this letter that submarine cables are now entirely successful, not only from a scientific but from a pecuniary point of view, and that they must soon be immensley extended. Connexion by telegraph between India and Europe is the next great work which presses upon the attention of Europe is the next great work which presses upon the attention of European capitalists, and the importance which attaches to the recent movements of the Russians on the borders of the English possessions in Asia gives to this contemplated enterprize a peculiar prominence.

Privy Council—False Rumors.

Ottawa, June 12.

A full meeting of the Privy Council has been summoned for Wednesday next. All ministers now absent will return here by that date.

There is no truth in the statement that a camp is to be established at Sarnia and another in the Eastern townships.

Guards from the Grand Trunk Brigade, well armed, have been placed at each end of Victoria Bridge, Montreal.

The bloodstained planks taken from the spot where the late Mr. McGee fell have been burnt to ashes and sent to Montreal to be deposited in his grave.

It is expected that as a consequence of the number of pauper emigrants thrown into the country, destined for Western States, the Government will adopt the American system of compelling captains of vessels to enter into bonds for the sustenance of all paupers for certain period after their arrival here.

HALL'S

Vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a* HAIR DRESSING. *It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

It is recommended and used by the First Medical Authority.

The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.

Royal Italian Bitters OR Tonico Reale.

DEL DOTTORE F. P. VERRI,
Professor of Chemistry in the University of PADUA, ITALY.

THIS celebrated Preparation—for which a Certificate of Merit was awarded to the distinguished original preparer at the National Exposition at Torino, Italy, by whose favor Mr. GIANELLI obtained the Recipe and was also awarded a Diploma at the Provincial Exhibition of Canada held at Montreal in September, 1865—is, without exception, the most Genuine, Salubrious and Agreeable TONIC ever introduced to public notice either in Europe or America.

For seventeen years it has, in Italy, been a universal favourite among the elite of Society, being generally served in the Drawing Room immediately before Dinner, in preference to Vermouth.

The ingredients of its composition have been imparted to the leading Physicians of Montreal, and have received their unqualified approval on every account.

The Proprietor has no idea of parading or puffing it before the public, but merely asks a sound and unprejudiced trial.

Kept by the principal Wine Merchants Druggists and Grocers in Canada.

Prepared and sold wholesale by the Proprietor,

A. M. F. GIANELLI,
26 Hospital Street, Montreal.
