London, July 30.

The weekly statement of the Bank of England shows that the amount of bullion in vault has decreased £112,000 since last report.

Dublin, July 30.

Mr. G. F. Train appeared in public before the Court of Bankruptcy to-day. As his papers were not prepared in the proper form, the court refused to hear the case.

London, July 30.

Parana dispatches had been received in Rio Janeiro announcing that the fortress of Humaita, so long and obstinately defended by the Paraguayans, had fallen into the hands of the allies.

The following report has been received from a Paraguayan source:—The allies made a reconnaissance in force in the direction of the fortification on the Tebbecuary river. The detachment was met by the Paraguayan forces, and a severe engagement followed, which ended in the defeat and rout of the allies, with heavy loss in prisoners, horses, arms and ammunition of war. Accounts from the same quarter represent that Humaita was as strong and well manned as it ever had been, and there were no prospects of its abandonment. The above accounts, coming from behind the Paraguayan lines, are necessarily of an earlier date than the latest news received at Rio Janeiro.

Tonnage Dues—News from Japan—Prorogation of Parliament—Troubles in Spain.

Paris, July 31.

An imperial decree suspends for the space of three months the collection of tonnage dues from all vessels entering French ports with cargoes of cereals.

London, July 31.

News from Japan indicates that the civil war in that country is drawing to a close. A compromise has been effected between the Daimos of the north and south, which will probably lead to the speedy termination of hostilities between the Mikado and the Tycoon.

London, July 31.

The Session of Parliament was prorogued to-day; the Queen was not present, and her speech was made by Royal Commission, and read as usual by the Lord High Chancellor. It speaks of the foreign relations of Great Britain as most friendly and satisfactory, and says there is no reason to fear war in Europe. No reference is made to the United States. The Abyssinian exhibition has vindicated the honor of the Crown. The cessation of attempted rebellion in Ireland renders the further use of the exceptional powers granted by the two Houses needless. The Queen thanks the Commons for the supplies voted for the Government, and congratulates them upon the passage of the Irish and Scotch reform bills and the bill for the purchase of the telegraphs throughout the kingdom. The speech also announces that a dissolution of Parliament will soon take place, in order that the people may reap the advantages of the more extended system of representation recently provided, confident of their fitness for their fitness for their new duties, and that their voice will be for the perpetuation of that civil and religious freedom which is secured by the institutions of the nation and the settlement of the realm. In the House of Commons, previous to the prorogation, the Speaker said he had received through the United States legation, a letter from the Honorable William H. Seward, accompanying which was a splendid copy of the book entitled "a tribute of the nation to the memory of Abraham Lincoln, a present from the Congress of the United States to the House of Commons."

Lord Stanley moved that the thanks of the House be sent to Congress through Mr. Seward, and that the book be placed in the library of the House.

This motion was carried nem con.

The Times of to-day, in a leading editorial, says of the session of Parliament, that time only will show if the leaders shall retain their status in the change from the old to the new body. Mr. Bright will find the new House of Commons a more congenial audience than in the days of Palmerston and Gladstone, whose popularity may yet reach on to a House elected by one consistency, and doomed to satisfy the requirements of another. The House may be satisfied, in spite of all shortcomings, with such work as the abolition of church rates, the punishment of electoral corruption and the condemnation of political and church abuses.

The pending political troubles in Spain have reached in a ministerial crisis. It is understood that the distinguished liberal statesman, Don Salluste Espertero, Duke de la Victoria, has been summoned to form a new cabinet, and has gone to Madrid for that purpose. Discontent continues to prevail Spain and threatens to break out into a med insurrection at any moment. Disaffection is also apparent among the officers of the fleet.

St. Petersburg, July 31.

Under the preliminary arrangement for peace made with Bokhara, the Russian troops are to leave the country at once, the Khan paying to the Russian government half a million silver roubles as indemnity for the expenses of the water.

LATEST.

Paris, July 31.

The Senate was to-day prorogued by the Emperor. The Patrie has an editorial to-day strongly urging the joint interest of France, Great Britain, and the United States for the restoration of peace between Paraguay and allied South American Powers.

Dublin, July 31.

All the prisoners who were arrested under the suspension of the writ of Habeas Corpus in Ireland, and detained without trial, have been discharged from custody.

ANTI-UNION DEMONSTRATION.—A Halifax telegram says:—There was a very strong public meeting at Yarmouth on Saturday, at which the following resolution was passed unanimously: "That we have heard with scorn and indignation the refusal of the Imperial Parliament to redress the wrongs of Nova Scotia, and firm in the justice of our cause, pledge ourselves to use all legitimate and determined efforts for the deliverance of our beloved country from her present humiliating condition." The people threaten to take high-handed measures.

English Telegraphing.

The main object had in view by the British Parliament, in the race to passage of the bill authorizing the Imperial Government to purchase all the telegraph lines in Great Britain, appear to have been to secure greatest promptness, regularity and cheapness in the transmission of despatches. One peculiar feature of the bill is, that newspaper proprietors will have to procure their own news from the Government authorities.

The chief Provincial papers of Great Britain are already taking steps to form a Press Association similar to that which has been organized in the United States. By this new arrangement all be news will be daily telegraphed from the chief towns of the Kingdom to a central office in London, whence it will be re-transmitted—after being "edited"—to the various papers. The affairs of the Association will be managed by a board of directors and a general manager, at the head offices in London. The new plan will undoubtedly be a boon to newspapers, as the Press will get their messages carried at the rate of 100 words for 20 cents.

Earthquake on Tuesday last.

A Glengarry correspondent sends the following:—A severe shock of an earthquake was felt at Alexandria, Glengarry, on Tuesday at 2:45. It shook the houses very much, and in some cases the plaster was torn from the walls. On the impulse of the very moment every one rushed to the streets in consequence of the violent shaking of the houses. It was also felt, for miles from Alexandria, and seemed to move from the northwest to the southeast. It was the most violent shock felt for many years.

The earthquake was also felt at Lancaster, Kenyon, Vankleek Hill, Quigley's Corners, and supposed generally throughout that part of the country. Cornwall was also visited, and as severely as to cause the Branch Office glass, and a number of gentlemen who happened to be with him in the church at the time, to run in great alarm into the street, through fear the whole edifice would be thrown to the ground. It was also felt at St. Andrews.—Montreal News.

FROM HALIFAX

ARRIVAL OF THE 100TH REGIMENT IN THE CAMP—NOVA SCOTIA MILITIA.

Halifax, July 29.

Lieut.-Governor Doyle arrived here in the City of New York, and was received with all the honors. Mr. Sandfield Fleming also came by the same steamer.

The organs of the Local Government unfortunately misrepresent Confederation, and declares that the leading men who might be willing to work the Confederation are almost weak and wicked.

The Halifax Reporter congratulates the country on the fact that while than the number required of militia men have volunteered in accordance with the request from Ottawa.

Violent and abusive articles appeared to-day and yesterday in the Anti papers, disgusting alike to both parties.

The houses of parliament meet on the Sixth proximo.

A Dreadful Accident.

Thousandsville, July 30.

Two young men named respectively David McIntosh and Henry Boulles, while sitting on the top of one of the cars on an excursion train returning from Detroit last night, received fatal injuries by their heads coming in contact with cross beams of the railroad bridge at this place, from the effects of which they both died shortly afterwards. Their bodies were forwarded to London this morning, where their parents reside.

FORGER ARRESTED.—On Thursday last Mr. Wm. L. Gardiner, a Sheriff's official of New York, arrived in Toronto from the east on the trace of a forger, named Henry Benard, who had forged the signature to a bill of exchange, for a large amount, on a broker of New York. Mr. Gardiner with the detectives had little anticipation, however, of meeting "their man" in Toronto, as Mr. Gardiner had been in every locality on the Grand Trunk between here and Montreal, and without success. They were therefore very agreeably astonished in meeting the forger face to face in the Royal Canadian Bank where he was waiting probably with a view of effecting the sale of some spurious paper. He was taken and searched, when a large number of unsigned notes of the Canadian Bank of Commerce, and a draft upon a merchantile house in the metropolis of France were found on his person. He had presented to the clerk at the Queen's hotel a draft for $150 on Jay Cook & Co., of New York. It is assumed that it will prove a counterfeit as the prisoner it appears was up before the Montreal authorities some years ago on similar charges, but managed to escape unpunished. He left New York about the 21st instant, and the specific forgery on the charge of which the arrest was made is said to have been executed about the first of the month.

PHOTOGRAPH BEFORE USING AFTER USING

HALL'S

Vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VEGETABLE KINGDOM. It restores GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is universally used as a HAIR DRESSING. It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.

It is recommended and used by the First Medical Authority.

The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names, and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original; it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.

SARSAPARILLIAN.

Pareira Brava.

Newly Discovered Virtues—Hidden for 300 Years—The Discovery of the True Virtues of the Roots Brought to Light and Made Manifest in

Dr. Radway's Sarsaparillian Resolvent,

By a new process recently discovered by Dr. Radway, for obtaining the active properties from vegetable substance.

SARSAPARILLIAN,
PAREIRA BRAVA,

Associated with other newly discovered roots, enters into the composition of RADWAY'S RENOVATING RESOLVENT; secures a remedial agent, that cures all forms of Chronic, Scrofulous, Skin Glandular, Kidney, Bladder and Uterine Diseases, by communicating Recuritive, reparative and Tonical efficacy, through the BLOOD, SWEAT AND URINE.

The ordinary Sarsaparilla decoctions, and Syrups are mere washes, compared with the Sarsaparillian of the Resolvent. It is a well known fact that Sarsaparilla as ordinarily prepared either as officinally or as a proprietary remedy, never possessed the confidence of medical men, and all the reputation it enjoyed was deemed by well informed Chemists, Physicians, and medical writers to be due to other remedial agents associated with it.

The true curative virtues of Sarsaparilla for 300 years has laid hidden in the Crystaline principle of the Root, under Dr. Radway's New Process, Sarsaparillian is secured and brought to light, and associated with other ingredients, it fulfils the most extravagant expectations and views of men. One ounce of Dr. Radway's Sarsaparillian contains more of the curative principle than ten pounds of the extracts from the crude roots, as prepared officinally or in the popular advertised Sarsaparillas.

PAREIRA BRAVA—Another of the ingredients of the Radway's Resolvent, held in high estimation by the most eminent medical men of Europe, South America and United States, as the best remedial agent for the diseases of the Kidneys, Bladder, Uterus, and as a lithontriptic for dissolving Calculi, as a curative for Jaundice, Rheumatism, Leucorrhœa, etc.; since 1688 has never been properly prepared.—Under Dr. Radway's process, the Cissampaline principle of this valuable Root is secured, and associated with Sarsaparillian and other ingredients in the Resolvent, makes it a perfect cure in every form of disease of the Kidneys, Bladder, and Urinary Organs—Dropsy, Gravel, Incontinence, or Stoppage of water, Diabetes, or Urinary Diarrhœa, and every kind of weakening, irritating, or purulent discharges, not proper to mention in an advertisement, is rapidly cured by this remedy.

BUCHU, Turpentine Junipers, Gin, Copaiba, Cubebs, and other direct Diuretics are in many cases hurtful. In Diabeates, Urinary Diarrhœas, Catarrh of the Bladder, Dropsy, and in weakness or ulceration of the Kidneys, are unsafe to use as a continued remedy, and should never be given unless under the supervision of a Physician, as the strain these direct remedies may produce on the Kidneys, may in the course of a few hours, require Opiates, to change or modify their action; this fact is self-evident to any medical man, a compensating Remedy like the SARSAPARILLIAN RESOLVENT, is the true remedy to use in these cases.—Even as a diuretic,

Pareira Brava,

as prepared by Dr. Radway, and one of the ingredients of the Resolvent, is as superior to all forms of Buchu, etc., as rich cream is to watered milk.

Let all suffering from unnatural drains from the system—caused either by self-abuse, depraved habit of body—bad blood, impure association, weakness of the genital organs, or Skin Diseases, Scrofula, uncured Secondary Disease, Syphilold Ulcers, Chronic Disease—or from Consumption of the Lungs, as well as degeneration of the Kidneys—or Chronic Disease of the Liver, Spleen, etc., commence at once the use of the SARSAPARILLIAN RESOLVENT. It commences its work of purification at once; it repairs the waste of the body, with new and healthy material. It restores functional harmony to every organ in the system, and secures the natural secretions of the proper constituents of each. Persons have been cured, and have children now living that were deemed incapacited, by self-abuse, etc., through the use of the remedy. Ask for Dr. Radway's SARSAPARILLIAN, or RENOVATING RESOLVENT.

Price: $1 per bottle, or 6 bottles for $5.

The Poor Old Man

KNEW NOTHING ABOUT THEM

AND THEREFORE

Cannot be Blamed.

IF KING THEODORE, of Abyssinia, provided about one hundred of these SUGAR CURED HAMS at

MORRISON'S,

having them nicely boiled, with all necessary fixings, placing them at the gate of his fortress on dishes, with knife and fork all ready, of course the British troops, on seeing them, would pitch in, and most likely forgive old Theodore all his past misdeeds.

30 Barrels Very Superior Oatmeal received at

MORRISON'S.

400 Sacks Kiln-Dried Corn Meal received at

MORRISON'S.

5 Barrels Cracked Wheat, fresh, received at

MORRISON'S.

10 Bags Wheat Meal, fresh, received at

MORRISON'S.

Everything in his line, of superior quality, at MORRISON'S.
