The County Election.

Good old Frontenac has proved true to itself and to the glorious cause. The Grits have been routed horse, foot and artillery. Last week we had some doubt as to the result of this Election, fearing that the personal unpopularity of the Conservative Candidate might operate against the cause, but we had no real cause for alarm. The Conservatives stood true to their colors; they voted for the Party, if not for the man. They came out in their strength, and their foes were no where. This drubbing will teach the Grits not to contest the County again, but to lie by and give their votes to the one man they like best of two Conservative Candidates, as they have done before; and in doing so they will be wise, for good old Frontenac is beyond their reach. The following is the state of the Polls at the Final Close yesterday afternoon:—

CLOSE OF THE POLL.

	Calvin.	Britton.
Township of Wolfe Island	237	32
Village of Garden Island	68	—
Township of Pittsburg, No. 1	159	80
Do. do. No. 2	79	92
Township of Kingston, No. 1	90	91
Do. do. No. 2	157	117
Village of Portsmouth	74	16
Storrington (first day)	86	86
	950	514
	514	

Majority for Calvin....436

The result of the Election should satisfy the Grits of Frontenac, that as political partisans they are no where. If the Conservatives, with an American born subject, and a gentleman personally unpopular, could beat the best man of their party so thoroughly as they have done, the Grits must be very insignificant—very small potatoes indeed.

The Laying of the Stone.

Yesterday, at High Noon, the Grand Lodge of Canada, F. & A. Masons, assembled at St. George's Hall, to organize and proceed to the Laying of the Corner Stone of the new Masonic Hall, in the Market Square, in progress of erection by Brother Town. There were between One Hundred and Fifty and Two Hundred Masons present, many coming from a distance. Grand Lodge was opened in Ample Form by M. W. P. Grand Master Brother Simpson, assisted by R. W. Brother Richard Bull, from Hamilton, acting as Deputy Grand Master. The Officers of the Kingston Lodges filled the several offices of Grand Lodge, Brother Blondheim filling his own post of Grand Poursuivant. After organization Grand Lodge went in Procession, preceded by the Band of the 14th Volunteers, to the Market Square, where a Platform had been erected for the Brethren and the Ladies of their families. The Corner Stone was then laid with all due formalities, none being omitted, and when the Stone had been pronounced laid, the Grand Honors were given, the Band played 'God Save the Queen,' Cheers were given for the Queen and the Craft, and Rt. W. Brother Bull delivered the usual Address. It was a very pretty Ceremony, and attracted hundreds of observers and admirers.

The Ceremony being over, Grand Lodge went in Procession to the British American Hotel, where the Junior Warden called off from Labor to Refreshment, and the Brethren sat down (as many of them as could sit) to a Cold Collation, at which the Champagne flew about briskly and merrily, and all enjoyed themselves for about an hour. The usual Toasts were given from the Chair, and drunk with the Honors. Past Grand Master Simpson's health was then given, and responded to in a most enthusiastic and uproarous way, shewing his great popularity, to which a most gracious reply was given. Brother Town's health was then drunk, and responded to by Brother Bull, shortly after which the G. J. W. gave the final Toast, and Grand Lodge was called from Refreshment to Labor. A Procession was formed, and Grand Lodge returned to St. George's Hall, where it was closed with characteristic solemnity, and all Masons departed to their homes, well pleased with the labors of the day.

The inscription on the Trowel, presented by Bro. Town, was:—

"Presented to Most Worshipful Brother W. B. Simpson, Past Grand Master of the Grand Lodge of Canada, on the occasion of his laying the corner stone of the building known as the Masonic Hall, King Street, by Brother Richard Town.—Kingston, Ontario, Oct. 20th, 5868."

Last night, at an Emergency of St. John's Lodge, Rt. Wor. Brother Bull delivered an Address to the Assembled Brethren, who were all greatly pleased.

A few days ago, Judge Pierrepont, of New York, contributed $20,000 in aid of the election of Grant. It is now said that H. T. Hembold, of patent medicine fame, has sent his cheque for $40,000, to aid in the election of Seymour. The next "Grant" man is to double the sum.

A considerable number of Canadian railway contractors have arrived at Halifax. It is understood that they passed over the proposed line of the Intercolonial Railway, preparatory to tendering for contracts. A report, not the most reliable, says that the work on the road will not be opened until a late period in the ensuing spring.

THE GRAMMAR SCHOOL.—Last week we noticed the fact of nine out of eleven scholarships being taken at Queen's College by the ex-pupils of this School. Yesterday the Government Inspector paid his semi-annual visit, and out of eighty-nine pupils on the roll only two were found incapable of passing his rather difficult examination. At the close of his visit he expressed himself highly pleased with the appearance made by the various classes. We are glad to notice this fact, and hope that the success of the School in the past will stimulate to fresh exertions for the future.

Prospect of Another War in New Zealand.

Attacks upon some of the unprotected farmers in the northern part of New Zealand have for some time past excited apprehensions of another war. Since then the boldness of the Maoris has increased, and the outrage last announced seems to be generally accepted as the commencement of a fresh outbreak. A police force of some twenty-five men, and an officer, occupied a constabulary post on the west coast of the north island. It being a time of peace they relaxed their vigilance, the Maoris seized the opportunity of a night attack, and nearly all the police were murdered. A private letter says that since this outrage the Maoris have assumed an attitude of decided hostility. They have declared their intention of rising to a man to drive the whites into the sea, and cannibalism, which was thought to be altogether abolished in New Zealand, is again practised. Life and property are considered unsafe in the northern island, and many settlers are giving up their plots. A body of Maori convicts, 180 in number, which had been sent to the Chatham Islands under an insufficient guard, rose, murdered every soul in the island, it is feared, and then made their escape to the north of New Zealand. The writer of this letter adds that the Maoris entertain the utmost contempt for the Government because it has not subdued them. Certainly these savages, though few, are the most redoubtable enemies of the kind that Englishmen has ever encountered, and it is clear that the Government have always held but a very small force to repel them. One English regiment and a body of 500 armed police can neither cover the country nor meet the Maoris in decisive force. The escape of the convicts from the Chatham Islands shews the intrepidity of the natives. These convicts not only rose against the governor and his guard and succeeded in making their escape, but boarded a whaler, and forced the captain to land them. They took with them all the arms and ammunition they could find in the island. The convicts included men, women, and children. New Zealand is four hundred miles from the Chatham Islands, and the voyage in the whaler occupied five days. These facts prove that the lives and property of the colonists can be placed out of danger on by vigorous means. As the Times suggests, the colonists ought to arm in their defence. They have not done so hitherto, and further, have refused to maintain troops for their own protection.

The British Army.

REDUCTION IN THE FORCES.

The London Times of the 1st instant states:—It is confidently reported in military circles at Chatham that the authorities at the War Office, in conjunction with those of the Horse Guards, have determined on making a considerable reduction in the army at the commencement of the ensuing year. Among the reductions which it is stated will be first carried out is the abolition of most of the depot battalions, the great expense of keeping up a number of depot battalions, with a large staff of officers to each, not being anything like commensurate, in a military point of view, with the advantages gained from the system. Rumor also points to a considerable reduction in the number of troops serving in the North American and Australian possessions, with the view to the whole of the British troops being withdrawn from those colonies at no distant date, in compliance with the growing feeling in this country of throwing the burden of the military defence of those rapidly increasing colonies on the colonists themselves. Should the proposal to garrison Malta entirely by Royal Marines, which appears to be looked upon with favor by the authorities, be carried out, some few regiments will also be released from military duty on that island, and their services rendered available elsewhere.

A NEW RELIGIOUS SECT EXTINGUISHED BY RUSSIAN INTOLERANCE.—A religious sect of a peculiar kind sprung up in Russia some time ago, and has suddenly come to nought. The movement broke out among the peasantry of the canton of Mostovin—the adherents denying the efficacy of prayer, and in consequence a number of them ceased to frequent the parish church, and broke to pieces the holy images which adorn every isba, however humble. The authorities had the chief promoters at the movement arrested and clapped into prison, whereupon the rest came and begged to be imprisoned too. Their desire was promptly granted, and in October last more than 170 of these dissenters were locked up in the prison of Serapul. A course of confinement, however, has had its effect, and now all the offenders have recanted, and re-entering the orthodox church have been set at liberty.

Two were surprised last week, beechnutting, by Angus Aird, jun., who succeeded in bringing one of them down, but both escaped. Mr. Cameron, of the 8th concession, killed two the following morning,—they were playing the same vocation.

REV. MR. PUNSHON.—We see that Mr. Punshon, whom we had the pleasure of listening to some time since, is proposing to found a college in Canada, probably in the interests of his denomination. He will soon address the Bostonians in behalf of his project, though we do not see why he should be compelled to go outside of Canada to raise the requisite sum. That eloquence which has electrified England will surely not fail in our Dominion.

MISS RYE AND HER SERVANT GIRLS.—Maria S. Rye proposes to leave England this month for Canada, with another company of one hundred women. She writes to one of the London papers:—"The good opinions my girls won from both passengers and officers in the ship which carried us out is the best proof I can offer that they were, on the whole, above the average of English working women; and I have the pleasure of knowing that nearly every girl who went out with me in May to Canada is doing well. Over four hundred letters lie before me, the majority of them, as a glance at the calligraphy would tell, from little Marchionesses, who not unnaturally think there is something better before them in Canada than a drudging place at 1s. 6d. or 2s. a week in England."

☞ The cries of those buried alive by the earthquake in the ruins of Ibarra, Peru, smote for five or six days upon the ears of the survivors, too indolent, pathetic and eager for plunder to take the trouble of unearthing them. Thousands perished by this horrible death, shrieking for help that would not come.

O'FARRELL AGAIN.—This 'fuss and feathers' lawyer made a great ado about the attempt to throw off the train near Montreal, said it wasn't the act of a Fenian, but he knew who did it, and his name would be forthcoming in due time. He stated so positively that he knew the criminal, that he was summoned to give evidence in the case. A despatch on Saturday says: "O'Farrell refuses to appear before Justice Coursol for examination relative to the Blue Bonnets affair, disputing his power to compel him to disclose as a witness information he may have gained in a professional way." Why did he say anything about it, then, if the information was given to him in a professional way? A profession that would sustain a man in such dishonorable practices cannot have much respect for himself.—Intelligencer.

Capture of Murderers.

Windsor, Oct. 19.

Two of the alleged murderers of Capt. Miner were arrested in Detroit on Saturday, and were at once delivered up to the Canadian authorities and are now in Sandwich jail. Their names are Charles Medley and Burt Curtley, both colored. The other murderer, George Brown, was tracked to his father's house, but escaped. His father is in custody for aiding him to escape.

RECIPROCITY.

Interesting Report.

Washington, Oct. 18.

So many contradictory statements have appeared regarding the position of the question of trade with the provinces of British North America, and settlement of the fisheries dispute and the free navigation of the river St. Lawrence, that it was considered proper to obtain correct information upon the subject. The matter stands thus:—

Mr. Thornton, the British Minister, addressed a note to Mr. Seward in July last, calling his attention to the distressed condition of Nova Scotia, in consequence of their exclusion from our markets, consequent upon the termination of the reciprocity treaty, and asking him to enter into negotiations.

Mr. Seward referred Mr. Thornton's communication to Mr. McCulloch, Secretary of the Treasury.

Mr. McCulloch replied that the treaty having been abrogated by the legislative branch of the Government, he considered it would not be advisable to resume negotiations until Congress should give some intimation of its desire that they should be reopened, and at the same time expressing his opinion that it was for the interest of the United States that the question of trade with the British provinces should be adjusted in some definite manner.

This correspondence was sent by Mr. Seward to the Committee of Ways and Means just before the July adjournment. In reply to an inquiry by Mr. Bois, of the Committee of Ways and Means,

Mr. Seward informed them that he was ready to open negotiations for a new reciprocity treaty whenever the Committee should refer the subject to him. Messrs. Harper, Allison, Mayward, Brooks and Nibjack, of the Committee, agreed to make each a report, and Gen. Schenck was willing it should be done.

The adjournment, however, took place so early that there was no opportunity of putting the report before the house, and hence the matter goes over until the reassembling of Congress, with the knowledge that the Committee on Ways and Means are nearly unanimous upon the subject, and that Mr. Seward will open negotiations as soon as the Committee are enabled to report. It is possible, therefore, that the subject will be dealt with during the next session of Congress, which probably will not commence till December.

In the Senate the question has also been referred to the committee on Foreign relations, and it is known that the Chairman, Mr. Sumner, is strongly in favor of negotiations. Mr. Sumner has frequently stated that he reported in favor of terminating the old reciprocity treaty, not because he desired a cessation of trade with the British provinces, and a opening of the fisheries difficulties, but because he did not consider the treaty as sufficiently comprehensive, and that a new treaty of a comprehensive character, which should include manufactures, should be made in the interest of this country, and not as the former treaty with a political object rather than as a commercial necessity.

Prince Edward Island.

Halifax, Oct. 16.

The Hon. Mr. Hensley, who has been on a mission from Prince Edward Island to the United States, has returned. One object of mission was to secure a new submarine cable to connect with the mainland. This failed for the present, on account of the subsidy asked by the Telegraph Company being larger than he could agree to without consulting his Government. Mr. Hensley states that while in Washington Mr. Thornton assured him that the reported negotiations with Mr. Seward on the subject of reciprocity had not taken place, nor was there any probability of that question being opened for the present.

GREAT WESTERN RAILWAY OF CANADA.—From the accounts of the half-year ended July 31st last, the board have decided upon recommending a dividend at the rate of two per cent. per annum, free from the income tax, reserving £1,000 for the renewal of ferry steamers and carrying forward to the current half-year the sum of £1,129 5s. This rate is just half that paid, for the corresponding period last year.

MASONIC.—A new Lodge, called "The Lancaster," was opened (V.D.) on Wednesday last in village of that name, Glengarry. The meeting was well attended by prominent members of the craft from Fort Covington, and from different parts of the Dominion. An impressive address was eloquently delivered by the Grand Master, A. A. Stevenson, Esq., who was ably supported by the W. M., J. S. Clarke, of the G. T. R., who was peculiarly happy in his remarks. His delineations of the "True Mason" was graphic, and evidently had its effect on his hearers, whose countenances showed unmistakeably their appreciation of the precepts put forth. The whole of the proceedings were highly interesting. Full justice was done to a substantial repast, provided by Bro. Nicholson. "Train time" brought the business to a close about 11 p.m.—all present feeling regret that "time flies fast," and parted with that warmth of friendship which distinguishes the F. & A. M.

TROUBLE AT THE LAKE OF TWO MOUNTAINS.—Some days ago the police magistrate, Mr. Coursol, and a number of the water police left Montreal for the Lake of Two Mountains, on account of serious disturbances by the Indians there. The Seigniory of the Indian village belongs to the Seminary, which claims therefrom certain dues. These dues, it would appear, the Indians are not willing to pay, and last summer a deputation of chiefs went from the village to Ottawa to petition against their enforcement. The prayer of the Indians, so far, appears to have been without effect, as ejectments have been attempted to be made against some of them. To add to the already bitter feeling, store pay, instead of cash, has been offered the Indians for certain work done by them for the Seminary; and lately when a priest accompanied an ejecting party, in the indignation of the moment, an enraged Indian made an attempt to stab him. Things, after this, grew worse. The Indians used threats, and police were sent for to Montreal. The Indian in question, and several others, leaders in the emeute, made their escape into the woods, and have not been apprehended. About half a dozen of the police remain at the Lake and a spirit of sullenness, if not in subordination, seems to have settled on the male population of the village.—Witness.

Gen. Blair.

CHARACTERISTIC SPEECH.

St. Louis, Oct. 17.

General Frank Blair last evening addressed 3,000 people from his residence. He thanked them for the ovation. He came before them not dismayed or discouraged. Alluding to the recent radical victories he regarded them as precursors of the defeat of that party. The democrats would win. They had everything at stake in the struggle, and if they failed the republic would fall with them. Military dictatorship would be established. Grant would never leave the presidential mansion alive. He (Blair) never expected to continue to be the candidate for vice-president, and was ready to make any sacrifice if the people demanded it.

We learn that a new work of Mr. James McCarroll, of this city, is now in press, and will be issued within a few weeks by the house of Sage & Sons. It is entitled, 'Ridgeway—a Romance of the Fenian Invasion of Canada.' A very large edition is preparing. As Mr. McCarroll's pen is equally practised in romance and politics, we may expect in this work, which contains a mingling of both elements, a rich literary treat.—Buffalo Courier.

WEALTH OF THE SPANISH CHURCH.—Some very instructive statistics, are contained in the Guia del Estado Ecclesiastico de Espano. Spain at this moment possesses no less than 800 convents, with 15,000 nuns. There are 55 bishops, 2,500 canons and abbots, 1,800 "regular priests," 24,000 vicars, &c. The budget for the Church is twice as high in Spain, which contains 16,000,000 of souls, as in France, with 37,000,000 of Roman Catholics. The Church will probably engage the serious attention of the Government, which, to all appearance, is to succeed Queen Isabella and her Ministers.

INDISPENSABLE.—There are some simple remedies indispensible in every family. Among these, the experience of years assures us, should be recorded Perry Davis' Pain Killer. For both internal and external application we have found it of great value; especially can we recommend it for colds, rheumatism, or fresh wounds and bruises.—Christian Era.
