NEW BRUNSWICK.

The Financial Panic—Two more Banks in Danger.

St. Johns, N. B., Nov. 20.

The financial panic continues unabated. The notes of the Yarmouth Bank, Nova Scotia, and of the P. E. Island Bank have both been refused to-day. The St. Stephen Bank notes are selling at 35 per cent. discount, and the Commercial at 30 discount. The chances of either bank resuming payement are considered remote. The St. Stephen Bank has swept off all available assets.

The York County election for the local legislature resulted in the return of Mr. W. B. Needham, mayor of Fredericksion, by a large majority.

FROM QUEBEC.

A Shooting Affray—Desperate Assault—Destitution.

Quebec, Nov. 20.

A shooting affair, expected to result fatally, is reported as having occurred at St. Sylvester, twenty-four miles from Quebec. One Donaghue, a bailiff there, purchased from another party an overdue promissory note of one Sanlie, against whom Donaghue had a grudge. Failing to obtain payment, Donaghue sued and obtained judgment against Sanlie, and was proceeding to seize his chattels, when, the door being bolted, he burst it in. Sanlie then fired upon him, inflicting a dangerous if not mortal wound. Sanlie has fled across the border.

Gilchrist, tried for shooting Boullard and Lemieuxelle last spring, but acquitted, again comes on the stage as prominently implicated in an unprovoked assault on two persons Magham and Chamberlain. Gilchrist is thought to have left the country. Chamberlain will loose the sight of an eye. Magham remains in a critical condition.

A number of destitute persons are daily seeking to be committed to prison to escape from poverty, if not starvation, to which they would be exposed during a severe winter.

An old man, named Thomas Slowery, lost in the woods near Cranbourne county, Dorchester, was found frozen.

The Commercial Trouble in New Brunswick.

In reference to the position of the suspended St. Stephen's Bank, we produce the following statement of its affairs for October:—

There was paid up capital, $200,000; notes in circulation, $249,348; non-interest deposits, $31,602; and interest deposits, $24,477, or a total liability of $305,727. Against this the bond held Specie and Provincial notes to the amount of $39,866; bills of other banks, $45,577; balances, $61,973; discounted paper, $344,353; other debts, $96,965; and real estate, $4,394, or in all assets representing a total of $592,710, nearly double the amount of its liabilities.

For the first day or two, the notes of the other suspended Bank, the commercial, were sold at considerable discount—in some cases as low as 60 per cent.—but the price soon advanced to about 80; and in a few days some shopkeepers began to take them at par for goods. It is proposed that some of the stockholders shall advance a considerable amount to enable the Bank to resume. The Post-office Department had something invested in the suspended Bank—$2,774 deposited to the credit of the Money-Order Bench, and nearly $5,000 of the paper of the Bank on hand. These amounts are, of course locked up for a time; though if the Bank pay its debts in full the Dominion will get the money in the end.

KINGSTON BREWERY AND DISTILLERY COMPANY.—From a prospectus which has been issued we find that it is the intention of a company now being established to carry on the business of malting, distilling, and rectifying, formerly conducted by the late James Morton, Esq. The Morton brewery is an extensive establishment, the property covering four acres and three quarters of land, and the distillery has a capacity for converting into spirits five hundred bushels of grain a day. The plant and good will of the business is proposed to be purchased, and a capital raised of seventy-five thousand dollars. This will be subscribed on the limited liability principle in shares of twenty dollars each. The proprietors retain one thousand shares, and offer the balance of two thousand seven hundred and fifty shares at par—fifty per cent payable on subscribing, and the balance in three instalments at three, six and nine months. Mr. Samuel Mucklestone is provisional treasurer, and Mr. James Shannon, provisional secretary. At present the distillery is idle, but we presume the formation of the company would soon set things in brisk operation.—News.

The War in New Zealand.

The state of affairs in Zealand is naturally a source of much anxiety to the Imperial Government. There is, comparatively speaking, little difficulty in subduing the Maoris, but the most troublesome work is governing them afterwards. The last outbreak began with the mutiny and escape of a body of Maori convicts, stationed on the Chatham Islands, to the eastward of New Zealand. They made their way to the nearest shore of their native islands, and organized with some of the tribes a band of outlaws who have hitherto defeated all attempts to subdue them. They will be put down, course, in time; but the task may be a long and bloody one, and after it is done the people are asking themselves, what then? New Zealand now contains nearly 200,000 British settlers, and only 40,000 or or 50,000 natives.

INDIAN TROUBLES.—The continued troubles in the territory of the United States, and the constant murdering that is going on, are beyond doubt, due to the infamous treatment received by the Indians from United States officials. The Washington correspondent of the New York Tribune, puts the case well, when he says: "This state of affairs has resulted from the failure of our Government to carry out its treaty agreement, and from the consequent necessity which compels the Indians to go upon the war-path as their only means of self-preservation and safety. Col. Tappan also reports that he has recently returned from the seat of the Canadian Government at Ottawa, where he examined their mode of administering Indian affairs at its results, and that his investigation confirms his convictions, derived from a long residence in the Indian country, and from official intercourse with the Indians, that they are as easily managed, governed, and civilized as any other people, provided justice is done and the protection of law is secured to them, as it is in Canada. Our trouble has resulted from the fact that our policy makes the Indian an outlaw and vagabond, a victim of political speculators, and of combinations whose purpose is to rob the National Treasury and destroy the Indians, acquire lands, and attain wealth and power.

A very beautiful processional brass cross, literally covered with gems" says the Court Journal, "is being manufactured for use in St. Barnabas Church, Pimlico. THE NAVIGATION.—The late heavy snow storm, although unaccompanied by anything like severe cold, has completely shut up the Lachine Canal, and compelled a stoppage of work in all the factories. A regular block has occurred near the St. Gabriel Lock, through the channel being choked up with such a mass of snow as to permit of persons crossing. Two of the Canal steam tugs were despatched yesterday (Friday) to break through the obstruction, but with what success we have not heard. The water is so low in the Canal that freight steamers are aground in all directions. The consequences will be very serious to mill-owners and forwarders should continued cold set in.—Montreal News.

PERRY DAVIS' PAIN KILLER, as an internal remedy, has no equal. In cases of Cholera, Summer Complaint, Dyspepsia, Dysentery, Asthma, it cures in one night, by taking internally, and bathing with it freely. It is the best liniment in America. Its action is like magic when externally applied to bad sores, scalds and sprains. For the sick headache and toothache don't fail to try it. In short it is a Pain Killer.

☞ Some of the American journals are urging that, now Grant is elected the President's salary should be $100,000 per annum, instead of $25,000. As at present Grant himself is said to be the chief objector to the increase. Such virtue will be strangely out of place in Washington.

FROM OTTAWA.

Prisoners Liberated—Whelan—Militia Orders—Civil Service Commission.

Ottawa, Nov. 19.

The Privy Council sat to-day but no news has transpired.

Rideau Hall is being prepared for the reception of Sir John Young.

The steamers on the Ottawa river have been laid up for the season.

The prisoners in gaol here, under the Habeas Corpus Suspension Act, are to be liberated on bail at once. Buckley, Doyle and Kinsella, who were indicted for the murder of the Hon. Mr. McGee will not be liberated.

By general order in the Official Gazette, officers commanding corps of volunteers in Ontario and Quebec, will, as soon as they have complied with the law relating to re-enrolment of their corps, send to the staff officer of their respective districts, the duplicate of the service rolls of the corps as re-organized, which is required for transmission to the Adjutant General.

It is said that the Civil Service Commission have reported to the Government, and that they have recommended the offices of the Receiver General and Secretary of State to be abolished.

THE PRISONER WHALEN.

HE IS REMOVED BY SPECIAL TRAIN TO TORONTO.

The Ottawa Citizen of Saturday says that on the previous night between ten and eleven, Whalen, the convicted murderer of the great and gifted McGee, was removed from his condemned cell to the railway station, en route for Toronto, in compliance with the writ of habeas corpus issued by the Court on Thursday. The intention of the authorities to remove the convict, by special train, to Toronto, was kept carefully concealed; Whelan left the gaol at eleven o'clock, in a sleigh. The hour was well chosen to avoid observation, as at that time the streets are quiet and comparatively deserted. The train was in readiness, with steam up and engine attached, to receive the prisoner, who was heavily ironed and handcuffed, and in the immediate custody of Sergeant Davis and Constable McVitty, who are especially noted for their trustworthiness. Whalen, as usual, appeared to make light of his awful position, indulging freely in his customary reckless and profane remarks. He was accompanied in the train by Sheriff Powell, James O'Reilly, Esq., Q.C., and others. The cars started for Prescott, where they would connect with a train for Toronto. The time for hearing the arguments of counsel, pro and con, in this celebrated case, as to the granting of a new trial, will not be fixed until after the arrival of Whelan in Toronto; but it is generally expected that Wednesday next will be the day agreed upon. It is a satisfaction to know that this wretched man, whose crime has sent a thrill of horror throughout the civilized world, has received, and is receiving, every advantage that the beneficent laws of our country allow to defend himself.

[Whalen passed up on Saturday morning.

WAIT A WHILE.—It is said that the British Government has been driven to a settlement of the Alabama claims by those of its own subjects who have contrary claims against the United States for damages done their property during war. The claims from Louisiana alone are reported large enough to balance the Alabama claims. If this be so, our good cousins will for once find themselves out of pocket in a barter.

Marine Items.

The grain fleet, so long expected, filled the harbor on Saturday, and the elevators have several days work before them. In addition to the arrivals reported elsewhere, is the following: Schr. Mary Taylor, Port Stanley, 6270 bush wheat, J. H. Henderson & Co. The grain is being pushed forward to Montreal, as the canals may at any time be frozen up. On Saturday, the barges Corn Crib, (with 18,375 bush corn) and Utility (with 10,461 bush corn), from the Montreal Transportation Company, left for Montreal, as well as the barge America, from Glassford, Jones & Co., with 11,846 bush wheat.

SAFETY OFF.—The schooner Garibaldi which went aground off the United States wharf on Thursday night, was towed in on Saturday by a tug, she having first been lightened by means of an elevator and a barge. The mishap occurred through a previous injury to her centre board as she was passing into the harbor near Snake Island, which prevented her raising it when she reached the shoal on which she grounded. Had the water not been unusually low, she might have passed over in safety.—The schooner S. Robinson has at last been rescued from her berth on the Charity shoals. On Friday night, after a couple of day's work in ejecting her cargo, the vessel was taken off by the tug Hiram A. Calvin, and towed to Cape Vincent. She is not so greatly injured as it was expected she would be. The schooner Anne Minnes which served as a lighter, discharged 3,170 bushels of the grain at Cape Vincent; 3000 bushels were thrown overboard and 8000 bushels still remain in the schr. S. Robinson. The former is now here, and the latter will be taken to Oswego, to repair. The American authorities should certainly place a light on Charity shoals.

NAVIGATION CLOSING.—Steamboat navigation is shortly coming to a close and the boats are fast retiring to safe quarters. The blockade was nearly completed in the lower canals last week, and it will not be a great while before they are completely ice-bound. The R. M. strs. Corinthian and Magnet have reached Montreal, and have secured their winter quarters. The str. Spartan passed down on Saturday at noon, and will follow suit on reaching Montreal. The str. Passport was to arrive down yesterday and at once tie by for the winter here, and the str. Grecian, now bound up, will also tie up here immediately—so that this week closes the rather brisk operations of this line for the season. From Port Hope we learn that the str. Norseman has also made her last trip, and will lie up at once, where it is not yet decided.

LOSSES.—The amount of property lost to the shipping interests on the Canadian coasts of Lakes Erie and Huron for the past ten years is upwards of $2,251,361, besides a vast number of lives. A good harbor of refuge upon each of those lakes, according to the above figures, is much needed.
