Newspaper Prosecutions—Agitation in Spain—The Elections.

Florence, Nov. 27.

Small Italian newspaper editors have been condemned to fine and imprisonment for violent attacks upon the government and their indecent abuse of the King.

Paris, Nov. 28.

The editor of the Revolte has been sentenced to two months' imprisonment with a fine of 2,000 francs, the editors of the Tribune and L'Avenir to pay a fine of 2,000 francs each, and the editors of the Temps and Journal de Paris to pay a fine of 1,000 francs each, for publishing articles encouraging the subscription for the monument of Baudin. The editors, have, by their very manly attitude before the court, put to shame the judges themselves, and earned well-deserved applause.

The reasoning of the French Government on this occasion is bad. If it did not want to hear the victims of the coup d'etat spoken of and honored for their courageous conduct, it ought to have kept the French press, as it kept it at first, under stringent laws. The determination of letting it speak pretty freely ought to have been attended with the resolution of listening to pleasant as well as to unpleasant memories.

London, Nov. 30.

Apprehensions of bloodshed in Spain are increasing. It is thought that a collision between the Monarchists and Republicans will be the inevitable result of the excited political contest now in progress. A great republican demonstration was made at Madrid last week. The young men of the city held a meeting and amid indescribable enthusiasm passed resolutions protesting against the rule excluding all persons under 25 years of age from the franchise.

The Conservatives have carried the South-east division of the West Riding of Yorkshire; also the Western division of Surrey, thus reducing the Liberal majority four members. The results of the majority of the later elections have been in favour of Conservatives. Their gains in the present instances are also undoubtedly attributable to the indifference of the Liberals, who were rendered careless by heavy majority they had secured during the first week of the elections.

Vienna, Nov. 29.

The Austrian Government has despatched from Trieste an expedition which will sail around the word. The object is to introduce the products of Austrian industry into distant markets, and extend the commerce of the Empire. The expedition will visit China, Japan, and California and cruise along the South American coast.

Paris, Nov. 29.

M. Pierre Antoine Berryer, the celebrated advocate, died yesterday, aged 78 years.

LATER.

The Spanish Throne—Sweden and Denmark

London, Nov. 30.

London papers have lately given currency to rumors that the health of Napoleon is failing, and public confidence has in consequence been somewhat disturbed.

Paris, Nov. 30.

The French and English Cabinets are trying to persuade the Spaniards and the Provisional Government to accept Ferdinand of Portugal as King of Spain. The choice would please England, which dislikes the idea of having a Hohenzollern—a Prussian prince—receive the Spanish crown; and France, which has the same repugnance to Hohenzollern.

Stockholm, Nov. 30.

The sentiments regarding a union between Sweden and Denmark are growing stronger and stronger every day. People look upon it as a thing to be soon realized. The military preparations of Russia, and her desire of occupying the Swedish harbors protected by the Malakoff, contribute to that feeling.

St. Petersburg, Nov. 30.

Russia is making warlike preparations. An ukase has been issued ordering the ranks of the army and navy to be filled up. This is an extra call for men, the object of which is evidently for future events.

London, Nov. 30.

The Times comments on the rapid progress of the Pacific railroad. It notes the extraordinary features of the road, and explains the influence this great project will exercise on commerce of the world.

Dublin, Nov. 30.

The nomination of Mr. O'Connor for member of parliament for Sligo county, was seconded by the Rev. Mr. Conway, a Roman Catholic priest, who, in his speech on the occasion declared that the Fenians in America were stronger in members, organization and armament than ever, and should use the rights of Ireland be withheld they would act at once, and on landing all Ireland would join them.

London, Nov. 30.

It is credibly stated that the Emperor Napoleon is suffering from an attack of diabetes, that he cannot give his full attention to business, and that Empress takes daily a larger share in the details of the administration, relieving the Emperor of many of his burdens.

London, Nov. 30.

A despatch from Bucharest announces a change in the Roumanian cabinet, brought about by Prussia insisting upon the displacement of the war party.

Brussels, Nov. 30.

The Duke of Brabant, Prince Royal, is recovering from his severe illness.

NEWS OF THE DAY.

WEDNESDAY MORNING, DEC. 2, 1868.

—THE MODERN GUNPOWDER PLOT.—Whether this was really a Plot to blow up the Orangemen on Friday night last, or whether the escape of gas was natural and accidental, we know not; but if there be a foundation for the former suspicion, it was remarkably forgetful on the part of the wicked plotters, since our Reporter, good-natured soul, not caring a button top for Orangeman or Papist, would have been among the sufferers. Really, these wholesale slaughterers should look a little ahead. Singular to say, while there was an escape of gas below, that would have done much mischief, since it would have killed hundreds, there was a greater escape of gas above, the mischief of which cannot be estimated.

THE RED RIVER RELIEF.—From the Winnipeg Nor' Wester of the 31st October, we learn that Mr. Snow's party had then arrived at the Red River Settlement, and was about to enter upon the construction of the proposed road between Red River and Lake Superior. It would appear from the Nor' Wester's remarks that the proposal to employ the destitute settlers upon the road meets with the hearty approval of the local Relief Committee, and that a large number of labourers will be available in the good work of fixing the colony and fastening it to the Dominion. This being the case, the people of Canada will not be disposed to grumble very loudly if the Government should see fit to exceed the appropriation of employing all the hands who may offer, so as to push a great and desirable work to a speedy conclusion.

ANOTHER CONSPIRACY.—A second conspiracy, but one not so formidable as the first, was frustrated at the Penitentiary on Saturday morning last. About five o'clock a light appeared in one of the convict's cells, and this attracted the notice of a guard, who repaired to the cell and brought forth a full-fledged Indian. A convict, whose hope of escape was stronger than his foresight, had improvised an Indian costume after a crude notion of his own, to aid him in a strike for liberty. The "make up" consisted of a bed blanket for a covering, the traditional leggings, red paint for the face and other little et ceteras, though the head-dress was dispensed with as an unnecessary consideration. This was his idea: he was to wear the blanket and leggings under his convict's dress but to the Penitentiary quarry, where he worked daily, and when the laxity of the guards surveillance gave the opportunity he was to slope off to the nearest woods, and there discard the government suit and apply the red paint. Then of course he thought his unapproachable attire would completely hide his identity, and he would secure the priceless boon he sought. But fate is arbitrary in its ways, for when the convict had donned the costume on Saturday morning his curiosity led him to light a match in order to have a glance at its stunning effect before hiding it, the guard inopportunely interrupted him. The fittest punishment for this little conspiracy at the time, would have been to march him out before his fellow convicts in that plight, to bear their jeers and ridicule.

Last evenings News says:—Another plot among convicts of the Penitentiary was discovered on Monday, fortunately in time to render it abortive. It was planned that at dinner time some of the convicts should throw in the eyes of the guards present, steel filing and snuff, thus temporarily blinding them, when a general rush of the prisoners was to be made and the guards disarmed and secured. There will be shortly a strict investigation into the present state of the prison and the character of the guards.

POLICE COURT,—Tuesday.—Robert Hanley, was charged with being disorderly on Monday night last. Policeman Bennett who made the arrest, stated that he arrested the prisoner in the house of David Simpson, who resides in Hamilton's Lane, and where about thirty of the 'boys' had assembled and were carrying on in a very disorderly manner. He also stated that the house bore a very bad character. The prisoner was fined $10 or one month in gaol. One drunk was fined $2.

NOVA SCOTIA.

Letters from Messrs. Annand and Howe.

Halifax, Nov. 8.

Mr. Annand has another letter replying to Mr. Howe, and in which he compares Howe's former adherance to the Repeal movement, with his present attitude. In referring to another delegation, he says that if the Government or Legislature think it wise to send another delegation across the Atlantic, he supposes it can be done, notwithstanding Mr. Howes refusal to take part in any such matter. Annand adds that Howe is now engaged in negotiating with the Canadians for better financial terms, the programme now being, accept additional road grants, and lay down arms. He concludes by saying that there is only one step from the sublime to the ridiculous, and if the people are willing to accept the situation for a few cents as the price of their independence, they are not the stuff he took them for.

Mr. Howe also publishes another letter in the Morning Chronicle. He says—"Now that the smoke of the battle has rolled away we can glance at the theatre of war and see what has been lost or gained. The great party that won the last elections is now shaken to its very base? When the party went to the country a year ago, annexation was not on their banners. When the convention rose annexation was not endorsed. Yet it has been preached for three months industriously under the patronage of the government. Holding the opinions I do this would be quite enough to separate me from persons pursuing a policy of which I disapproved. The Attorney-General and others joined hands with filibusterers across the border secretly, and had they openly done so, and set the Lieut.-Governor at defiance, when he rebuked them, whatever I might have thought of their principles, I would have admired their courage. But, when, with the first glance of the calm soldier's eye, they backed down into their boots, I cannot say that I felt that it would be any great honor to lead or fight under the two great champions who disgraced their party by this display of strategy and courage—and who, when the peril was over, amused the public by laying the blame on each other. Then we learnt the useful lesson, that if annexation doctrines and ideas were to take bodily shape in this country, these were not just the kind of men to carry on the war."

SARSAPARILLIAN RESOLVENT

Is a better remedy and a surer curative for Kidney, Bladder and Urinary difficulties and Dropsy, Turpentine, Cubebs, Juniper, Gin, or any other diuretic known.

SARSAPARILLIAN RESOLVENT is a quicker cure for the removal of spots, blotches, sores, eruptions of the skin, black specks or worms in the flesh, than any of the previously Extemporaneous in use. These decoctions are mere wasters, to the powerful, strengthening and purifying efficacy of DR. RADWAY'S SARSAPARILLIAN RESOLVENT. A few doses will restore the vigor of life to the weak, debilitated invalid.

RADWAY'S SARSAPARILLIAN RESOLVENT is the conqueror of pain. It loosens the phlegm, repairs the waste of the body with new healthy material, made from pure, rich blood, and stops decay. Let it be tried.

Buchu is not a safe or safe remedy to take as a general medicine; it is subject to the same objections, as Blue Pills, Quinine, Corrosive Sublimate Mercury, etc., and other direct or exclusive properties. Persons that have taken either of these remedial agents for a length of time, are aware of the serious trouble involved—the liver, spleen, and other glands suffer. So with Buchu—its exclusive diuretic action on the kidneys, will, if used continuously, suspend the secreting tissues of other organs. Buchu, as is well known, is a mild diuretic, and is chiefly employed by medical men to secure an increased action of the kidneys.

But in some cases, when thus employed, its use after a few doses is suspended and opiates administered, to modify his action, or to compensate the kidneys from the great extraordinary suffer from the direct influence of Buchu. Now Buchu indiscriminately used in cases of diabetes, gravel, brick dust deposits, urea, uric, or lithic acid, and in granular degeneration of the kidneys, catarrah of the bladder, dropsy, etc., is like taking salts to check diarrhoea.

PAREIRA BRAVA, associated with SARSAPARILLIAN and other remedial agents, in RADWAY'S RENOVATING RESOLVENT, is compensating remedy. It cures every kind of disease of the Kidneys, Bladder, Skin, and Uterine Organs. A few doses will make the extraordinary change—for the better.

One ounce of Dr. Radway's Extract of the Pareira Brava Root, is worth all the Buchu Leaves that ten generations of Hottentots or other Savages can gather. Try it, and be cured.

Ask for Dr. Radway's Sarsaparillian Resolvent. Price, $1 per bottle, or 6 bottles for $5. Address

RADWAY & CO.

SARSAPARILLIAN RESOLVENT stops all weakening discharges that threaten to destroy life. The Resolvent, when prepared under the old process, cured many persons of disease brought on by self-abuse, who have since married and have children. This ought to be good evidence of its powerful purifying and fruitful efficacy. As prepared now, under Dr. Radway's new process, there is no disease that can be reached through the blood, urine and sweat, but that it will cure. Many diseases, not proper to mention in an advertisement, are explained, and means of cure point ed out, in Dr. Radway's new Medical Publication FALSE AND TRUE, now ready. Address RADWAY & CO., 439 St. Paul Street, Montreal. Price of RESOLVENT SARSAPARILLIAN, $1 per bottle, or 6 bottles for $5. 277

The mind governs the Muscles through the Nervous system, as the telegraph apparatus is influenced by a remote operator through the new wire. If the Mind is impaired by age or disease, the muscles are made to perform strange or unnecessary acts; but if the Nervous System is decreased, the muscles of the Stomach, Liver, Heart, Lungs, are sure to suffer, and from their inaction produce Dyspepsia, Disease of the Heart, Lungs, and General Debility, with their accompanying trains of evil and resulting diseases.

A Diseased Nervous System, Vitiated blood Bad Digestion and Weak Lungs, always precede Consumption.

By the timely use of Fellows' Compound Syrup the Nerves regain their vigor, the Brain becomes clear and powerful, the Muscles healthy, Dyspepsia a disease of the past, the Heart's regular action is restored, the Blood made pure, the Lungs strong, and all the functions of the body are brought up to a healthy standard.

We are enable to state the above on the most convincing testimony.

Sold by A. other agents. Price $1.50 per bottle, or 6 for $7.50.

HALL'S

Vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a HAIR DRESSING. It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

It is recommended and used by the First Medical Authority.

The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.
